# HOME SAFETY CHECKLIST

- Install smoke alarms & carbon monoxide alarms throughout the house. Test them periodically to make sure they work. Batteries should be changed at least once a year.
- Place fire extinguishers in the kitchen & other rooms. Make sure you know how to use them.
- Turn off appliances when not in use
- Place emergency phone numbers on or near every phone in your home.
- Buy first aid kit. Keep one in both your home and your car.
- Have more than one escape route from your home. Practice these routes with your family.

**Pole Barn Retrofit = A SURPRISE when you enter**  
 This client had a vision for converting an existing aging pole barn into a vibrant living space with room to house himself and still have plenty of room for his mechanical hobbies and store & service his motor home. The back half of the barn was remodeled to create an energy-efficient one bedroom, one and a half bath home with contemporary style.  
 New insulation, Anderson windows & doors, high efficiency HVAC, LED lighting and water conserving fixtures make this a responsible and cost-effective home. Plenty of attention to styling & detail. The exterior of the barn was kept simple, but a new metal roof extends over the added storage area for the motor home.  
**The result: a VERY COOL home & workspace hidden inside an unimposing pole barn.**
