SUPPORT LOCAL BUSINESSES *During COVID-19*

A Little Dose of Hope...

As we drafted our community message regarding the current COVID-19 crisis, it occurred to us that perhaps we might offer a different kind of message.

Rest assured, we at Lake Country Pennysaver and the OrleansHub.com are working at all of the prescribed actions to reduce density and protect our team, their families and our community. As a business, we have found the resources provided by Orleans County Public Health and <https://www.cdc.gov/coronavirus/2019-ncov/index.html> to be helpful.

Aside from that, we really wanted our message to be a little dose of Hope in times where it seems to be in short supply:

- **Focus on positive news.** If you are tracking the spread by some dashboard somewhere, start using one that shows Recoveries. We like the one provided by Johns Hopkins at: <https://coronavirus.jhu.edu/map.html>
- **Check out the Recovered number first.** Someday, hopefully soon, the Recovered number will be the largest number on the screen. That day, Flip Day, will be a day for us all to celebrate!
- **Have faith in your community.** Never underestimate human potential for compassion. Use that as a foundation that we will all get through this together!
- **Be that faith in your community!** Try and reach out to those around you, particularly the most vulnerable. A simple check-in phone call or reassuring words can go a long way for the elderly or a scared child. If you have Extra (be it food, supplies or even cash) think about sharing with somebody who has little or None.
- **Don't panic sell.** Since the dawn of the stock market, recovery has come 100% of the time. Check with a finance pro before any big change.
- **Don't panic buy.** Our great country has the strongest food and vital goods supply system in the world. It's not going anywhere.
- **Support impacted businesses.** Order out from your favorite restaurants and pay your gym membership. Buy online or gift cards from local shops. We need all these folks to be in business when this is over.

And lastly, remember this simple, yet powerful fact:
A wave and a smile still work from six feet away!

Wishing you that spirit today,
Your friends at the Lake Country Pennysaver and OrleansHub.com

PS: Want to spread some hope? Feel free to pass this message along!

Small Businesses Notes:

Jennifer Oakley Stilwell wrote:

We are small business. We support your baseball teams, music boosters, festivals, church raffles, animal shelters, hunting clubs, cheerleading camps, and many other community activities who ask for donations every single week. We are your neighbors, friends and family.

We stay up late at night wondering how we will pay our employees who are also your neighbors, friends and family. We know your name and we know your kids names and we know your hardships and we care about you.

We are valuable to the community and we give as much as we possibly can to those who ask.

Remember this the next time you order off Amazon. If what you are buying from them could be purchased locally then help your neighbors, friends and family out by purchasing locally. Many retailers offer delivery... we do at the Olde Dogge Inn. Your purchases help us and our employees provide for their families. And your purchases can help make the difference between a business that is a community asset... or an empty building. We really care and we hope you will care about us.

Deborah London wrote:

Some business will survive and many will not, those are just the facts. It is impossible to have a business without cashflow and employers can not collect unemployment, as I am well aware being a household with two self employed "bread winners." So we have to depend on savings or revenue to keep us here for us, our employees and our community. We will do what we are directed to do by our President/Govener/Mayor because who truly knows how this plays out. People's health welfare hopefully will be spared, but for many their economic welfare will be broken. As an employer it is a fine line built on anxiety between the right thing for society, your employees, and your business. We are all doing the best we can with the information we are being given and we take things day by day. I do know this. In my 20 years here this is my 4th economic crises. #1 9/11, #2 Road Construction, #3 the 2008 Stock Market Decline, but this the worst. We survived those and we will still be here when this is over too, for our employees and community.

3 GREAT REASONS TO BUY FROM *Independent Businesses*

1. **Shape our Character:** Independent businesses help give your community its distinct personality
2. **Create Jobs and Opportunities:** Not only do independent businesses employ more people directly per dollar of revenue, they also are the customers of local printers, accountants, wholesalers, farms, attorneys, etc. expanding opportunities for local entrepreneurs.
3. **Increase Wealth of Residents:** The multiplier effect created by spending locally generates lasting impact on the prosperity of local organizations and residents.

