FRUIT TREE INFO

These fruit trees were chosen for our climate because of hardiness. When they arrive they will be approximately 5/8" in diameter and 5-6' tall with lateral branches. They are expected to produce fruit in 2-4 years. They will grow best in full sun and in loamy, well drained soil. Many fruit tree varieties are not self-pollinating, it may be necessary to plant 2 different varieties of tree. Call our office at 989-772-5927 Ext. 3 for more info.
