Class of 2020 gets a send off

Graduation delayed by pandemic concerns

On Sunday, July 26th, the Elkhart Lake-Glenbeulah High School held its 102nd Commencement Exercises. The delay, of course, was due to concerns with the COVID-19 pandemic. To have one's senior year end abruptly in March was certainly not foreseen and then to have a "virtual" Commencement seemed to be a poor ending to an otherwise excellent scholastic education experience. Through conversations with students, parents, administration, Board of Education members and faculty it was generally agreed that it was necessary to hold an "in person" ceremony to celebrate the achievements of the Class of 2020.

A plan was constructed that would respect the traditions of high school graduations and simultaneously follow the guidelines of the CDC for limiting exposure to the Novel Coronavirus:

- 1) The ceremony will be closed to the public; attendance by invitation only.
- 2) Each graduate will be allowed only 4 tickets for family members.
- 3) Graduates and attendees will be socially distanced and all are encouraged to wear face masks.
- 4) Pre-ceremony gatherings will be discouraged. Class of 2020 will assemble in the Mauk Auditorium and will be socially distanced. A group photo will be taken at that time and it will be done quickly to minimize close contact.
- 5) Faculty will be seated at the rear of the Class of 2020 and will be socially distanced.
- 6) Dignitaries on the podium will be minimized.
- 7) Handing out of diplomas will be done by one individual and handshakes, etc. will be eliminated.
- 8) After completion of the ceremony, graduates will leave the site accompanied by their family members and will exit the building as a group and depart. Social gatherings, photos, etc. will be done off campus.

LesTension Photo

The Elkhart Lake-Glenbeulah High School Class of 2020 celebrated an end to the odyssey of their senior year on Sunday, July 26 with a delayed, and social-distanced graduation celebration. Principal Ryan Faris served as the main speaker for the milestone event.

Wisconsin partners produce new Road America wines

Road America Red and White wines are the result of two great Wisconsin institutions coming together to support local industry, Road America and Door Peninsula Winery.

Just as Road America has grown and supported their local community Door Peninsula has done the same, supporting local agriculture and investing back into the state. The resulting collaboration has brought about a smooth dry red wine and an easy drinking semi-dry white wine. Perfect for race day or anytime.

Door Peninsula Winery, an official partner of Road America since 2019, was founded in 1974 and has grown tremendously over the past 46 years. The winery began by taking residence in an old 1800s

schoolhouse and opened with just 4 varieties of wine.

Today Door Peninsula Winery houses a sprawling production facility, multiple tasting rooms, a large retail shop, and a distillery all on the original site.

They produce and bottle over 60 wines and hard ciders right in Carlsville, Wisconsin, in the heart of Door County. Working with produce from their own vineyard, other grape suppliers, and local orchards each wine is crafted to be unique, approachable, and let the fruit or grapes be the star."

The new Road America wine is available at the Paddock Shop retail store at Road America and makes a great souvenir or gift.

Sharing our Journeys

By Carol Edler Baumann
with contributions from Richard Baumann

Wisconsin smells

No, not the stinky kind of smell, but the exhilarating scents of nature and life's activities.

Let's start with spring - what's better than seeing the intensely colorful flowering Crabapple trees and smelling their delightful fragrances. The white blossoms are beautiful but I think the pink are more beautiful. The dark maroon certainly fall in the beautiful category but I think the pink still beats them out. And have you noticed—the blossoms fill every little sprig on the tree so all you see is one massive display of flowers.

I think another great spring favorite are lilacs. They are not only pretty but their distinct aroma just screams spring all over. (Note: Take a bouquet inside and you wonder where did all those ants come from?)

During the summer months I really do like the smell of freshly mowed grass. I don't want to do any mowing - I prefer just to enjoy the sheared grass that transforms the long straggly grass into a lush carpet of green. (Note: It's unfortunate that I happen to be allergic to grass—a bummer, huh?)

Now comes the "life's activities of smells. Of course, what else other than the bratwurst smoke floating through the air and tickling your nose so you "just have to have one." My husband doesn't enjoy the actual frying and I

won't do it so we usually gobble one up at the local grocer store Saturday fry out or at a picnic. But with the dreaded virus shutting things down we may have to break down and fry some brats ourselves.

Well, then we come to autumn—really my favorite time of year. Heat is down, humidity is gone, fresh fall air invigorates the body. Burning of fallen leaves is no longer permitted - kids can still make piles and jump into them (thud, thud - a pile of leaves isn't really very soft). I guess the biggest delight of autumn (fall) is the spectacular color that the dying leaves give us - especially the Sugar Maple trees.

