## First Friday in STS Top 20

DECATUR—Three North Alabama events have been selected as a Southeast Tourism Society (STS) Top 20 Event in the Southeast for March 2016. First Friday Gadsden, First Friday Florence and the Jerry Brown Arts Festival in Hamilton were nominated by the Alabama Mountain Lakes Tourist Association for the prestigious program coordinated by STS.

On the first Friday of each month March-December, downtown Florence comes alive with art, music, shopping and entertainment for the entire family. First Fridays Florence is a festive arts and entertainment event organized by Downtown Florence Unlimited in cooperation with the City of Florence, Florence Main Street and Florence/Lauderdale Tourism Department. Each month features a different theme and admission is free. For more information, visit [www.FirstFridaysFlorence.org](http://www.FirstFridaysFlorence.org).

Events considered for the STS Top 20 recognition must be at least three years old and have attendance of at least 1,000. The STS Top 20 Events program has highlighted events and festivals around the Southeast since 1985. Travel industry experts select 20 events per month, and STS publicizes them throughout the United States. The complete list is published on two websites: [www.EscapeToTheSoutheast.com](http://www.EscapeToTheSoutheast.com) and [www.TravelMediaPressRoom.com/sts/](http://www.TravelMediaPressRoom.com/sts/).

## Help Center Vital in Our Community

FLORENCE – A beautiful young woman walked into the Help Center recently with her jaw wired shut. It had been broken by her boyfriend when he knocked her to the ground. She was coming for food, not for herself, but for her boyfriend.

Soon after she left, a blind gentleman accompanied by an elderly woman using a desk chair as a walker. They had no transportation and had walked to the center for food. Soon after they arrived, two Hispanic families walked in the door with a total of eight children under the age of six needing food and clothes. Neither of the mothers spoke English. By the

MUSCLE SHOALS – Over the past weekend, the Shoals Chamber of Commerce and Northwest-Shoals Community College hosted 24 schools at the 2015 Mall Day (robot practice driving) for the Northwest Alabama BEST Robotics Competition. BEST is an acronym for Boosting Engineering, Science and Technology. The discovery session was the first opportunity for teams to test their robot designs in public before the BEST competition on October 10.

The season Kicked-Off on August 29. Teams have been working on their robot design and engineering process for four weeks. Game Day on October 10 will be the culmination.

## Camp Courage

**Pam Hendon helps Heidi Calloway of Lexington, KY, pour wax to make a candle during Camp Courage, a Helen Keller Experience, that was taking place September 24-26 at Ivy Green in Tusculumbia.**

Camp Courage, is an intense camp the helps children with special needs learn to use their abilities to make a difference in the world, just as Helen Keller did. In addition to crafts, the children learned about the life of Helen Keller, participated in leadership development activities, went fishing, and explored the outdoors.

**HEATING • AIR CONDITIONING • PLUMBING**

I know; this offer seems almost “too good.” So let me explain -

**Our extreme temperatures are really taking a toll on older and less efficient units. The house seems to stay too hot in the summer, too cold in the winter. *But that's not all...***

Energy costs keep going higher. (And what's going to happen this coming winter)? So high-efficiency heating and cooling systems are probably going up too.

The longer you use your older energy robbing system, you may be *losing more money* on utilities and repairs than a new one would cost! Especially when you can...

**Put up to \$1,700 in your pocket now, and kiss repair bills goodbye for 10 years.**

Yet if I know this business (after 30 years), this offer *will not be available* when the rest of the market “wises up” and wants in. But if you act now, get the comfort now, and lock in savings now...you don't have to pay anything out of pocket.

**Check this out - Here's how you can win 5 different ways...**

1. Call 256-381-7195 for your Free Energy Survey. You've spent nothing.
2. **Our Comfort Advisor** will tell you how much a new system can save you. *As much as 20%! Still, nothing spent.*
3. You'll get options to select a top-level Lennox heating & cooling system for comfort and reliability. Plus a 10 year repair warranty to back it up! Approved buyers can...
4. **Get up to \$1,700 cash** to use any way you want. (Straight from Lennox, no hidden surprises). And...
5. **Enjoy no money down financing with payments as low as \$69 per month.**

How can you lose on that? There is one small “catch”: 1) We ask to use your energy reduction figures for ads (Name optional).

