NUNDA KIWANIS PARK SPORTS PROGRAMS

Regrettably, we must inform the public that, due to the strict guidelines from the Livingston County Department of Health, regarding COVID-19,

ALL SUMMER sports programs, including Baseball, Softball and Summer Soccer, are CANCELLED for the 2020 season.

This means that the Nunda Kiwanis Club, Inc., will not be doing anything that coordinates or facilitates any type of organized ball playing this summer.

The park and pavilion will be open for the public, and the Summer Recreation Program, but the public should use these facilities at their own discretion and practice appropriate COVID-19 Guidelines when at the park.

Thank You

I and my wife would like to take the time to thank everyone that stopped to help me on 408 in Mount Morris when I had my motorcycle accident on my trike Saturday, June 20th at approximately 7:50 pm when the road flooded.

Thank you to all the ambulance crew, firemen, Officer Wade at Livingston County Sheriff, Anthony Mess for calling my wife and the girl who called 911 and to anyone else that was there and helped out. It's very much appreciated more than you all know.

I wish I could have gotten all your names so I could thank each of you personally. Just know that this is appreciated more than I can ever say.

Mr. & Mrs. Denochick

SPEAK OUT

Dear "Speak Out,"

"Independence Day" this year is Saturday, July 4th. When I was in school, we were expected to memorize the Preamble to the "Declaration of Independence".

When I read an important document, I like to study it. So I thought we could study our "Declaration of Independence" this year. Any citizen of the United States of America should have read and understand the contents of the "Declaration of Independence" so we can all know why we separated from England and to enable each of us to become better citizens.

To begin, the "Declaration of Independence" reads: "In Congress, July 4, 1776". The final draft of the "Declaration" was approved by the Continental Congress on Thursday, July 4th. It was not signed until Friday, August 2, 1776, at the Pennsylvania State House in Independence Hall in Philadelphia, Pennsylvania, by Delegates to the Second Continental Congress.

The interesting concept is that all of the delegates approved because it reads "The unanimous Declaration of the thirteen united States of America,..." This was a miracle from God.

At various times in world history, gigantic decisions have been made that affected the lives of those people involved and often the lives of those people of the entire world. God has entitled mankind to a decent respect to the opinions of mankind:

"When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation."

These truths are self-evident and are obvious to all of us. Our founding fathers believed that all men, and not just some, are created equal and that God has given all of us the rights to life, liberty and the ability to pursue happiness:

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness."

As a republic, and not a democracy as many believe, our governments, local, county, state and federal, have been established with the permission of we as Americans:

"That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed".

We as Americans have the right and obligation to change, and if necessary, to abolish our government and to establish a new one: "That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness."

Our governments should never be abolished for trivial reasons: "Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed." Lord willing, we will study some more next week.

- The Village Office will be closed on July 2nd and July 3rd in observance of the Independence Day holiday.

The health and well-being of residents is the top priority of the Village Board. As part of the COVID-19 response, it is with deep regret that we will be cancelling The Summer Recreation program for the 2020 season to protect the health and safety of children and their families. At this time we do not plan on cancelling summer soccer, tee-ball, and hope to offer something in place of the Recreation program in Phase 4.

The Village board will continue to monitor the situation as it evolves into Phase 4 and we will be certain to communicate updates as they become available. Please let us know if you have any questions.

Coloring Contest at Liv. Co. CNR

Normally on a Saturday Night about 6:30pm the Residents at the Livingston Country Center for Nursing and Rehabilitation would be brought down or come down on their own to the Atrium of the CNR for Craft Night to do a weekly craft or see a "Presenter" to learn a new craft with the help of Pam Hill who applied for a Genesee Valley Council on the Arts in Education Grant to provide the residents with extra activities than what they normally get on their neighborhood to help pass the time quicker on the weekends. The Resident Craft Club is going on its 8th year and with the GVCA grant in its 2nd year it continues to keep them motivated and independent while learning more visual Arts and Crafts, while improving hand eye coordination while having fun!

The Residents at the nursing home in Mount Morris, NY are doing crafts a little differently lately due to the COVID-19 restrictions. Looking for new ideas to keep the residents active at the LCCNR, we were able to have a coloring contest with the support of the Activities Director Kim Kavanagh and Activity Aides on the different neighborhoods.