Another great smell of autumn is on Thanksgiving day when that turkey is being roasted to a golden brown—smelling it is almost as good as eating it.

And now Winter arrives—snow doesn't smell and the ice cycles are also odorless but we do have the luxuriant smell of the Christmas Tree. Got an artificial tree? Well, then cheat a little and get an aerosol can of Pine Scent.

So our nose can guide you through the seasons. Unfortunately I have lost m sense of smell due to having taken allergy pills most of my life. However, I can still see all that the different seasons bring - I just can't smell it.

All in the family for 65 years

Wiese family instrumental in growing Quit Qui Oc Golf Course

By Mike Mathes

For three generations, one of Elkhart Lake's most prized recreational resources has grown under the stewardship of the same family.

This year, the Wiese family celebrates 65 years in the business of providing fun, recreation and a great social outlet at Quit Qui Oc Golf Course.

Over those years, their focus has remained the same—they try to make the club feel like a home for others.

"It's a great place we all have to enjoy here in Elkhart Lake. We still want Quit Qui Oc to be a place where anyone feels comfortable, like it's their second home," owner Rachel Wiese Montaba said.

"It doesn't matter what you do or where you are from. People who come here to play golf or enjoy our other amenities are all considered friends."

Rachel, the granddaughter of Carl and Edna Wiese, and her husband Todd, are the current owners and golf professionals at Quit Qui Oc Golf Club. They know how to share hospitality to their extended family and friends at Quit Qui Oc, because they have experienced it firsthand.

Rachel grew up at Quit Qui Oc, playing golf and working during the ownership tenure of her parents, Tom and Lynn Wiese, as did her brother, Adam and sister Anna.

She went off to school to become a teacher, but like her father before her, she gravitated back to Quit Qui Oc in 1996. The former University of Wisconsin standout golfer enrolled in the LPGA membership apprenticeship program, and today holds a full Class A teaching membership as an LPGA professional.

Fell in love with course, people

Todd came up through ranks a bit differently, getting hired as the assistant pro by Tom Wiese in 1991. The Ozaukee native had intentions, but soon found Elkhart Lake and Quit Qui Oc captivating.

"I fell in love with Quit Qui Oc, the people and the customers in the area. I really never wanted to leave after that," Montaba said.

As head pro Tom Wiese was moving into the presidency of the Wisconsin PGA, Todd took over the daily operations.

"When I got here, I worked a lot with Rachel and her brother. We partnered well in the daily operations and spent a lot of time together," he said.

For Rachel and Todd, the special friendship turned into a dating relationship and eventually a marriage in 1998.

"We have been best friends all the way through this. We have a lot in common and common goals," Todd said. And neither has to tell the other about their day at the end of the work day. They have already lived it together.

Common family thread

For Todd and Rachel, the common thread in the Wiese family history at Quit Qui Oc dwells on that feeling of making the golf course and the restaurant a fun place to be and a place people always want to come back to.

It dates back to when her grandparents took on the reins of the golf course back in 1955—when it was still just a nine hole

Lynn and Tom Wiese, second generation owners of Quit Qui Oc Golf Course handed the baton of management to current owners Rachel and Todd Montaba. Rachel represents the third generation of family ownership at the Elkhart Lake Golf course and restaurant.

Hole 15 is one of the most picturesque and difficult!

A historic photo shows excavation of pond on 13.

Carl and Edna Wiese are pictured with their granddaughters Rachel and Anna.

Tom and Lynn Wiese are pictured on the putting green with their daughters.

course. The back nine had been sold off during World War II.

During their tenure, Carl and Edna Wiese gradually began to acquire the land for the back nine, reopening that section of the course in 1962.

Tom Wiese, one of their sons, was 11 years old when they bought the golf course.

Tom grew up playing golf and working at Quit Qui Oc, then went to school to be

a golf course superintendent. He didn't necessarily have his heart set on coming back, but like his daughter, he returned to work in the family business.

Starting as the grounds keeper, Tom Wiese moved into a position of managing the course after his father passed away in 1977.

Tom went on to take the PGA instructional program, earning his PGA membership as he ran the inside operation of

the business.

A long-time Wisconsin PGA Board member, he served as the organization's president in 1995-96.

Prior to his retirement in 2010, Tom Wiese was recognized on three separate occasions with the Horton Smith award for golf education.

Tom's wife, Lynn, held the position of

Family

continued from page 4

office manager for many of the years he managed the course.

