BUDS OF SPRING AND HOPE

Have you noticed all the buds on the trees? This time of year I am always looking to the trees for signs of new life. You have to make sure to do this with a keen eye because you can be fooled by those left over pod shells from last year's foliage. Right now many varieties of trees and bushes are full of buds just eager to pop open. Seems each year it is the willow trees that burst first. Nothing promises summer more than a pretty willow with its droopy branches. Makes a person long for those upcoming summer days when the heat makes us all feel a bit droopy. Tree buds actually form at the end of summer and lay dormant for the winter. The little leafs and flowers stay protected from the harsh coldness of winter inside those protective buds. Kinda how we stay nice and warm waiting for springtime in our snug little coats. All that good winter thaw and fresh spring rain is just what those trees need to help their little buds open, along with some warmth and sunshine. Sounds a lot like people. Give us some water, sun and warmth and we spring to life. Look outside when springtime is upon us and signs of laughter and adventure are everywhere! People are out walking, riding bicycles, sitting on their porches...listening to the birds perched atop branches, waiting for those buds to open up as well, and show us the beauty they have been harboring. You may wonder what happens if a warm spells in the mist of winter tricks the bud into opening and then it gets cold again. Well that leaf will get zapped with cold and turn black. Google has assured me that such instances are rare. Trees are smart to Mother Nature and their internal hormones let them know when enough time has elapsed since winter began, making it safe for those buds to open. My backyard is full of trees and begins to fill in with the greenery that bestows me the privacy and beauty created by Mother Nature right around Mother's Day...interesting parallel. My favorite backyard buds are the Mock-Orange. For one simple reason..they bless me twice in spring! First because the backyard is full of them which creates a privacy boarder of greenery along the side of the yard and second because by the end of May tiny little white blossoms open up creating the most sweet scent in the back yard. So be sure to take some time in the next couple weeks and stroll around. Look up to the trees and over to the bushes. Notice their little buds and check back to see what they have been hiding under their "coats" all winter. Just like tree buds in springtime, it is a beautiful time for us to shed those protective "buds" we have been wearing all winter and see the hope and beauty Spring rewards us with outdoors. Be like a tree and make your dreams be like buds waiting to burst open with zest and breathe of new life.

Community Action of Orleans and Genesee, Inc. Child Care Resource and Referral Program is pleased to announce that the Cuomo Administration has developed a plan to provide child care to eligible essential workers at no cost. This allocation of funding for child care for essential workers comes to the state from the federal Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"), which has provided New York with \$163.6 million in emergency relief to the child care system.

New York State is using a portion of this funding to provide free child care for income eligible essential workers. Essential workers using a regulated child care provider may receive a scholarship for the cost of care as long as the funds to support it are available. All licensed and regulated providers who are caring for essential workers are able to participate in this new program.

Access to affordable and safe child care is a barrier for working parents during the best of times, and even more so during a crisis. New York State's plan will ensure that the workforce that is needed to protect and care for the public during this pandemic have the child care that allows them to continue to serve us all. CCR&Rs are the child care experts and the conduit to accessing child care in New York State.

If you meet the definition of an essential employee and have child care needs, please apply. You will be contacted by Community Action of Orleans and Genesee Child Care Resource and Referral staff within one business day. We will follow up on next steps to gather information about your household and help you identify a participating child care provider or work with your current registered or licensed child care provider. You may email Taryn Moyle, CCR&R Manager at tmoyle@caoginc.org if you have questions.

Talking with children about COVID-19

As public conversations around coronavirus disease 2019 (COVID-19) increase, children may worry about themselves, their family, and friends getting ill with COVID-19. Parents, family members, school staff, and other trusted adults can play an important role in helping children make sense of what they hear in a way that is honest, accurate, and minimizes anxiety or fear. CDC has created guidance to help adults have conversations with children about COVID-19 and ways they can avoid getting and spreading the disease.

General principles for talking to children:

- Remain calm and reassuring.
- Make yourself available to listen and to talk.
- Avoid language that might blame others and lead to stigma.
- Pay attention to what children see or hear on television, radio, or online.
- Provide information that is honest and accurate.
- Teach children everyday actions to reduce the spread of germs.

