Mount Morris Rotary

Italian Festival 2020

These uncertain times have asked us to put a pause on all our lives. As you probably know, it takes many months of planning to hold our annual Italian Festival, with the goal of providing a fun weekend to all.

It is our deep regret that due to these unprecedented circumstances, Mount Morris Rotary has decided to cancel the Italian Festival originally scheduled for August 14-16, 2020. The uncertainty of when we will be able to open up our state, what limitations may be placed on large events and a consideration for the safety of all has prompted this difficult decision.

We will be back in 2021 (August 20-22, 2021) and will make the Italian Festival better than ever! Our heartfelt thanks to the sponsors, advertisers, vendors, entertainers, our tireless volunteers and our wonderful community. See you next year, and please stay safe and healthy!

A Weapon Against Fear and Sickness

The current worldwide epidemic of coronavirus has created much fear and anxiety in the hearts of people everywhere. This is not how our heavenly Father wants us to live. Psalm 91 deals with just such an outbreak of disease. Pray these scriptures from Psalm 91 over yourself and your family every day.

Verses 2 and 3 "I will say of the Lord, He is my Refuge and my Fortress, my God; on Him I lean and rely, and in Him I confidently trust! For then He will deliver me from the snare of the trapper and from the deadly pestilence (disease)."

If you need to talk, want some encouragement, or desire more prayer, give us a call at 585-319-6471. We want to help.

National Infant Immunization Week

National Infant Immunization Week (NIIW) is an annual observance to highlight the importance of protecting infants from vaccine-preventable diseases and celebrate the achievements of immunization programs and their partners in promoting healthy communities.

As a parent, you want to protect your little one from harm. Vaccinating your baby according to the recommended immunization schedule gives your child the best protection against 14 serious childhood illnesses—like measles and whooping cough—before your child is 2 years old. National Infant Immunization Week (NIIW) was April 25-May 2, 2020. During NIIW, communities across the country will celebrate the critical role vaccination plays in protecting the health of our children, families, and communities.

Vaccines are one of the top public health achievements of the past decade because they have reduced or even eliminated many diseases. It's easy to think of diseases like polio, rubella, whooping cough, and measles as diseases of the past, but the truth is they still exist. Before a vaccine is approved and given to children, it is tested extensively, and vaccines are the safe and proven choice.

For any questions regarding infant immunization, please contact the Livingston County Department of Health at 243-7299 or visit our website: <http://www.livingstoncounty.us/doh>.

Child Care Scholarships Available for Essential Workers in Livingston County during COVID-19 Crisis

The Child Care Council (CCC) recently announced that —while New York State is on PAUSE — income-eligible essential workers in Livingston County can apply for CARES Child Care Scholarships. Funding for these scholarships is provided through the Coronavirus Aid, Relief and Economic Security (CARES) Act.

To qualify for a scholarship, families of eligible workers must have an adjusted gross income at or below 300 percent of the federal poverty level, or \$78,600 for a family of four. An eligible worker using a licensed or registered child care provider will receive a scholarship for the cost of care as long as funding is available.

To determine eligibility, parents should first email CCC at CARES@childcarecouncil.com to express interest in a CARES Child Care Scholarship. CCC staff will then reach out to applicants within one to two business days to gather information on essential worker status and identify an eligible child care provider. Once essential workers are deemed eligible through this process, then CCC will enroll them in the scholarship program and ensure that the child care providers are paid.

Governor Unveils Strategy for Re-opening New York State Economy

Over the weekend, Governor Cuomo unveiled a broad strategy for the phased, region-based reopening the New York State economy in response to the COVID-19 pandemic. Highlights of the plan include:

- Upstate regions would likely reopen first, followed by downstate regions. Reopening would be dependent on COVID-19-related hospitalizations declining for 14 days – per CDC guidelines – as well as results of antibody testing and positive tests for the virus.
- Phase One would start sometime after May 15, 2020. Construction and manufacturing businesses that operate with “low risk” of spreading COVID-19 would reopen, followed by a two-week assessment period.
- Phase Two would include the reopening of other businesses, depending on how essential the businesses are and how “risky” their operations are in terms of spreading COVID-19. School reopening would be assessed in this phase.

Governor Cuomo recently appointed Bob Duffy, the Greater Rochester Chamber of Commerce President and CEO, as special advisor to coordinate the reopening strategy for the Finger Lakes region.

Livingston County Administrator Ian M. Coyle stated, “We look forward to working closely with state officials, public health experts, and regional business leaders to assess the best path forward for reopening the Finger Lakes economy. The reopening will not be a one-size-fits-all, and I appreciate the recognition from the Governor’s Office that certain areas and business sectors are more apt to open back up earlier than others.”

“As we begin these discussions, it is important to remember that – as a community – we must remain vigilant and not let up in our fight against this virus. We must continue to adhere to social distancing and sanitation protocols in order to slow the spread of COVID-19,” continued Coyle.

Livingston County Reminds Residents of Resource Line for Older Adults ... NY Connects: 1-888-443-7520

Livingston County's Office for the Aging (OFA) urges older adults to follow NYS guidance for vulnerable populations to remain at home during this crisis, and to call upon family, friends, and neighbors to assist them to obtain groceries, prescriptions, and other needed items.

Older adults who do not have anyone to assist them and those who are experiencing food emergencies can call the OFA's NY Connects resource line at 1-888-443-7520 to learn about resources available to them.

County Administrator Ian M. Coyle stated, "Older adults represent one of the most vulnerable populations during this difficult time. We encourage them to continue preventative measures – such as social distancing and staying home – to minimize their risk of exposure to COVID-19."

"We want to make sure that older adults who are staying home as recommended and have urgent needs for food or basic items – because they do not have the support or means to get these items – have a place to call to learn about resources to assist them. The OFA appreciates all of the community members who are reaching out to their older family members and neighbors to make sure they are okay and do not have to go out to public places," said OFA Director Sue Carlock.

The resource line is staffed Monday-Friday, 8AM to 4PM. Voice messages left outside of normal business hours will be returned. Callers are asked to be patient as there may be a high volume of calls.

The NY Connects resource line is not for medical information. If you need information about symptoms of COVID-19 and its prevention, identification, and medical care, please call Livingston County Health Department at 1-877-280-6775.