"Tom and Lynn are both still actively involved in consulting and special projects at Quit Qui Oc," Todd said. "They are still wonderful advisors for us."

Emphasis on juniors

Rachel recalls that her grandfather made it a point to emphasize junior golf, something her family continues to hold in the forefront.

"Grandpa was big on junior golf, and he made it affordable for young golfers to come out and play," she said.

"We have tried to continue that."

Today, Quit Qui Oc offers three unique programs for junior golfers, including junior lessons, a prep league, and a PGA junior league.

"We have a number of players who have grown up here, played here and done well in competitive golf. Many have gone on to play at State," Rachel said.

Todd and Rachel continue to carry Tom's emphasis on teaching forward into today's business.

Both are trained professional instructors, and both offer lessons, along with a variety of class opportunities.

Accessibility to golf is also a critical focus for the Quit Qui Oc owners.

"We have really tried to be welcoming to everyone," Rachel said. Quit Qui Oc has made a point to expand its programming and league opportunities for women golfers."

Playability of course

Due to its timeless design, Quit Qui Oc continues to get high marks for its playability.

"We have been rated highly as a 'beginner friendly' golf course," Todd said. "Any of the improvements we have done over the years have only been done to maintain and improve the integrity of the golf course—helping to keep it playable for all levels of golfers."

"That's unique in today's golf world. A

lot of courses are being built too long and too hard," he said. "Our layout hasn't been compromised by time. You still have to hit good shots to score, but it remains fun for the average player."

Through the years, Quit Qui Oc has made some significant changes.

The back nine has seen many of those changes, with the old #10 par three being replaced with #14. In 2000, the 16th hole was converted from a par 3 to a par 4, and hole 17 was revamped for safety and re-design purposes.

A third nine, known as the Glacial Nine, was opened in 2001, including a new practice range and teaching facility.

Business modeling

In a large sense, the traditions established by Carl and Edna Wiese, carried on through Tom and Lynn, have been the traditions that Todd and Rachel adhere to.

"We love coming to work," Rachel said. "We have the good fortune of being in the business of helping other people enjoy their lives. To us, like our family before us, it's all about building a community of people that are welcoming to all walks of life—and having a good time with whatever they choose to do at Quit Qui Oc."

Rachel and Todd have ingrained that same philosophy in a trusted staff that also shares their style of hospitality. "It's something we do as a group," she said. "It's important for us to learn people's names and make them feel welcome here."

Beyond golf activities, patrons at Quit Qui Oc can enjoy dining at the restaurant, playing cards, Mahjong or other activities.

"We try to tie all that together to make this a community of fun and leisure time activities. Golf just happens to be one of those activities," Rachel said.

Todd added that many of the events at Quit Qui Oc are built around having a good time or socialization afterwards. Again, that is a continuance of traditions that began with previous members of the Wiese family.

Photos from a bygone era at Quit Qui Oc show a pair of women playing the course in the early days, above.

Wolf Motorsports grows over decade

By Mike Mathes

for the Depot Dispatch

Wolf Motorsports is celebrating its 10 year anniversary this year.

But, the celebration of the spirit that founded business runs much deeper for owner Bart Wolf.

His love of racing and cars celebrates a 40 year anniversary this season, dating back to when he was just seven years old.

Wolf started his connections with racing back then, and he has turned that love into a lifelong passion and the emergence of his successful business ventures.

“They say if you love what you do, you never have to work another day in your life. I am fortunate to be involved in something that our whole team is passionate about and loves doing,” Wolf said.

Both his career and his connections to Elkhart Lake are lifelong. Wolf’s grandfather, Harold, ran an excavating business in the area. His father, Mike, has served on the village board. Together the family operated a Chrysler-Jeep dealership in the area. Bart’s connections with the automotive business run that deeply. So do his connections with Road America.

The Wolf Motorsports Team has carved out of winning reputation, supporting cars and drivers not only at Road America but at nationwide racing venues.

“We have been fortunate to compete at some of the really great tracks around the country, including Daytona and Sebring,” he said.

Wolf Motorsports is involved in a wide range of racing circuits, including vintage races, IMSA and Sports Car Club of America.

Two years ago, Wolf competed in the Mazda Prototype Challenge and battled for the championship, holding the lead in the race with just 17 minutes to go.

An unfortunate bump out bounced them to second, but the result was an impressive statement about the team. “We are fortunate to have such a great group of employees who form our team and were able to challenge for a championship,” Wolf said.

