**He Cares About
What You Care About**

It almost seems like we skipped Spring this year, going from cold to hot so quickly. One wonderful thing about this time of year is the greenery and the flowers, displaying their colorful garments for all to see.

In Matthew 6, Jesus wanted us to look at flowers (lilies) and consider how they grow, that of their own effort they don't grow and become beautiful. Then He tells us that if God does this for lilies, then we are not to worry about the things of this life, what we eat, or drink, or how we are clothed. Jesus tells us that Father God know we have need of all these things.

What's the bottom line? He, God, cares about all the things you care about. If you are concerned for any of the things of life, and need to connect with Father God, we are here to help you. Give us a call. We'll talk and pray with you.

SPEAK OUT

Dear "Speak Out,"

I am very much a patriot and a historian who loves our country. This article is intended to provide positive comments regarding our country and comments as to where we have gone astray.

The United States of America was established on the Bible. However, we have strayed from what our founding fathers intended. We need to admit where we have strayed and return to the principles on which our country was established so long ago.

Back in the 1920s, we replaced the importance of morality with an economic view of history rather than what really happened. Our public school text books were revised to eliminate the truths about our past as to replace them with what we wanted instead.

The Supreme Court in the early 1950s began attacks on prayer in our public schools and paved the way for legislation on abortion.

About the same time we lost our first war - the Korean War. In 1962 the Supreme Court outlawed prayer in our public schools in the case of Engel v. Vitale. In 1963 the Supreme Court outlawed the Lord's Prayer and the reading of the Bible in public schools in the case Abington School District v. Schempp.

Our SAT and College Board scores began to plummet almost immediately and have declined in our public schools ever since.

In 1973, the Supreme Court ruled that killing unborn children was legal. The same year, we lost the Viet Nam War as a result.

The Ten Commandments have now been outlawed in our public schools and many other public arenas in our wonderful land.

In 1987 our stock market experienced "Black Monday" and in 1994 the bond market experienced its worst day in its history. We refused to return to the values which our founding fathers based our country upon and on September 11, 2001, the hedge of protection that had been in place since the attack on Pearl Harbor was removed and America entered a new era in its life.

The Sunday after 9/11 our churches were full and overflowing because Americans feared that more attacks were imminent. But within three weeks our churches were almost empty again.

In the Old Testament, the nation Israel had pushed God out of its life and the Syrians and the Philistines were allowed to attack Israel just as the terrorists from the Mideast, the same area of the world, were allowed to attack America on September 11th.

Israel replied in the following verse in Isaiah 9:10 "The bricks are fallen down, but we will build with hewn stones: the sycamores are cut down, but we will change them into cedars".

This was an act of defiance in which the Israelites were saying that they would not return to their foundations but would continue to do what they wanted even though it was wrong.

So the question is, what does this have to do with America? The answer is that the morning after 9/11, the Senate Majority Leader in the United States Congress gave an address to Congress and America and said "The bricks are fallen down, but we will build with hewn stones: the sycamores are cut down, but we will change them into cedars". On September 11, 2004, a United States Senator repeated the exact same words in an address to a Congressional caucus in Washington, D. C.

Even today, our leaders in Washington repeatedly say that we will come back stronger in our economy without saying that we will do this with the help of God. This is very, very dangerous.

We need to give all honor and credit to God for our country. One of the finest men that I know in our area commented in an e-mail this past week "One Nation Under God", which I believe.

Livingston County Warns of COVID-19 Scams

Livingston County would like to notify residents of several COVID-19-related fraud alerts recently issued by federal and state departments.

United States Department of Health and Human Services (HHS): Scammers are offering fake COVID-19 tests to Medicare recipients in exchange for their personal information. They then use this personal information as part of a broader identity theft scam to drain the bank accounts of their victims.

PROTECT YOURSELF:

- Beneficiaries should be cautious of unsolicited requests for their Medicare or Medicaid numbers.
- Be suspicious of any unexpected calls or visitors offering COVID-19 tests or supplies. If your personal information is compromised, it may be used in other fraud schemes.
- Ignore offers or advertisements for COVID-19 testing or treatments on social media sites.
- A physician or other trusted healthcare provider should assess your condition and approve any requests for COVID-19 testing.

New York State Office of Aging: Scammers are offering grants for home repairs. Older adults are receiving postcards addressed to "resident" offering to help secure grants for home repairs.

PROTECT YOURSELF:

- Do not answer your telephone if you do not recognize the caller or number.
- Never share personal information over the telephone, like your Medicare number, Social Security number or banking information.
- Never pay a fee to a company that says it will help you get a grant.
- Block or unfriend anyone who offers unsolicited grant information on social media. Even if you are "friends" with that person – they may have been hacked.
- Only use local contractors with validated references to do work in your home.

If you suspect fraud, complaints related to COVID-19 should be reported to:

National Center for Disaster Fraud (NCDF)

Hotline: 866-720-5721 or disaster@leo.gov

Livingston County Continues Advocacy for Equitable Federal Aid to Local Governments Impacted by the COVID-19 Global Pandemic

Livingston County officials are continuing to advocate for federal appropriations to local governments to blunt the negative budgetary impacts caused by the COVID-19 global pandemic. County officials, led by Board of Supervisors Chairman and Avon Town Supervisor David L. LeFeber, have contacted the County's U.S. Senate and Congressional Delegation explaining the necessity of equitable federal funding.

A previous round of aid to local governments distributed by the federal government under the CARES Act's State Stabilization Fund was inequitable, according to County officials. This aid was directly appropriated only to local governments with a population of 500,000 or greater.

Livingston County and a majority of other counties and municipalities across the nation and New York State did not meet the onerous population requirement set by the Act. Instead, they were eligible to receive indirect, much smaller appropriations of aid distributed through the states.

"During this time of budgetary strain caused by the COVID-19 pandemic, it is important that all local governments are eligible to receive fiscal aid from the federal government," said LeFeber. "I have been in regular contact with the offices of Senators Charles Schumer and Kirsten Gillibrand, along with that of Representative Tom Reed to highlight Livingston County's needs during this trying time. I will continue my advocacy efforts on behalf of the County for the quick adoption of a law to provide equitable federal aid to all local governments."

Two pieces of legislation have been introduced in the Congress to distribute federal aid to all counties regardless of population size. The HEROES Act, which has passed the U.S. House of Representatives, would distribute a portion of \$1 trillion to every county in the United States regardless of populations. The SMART Act, which has been introduced in both the U.S. House of Representatives and Senate, would distribute a portion of \$500 billion to all counties regardless of population size.
