Doctor Ambushes Fibromyalgia

Suffers scramble to get innovative treatment to relieve pain, fatigue and more...

Fayetteville - 20 years ago ... I thought relieving the pain and chronic fatigue associated with Fibromyalgia was impossible.

Now my office is filled with happy patients who left some ... or all ... of their fibro misery behind... and are finally living the life they always dreamed about.

My name is Dr. Walter Bennet DC.MSNFNP, Owner of Elk River Medical located at 2310-C Thornton Taylor Parkway in Fayetteville. My phone is 931-251-3009.

And the reason I get such great results with Fibromyalgia when so many other fail... is because I treat the underlying cause ... and don't just chase the symptoms.

Wait. I know you've heard that before. But I bet you haven't heard this ...

My 3-Part "Immune-Based" Treatment And Why It Works So Well

First you must know this... proper diagnosis is key. Many things mimic Fibromyalgia... I am an expert at determining exactly what is causing your pain and fatigue ... and how to help it.

The next step is balancing out your immune system so you can sleep better, have less pain, eliminate fibro fog and get your life back.

This is done by manipulation of your T1 & T2 levels. T1 & T2 cells are part of your immune system... and basically... T1 are pro-inflammatory and T2 are anti-inflammatory.

This can get complicated... but it is easy to see that if these levels are not balanced... a lot of harm is done to your body.

We use peptides to achieve the proper balance... and the results can be dramatic.

Now only that... we also perform "Neuro-Muscular Correction" to take the stress off the neuro-muscular system. This is a tremendous help for muscle aches and pains.

Finally, we administer vitamin IV therapy. This replenishes vitamins that are low to normalize and heal. This can be a huge ... and immediate... boost to your immune system. Vitamin C IV was used by many doctors to help treat Covid-19.

All 3 of these treatments come together to often work wonders for so many suffering with Fibromyalgia.

All this sounds great... but there is a problem. Everyone is an individual and our treatments get different results for different people. That's true for ALL medical treatments. There are just too many factors involved. But we can honestly say ... so many get results they are overjoyed with.

If you are suffering with Fibromyalgia and would like a free no obligation evaluation to see if our treatments might work for you... just give us a call at 931-251-3009. We will discuss your case and explain to you the best possible treatment options for free.

PRESS RELEASE

Groundworks Makes 15th Acquisition, Advancing National Brand Initiative

Partnership with AFS Merges Nation's Leading Foundation Services Companies

VIRGINIA BEACH, VA (June 8, 2020) – Groundworks Companies®, the nation's largest privately owned foundation services company, today announced its 15th acquisition in four years with the purchase of Alabama-based AFS Foundation & Waterproofing Specialists. The partnership joins two of the largest foundation services companies in the U.S. with a combined footprint spanning 23 states, 1,800 employees and more than \$300 million in annual revenue.

The acquisition advances Groundworks' mission of creating the first national brand to provide foundation repair, basement waterproofing, crawl space repair and concrete lifting. The initiative began in May 2016, when Groundworks had just 190 employees in two states, revenues of \$30 million, and a vision of bringing a fragmented industry under a single national umbrella to deliver world-class, consistent and uniform water management solutions to consumers while also providing professional growth opportunities for the skilled tradespeople of the foundation services industry.

AFS Foundation & Waterproofing Specialists is Groundworks' largest acquisition to date, adding over 300 employees, more than \$65 million in annual revenue, and seven offices serving Alabama, most of Tennessee, and several Georgia and Mississippi cities to the Groundworks brand family. The acquisition strengthens Groundworks' presence in the Southeast and provides a launch pad for additional expansion in the region.

In January, Groundworks partnered with the Cortec Group, a multi-billion-dollar private equity firm, to accelerate its organic and acquisitive expansion.