Kay Loraine Schultz took a bow and passed from this world on March 21, 2020 at the age of 75. She was born Jan. 18, 1945 in Corning, NY, a daughter of the late Carl and Edith Gurnsey. Those who knew her describe Kay as a feisty, funny, and fiercely loving woman. She was a bright spark, with a big, joyful laugh and a fondness for irreverent jokes. Kay was a wonderful wife, mother, and friend – she often "didn't know what to tell you" when you were upset or worried, but was always there to listen and to offer sound advice. At home or at work over her many years of service at the Orleans County Probation Department and Ames Department Store, Kay wasn't afraid to speak her mind. She was an avid reader, a restorer of furniture, a lover of gardening, a frequenter of garage sales, and a proud member of the Albion High School Class of 1963. Kay was a self-proclaimed and unapologetically proud "crazy cat lady." Kay is survived by her loving husband of 21 years, Duane Schultz; sons: Chris Finney, Christopher (Chelsea H) Schultz, and Nicholas (Aimee) Schultz; daughters: Stephanie (Aaron) Levene, Jodi (Mike) Schultz-Waild, and Karen (Bill) McDonald; grandchildren: Austin, Tarin, Keith, Victoria, and Zoe; sister and best friend Marilyn Rouse; dear brother, Carl (Carolyn) Gurnsey; all her incredible nieces and nephews; and last but certainly not least, her cats – Raj, Sylvie, Stanley, Gigi, Fifi, and Lizzie. Kay's last wish was that no service be held. Instead, in keeping with her personality, she has requested a party be thrown in her honor. To ensure the health and safety of family and others, details will follow later this year. Memorial contributions in Kay's name may be made to a charity of choice. Kay's arrangements have been

entrusted to Bates, Wallace & Heath Funeral Home, 38 State St., Middleport, NY 14105. To share a special memory of Kay, please visit: www.mitchellfamilyfuneralhomes.com

Carolyn Louise Watts, 61, of Medina entered peacefully into eternal rest on March 18 at Absolut Care in Gasport following a courageous battle with cancer. Carolyn was born on Sept. 9, 1958 in Batavia into the loving family of David and Gerda “Sunny” (Martin) Watts Sr., joining her brother David Watts Jr. Carolyn was raised in Medina where she graduated from Medina High School, Class of 1976. Soon after, she moved to Washington D.C. where she pursued a career with the United States Government. She came to manage travel arrangements for numerous government officials including President Ronald Reagan. Carolyn left government service, entering the private sector. Family was the most important thing to Carolyn, which prompted her move back to Medina. She continued her new career once returning home as a Finance Manager in the automobile industry. Here, she gathered often with her parents, brother, sister-in-law, nephews, niece and many aunts, uncles and cousins. Carolyn was the life of every party with her infectious smile and sense of humor. She made certain that members of her family and close friends were happy and healthy, often putting others’ needs before her own. Carolyn was predeceased by her beloved mother, Gerda “Sunny” (Martin) Watts in 2010. Carolyn is survived by her father, David Watts, Sr.; brother, David (Joni) Watts, Jr.; nephews, Jesse and Travis Watts; and niece, Kaila Watts; Richard Heisler, Christie (Adam) Carter and Cayden and Adyson Carter; also many aunts, uncles and cousins. Visitation was held on Sun., March 22 at Cooper Funeral Home, 215 W. Center St., Medina. Due to current health regulations, her Mass of Christian Burial will be privately held for immediate family only. For those who cannot attend, the service will be recorded and posted to her obituary page. Burial will be in St. Mary’s Cemetery. Please share memories and condolences at www.cooperfuneralhome.com