**That's it. Call Fuller Heating and Air at 256-381-7195 for your free survey soon.**

*(Calls are being taken 24 hrs. 7 days for this offer and may be busy. Please be patient!)*

## Help...

Continued from Page 1

end of the morning, 45 families had been helped, fed, clothed, and encouraged. This is just a normal morning for volunteers at the Help Center in Florence.

The Help Center is a ministry comprising 39 local churches which was established in 1992 when it became apparent there was a growing need in our community to address poverty. Since January of this year over 3900 individuals have been helped either with food, clothes, prescriptions or utilities. Among those helped are newly released prisoners, the homeless, the disabled, and victims of crime and abuse. The Center is located at the corner of Veterans Drive and Court Street. It is open three days a week from 8:30am-noon and is staffed totally by volunteers. The Help Center not only offers physical assistance, but counseling and prayers through the visiting chaplain program. "Some days hope and encouragement are the best services we can offer our clients," stated Pat Denier, president of the Help Center Board of Directors. Through the years the number of clients has increased and the cost of food has tripled.

Originally, clients received six days of food once a month. Because of food costs, clients now have to wait two months before receiving food again. The Help Center utility funds come from the \$1 assistance donations local citizens give through their Florence utility bills, and those donations are also decreasing. Originally,

the Help Center was able to support up to thirty six families each week with utility assistance. Because of smaller donations, the center can now only help eighteen families each week. Many of the original founding churches have also started food and clothing ministries of their own and financial support has declined.

Families are struggling. Statistics show that 24% of the local population is below the poverty line compared to only 18% statewide. Major employers have closed and jobs are becoming scarce. Parents are having to decide whether to pay the light bill or purchase school clothes, whether to pay for medications or food.

### The Help Center Needs YOUR Help.

This coming month a flyer titled, "Project Help" is being mailed with Florence utility bills, asking for donations to help those without power. These funds will be given out through the Help Center. The Help Center itself needs financial support, prayers and volunteers. If your church or organization needs a service project or would like to become part of this community ministry, please call the Help Center at 256-766-7663. A community fundraiser is also planned for October 1 from 4-9pm at the Texas Roadhouse on Cox Creek Parkway. The Help Center will receive 10% of all meals when customers present their flier to their server. Fliers are available from participating churches and in the offices of First Presbyterian in Florence and Trinity Episcopal Church on Pine Street.

# Best Robotics...

Continued from Page 1

Chamber and NW-SCC). These robots are built to accomplish the specific challenges of this year's game—*Pay Dirt*. Each team is supposed to design a robot that can accomplish various tasks in a simulated mine deemed too dangerous for humans to enter. As the teams mine the various ores contained in the fictitious mine, point values of the ores will change on the "commodities market." Therefore, teams must be ready to adjust their mining strategies according to those point value shifts.

The objective of BEST Robotics is to help students become interested in careers in science, technology, engineering and math (S.T.E.M.) while including educational content about various real-world industries. This year's game theme will not only teach these principles, but may help boost entrance into career paths surrounding the mining industry and the commodities markets, perhaps introducing some students to new areas of interest. As part of each team's Project Engineering Notebook, they must

include a research paper on the mining industry and how it affects the commodities markets.

In addition to the Robotics game challenge, the students must compile a comprehensive Project Engineering Notebook, and are encouraged to develop an entire company around their product.

BEST Robotics challenge presents real-world situations the students might find in the workplace. This program initiates critical thinking and problem solving skills, tunes time management and encourages teamwork.

BEST is free to participating schools. Students from counties in Alabama and Tennessee have joined the Northwest Alabama BEST Robotics hub to participate in this exciting event that enhances students' career and workforce knowledge and skills. While balancing school and other extracurricular activities, the students have

only six-weeks to complete the design, engineering, building and marketing process. They will build, test and redesign the robot, as well as develop all their company's marketing elements by Game Day on October 10.

• BEST Game Day is Saturday, October 10 at Northwest-Shoals Community College gym in Muscle Shoals. The doors will open at 8am. The games should begin around 9:30am and usually conclude around 5pm.

The Shoals Chamber of Commerce and NW-SCC are currently looking for judges and volunteers for the competition on October 10, as well as Engineering Notebook judges, Thursday evening, October 8, 5-8:30pm. Anyone interested can contact Stephanie Newland at the Shoals Chamber of Commerce, [snewland@shoalschamber.com](mailto:snewland@shoalschamber.com), or 256-764-4661 to register as a volunteer or for more information.