"AFS is not only the largest foundation services company in the Southeast. It's also the best. Our partnership with the Bayless family and AFS team is transformational for our industry, as well as a strong cultural fit for our company in terms of their approach to the market, dedication to superior customer service, and commitment to their team," said Matt Malone, Chief Executive Officer and Founder of Groundworks. "With this acquisition, we now have a presence in nearly half the states in the U.S., we have served nearly I million homeowners, and we have added another important building block toward our goal of becoming the first and only national player in a \$5 to \$6 billion industry." Like Groundworks' other brands, AFS will retain its brand identity and ties to the local community to maintain the consumer recognition and goodwill established during its 20 years in business. At the same time. AFS will benefit from Groundworks' large capital investments that will accelerate geographic expansion, enhance employee training and development, and provide new consumer technologies and back-office support. It will also gain the competitive advantage of offering consumers a national warranty that transfers when a home is sold.

"We have been on a remarkable growth track over the last few years, including opening three offices in the last 12 months. Joining the Groundworks group enables us to expand even faster, provide our team with new opportunities for professional growth, and simultaneously allow us to do business with the same values we have embraced for two decades," said Ben Bayless, CEO and Owner of AFS Foundation & Waterproofing Specialists. "We selected Groundworks as our partner because, like AFS, they care about their people and they care about their customers. This is an ideal partnership that will benefit everyone in our company as well as every customer who uses our services." The transaction closed on June 4, 2020. Financial details were not disclosed.

Demand Soars For Innovative Arthritis Treatment FDA Cleared, Covered By Most Insurance, Even Medicare

Fayetteville doctor offers powerful, cutting-edge arthritis treatment... prepares for overwhelming demand as news of it's impressive results spread across Tennessee and entire U.S.

Fayettevile – Arthritis sufferers can't get it fast enough and doctors offering it can't keep up with the demand.

"It's been incredible. We've been able to help so many knee arthritis sufferers who had given up hope," said Dr. Walter Bennett DC, MSN, FNP, Owner of Elk Rive Medical located at 2310-C Thornton Taylor

located at 2310-C Information Parkway in Fayetteville. Dr. Bennett is referring to the use of the innovative arthritis treatment, viscosupplementation... or "knee gel," in his progressive medical office.

medical office. "The response has been incredible. Once the word got out, arthritis sufferers started flooding our phone lines and swarming the office. Once they found out there is an FDA cleared, Doctor administered arthritis treatment administered arthritis treatment administered arthritis treatment that actually works – without the side effects of toxic pain pills or grueling surgery - and has enough scientific research that it is covered by most insurance and even medicare – just about everyone suffering with painful arthritis wants to ovice it a tre². wants to give it a try."

What Is This Treatment And

What is his ireatment And How Does It Work? If you are suffering with knee arthritis and pain, you are not alone. Degenerative joint disease or "arthritis" affects 21million or 'arthritis' affects 21million Americans and typically involves the weight bearing joints – like your knees. According to the American College of Rheumatology, nearly 70% of people over the age of 70 have x-ray evidence of the disease. The worst thing is Arthritic can

replace the knee joint. But Now Things Have Changed Osteoarthritis is a joint disease that mostly effect the cartilage. Cartilage is the tissue that covers the ends on bones in a joint. When healthy, cartilage allows bones to glide smoothly over one another and acts as a shock absorber.

Your "normal" knee also contains a small amount of fluid contains a small amount of fluid called synovial fluid. This synovial fluid is a thick, gel-like solution that cushions and lubricates the joint – much like oil lubricates the engine of your car.

In osteoarthritis, the cartilage in osteoartinitis, the cartilage breaks down and wears away and the synovial fluid loses it's lubricating properties and "dries up." This is like running your car with very old or no oil at all. Now as you attempt to use your knee(s), there is not enough lubrication there is not enough tubrication which causes bones to grind together resulting in pain, swelling, stiffness and the joint continues to wear out. This is a vicious cycle and can lead to bone-on-bone rubbing

and excruciate on-both endoling and excruciating pain. Pain pills do NOT lubricate the joint or fix the problem. They simply attempt to make you numb so you do not feel the pain as your joints continue to deteriorate. The eventual repercussions of this are obvious obvious.