Services offered to drivers

The successful approach of the Wolf Motorsports team resonates with other drivers who contract their services at the track. Wolf Motorsports provides drivers with track support and testing services.

During July’s WeatherTech International Challenge with Brian Redman, the Wolf Motorsports tent was responsible for running 11 cars.

“When these drivers are able to break away for racing, they just want to focus on driving. We allow them to arrive with their helmet, and we provide everything else.”

Parallels for community

In the same way that Wolf Motorsports takes care of high end race drivers and their cars at the track, they also offer great services to every day car owners and drivers in the community.

The Wolf Car Care Division is housed at Wolf Motorsports Villas on Highway 67 near the south entrance to Elkhart Lake.

There, the same team of mechanics that competes for high level racing championships brings its passion for performance to maintaining every day vehicles.

“At Wolf Car Care, we do work on minivans, sedans and all sorts of every day cars,” Wolf said.

“Our goal is to provide excellence in cost effective service and repairs for the people of this area,” he said. “It’s a natural marriage for our staff, given their passion for all things mechanical and their great attention to detail. Our team is the guys that are working on cars on the front lines. They understand what it takes to keep vehicles performing properly.”

Wolf Car Care also provides work on custom and performance cars. “We also have a couple of team members who are particularly sharp with carburetors, which no one seems to work on any more,” he said.

Wolf Power Sports

A relatively new division of the Wolf team’s efforts is known as Wolf Power Sports.

“We saw that there was a definite void in the market for doing repairs on power equipment,” Wolf said.

Wolf Power Sports can handle repairs and tweaking on just about any form of power equipment, ranging from motorcycles, to ATV’s, jet skis, golf cart and snowmobiles.

As a Parts Unlimited vendor, Wolf Motorsports has access to a wide range of after market parts for all the power sports industry stuff.

Positive growth with village

One of the most visible projects for Bart Wolf and Wolf Motorsports has been the

successful venture into the Motorsport Villas of Elkhart Lake complex, completed in 2018.

For Bart Wolf, the vision to undertake such a project started when he saw local resorts beginning to sell out their garage space.

The idea took off like wildfire.

He had faith in the concept from seeing how it worked in larger communities, then used that vision to sell the idea to the village board.

Within four and a half months, he had already sold 35 of the 36 units.

“The village was great to work with,” he said, as the Elkhart Lake Village Board found ways to support infrastructure development through tax incremental financing.

“From the start, I knew we had to build this project with great care and esthetics. At that time the new firehouse was at the

south entrance of the town and we had to do an equally attractive building for the community,” he said.

The union between the developer and the village paid off, as Motorsports Villas of Elkhart Lake added about \$12 million to the tax roll.

But Wolf is equally proud of one other connection to the village—the people connection.

“All of our employees are local,” he said. Three of the five have graduated from Elkhart Lake Glenbeulah High School. “So have a few of our weekend warriors,” he said, speaking of those who work other jobs but join the team for race weekends.

“It’s really neat to have a group of people mostly born and raised in Elkhart Lake that can compete on an international level and do extremely well,” he said. “It shows you don’t have to be from Indy or Europe to find your way to the top of the game.”

Grads

continued from page 1

With fantastic cooperation by all concerned, the ceremony was pulled off with a minimum of risk and everyone seemed to be satisfied with the effort to conclude the high school career of the Class of 2020.

Honors system

Elkhart Lake-Glenbeulah High School has abandoned the traditional Valedictorian/Salutatorian designations for graduating seniors in favor of the Laude System.

Typically, the Laude System recognizes three levels of honor graduation: Cum Laude (with praise), Magna Cum Laude (with great honor) and Summa Cum Laude (with highest honor).

The laude score is based on a formula in which students are rewarded for taking classes with higher rigor. The program is based on a two tier system: tier 1 worth 1 point per semester awarded to transcribed and AP courses, and tier 2 worth .5 points per semester awarded to

advanced standing and teacher selected courses.

Cum Laude - 7 to 10.5 points; Magna Cum Laude - 11 to 14.5; and Summa Cum Laude - Greater than 15 points.

A minimum GPA of 3.25/4.00 is needed in order for a student to be recognized in the laude system.

Ground breaking held

Work begins on Kohler Marsh Education Center project

By Marjean Pountain

It was a beautiful summer afternoon at the Broughton Sheboygan County Marsh Park on July 29 and the Friends of the Sheboygan Marsh were happy to host many of the major donors, dignitaries and supporters who came to participate in the groundbreaking ceremony for the long-awaited multi-purpose, environmental educational facility.