What You Can do if You are at Higher Risk of Severe Illness from COVID-19

Are You at Higher Risk for Severe Illness?

Based on what we know now, those at high-risk for severe illness from COVID-19 are:

- People aged 65 years and older
- People who live in a nursing home or long-term care facility

People of all ages with underlying medical conditions, particularly if not well controlled, including:

- People with chronic lung disease or moderate to severe asthma
- People who have serious heart conditions
- People who are immunocompromised
 - Many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications.
- People with severe obesity (body mass index [BMI] of 40 or higher)
- People with diabetes
- People with chronic kidney disease undergoing dialysis
- People with liver disease

Here's What You Can do to Help Protect Yourself

Stay home if possible.

Wash your hands often.

Avoid close contact (6 feet, which is about two arm lengths) with people who are sick.

Clean and disinfect frequently touched surfaces.

Avoid all cruise travel and non-essential air travel.

Call your healthcare professional if you are sick.

For more information on steps you can take to protect yourself, see CDC's [How to Protect Yourself](https://www.cdc.gov/coronavirus/2019-ncov/need-to-know.html).

Top Reasons to Buy Local, Eat Local, Go Local

Why buy local? By choosing local and independent businesses, you not only enjoy a more personal experience, you help:

BUILD COMMUNITY!

The casual encounters you enjoy at neighborhood-scale businesses and the public spaces around them build relationships and community cohesiveness. They're the ultimate social networking sites!

STRENGTHEN YOUR LOCAL ECONOMY!

Each dollar you spend at independent businesses returns 3 times more money to your local economy than one spent at a chain (almost 50 times more than buying from an online mega-retailer) — a benefit we all can bank on.

SHAPE OUR CHARACTER!

Independent businesses help give your community its distinct personality.

CREATE A HEALTHIER ENVIRONMENT!

Independent, community-serving businesses are people-sized. They typically consume less land, carry more locally-made products, locate closer to residents and create less traffic and air pollution

LOWER TAXES!

More efficient land use and more central locations mean local businesses put less demand on our roads, sewers, and safety services. They also generate more tax revenue per sales dollar. The bottom line: a greater percentage of local independent businesses keeps your taxes lower.

GET REAL VALUE FOR YOURSELF!

Reader surveys by the Consumers Union repeatedly show independent businesses beating their chain competitors in overall customer satisfaction (and often save you money).

ENHANCE CHOICES!

A wide variety of independent businesses, each serving their customers' tastes, creates greater overall choice for all of us.

CREATE JOBS AND OPPORTUNITIES!

Not only do independent businesses employ more people directly per dollar of revenue, they also are the customers of local printers, accountants, wholesalers, farms, attorneys, etc., expanding opportunities for local entrepreneurs.

GIVE BACK TO YOUR COMMUNITY!

Small businesses donate more than twice as much per sales dollar to local non-profits, events, and teams compared to big businesses.

ENHANCE LOCAL DEMOCRACY!

Local ownership of business means residents with roots in the community are involved in key development decisions that shape our lives and local environment.

This information was provided by the American Independent Business Alliance (AMIBA). Documentation for all factual assertions is published at AMIBA.net. AMIBA is a 501(c)(3) charitable non-profit organization. The organization provides presentations, training, educational merchandise and extensive information on the importance of strong independent businesses to each community.

THE
LAW
AND
YOU

BY NATHAN D. PACE
ATTORNEY AT LAW

GRAND JURY OR TRIAL JURY?

You may have heard the term on the news recently: "The defendant will face a grand jury tomorrow..." but what is the difference between a grand jury and a trial jury? Both are made up of average citizens pulled from the same jury pool, but their jobs are very different. The purpose of a trial jury, as most people know, is to determine the guilt or innocence of the person on trial. These jurists have very little interaction with attorneys and none with witnesses or defendants. Grand juries are larger, often with 23 people working with prosecutors to determine whether a suspect should be charged. They are free to question witnesses and suspects and request evidence as needed.

If you're being investigated for a crime or if you've already been charged and may soon face a jury, it's in your best interests to immediately reach out to a qualified defense lawyer who knows the ins and outs of the system and who will protect your legal rights. To schedule an appointment with an attorney, please call the Law Office of MACK & PACE at (585)798-1000.