# ASK THE ATTORNEY

Thomas McCutcheon

Ask the Attorney is sponsored by local attorneys, McCutcheon & Hamner, PC, as a service to the residents of NW Alabama.

**Q** My son got his girlfriend pregnant and they broke up. She now has a new boyfriend and she says that it is the new boyfriend's child. My son and I want to know for sure and do DNA testing because we don't think this girl and her new boyfriend will make good parents. It appears that drugs are involved. Does my son have the right to get DNA testing?

Stephanie, Florence, AL

**A** Your son has the right to file a petition to establish paternity. He will have to pay for the DNA testing but if he believes he is the father and files a petition with the court asking for DNA testing, the court will order the parties to appear at the courthouse and be tested.

Your son could in the same petition file to establish paternity, visitation or custody and child support.

If the mother receives state assistance, the state can go back two (2) years for child support that your son would then owe along with interest on that child support. I truly believe it is much better to get ahead of the game and file a petition right away. If you don't and your son ends up owing two years of child support plus current child support and has some bad luck and misses a few payments, he could end up in jail. It's a lot better to go ahead and establish paternity right away and also begin to establish the father/child relationship through either a custodial relationship if the mother is unfit or through a visitation schedule.

Buckle up and drive safely.

# It's Finally Over for ML Legend

**L**ast week many of those old enough to remember the greatness of Yogi Berra as a Major League Baseball player experienced great sadness with his death. It was also a time to reflect upon his successes and humility as a human being.

Berra was an extraordinary catcher and batter, who at only 5' 7" tall had 358 home runs, 90 more than anyone else his size. He also struck out less than one time for every 20 plate appearances.

Yogi, whose given name was Lawrence, played in a record fourteen World Series for the New York Yankees. He was on the winning team ten times in his career that spanned 1946-1965. He was an American League All-Star for an amazing fifteen consecutive years. Berra led American League catchers in home runs and RBI every year from '49-'57. He was also the catcher of Don Larson's perfect game in '56, the only perfect game pitched in World Series history. In the minds of many, Yogi Berra WAS baseball. He was also a naval D-Day veteran fighting from a boat at Omaha Beach.

Despite protests to the contrary by Hanna-Barbara, it is widely accepted that Yogi Berra was at least to some degree the inspiration for the 1950's cartoon character, Yogi Bear. Berra considered suing the character's creators, Hanna-Barbera. They claimed the name similarity was coincidental, but everyone

### Lodging Tax Support

Editor:

As a member of the Alabama Mountain Lakes Tourist Association board, I would like to be sure that your readers understand that AMLTA is supported overwhelmingly with tax dollars from lodging. Those taxes total around \$1 million each year.

Your story from September 23 (AMLTA's Best in Tourism) didn't mention the lodging tax dollars spent to support AMLTA. Rather, the article gave the impression it is simply an organization supported by the membership.

Portions of Colbert and Lauderdale counties lodging taxes supported this organization in the amounts of \$22,385 and \$95,052 respectively in 2013.

In addition, any local business that wants to be a member must pay fees to the organization for services.

### Literacy Day Lessons

Editor:

When I went on the internet to check my e-mail on September 8, I was immediately confronted with suggestions about celebrating Literacy Day. I had never before heard of such a day, but I have an observation. All three branches of our federal government are deficient in literacy.

A simple definition of a literate is "one who is able to read and write." It seems that the President, all of his advisers and cabinet members, a majority of both houses of Congress, and the Supreme Court are unable to read and comprehend the simple language of the

**“You can't pick and choose what you would like to be illegal..."**

Constitution of the United States. They don't seem to be able to understand that the First Amendment prohibits Congress from interfering with the free exercise of religion. It mentions neither public schools nor state county and city school systems. Neither do these exalted ones understand the simple language of Amendment X that tells us that powers not delegated to the United States by the Constitution nor prohibited by it to the states, are reserved to the states respectively or to the people.

I have searched the Constitution diligently trying to find any hint of a constitutional right to marriage of any sort. Obviously the framers considered the individual states competent to regulate such matters. Neither is there any hint of a right for a mother or anyone else to snuff out the lives of innocent children.

