**Homemade Ice Cream Ideal For Warm Summer Days**

Few things are as refreshing as a bowl of ice cream on a hot summer day. This season, try your hand at homemade ice cream with the following recipe for "Strega Semifreddo" from Lou Seibert Pappas' "Ice Creams & Sorbets" (Chronicle Books).

STREGA SEMIFREDDO  
Makes about 1 quart  
2/3 cup sugar  
1/4 cup water  
1 tablespoon light corn syrup  
4 large egg yolks  
2 teaspoons grated orange zest  
2 cups half-and-half  
1 cup heavy whipping cream  
1/4 cup Strega, sambuca, or Grand Marnier

Combine the sugar, water and corn syrup in a small saucepan and bring to a boil. Cook until the temperature reaches 238 on a candy thermometer. Meanwhile, beat the egg yolks with an electric mixer until thick and pale yellow. Continuing to beat the egg yolks on medium speed, slowly pour in the sugar syrup in a fine, steady stream. Beat until the mixture cools to room temperature, about 7 minutes. Stir in the zest and the half-and-half. Cover and refrigerate until thoroughly chilled, about 3 hours.

When ready to freeze, stir in the cream. Freeze in an ice cream maker according to the manufacturer's instructions. When the ice cream is almost frozen, spoon in the Strega and churn until blended in, about 1 minute more. Transfer to a container, cover, and freeze until firm, about 2 hours.

### READER'S Recipe

#### VANILLA CAKE & FROSTING

Preheat the oven to 350°.  
Butter a 9-by-13-inch baking pan (for a thinner cake, use a 13-by-18-inch sheet pan).  
Dust the bottom and sides of the pan with flour.

Whisk 3 cups flour, 1-1/2 teaspoons baking powder, 1 teaspoon salt and 1/4 teaspoon baking soda in a bowl.  
Beat 1-1/2 sticks softened butter and 1/4 cup vegetable oil in a separate bowl with a mixer on medium-high speed until combined. Add 1-1/2 cups granulated sugar and beat until fluffy, about 4 minutes. Beat in 3 room-temperature eggs one at a time, then 1 tablespoon vanilla. Beat in the flour mixture in three batches on low speed, alternating with 1-1/4 cups buttermilk. Beat on medium-high speed until combined.

Spread the batter in the prepared pan and tap on the counter to release any air bubbles. Bake until a toothpick inserted into the center comes out clean, 35 to 40 minutes (if using a sheet pan, bake only 30 to 45 minutes). Transfer to a rack and let cool completely in the pan before frosting.

**Frosting:** Beat 3 sticks softened butter and a pinch of salt with a mixer on medium-high speed until fluffy, 2 minutes. Gradually beat in 4 cups confectioners' sugar on low speed until combined. Add 1 tablespoon vanilla and beat on medium-high speed until fluffy, about 3 minutes. Beat in 3 tablespoons milk until combined, 1 to 2 more minutes.  
Spread the frosting on the cake. Refrigerate 30 minutes before serving.

# Open to Serve You

## Shiatsu

(shee - ah' - tzoo)

It is a form of Asian bodywork based on Traditional Chinese Medicine, where illness is thought to result from the imbalances in the natural flow of energy or qi through the body.

### Some common effects of Shiatsu include:

- Pain relief or reduction
- Deep relaxation and calm
- Increased flexibility
- Improved energy and concentration
- Deeper, more restful sleep

### What Can I Expect During a Session?

Shiatsu treatments are traditionally given on a futon on the floor. However, a low massage table or chair may be used based upon the needs of the client. Practitioners apply finger and palm pressure to energetic pathways, called meridians, to improve the flow of qi. You remain fully clothed during the treatment, no oil or creams are applied.

Shiatsu has been proven beneficial in alleviating symptoms associated with a wide range of ailments, including, but not limited to:

- anxiety
- headaches
- allergies
- joint pain
- back pain
- muscular tension
- digestive disorders
- boost immune system
- neck & shoulder pain

## Iridology

NEW

Is an technique that uses the colors, patterns, and various other properties of the iris to assess an individual's general health and genetic disposition. The technique of iridology is based on the belief that each organ in the human body has a corresponding region in the iris. Pictures are taken of your eyes and then analyzed. Recommendations are based on these findings. This is a 2-phase session. First session is explaining iridology and taking the pictures. Second session is going over the findings and recommendations.

You will leave feeling relaxed and empowered with ways to take control of your health and well-being. Clients are fully clothed.

## Manual Lymphatic Drainage

### Cassie Eshelman

Practitioner

Manual lymphatic drainage treatment (clients remain clothed) is a light, non-invasive delicate touch, paired with rhythmic movements. It is relaxing, calming and encourages a pain-free release of inflammation and ease on joints in general helping to create a greater ease of breath and lighter feeling over all.

Additional benefits? Stimulates flow of oxygen and nutrients to the cells. Reduces inflammation and irregularities of skin cells. Boosts tissue regeneration after surgery and reduces swelling. Restored equilibrium, encouraging regular lymph flow. Increase overall mobility of the body, eases joint congestion. Promotes the body's immunological response.

It is great for those who suffer from hypertension, fibromyalgia in addition to forms of anxiety, by calming the nervous system. For pregnant women; gently decreases liquid retention leading up to childbirth as well as relief and skin healing post labor.

**What Is Herbalism?** Herbalism is the art and science of using herbs for promoting health and preventing and handling of illness.

**What Is An Herbalist?** Herbalists are people who dedicate their lives to working with plants. They include native healers, scientists, naturopaths, holistic medical doctors, researchers, herbal pharmacists, wild crafters, herbal farmers to name a few. While herbalists can be quite varied, the common love and respect for life, especially the relationship between plants and humans, unites them.

With a strong passion for natural healing, Nicholas Kleinsmith allies himself with nature and uses down-to-earth healing tactics. It's so old it is new again.

Nicholas believes in taking his time with each client; keeping things simple to understand and easy to implement, with the knowledge that everyone is unique. Therefore, everyone's path to healing is their own. Nicholas will help you tailor your own path to ultimate health and healing.

## Aqua Foot Detox

When you put your feet in the water...

When you take your feet out ...

The foot spa contains water, a saline solution and an electro magnetic device. The Aqua Detox™ System produces a charge which stimulates the cells within the body. The positive and negative charges in the water allow the body to attract and use the negative ions to rebalance and release toxins. The most convenient and effective way to release these toxins is through 4000 pores on the feet. Following a treatment the body will continue to detoxify for up to 48 hours.

RESEARCH HAS SHOWN THAT THE BENEFITS OF THOSE RECEIVING TREATMENT HAVE HAD INCREASED:

- Vitality
- Circulation
- Energy Levels
- Organ Energy
- Sense of Well Being
- Nutrient Absorption

## Full Range of Hypnosis

Hypnosis is a means of communication between the conscious mind and the subconscious mind. Many problems, habits, stress, anxieties, attitudes or apparent deficiencies can be traced to interpretations by the subconscious mind, which when understood by the conscious mind, can reduce or resolve specific problems.

The subconscious is also the seat of all memory. Traumatic events can be buried or suppressed in the subconscious. Hypnosis is a trance-like state that can be very relaxing. Sessions usually last from 1-1 1/2 hours.