Trees have already been harvested and the site cleared in preparation for construction to commence. Joseph Schmitt Construction is the general contractor overseeing the project, which includes generous donations of numerous subcontractors providing labor and materials to supplement funds raised to complete construction. Sheboygan County which will benefit long-term from the new asset in the park is providing work and funds for the infrastructure, as well as the restroom/shower facility which will service the campgrounds and be contained in one wing of the building. Meeting facilities will be available for use by local community groups. YMCA Camp Y-Koda's environmental educational classes have outgrown the semi-trailer, and the building will be used as their classroom to meet the needs of approximately 1,500 students annually involved in their educational classes, as well as students who visit on field trips from countless schools in Sheboygan and adjacent counties.

The program included recognition and a few words from many who were heavily involved in developing the concepts for the structure and then the fundraising to make it happen, prior to the ceremony involving many of them putting the first shovels in the dirt.

Lil Pipping, President of the Friends of the Marsh is credited with spearheading the first project wherein the observation tower on the north end of the marsh was built in 2006 with funds raised from donors by the Friends of the Marsh, a non-profit organization whose primary goal is to promote the marsh and knowledge thereof. Shortly after the dedication of the tower, the Friends began brainstorming about what else they could do to further enhance the Sheboygan Marsh. The trailer Sargento Foods had so generously donated decades earlier no longer met the needs of its users, and a conceptual plan was created of a structure for multi-purpose use to replace it.

Lil Pipping told the story very well. "In 2011 we got an anonymous donation for \$25,000 to start planning the project. In December of 2013 Sheboygan County Board gave the go-ahead, and in March of 2014 we retained Joseph Schmitt Construction who had built the observation tower. Early in 2015 Kohler Company Stewardship division approached us to work with us on this project and the rest is history. As with the Tower, we've appreciated donations from as little as a few dollars upwards to multiple digits. People have fond memories of the marsh from their younger years and we so appreciate and welcome them to be a part of this project. There is ongoing opportunity for a few step plaques on the tower and generous donors large and small will be acknowledged in the new educational building as well that will be enjoyed for generations to come."

Naming rights are being assigned to the major donors for various components of the building, based on donation size and

their preference. The Kohler Company has chosen "Kohler Center for Marsh Education" as the name for the structure.

Laura Kohler, senior vice president at Kohler Company shared a few words with attendees. "We are proud to support The Friends of the Sheboygan Marsh in their efforts to promote the environment and conservation through education, hands-on activities and advocacy." She went on to commend the Friends in not only their hard work and several years of fundraising, but for incorporating principles of conservation and sustainability into the building's design and construction. "That alone will teach very important lessons to

our next generation" she remarked.

Infrastructure work is underway and construction of the building will soon commence. It is anticipated dedication of the Kohler Center for Marsh Education will take place in June of 2021. If you haven't visited the Sheboygan Marsh Park recently, we welcome you to come out, climb the tower, and watch the building's creation at the other end of the park. A big thank you to all who have already donated to this project, and we welcome ongoing donations to sustain educational programs for the future. Visit friendsofshemmarsh.org for more information and updates on the project.

Road America featured in August Insight pub

Representing America's National Park of Speed, Road America President and General Manager Mike Kertscher is pictured on the cover of Insight magazine, aligning readers with the major monthly feature.

The cover story for August focuses on the planning and preparation needed for a major sporting venue to pull off successful events.

Given the challenges COVID-19 has brought, planning and foresight have become more relevant than ever.

Kertscher reflected on the efforts by Road America to invest nearly \$20 million in site improvements over the past decade. They include a new and improved winner's circle with a big screen and podium, a paddock, a fan walkway with commemorative pavers available for purchase, expanded camping area, remodeled restrooms,

repaving the CTECH Manufacturing Motorplex and big screens placed at all the entrances.

Kertscher said these moves paid dividends and positioned the organization well for this unique time.

The story also shares insights from Road American Chairman of the Board Ron Pace and Elkhart Lake Tourism director Kathleen Eickhoff.

Insight, founded in 2008 is committed to fostering relationships among business and community leaders and others who care passionately about the economic success of Northeast Wisconsin, a community of 1.2 million people in the New North.

Insight Magazine is one of several Insight publications that serves business-to-business clients in northeast Wisconsin.

Work is being done to install a filter to help keep phosphorus out of Elkhart Lake.

ELIA works with county

Recently the Sheboygan County Office of Planning and Conservation took the next step in the effort to remediate the discharge of phosphorous nutrients into Elkhart Lake from the southwestern watershed area surrounding the lake. Sheboygan County and ELIA set up a phosphorous (P) filter on County A in the fall of 2017 to help reduce phosphorous and nutrient runoff.