Lynn is survived by his two children: Michele (Eric) Harling of Lyndonville, James (Kim) Watts of Huntingtown, Md.; three grandchildren: Alexandra, Jessica and Nolan. There are no calling hours. A private service will be held at the convenience of the family. Arrangements were entrusted to the Bogan & Tuttle Funeral Home, 112 N. Main St., Lyndonville, NY 14098. Sunday Morning Positive Perks

from your Sassy Small Town Missus

A CORONACATION/STAYCATION 2020

Day #1 of My Unpaid Holiday from work. It is 5:12pm and I am still in my PJs on March 22nd. Oh dear, I need a plan. This is the first time in over 18 years I have had more than 4 consecutive work free days off at home. Honestly, it is a bit intoxicating that I have no place pressing to be. There are some things I am tempted to do like binge watch TV. There are things I should do like clean out the bathroom pantry which I have been procrastinating on for longer than I am willing to publicly admit. Or I could get down on my hands and knees and organize all the lower cabinets in the kitchen, ugh! There are some things I really want to do that I don't always take time for like read a good book. My Aunt gave me *The Girl With The Dragon Tattoo*. Definitely going to crack that open. The idea of getting outside and practicing with my new camera is exciting, Lord knows I need it. Already I am spending lots of time texting with friends which is good and scrolling social media which is not so good and close to being restricted. Now I know many of you are in this same boat as I am. Some may be looking forward to a little time off and many are too anxious, which is totally understandable. Truth be told I am dipping in both ponds. But I am going to Choose to embrace this time of respite and regroup, because sometimes a little alone time is needed to clear all the cobwebs out, see clearly and reset. Twenty years back I lost my job and was out of work for 3 months. I spent most of that time trying to be productive feeling that was the proper thing to do. What I wish I would have done is taken more time to just breathe while given the chance. Because before long it was back to a work schedule. Now it is 20 years later and there is an opportunity for a do over. So maybe I won't make that plan or overthink the should do's or could do's. Instead I am just going to take this bump in the road of life and cruse through it doing things that will bring me peace day by day, makeup free because no one can see me! This is no time to put added pressures on ourselves by creating expectations. Just enjoy your families or quiet time. Because before you know it we will all be bustling about wondering when we are going to find time to do the things we have been wanting to. By the time you read this it will be several days from the completion date of this post and I hope all us on Coronacation have seized the days at home and pray we are all healthy enough to enjoy them. And if you need help there is no shame in asking for it, because we all need a boost sometimes. It is an unsettling thing that is happening in the world, but my wish is that a little peace comes from it. If anyone ever needs a boost, please hit me up. dlbloss@gmail.com. I am always available and when I help you, I help myself too.

National Grid seeks to defer rate increase to take effect April 1

Posted 24 March 2020 on www.OrleansHub.com

Press Release, National Grid

National Grid has taken another step to reduce the coronavirus' financial strain and economic uncertainty on upstate New York customers by deferring a bill increase that was scheduled to take effect April 1.

The company has asked New York regulators for permission to postpone the previously approved gas and electricity delivery price increases in recognition of the unprecedented hardships the COVID-19 outbreak continues to bring to families across the region.

"We have made the commitment to help our customers through these challenging times and this is another step on that journey," said Badar Khan, National Grid's Interim U.S. President. "We will continue to closely monitor our customers' needs during the pandemic and find new ways to assist where we can."

In today's filing, National Grid requested a three-month delay in implementing the increases that were approved as part of a multi-party agreement to reset electricity and gas delivery prices.

The agreement calls for an approximately 4 percent increase in electricity bills and a 5 percent increase in natural gas bills to support investments in infrastructure safety and integrity, and enhancements to energy efficiency and other customer-focused initiatives.

National Grid has asked for those increases, as well as a required April 1 update to the low-income customer credit that would reduce the currently available discount to qualifying customers, to be delayed until July 1.

National Grid also has asked that the Public Service Commission defer until the summer any rate increases in the pending gas rate cases for downstate New York.

CHOOSING A SUCCESSOR TRUSTEE

A living revocable trust can be easily managed by the person who establishes it while he or she is alive. For the confidence to continue after that person's death, a successor trustee must be chosen to assume control. This may also be necessary while the original trustee is still alive but no longer mentally able to manage the trust. A successor should be chosen carefully based on his or her own age and wellness, knowledge of the trust and its purpose, personal and professional judgment, and availability and willingness to do the work. Choosing an alternate is also a good idea in case the first choice becomes unable or unwilling to do the job when the time comes.