**Let the Utility Company Buy  
Your New Comfort System and  
Put up to \$1,700 in your Pocket!**

- Plus lower your energy bills as much as 20%
- Plus have no repair bills for 10 solid years
- AND no money down financing!

This offer is 100% true. There are no gimmicks, service charges, or "hidden" fees.

I know; this offer seems almost "too good." So let me explain -

Our extreme temperatures are really taking a toll on older and less efficient units. The house seems to stay too hot in the summer, too cold in the winter. *But that's not all...*

Energy costs keep going higher. (And what's going to happen this coming winter)? So high-efficiency heating and cooling systems are probably going up too.

The longer you use your older energy-robbing system, you may be *losing more money* on utilities and repairs than a new one would cost! Especially when you can...

Put up to \$1,700 in your pocket now, *and kiss repair bills goodbye* for 10 years.

Yet if I know this business (after 30 years), this offer *will not be available* when the rest of the market "wises up" and wants in. But if you act now, get the comfort now, and lock in savings now...you don't have to pay anything out of pocket.

That's it. Call Fuller Heating and Air at 256-381-7195 for your free survey soon. (*Calls are being taken 24 hrs. 7 days for this offer and may be busy. Please be patient!*)

**DAVE  
Says**

by DAVE RAMSEY

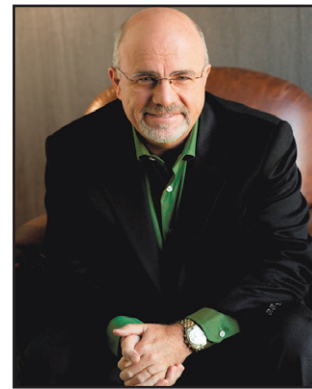

**IT DOESN'T ERASE  
YOUR CREDIT HISTORY**

Dear Dave,  
I recently tried to cancel a credit card, and the customer service representative told me that doing this would cancel out my entire 14-year credit history. Is this true?  
Keri

Dear Keri,  
No, it is not true. The rep you spoke with is either a moron or a liar.

Canceling a credit card doesn't erase a person's entire credit history, and it doesn't erase their credit history with that company or their card, either. And by the way, your credit history doesn't last 14 years. It lasts seven years, but all the information on your record that is older than that — except for Chapter 7 bankruptcy — comes off your credit bureau report. A Chapter 7 filing stays on your report for 10 years.

So, you don't have a 14-

year credit history. Sorry, it's just not there. And if you talk to this company again, you really need to find an educated rep to speak with. This one doesn't have a clue!  
—Dave

**SIMPLY PREPARE**

Dear Dave,  
With all the economic problems in the country today, what can college students do to avoid money problems in the future?  
Eric

Dear Eric,  
There are always three or four things smart things you can do to protect yourself financially. One is to live on a budget. When you give every dollar you make a name, and write it down on paper, it helps you know what your money is doing instead of

wondering where it went. Two more good ideas are staying out of debt, and saving as much money as possible. Your money is your biggest wealth-building tool, and when you're saddled with debt, your money goes to creditors instead of into your pocket. Saving money is what prepares you for the good and bad things life throws at you — whether it's putting money aside to buy a car, a house or handling unexpected things that always happen. Another thing is investing. I know you're young, but a little bit invested now could make you a millionaire when you're ready to retire. These are all simple things, Eric. But they'll make a huge difference in your financial situation now and in the years to come!

## Bring the Light

You have heard of our gatherings before and you have had your own. But they never get old. Happiness. Everything is enhanced when our family get together.

Recently, we were in the big downstairs kitchen of my brother's house, and my cup was running over, "... all over my shirt", as the little boy said on Facebook. I had to sit back and soak it in. At that moment, my brother and his wife were doing their thing - cooking - not just cooking, but caring, hosting, feeding the masses, even the friend that my son invited without telling anybody. My brother stirs. She chops. They blend. There are a multiplicity of colors on every plate all weekend long. And they don't use their dishwasher - ever. The wash, rinse, dry assembly line has incorporated everyone over the years - clean fellowship.

In this mental snapshot moment, the aunties are around the kitchen table making life plans for our nephew. It's getting loud because they and our son-in-law are trying to explain to him what true love feels like. They are telling him to be patient. He will leave this conversation with a new perspective to consider.