Reducing the flow of sediments and nutrients into the lake is critical to gaining control over the increasing issue of weed growth and aquatic invasive species-caused habitat destruction. In the ensuing months following installation of the filter bed, the water sample testing did not produce consistent results and questions arose about the efficacy of the material selected for use as the filter media. With the help of CBC Engineers out of Oconomowoc, a review of the filter design was done, and it was determined that the material used as media had become "cemented." The media was too small in diameter and was becoming impacted by the accumulation of sediment that was part of the water being processed through the filter system.

The media was becoming a solidified mass and needed to be replaced.

Eric Fehlhaber, project leader from the county, Todd Weik from CBC Engineers, and their teams worked through the replacement options and selected blast furnace, specially treated slag which was

3/4" in average size, and considerably larger than the fine material initially selected.

The present P filter is set on relatively level ground, so the points of water entering the filter and then exiting are quite close topographically. Ideally, there would be more pitch to the installation so we would have gravity helping move water through, but this was the only site that was offered for the installation. We appreciate John Jens for his interest in helping provide a solution for phosphorous remediation by offering the land allocation for the siting of the P filter.

Water sampling will be done periodically over the coming months from the updated filter system. If the hoped-for results materialize, we look forward to adding to the system a flow meter so we can assess the actual volumes involved in what the filter is processing as well as determining the percent amount of phosphorous reduction that is taking place.

The area in which this filter is located is a critical part of the Elkhart Lake watershed. Along with the older septic systems along the southern lakeshore, this area needs to be studied further to see what additional remediation efforts can be made.

Elkhart Lake Improvement Association (ELIA) is a volunteer-run, member-based, 501c3, non-profit organization. ELIA's mission is to preserve, promote and enhance the general welfare of the lake, and the safety of those that use it

Dr. Courneene named new principal

Dr. Jeanne Courneene has been named the new Elkhart Lake-Glenbeulah Elementary/Middle School Principal, taking the place of Todd Fischer, who is leaving the district at the end of July.

After several interviews with a staff/parent committee tasked with finding a replacement for Fischer, Dr. Courneene was a unanimous selection presented to the Board of Education for approval.

Dr. Courneene comes to ELGS with many years of experience as a middle school teacher, assistant principal, principal and district administrator.

She was most recently at Cedar Grove-Belguim where she served in the roles of M.S. teacher, principal and district administrator from 1998 to 2019.

She took early retirement last year, in large part to care for her mother and moved her to WI to be nearer to her. Once her Mom was settled, Jeanne was again ready to resume her passion -- being a principal and working with students and staff. Her skill set includes building relationships in a collaborative manner,

Dr. Jeanne Courneene

extensive curriculum knowledge, strong work ethic and an overall approach to dealing with all situations--including the Covid Challenge -- in a can-do, let's meet it head-on attitude.

While she officially starts August 1 Dr. Courneene has already been involved in planning for next year and has been present at school most days.

How to Target Anyone, Anywhere at Anytime

A deep dive into digital advertising

Joe Mathes - Wisconsin Media Group

Joe Mathes from Wisconsin Media Group will provide a sweeping presentation on the digital advertising tactics available to small and medium sized businesses.

This session will review traditional digital tactics such as search engine marketing, search engine optimization, targeted display and email. Joe will also dig into and discuss the latest, cutting-edge "creepy-cool" tactics such as IP targeting, DID LookBack and Device ID Address Match.

Of course a presentation on digital advertising would be incomplete without a segment on measuring effectiveness. Joe will share actual local case studies and how to get the most out of Google Analytics and other metrics.

A lifelong veteran of the newspaper industry, Joe Mathes founded Delta Digital Strategies (DDS), a local, full-stack digital advertising agency in 2017. In less than three years, DDS has grown to nearly 100 clients in five states.

Kingsbury village on pace for Sept.

Van Horn Real Estate Project nearing its completion stage

Van Horn Real Estate and Quasius Construction recently celebrated a major milestone in completing the foundation for Kingsbury Village Town Home Apartments. The 33-unit luxury apartment building, with fantastic views of the Sheboygan River, broke ground last October on the former Kingsbury Brewery Site at 10th Street and Wisconsin Avenue, Sheboygan.