HINT: Grand juries are often used by the prosecutor as a test run to an actual trial to see how their evidence stands up to scrutiny.

Erie Canal season won't open as planned on May 15

By Tom Rivers, Editor Posted 25 April 2020 on www.OrleansHub.com

The State Canal Corporation won't open the Erie Canal as planned on May 15 for its 196th navigational season.

Due to the Covid-19 pandemic, the Canal Corp. suspended all non-essential construction and maintenance activities, which are needed to have the system in working order. The Canal Corporation is evaluating options for opening the canal later this year, even if potentially on a regional basis, the Canal Corp. said in a notice to mariners on Thursday.

"We recognize that this is an extraordinarily difficult time and are sensitive to potential hardships Canal stakeholders, as well as many other New Yorkers, may experience," the Canal Corp. said. "The situation with Covid-19 is ever-evolving and we are trying to adapt our plans accordingly." The canal has been operational every year since it opened in 1825.

The Erie Canalway National Heritage Corridor said a fully navigable canal system should be considered essential transportation infrastructure. "Delays in opening the Canal System or opening the canals on a 'regional basis' will have significant negative impacts on the economy and social fabric of upstate communities and will impede a full New York State recovery," the Erie Canalway stated in response to the Cana Corporation's announcement.

"The NYS Canal System generates billions of dollars in economic impact each year for canal communities and businesses," Erie Canalway stated. "Negative impacts will be keenly felt by boating-related businesses and service providers, commercial operators, communities that rely on canal tourism, and manufacturing." A delayed opening of the canal will further contribute to a climate of uncertainty across the entire state, the Erie Canalway said.

"More than 70 percent of upstate New Yorkers live within 20 miles of the canals. For 200 years, through wars and peacetime, prosperity and recession, the canals have remained navigable," the organization stated. "Residents in canal communities celebrate the opening of the Canal System each year and embrace the beauty, history, and recreational opportunities that the canals provide. Opening the entire Canal System in a safe and timely fashion would provide a sense of normalcy and hope to millions."

Happy Mother's Day!

• FIRST WEEK OF MAY •

ARIES – Mar 21/Apr 20

Confusion may come into the equation this week, Aries. In an effort to make sense of the situation, you seek the advice of others. Don't try to be in control; relax and let it run its course.

TAURUS – Apr 21/May 21

You are on call for the next several days, Taurus. You are ready to spring into action. Just use a little caution when choosing which projects to take on.

GEMINI – May 22/June 21

It may be challenging to get to the heart of the matter between friends, Gemini. As hard as you try, solving this will take time. Be patient and consider any and all information.

CANCER – June 22/July 22

Cancer, enjoy a week in which you indulge in some of your favorite pastimes that have been on the back burner for awhile. Now is the perfect time to have a little fun and let loose.

LEO – July 23/Aug 23

You may be concerned with some people in your immediate circle, Leo. If you suspect something is amiss, team up with a spiritual leader or another helper.

VIRGO – Aug 24/Sept 22

Virgo, this week is full of action and you may not be able to settle in to relax until later in the week. Take a step back and find some time to relax when a break arrives.

LIBRA – Sept 23/Oct 23

You probably will have to roll with the punches at least one or two days this week, Libra. Don't take things too seriously, even when the rumor mill is in full force.

SCORPIO – Oct 24/Nov 22

Make sure your head is entirely in the game before you jump into action, Scorpio. Part of the problem is trying to juggle too many things at once and getting distracted.

SAGITTARIUS – Nov 23/Dec 21

Sagittarius, the more information that comes your way this week, the more confusing things may seem. You can ask someone to help filter extraneous messages first.

CAPRICORN – Dec 22/Jan 20

Capricorn, your fantasy world may mesh with your real world activities this week. You may experience some difficulty figuring out what is real and what isn't, but enjoy

AQUARIUS – Jan 21/Feb 18

Aquarius, things may not feel like they are in place lately. You may be tempted to turn off your brain and retreat into a fantasy land. Don't avoid the situation

PISCES – Feb 19/Mar 20

You may embrace physical vitality this week, and go with that, Pisces. Maybe switch up your workout to incorporate something new.