At the **Law Office of MACK & PACE**, wills and trusts lawyers can help you with everything that comes along with estate planning. We can work with you to get a complete look at your estate to sort out all the details, making sure all debts and taxes are covered and all assets are distributed properly. Get your will and estate in order so you can rest easy knowing that your loved ones will be covered. To schedule an appointment, please call **(585)798-1000**.

HINT: When choosing a successor trustee for a living revocable trust, consider his or her relationship with the trust's beneficiaries (to help avoid future complications and even lawsuits).

Tips on how to write CLASSIFIED ADS that sell!

- 1 USE A KEY WORD.** This immediately tells the reader exactly what you have to sell.
- 2 Make your description CLEAR AND FACTUAL.** State the year, make, model, color & size and tell what condition the item is in. Also, state the special features.
- 3 STATE THE PRICE.** Successful classified advertisers have learned that the price in an ad helps increase the chances for results.
- 4 IF THERE IS A GENUINE SENSE OF URGENCY,** say so. The words "We're moving," or "Must sell fast," suggest that readers respond immediately.
- 5 INCLUDE YOUR PHONE NUMBER.** Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as "after 9pm" or "before 11am."

Did You Know?

Oxygen is essential for the roots of grass to breathe and grow strong enough to support healthy lawns. But according to the Center for Agriculture, Food and the Environment at the University of Massachusetts Amherst, compacted soil can produce a decrease in oxygen content that can make it hard for roots to thrive. Soil compaction can result from a number of activities, including walking on grass or driving or parking vehicles on grass. When soil is compacted, it breaks into small particles that reduce the amount of pore space in the soil. That makes it hard for water, oxygen and nutrients to get through, threatening the strength of the roots and putting the grass in jeopardy. Aerating a lawn can help homeowners foster strong root growth and healthy grass. When to aerate may be contingent upon local climate, so homeowners who suspect the soil in their yards is compact should consult with a local landscaping professional to determine the best time to aerate their lawns. ■

Must-haves for a Kitchen Remodel

Kitchen remodels are among the most popular home renovation projects, whether they consist of swapping out cabinet hardware or doing major demolition.

• Deep, double sinks:

Having a double sink enables you to soak dishes on one side and then wash on the other.

• Kitchen island and bar stools:

Even though many meals are enjoyed around the table, there's something to be said for the convenience of a kitchen island and some well-placed bar stools for quick breakfasts or snacks.

• Smart kitchen storage:

Slide-out shelving, nooks for a paper towel roll and custom-designed areas to store stand mixers and other necessities can make kitchens more functional.

• **Outdoor access:** If possible, design a kitchen so it is easy to access the backyard via sliding doors.

• Under-cabinet lighting:

Fixtures installed under cabinets provide both ambient lighting and task lighting. Such lighting makes it easier to see what you're working on as well, as even well-placed overhead lighting can fail to illuminate dark corners and spots on the counters.

• Convenient warming drawer:

This appliance provides backup to the oven. It's a slide-out drawer that can keep prepared foods out of the way and warm until they are ready to be served.

• Beverage station:

Designate one area of the kitchen to beverages, such as coffee and tea. Or make the area an informal bar.

Kitchen remodels are exciting to envision, and several choices can make these high-traffic spaces even more coveted. ■

Surviving a Home Renovation

Homeowners invest large sums into improving their homes to make them more comfortable living spaces or to increase their odds of selling quickly.

Whether one is doing a large renovation or a small remodel, life may be turned upside down during the project. Furniture may be moved out of the room, walls may be demolished, water or electricity may be turned off, and appliances may be missing or not hooked up. Home improvements often drum up dust and disarray. Such projects can try the patience of any homeowner, and things may get worse before they get better.

Even though remodeling can be taxing, the end result is often worth it. Here's how to look forward to the silver lining and come out unscathed.

Do one project at a time.