“The project has been both challenging and rewarding from the beginning,” said Chris Merklein, Director of Van Horn Real Estate. “The former Kingsbury factory was literally demolished and buried where it stood and soil conditions had poor bearing capacity.” Developers prior to Van Horn were unsuccessful in designing a cost-effective foundation system; but the new team, including Quasius Construction and Distinctive Design Studio, were able to design a sequence of helical piers to provide necessary support. Now that the foundations are established, the framing of the buildings are mostly complete with electrical, plumbing, and HVAC work being finished in many of the units. Final color and material selections for the interior and exterior are complete and the underground storm water retention system has been installed. Chris Merklein adds, “With the structures going up, you can really see the courtyard take shape, and get a feel for what is going to be a beautiful campus.”

Kingsbury Village will include three residential buildings with a total of 33

townhouse luxury apartments. Each two-bedroom, two-and-half-bath unit features approximately 1,400 square feet of livable space and a 640 square foot 2+ car heated garage and flex space. Each unit provides private entrances and garages, with the only common areas being outside. The development also includes outdoor living spaces, with balconies, hardscape patios, and a central courtyard for outdoor gatherings, campfires and grilling. Residents will benefit from the property's proximity to downtown Sheboygan, Lake Michigan, and the Sheboygan River.

Hardhat tours of the mostly-finished units are available by reservation. Pre-leases and townhouse tours can be arranged by calling 920-400-1576. To see

floorplans and other townhouse details, please visit www.KingsburyVillage.com

About Van Horn Real Estate

Van Horn Development, LLC is a wholly owned subsidiary of Van Horn Automotive Group, Inc. Our mission is to provide support in the development and management of unique and lasting real estate projects. The current portfolio includes single and multi-family residential, retail, service, industrial, and storage. As an employee owned company, you can be assured that our properties are designed, built and managed at the highest standards – providing our tenants with comfort, safety and enjoyment.

Quasius Construction, located in She-

boygan's downtown district, delivers innovative construction solutions and services to clients throughout Wisconsin. Established in 1891, Quasius assists clients throughout their entire project life cycle, from conceptual design through construction completion, helping clients make informed decisions and meeting challenging project demands and budgets.

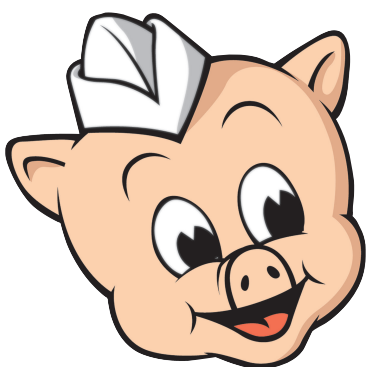

About Distinctive Design Studio

Since 2013, Distinctive Design Studio has been providing architectural and building solutions for clients looking for an innovative and creative approach to design. With a passion for creating lasting impressions in all of our client's lives, Distinctive Design Studio is an assembly of talented team members with distinguished experience in architecture and interior design. We're proud to have built a reputation as a leading architecture firm in Sheboygan Falls.

About Van Horn Automotive Group

Van Horn Automotive Group, Inc. is a family born, employee owned automotive group with headquarters in Plymouth, Wisconsin. Founded in 1966 by Joe Van Horn as a single Chevrolet dealership, and purchased by his children: Chuck and Teresa, Van Horn Automotive Group has grown to include 17 automotive dealerships, a finance company, a real estate business and several insurance companies. The group employs over 580 people throughout Wisconsin and Iowa.

Collecting coins will provide needed meals

Traveling along South Taylor Drive in Sheboygan, one can't help but notice the banners, lights and huge, pink pig flying in on the side of the road. They are meant to draw attention, create smiles, and guide drivers to the giant coin bank in the Fresh Meals On Wheels parking lot.

Bank First National, K/P Welding & Fabricating and Fresh Meals On Wheels are working together to get all the quarters, dimes, nickels and pennies sitting in people's change jars back into circulation. The effort is intended to help both local businesses dealing with coin shortages; and homebound, senior and disabled Sheboygan County residents dealing with food insecurity – in a way that brings a smile to people's faces.

"With the relentless disruption and uncertainty people are faced with these days, we at Fresh Meals On Wheels wanted to create a vibrant, happy spot that would make people smile," said CEO Kelly Anderson. "So please, be part of the change - nickel and dime Fresh Meals On Wheels, we would greatly appreciate it!"

Fresh Meals On Wheels Board President Saunders Kohn came up with the idea of a coin collection. He and his crew at K/P Welding including Brett Daniels and Nic Vugrinovich designed, engineered, and manufactured the big black bank with a pig on the front that sits in the Fresh Meals On Wheels parking lot near the flying pig. Coins may be dropped off any time day or night.