At this moment, I can see the uncles and my husband in the adjacent den watching football - doing their running commentaries, yelling at the TV, and sharing stats with each other. I am so glad that they have each other, because when my siblings and I get together we tend to resort back to that "us" syndrome. We focus a lot on each other, but after 30+ years our spouses have come to expect this. It has made our mates be really good friends.

In the same glance with the uncles, I see our youngest son lying under the ping pong table with his girlfriend talking with his friend who is sitting cross-legged on the floor against the wall. Our son is happier

than he has ever been. No drama there, just young love, full of respect, adoration, and communication.

When my glance comes back into the kitchen, I see our daughter talking to her brother with her arm around the shoulders of his girlfriend, who she just met for the first time this weekend. Welcoming. The girlfriend loves the Lord and our son loves her, so, of course she would be well received. It's an easy visit.

Then as I come back to myself, there is Ruby, our grandbaby, straddling my leg, riding horsey on my knee and squealing out loud. She is six months now. She is well and beautiful. Innocent and filling us with hope. Blessed.

During this captured moment my thought is that when our family is together it's all light - there is no darkness. In our times together I get my cup filled. It's like a little taste of heaven. Sweet, safe and beautiful. I am not saying that we don't have our struggles, but they are not with each other. You see, we will talk till the morning comes to get things straight. Honesty. We admonish each other. Encouragement. Whoever really needs, gets help. Concern. If you are winning, we are there clapping. Family.

Life is so short. Don't spend it bickering. Do your part. If you're not speaking to your sister or if you are yelling at your mother, you are wasting time. You are spending your life's time in the negative. Be kind to the people in your house. Send the darkness running. Push self aside. Talk. Love. Care. Joy will come. Sit back and look at your life. Do you like what you see? If not - stand still - stop the chase. Walk away. Apologize. Do what you need to do to bring the light. Only you can stop your strife. Live well. Laugh loudly. Have so much fun that it runs all over your shirt! *Email comments or suggestions to CatnKids1@gmail.com*

Commentary...

**Legend...**

Continued from Page 14

knew that Yogi Bear's introduction in a 1958 *Huckleberry Hound* cartoon at the height of Yogi Berra's fame was not accidental. Yogi got his nickname from a friend as a teenager playing American Legion Baseball. The friend noticed a similarity between how Berra sat on the ground awaiting his turn at bat with that of a Hindu yogi's cross-legged pose. The friend decided to call him Yogi, and so did everyone else.

It's only appropriate in remembrance of Yogi's passing last week at the age of 90 to close with some of his legendary wit as detailed by *Baseball Almanac* and *BrainyQuote.com*

- A nickle ain't worth a dime anymore.
- Baseball is 90% mental. The other half is physical.
- How can you hit and think at the same time?
- I can see how he (Sandy Koufax) won twenty-five games. What I don't understand is how he lost five.
- I never said most of the things I said.
- It gets late early out there.
- It's like deja vu all over again.
- Nobody goes there anymore because it's too crowded.
- It ain't over til it's over.
- You can observe a lot by watching.
- When you come to a fork in the road, take it.
- The towels were so thick there I could hardly close my suitcase.
- The future ain't what it used to be.
- Always go to other people's funerals, otherwise they won't come to yours.
- I usually take a two-hour nap from one to four.
- I always thought that record would stand until it was broken.

News & Tips on the Shoals Market

## Neighborhood - Part 2

"If you want to have good friends, be a good friend". That's one of those life lessons that some people learn early on, some later in life, and some just never learn. I think the same philosophy applies to neighbors. In this second part of a series on neighborhoods, let's examine what makes great neighborhoods great.

First, there are things like convenient location and lifestyle match. Those things depend a lot upon the homeowner. A home in a hip downtown area would be convenient and fun for some, but the exact opposite for others. In the same respect, convenience to schools is a big deal for parents, but not so for those who don't have school-age children. Those variables are not really things that you can change about your own neighborhood, so choose carefully!

People who love their neighborhoods often talk about how good their actual neighbors are, and that's something that's entirely in your hands. In this age of super-busy lifestyles and technological communication, the "community" of neighborhoods can suffer. I think it's important to actively try to be a good neighbor. It can be as simple as just waving and saying "hi" when you pass. It's not as common as it used to be, but taking something to eat over to a new neighbor's house is a wonderful way to get to know them and make them feel welcome. Keeping an eye out for the homes and property around you is another way to be a good neighbor. Whether or not a neighborhood has an active Neighborhood Watch program, it's important to keep an eye out for unusual comings and goings. It's a good feeling to know that your neighbors are looking out for your property as well as their own.