The pages were judged by Katelyn of the Genesee Valley Council on the Arts. Katelyn states "GVCA is proud to support the LCCNR and the work of Pam Hill through the Decentralization grant. The arts are more important than ever, and we are proud to support programs that are able to adapt and change to continue to support the local art community!"

Everyone that entered was given a new set of markers. The Winners of the Contest were awarded certificates for food from local organizations and businesses.

The groups next activity is learning how to take pictures with disposable cameras. Photographer Larry Tetamore helped out by creating a video on his blog for the residents who signed up to watch and then each will be given a disposable camera which will be developed and used to create craft projects with transfers from the photos like T-Shirts, craft boxes, bags and anything they can think of. We are hoping to have an Art Show later this year of the Resident's works of Arts.

The Decentralization Regrant Program is made possible by the New York State Council on the Arts with support from Governor Andrew Cuomo and the New York State Legislature.

As the summer months are upon us, don't forget to protect your skin from sun exposure. Overexposure to sun can increase your risk for skin cancer. Remember to limit sun exposure, wear protective clothing, and wear waterproof sunscreen with an SPF of 15 or higher. Sunscreen is one of the best ways to avoid skin cancer and should be applied 30 minutes before sun exposure and reapplied every 2 hours, or after swimming, for best results. If you are planning to be in the sun for extended periods of time, wear a wide-brimmed hat and sunglasses or seek shade throughout the day. Please contact the Livingston County Department of Health for questions or more information at 243-7299.

Thank You

I would like to thank my many wonderful friends and neighbors for all of the lovely cards, phone calls, and visits during my recovery from my recent injury.

I would especially like to thank my newest friend Tami Kenyon for noticing I had fallen in my front yard and along with my longtime neighbor and friend Barb Leone for coming to my rescue and alerting my husband.

With so much unrest in our current world it is heartwarming to know that I still live in the best and most caring community anyone could ask for. Thank you to my daughters for coming to help care for me in shifts, and those who live out of state for calling daily and send cards.

A special thank you to Mount Morris Ambulance, the amazing staff at Noyes Memorial Hospital along with my gifted and talented surgeon Dr. Capecci.

Last, but certainly not least, my husband of 63 years Jack Mongillo who has always taken care of me with love, devotion and kindness.

Thank you, Jack, for always being my everything.

Need Help Paying for Medicare?

The Medicare Savings Programs can help with Medicare costs, like your monthly Part B premiums and sometimes also Part A and Part B coinsurance and deductibles.

The Extra Help Program helps pay some of your Medicare Part D drug plan costs.

If your gross monthly income is less than \$1,615 for an individual or \$2,175 for a couple, you may be eligible for one or both of these programs. These figures are based on the 2020 federal poverty limits and are subject to change.

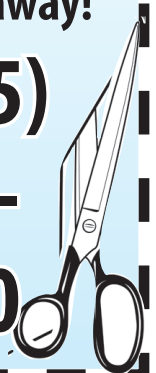

If you think you may be eligible, please contact NY Connects at the Livingston County Office for the Aging at 585.243.7520 for more information or to schedule an appointment for assistance with applying.

Morris Ridge Solar Energy Center • Livingston County, New York

NOTICE OF SUBMISSION OF APPLICATION

Morris Ridge Solar Energy Center, LLC, an indirect subsidiary of EDF Renewables, Inc. ("MRSEC" or "Applicant") is proposing to construct a major solar electric generating facility up to 177 Megawatts (MW) in capacity in the Town of Mount Morris, Livingston County, New York. To construct the facility, the Applicant must obtain a Certificate of Environmental Compatibility and Public Need ("Certificate") from the New York State Board on Electric Generating Siting and the Environment ("Siting Board") pursuant to Article 10 of the Public Service Law and the Siting Board's rules (16 NYCRR Part 1000). This notice announces that on or about June 30, 2020, the Applicant will file an Article 10 Application seeking a Certificate from the Siting Board.

The Morris Ridge Solar Energy Center is a proposed zero-emission solar energy facility that will assist the State in meeting the goals of the Climate Leadership and Community Protection Act ("CLCPA"), which include obtaining 70% of the State's energy generation from renewable sources by 2030 and significantly reducing greenhouse gas emissions. The Facility is proposed to include the installation of rows of photovoltaic ("PV") panels, no more than 12 feet in height and arranged in discrete subarrays dispersed throughout the Facility Site, as well as associated electrical collection lines, inverters, up to 83 MW of energy storage capacity, fencing and access roads. The Facility would deliver electricity to the New York State power grid via a point of interconnection substation along the South Perry-Meyers 230-kV electrical transmission line, which bisects the Facility Site and which is currently owned by the New York State Electric and Gas Corporation. More information on the proposed Facility can be found on the Siting Board's website under Case 18-F-0440, on the project's dedicated website (<https://www.edf-re.com/project/morris-ridge-solar-project/>), and at the local document repositories listed below.