It's tempting to want to improve as much as possible at once to maximize motivation and renovation materials. However, having no place in which to escape the mess can elevate stress levels. Do not think about renovating kitchens and bathrooms all at once, or you will not have any working fixtures for tasks like washing up.

Have everything in place ...

Before demolition even begins, have building materials bought and stored, contractors and subcontractors lined up, and see what you can do to minimize the time workers need to spend in your home.

... but expect delays.

In a world where things move at lightning speeds, renovations have not gotten the memo. Home projects take lots of time and will likely take longer if you are doing the work yourself in your free time. Build lots of extra time into the project so you are not disappointed when delays happen.

Plan an escape zone

Construction environments can be messy, loud, smelly, and a host of other unsavory adjectives. Build escape moments into the plan and make sure everyone else at home is on board. During the real grind of the project, a night or two at a hotel may be a welcome respite. ■

Home Projects For the Weekend

Home improvement projects ramp up when the weather warms up, as homeowners channel the rejuvenating feelings of spring and tackle their home to-do lists. Large-scale renovations can greatly affect a home, but smaller projects can yield impressive results and be completed over the course of a single weekend. If time is of the essence, these weekend or one-day projects may satisfy homeowners' desires to fix up their homes.

- **Create an accent wall.** Painting a focal wall in a home can create a serious impact. The bonus is it will not take as long or require as many materials as painting an entire room. Accent walls frequently feature a bold color, so decide on placement and tackle this project in less than a day.

- **Install stair runners.** Dress up hardwood stairs with decorative carpet runners. Runners come in elongated pieces of carpeting or individual pieces that can be placed on each step. If carpeting doesn't fit with the home's design, painting individual stair treads also can create visual appeal.

- **Dress up the entryway.** An entryway is a guest's first impression of a home. Many entryways can use a minor overhaul, both inside and outside. Paint the front door a different color so it pops from the curb. Install a new mailbox or decorative house numbers. A new welcome mat can change the look as well. Inside, consider laying a new floor. Resilient vinyl tiles come in many different patterns and can mimic the look of wood, travertine or marble. Installing a floor can take a day or two.

- **Create a gallery on the staircase.** Gather and arrange framed photos, artwork or wall accents so that they ascend the wall of a staircase.

- **Install a fresh light fixture.** Improve drab spaces with a little illumination. Better Homes & Gardens suggests replacing an existing fixture with something new and vibrant.

- **Update kitchen or bathroom hardware.** Swap out tired or outdated hardware for newer brushed metals and more impactful shapes and designs.

Home renovations do not need to take weeks or months. Many projects can be completed over the course of a weekend. ■

Did You Know?

Lead is a naturally occurring element found in the earth's crust that can be toxic to both humans and animals. Lead can be found in air, soil and water, and human exposure to lead can often be traced to human activities, such as the one-time use of leaded gasolines and previous use of lead-based paints in homes. The U.S. Environmental Protection Agency notes that lead also may have been used in ceramics, pipes, plumbing materials, and even some cosmetics. Perhaps the most troubling aspect of lead is its potential effect on children. The still-developing brains and nervous systems of children are more sensitive to the harmful effects of lead because their bodies absorb more of it than the bodies of adults. The U.S. Centers for Disease Control and Prevention notes that the use of lead in house paint, on products marketed to children, including toys, and in dishes or cookware was banned in the United States in 1978. However, lead may still be found on toys imported from countries that have not yet banned lead. In addition, toys and collectibles that were produced prior to the ban in the United States may still contain lead that can be harmful to children and adults. Parents who suspect their children have been exposed to lead can speak with their youngsters' pediatricians, who may order blood tests to check for lead exposure. ■

What does Solar Energy mean for your community?

DID YOU KNOW...

In 2018 the solar industry employed **19,019 veterans** throughout the U.S. (that's 7.8% of all solar workers in the nation!)

Hundreds of local new jobs

Ridge View Solar offers new career opportunities for Upstate New Yorkers and that includes our youth and veterans. Hundreds of construction jobs will be created for up to two years and at least four full-time highly skilled positions will be created locally for decades to keep the project operating safely.

Solar energy means jobs –
and a whole lot more.