Speaking of looking out for property, pride of ownership is another big neighborhood asset. Keeping your grass cut, shrubs trimmed, house maintained, not letting debris of any sort linger on your lawn—these are all signs that you value your home. They're also the hallmarks of a nice neighborhood. You want your neighbors to do those things, and believe me, they want you to do them. And in the spirit of being a good neighbor, if you know of someone near you who could use a hand, offer to help them out with things like that. You might start a trend in your neighborhood, and might also make someone's day. - mr

### Where Is The True Justice?

Editor:

It amazes me that the Ladies of *The View* television show condemn Kim Davis, the clerk in Kentucky for not issuing marriage licenses to gay couples because now they say it is the law of the land. They say Kim is breaking the law. Yet, they believe it's okay for illegal immigrants to cross our borders and they should not be deported. You can't pick and choose what you would like to be illegal according to whatever suits your personal point of view. Why didn't President Obama go to jail for not enforcing the laws on our borders? And other laws that our President has broken and violated our Constitution that other Presidents before him have been impeached for doing less. Where is true justice and where are our elected Senators and Congressmen who are all talk and no action?

It's no wonder other countries look at us as being weak. We can't even take control of our own. We are the laughing stock of the world. I guess it's easy to push around Kim in Kentucky because she is just a clerk.

No one in this country needs to tell me about justice and equality.

**Leaving God No Alternative**

In Noah's day: **Genesis 6:5** "And GOD saw that the wickedness of man was great in the earth, and that every imagination of the thoughts of his heart was only evil continually." **Genesis 6:7** "And the LORD said, I will destroy man whom I have created from the face of the earth; both man, and beast." And God did. **Genesis 13:13A**- "But the men of Sodom were wicked and sinners before the LORD exceedingly." **Genesis 19:14B**-.... "for the LORD will destroy this city." And God did. **Genesis 19:24-25** "Then the LORD rained upon Sodom and upon Gomorrah brimstone and fire from the LORD out of heaven; And he overthrew those cities, and all the plain, and all the inhabitants of the cities, and that which grew upon the ground. "That place is still barren today, 4000 years later. These are just two instances where the moral condition of the earth moved God to action. **God had no alternative.** God's holiness, righteousness and perfection, demand justice and judgment for immoral living.

We are reminded again in **Matthew 24:37-39** "But as the days of Noe (Noah) were, so shall also the coming of the Son of man be. For as in the days that were before the flood they were eating and drinking, marrying and giving in marriage, until the day that Noe (Noah) entered into the ark, And knew not until the flood came, and took them all away; so shall also the coming of the Son of man be." We are admonished in **Luke 17:32** "Remember Lot's wife." Dear brothers and sisters in Christ; being unfaithful & dabbling with sin and playing around, will get you into deep trouble. Keeping yourself pure will keep you from a lot of embarrassment when the Lord shows up. **1 John 2:28** "And now, little children, abide in him; that, when he shall appear, we may have confidence, and not be ashamed before him at his coming." Why a lot of Christians don't want the Lord to come is they are ashamed of the way they are living. **Hebrews 10:25** "Not forsaking the assembling of ourselves together, as the manner of some is; but exhorting one another: and so much the more, as ye see the day approaching." Are you trying to hide your behavior? Stay faithful and clean and don't give God an occasion to find fault with you.

starts at 8pm. Tickets are \$20 in advance and may be purchased by calling 256-764-1434.

Before there were Kings of Leon, Keys of Black, or Whites of Jack in Nashville, there was Webb Wilder.

Wilder's new album was released last week called *Mississippi Moderne*. Pronounce it however you like, but Webb pronounces it "Moe-durn." It's his first album in five years.

"I hate to use the word 'mature,'" Webb says. And so we shall not.

Born more than 60 years ago in Hattiesburg, Webb Wilder is not mature. He is the last of the full-grown men, and the last of the boarding house people. He is a unique presence among the peasants. He is a force for good, and a friend to animals.

He is a Mississippi Musician Hall of Famer and excited to be in the Muscle Shoals area for a show.
