## Sunday Morning Positive Perks

from your Sassy Small Town Missus

### A HAIR RAISING SITUATION

O. M. G. I am sure that is what you must be thinking right now when this week's Post is based around this photo. What is it you may wonder...part of an animal? Well kinda, it is part of the human variety of animal. It is my Fake Hair piece! I don't really need any more hair right now. I have not been to the beauty parlor since December. I try to go every 3 months which brought me right into...yep you guessed it, the end of March. Dang, bad timing. There has been much chatter lately among those of us who could use a good tango with the scissors. Who knew that such an Essential part of our lives would lead to panic buying for hair products. And yes I said Essential part of our lives. A good hair grooming not only aids in good hygiene but it makes us all feel a bit lighter and not just atop our heads, but in our spirits too. I truly believe when we feel good on the outside we are more productive and happy people, which is truly Essential. My Puppy went to the beauty parlor last week to get cleaned up to keep her skin and eyes healthy. If only I was a dog I could get some grooming, feel lively and wag my tail a bit too. My band of fake hair is really handy these days. I just gather up all those loose ends and wrap that fake hair around them nice and tightly. I have even scored some light brown highlights by incorporating this into my head of hair. Now my hair has real character. It's dark brown, light brown and gray! Who says a 50 plus year old lady can't be Sassy, not this girl. A couple years back at My Shop a customer of mine and great local lady Denise Cornick came in with her hair wrapped in the prettiest scarf. I asked her to show me the method and kindly she took off her scarf to show me. I tried myself with no success and I really wish I could figure that out. My husband is another story. You see he can not get away with fake hair or a scarf. Good news is he has a great head of hair, bad news is that is now is growing well below his ears. In my most persuasive voice I asked him to allow me to take the grooming scissors to his head of hair. He is still thinking about it. In my house when my husband says he will think about it, it usually is a solid no. So I guess he will continue to go rogue or just wear his hat. Remember the days when families could just cut each others hair. My Mom used to cut my hair. Boy was that traumatic. I can remember a few times running to my room shell shocked by what I just witnessed in the mirror...bangs all crooked and jacked up looking like Lloyd from Dumb and Dumber. Since we can not look at people's smiles behind masks, let check out each others hairdos. You never know when inspiration might strike. Now that could lead to some Hair Raising trends. Keep fighting the good fight and rock those locks proudly.

### BUSINESS DECISIONS

Forming a new business comes with hundreds of decisions to make on topics you may never have thought about before. One of them may be whether your business should be a Limited Liability Company (LLC) or a Limited Partnership (LP). LLCs provide a great deal of flexibility, allowing any entity, from an individual to a corporation or trust, to be an owner of the company. LLCs are not required to produce annual reports or hold directors' meetings, and they are not beholden to the requirements of shareholders. LPs involve general partners who make decisions for the organization and limited partners whose involvement is purely financial and who are not liable for partnership obligations.

You have worked hard to start your business. When things begin to pick up, you will need business law representation for a wide range of cases. From proper documentation for major contracts to intellectual property cases, employee issues, and more, the **Law Office of MACK & PACE** can provide you with the consultation and representation you need to protect your business. Please call **(585) 798-1000** to schedule a consultation.

**(585) 798-1000**  
**534 Main St., Suite 6**  
**Medina, NY 14103**

*HINT: Both LLCs and LPs have a pass through taxable income and losses, which means the company does not pay taxes, and all income, deductions, and credits are dealt with by the individual partners on their own tax returns.*

## Orleans Community Health Wound Care Center

**Orleans Community Health Wound Care Center is OPEN and treating patients during this COVID-19 pandemic.**

Data has shown that patients suffering from untreated wounds are **20 times** more likely to end up in an emergency room or admitted to the hospital. Our goal is to ensure that patients are treated and do not become in need of hospital admission.

- The hospital is screening patients and staff entering the facility

- Staggering patient appointments to minimize cross-over of patients
- Rooming patients immediately after check-in
- The patient waiting area is being cleaned regularly and patient chairs are placed at a safe distance
- As always, our rooms are thoroughly cleaned

In addition to treating our established patients, we are continuing to accept appointments for **New Patients**.

## Oak Orchard Health awarded \$449K for Covid-19 testing

Posted 13 May 2020 on www.OrleansHub.com  
By Tom Rivers, Editor

ALBION — Oak Orchard Health has been awarded \$449,314 in emergency funding from the federal government to do Covid-19 testing. It is part of \$16,790,380 in federal funding to help health centers in Upstate New York respond to and contain the spread of the COVID-19 outbreak, U.S. Minority Leader Charles E. Schumer and U.S. Senator Kirsten Gillibrand announced.

The funding will help health centers purchase, administer, and expand the use of Covid-19 testing. The funding was allocated by the Department of Health and Human Services (HHS) through the Expanding Capacity for Coronavirus Testing (ECT) program.

Oak Orchard Health has centers in Albion, Lyndonville, Brockport, Warsaw and Hornell. Orleans Hub has reached out to Oak Orchard Health to see which sites the testing will be offered and when it be available. "Testing is essential to our Covid-19 response and to the successful reopening of the Upstate economy without triggering a second wave of infections," said Senator Schumer. "This funding provides the essential expansion of testing needed to beat back the virus and for life to go back to normal. I am proud to have secured this vital funding for New York and will continue to fight tooth and nail for a fully-funded testing strategy that keeps New Yorkers safe."

"To contain the spread of this disease and safely reopen schools and businesses, we must make COVID-19 testing widely available for all Americans," said Senator Gillibrand. "Our state has faced more cases of COVID-19 than any other state and this critical funding will make testing and treatment more accessible in Upstate New York. As we fight to flatten the curve, I will continue to advocate for the resources needed during this pandemic."