Knee Gel Is Very Different And here is why: They contains hyaluronate, one of the two natural lubricating agents in synovial

fluid Knee gel is precisely injected directly into your knee joint in a series of 3-5 treatments over a series of 3-5 treatments over a 4 week period. This instantly lubricates the joint, reduces friction and allows greater motion with less pain or no pain at all. Knee gel treatment not only lubricates the joint, but it acts as a shock absorber.

Here's something very important to consider: Even though most knee gels are a natural substances and are NOT considered a drug, it is NOT something you can get at your local health food store. It is scientifically researched. store. It is scientifically researched, developed by pharmaceutical companies, FDA cleared and ONLY administered by a qualified Doctor. What Results Can You Expect? According to one knee gel

(Hyalgan manufacturer, Sanofi Pharmaceuticals and their FDA

Pharmaceuticals and their FDA clearance research, "A course of Hyalgan treatment – will relieve pain in a majority of patients for 6 months without the safety concerns of nonsteroidal anti-inflammatory drug (NSAID) therapy. In many patients, the effect of Hyalgan is likely to last even longer than 6 months."

And the best part is: Since Hyalgan is a natural substance; it can be used over and over without risk. If it works for you, you can look forward to years without pain. Who Should Consider Hyalgan Who Should Consider Hyalgan and Other Knee Gel Therapies, Where Can You Get Them And When Should You Start? You should certainly consider Hyalgan and knee gel therapy if you have been diagnosed with Knee arthritis or told you need a knee replacement. If you have not

If you have any of those symptoms, there is a very good chance you have or are starting to aret arthritic.

get arthritis. And It Is Very Important That You Do Not Wait –Here Is Why... Studies indicate that if the arthritis is caught soon enough, the cushioning effect of the treatments combined with a specialized rehabilitation program may actually help the knee heal and cartilage may re-grow which will help avoid joint replacement surgery. In other words, the sooner you start – the better.

Does the procedure hurt? A local anesthetic is given and the procedure is virtually painless. Most patients say it is like getting a flu shot.

The Jennifer M. Anderson Memorial scholarship was awarded to Sophia Posey, daughter of Brad and Jessica Posey. Sophia graduated from Lincoln County High School, and during high school, she was a member of Student Council, Future Business Leaders of America, Bank of Lincoln County Falcon Branch, Main Street Student Board and the Beta Club. Sophia is attending the University of Alabama in Huntsville where she will work towards a career in Corporate Law.

The Billy Jack Netherland, Sr. Memorial Scholarship was awarded to Jana Owen, daughter of Dan and Charlotte Owen. Jana graduated from Lincoln County High School, and while at LCHS, she was a 2019-2020 Miss LCHS Finalist and 2020 Basketball Homecoming Court Senior Attendant. She has received numerous awards through the Fayetteville-Lincoln County 4-H programs including 2017 State and National Champion Livestock Quiz Bowl Team, 2019 Lincoln County Outstanding Member Award, Vice President of State Council, Honor Club Member, and Central Region All Star Member. She was also 2018-2019 FFA Chapter President. She plans to pursue a career in Animal Science / Ag Communications at the University of Tennessee Knoxville.

The first annual Steve Cheatham Memorial Scholarship, was awarded to Jonathan Ross Neal, son of Darrell and Candi Neal. Ross is a graduate of Lincoln County High School and while in school, was a member of the Beta club, FFA, and LEO Club. Ross was also a member of the All-District Golf Team and received numerous awards in competitions. He was involved in Parks City Baptist Youth Group community outreach and volunteered at Fayetteville-Lincoln County Animal Shelter. Ross plans to attend Tennessee Technological University and pursue a career as a Veterinarian.

Bank of Lincoln County is delighted to announce these winners, which were chosen out of numerous applications, and wishes them great success in their future endeavors.