Positive impacts of the Facility include diversification of the State's energy supplies, new employment opportunities (both temporary construction employment and full-time jobs), and increased revenues to county and local tax bases, payments to the local hospitality industry, and purchase of local supplies and goods. The Applicant has attempted to minimize impacts to land associated with the Facility by limiting the disturbance to forested lands and wetlands to the maximum extent practicable. The construction and operation of the Facility may result in minor environmental impacts as more fully described in the Application, including, but not limited to: impacts on terrestrial ecology; impacts to forested land, wetlands and agricultural lands; and impacts to people, including noise, traffic and visual impacts.

The State's Article 10 process requires that a prospective Applicant complete several steps prior to submission of an Application and dictates the materials which must be included in an Article 10 Application. These regulations can be found at 16 NYCRR 1001.1 et seq. Prior to submission of the forthcoming Application, MRSEC filed a Preliminary Scoping Statement on April 1, 2019 with the Siting Board and, following a public comment period, prepared a response to material comments submitted May 13, 2019. On May 15, 2019, a pre-application procedural conference to consider intervenor funding requests was held and the scoping stipulation process was ordered to commence. Stipulations were negotiated with parties, filed for public comment, and executed by the parties. The Applicant is now ready to file an Application.

The forthcoming Application includes, among other things: studies and analysis of the environmental setting of the Facility; maps and visual simulations of the proposed Facility, including preliminary design drawings and related information; copies of reports, studies and plans submitted in support of the Application; and an assessment of impacts of construction and/or operation of the Facility relating to land use; consistency with State energy planning objectives, including climate change and renewable energy goals; public health and safety; terrestrial ecology, water resources and aquatic ecology, including avian habitat and wetlands; communications, transportation and utilities; cultural, historical and recreational resources; visual and noise impacts; electric magnetic fields; and impacts on the statewide electrical system.

A copy of the Application will be served on the Chief Executive Officer of each municipality in which any portion of the Facility is located, as well as those persons and agencies enumerated in 16 NYCRR 1000.6. The record of this proceeding, including the Application, may be examined during normal business hours at the Offices of the New York State Department of Public Service (DPS) at 3 Empire State Plaza, Albany, NY 12223, and may also be viewed at the following public repositories: Mount Morris Town Office, 103 Main Street, Mount Morris, NY 14510; Mount Morris Public Library, 121 Main Street, Mount Morris, NY 14510; Nunda Town Hall, 4 Massachusetts Street, Nunda, NY 14517; and Bell Memorial Library, 16 East Street, Nunda, NY 14517.

Once an Application is filed and determined by the Siting Board to be complete, the Siting Board will schedule a public hearing on the Application. The Siting Board will also issue a notice of availability of application intervenor funds that are available to be used by parties to participate in the formal review of the Application. A pre-hearing conference will be scheduled by the Hearing Examiner to identify intervenors, award intervenor funds, identify issues for the hearing, and establish a case schedule. Additional hearings regarding the application and project impact assessments will be scheduled by the Hearing Examiner as needed. After hearings, the stakeholders may brief their positions and the Hearing Examiner will issue a recommended decision upon which the Siting Board will base its decision. Article 10 requires that all proceedings on the Application, including a final decision by the Siting Board, must be completed within 12 months of when the Application is determined to be complete.

Upon filing the Application, the Applicant will provide funding in the amount of \$177,000 to be disbursed by the Hearing Examiner to municipalities and other local parties to help pay expenses, including attorneys and consultants, associated with participating in the Article 10 process during the application review phase. By law, fifty percent (50%) of these intervenor funds are reserved for municipalities. Following the filing of an Application, the Hearing Examiner or the Secretary will issue a notice of availability of application intervenor funds that provides a schedule and related information describing how interested members of the public may apply for application funds. Requests for application funds must be submitted to the Hearing Examiner within thirty (30) days after the issuance of the notice of the availability of application intervenor funds. Following the submittal of any intervenor funding requests, the Hearing Examiner may schedule a pre-hearing conference to consider fund requests.