After the coins are collected, Bank First National will count them and put them back into circulation. The value of the collected coins will be credited to Fresh Meals On Wheels to feed Sheboygan County senior and disabled residents who are most at-risk of COVID-19.

"We have tried to combine fun and philanthropy in a safe, socially distant way. We hope people enjoy the result," Anderson said.

Fresh Meals On Wheels is located at 1004 S. Taylor Drive across from Aldi. For more information, call 920-451-7011.

About Fresh Meals On Wheels

For 50 years, FMOW has provided tasty, nutritious, home-delivered meals to Sheboygan County's senior, disabled, and homebound residents. Since 2012, meals have been made in FMOW's Christopher Family Kitchen using fresh, local ingredients from the FMOW gardens, or donated by local farmers and gardeners. During the COVID-19 pandemic, FMOW has gone to no-contact, weekly meal delivery. Volunteer Caring Callers regularly check in with clients by phone, providing peace of mind for clients and their families.

Fresh Meals On Wheels of Sheboygan County has no waiting list or income restrictions. For more information, call 920-451-7011 or visit www.freshmealsonwheels.org.

Photos by Sue Bohme

Fresh Meals On Wheels Board President Saunders Kohn of K/P Welding stands in front of the flying pig after he installed the "piggy" bank his team made for the Meals On Wheels coin drive. People are encouraged to empty their change jars into the Fresh Meals On Wheels piggy bank to support Meals On Wheels while helping local businesses facing coin shortages. Bank First National will count the coins and get them back into circulation, and credit the value to Meals On Wheels.

Holiday lights show to continue

With many events cancelled due to COVID-19, there is one event that already had social distancing as a foundation of operation; the drive-thru holiday lights show Making Spirits Bright. The component that does have group gathering, Quarryview Center, will not be a part of this year's event.

The need for Making Spirits Bright is greater than ever. While admission is free, food pantry donations are requested. Those items are delivered to the Sheboygan County Food Bank each night and their volunteers disburse to food pantries throughout the county. With the significant increase in people needing help with basic necessities, the event has historically brought in thousands of pounds of donated items each year. In addition, people are looking forward to any options that allow them to participate as usual prior to the Covid challenges.

Purchase of the Memory Ornament has become a tradition for many people. While orders won't be able to be placed in person at Quarryview Center, the event web site (www.MakingSpiritsBright.com) and newspaper ads will feature an order form.

Making Spirits Bright at Evergreen Park in Sheboygan, will feature hundreds of thousands of twinkling lights in displays choreographed to music aired on the dedicated 89.1FM radio setting.

The show will be open to the public from 5:00 to 9:00 PM starting November 27 and running through December 31 (closed Christmas Eve, December 24). So

there may be 34 total nights to drive the 1.1 mile route.

The unknown at this point is whether sufficient people will volunteer to operate the event each night. The volunteer committee is diligently contacting those groups, companies, and organizations that have expressed an interest or previously volunteered. In addition they are developing guidelines in compliance with Covid social distancing and safety measures for any volunteers in the park. If you or your organization wants to volunteer please email volunteers@makingspiritsbright.com.

This will be the event's ninth year and each one gets bigger and better. And, while Quarryview Center won't be open, the drive-thru lights show "must go on."

For more details visit MakingSpiritsBright.com.

and the Surrounding
area since 2004

Hikers enjoy the Willow Creek area.

Glacial Lakes Conservancy events promote awareness

Many folks out there are unfamiliar with Land Trusts & how they work, so its the job of the Glacial Lakes Conservancy to educate & increase awareness in various ways.

Engaging communities through outings & events on our properties: Even during CoViD-19, we encourage getting outside (not in large groups of course). Nine of our properties are open to the public! Private landowners occasionally host an event too, proudly noting the special features they are preserving.

When a new property joins the fold, Glacial Lakes Conservancy hosts celebrations...sometimes involving champagne!

An ongoing priority is media: The Website is continuously updated. We maintain a varied social media presence--if that's your forte, we'd welcome your expertise! Our semi-annual print newsletters feature

inspiring landowner stories. Elkhart Lake resident, Martha Schott, graciously does the layout--thanks Martha!

Then there's Advocacy: Relationships with our elected officials cannot be overlooked. For example, the Knowles-Nelson Stewardship Program, created in 1989, continues to make funding available so nonprofits such as GLC can continue to preserve & protect land and water resources.

Please join us at an upcoming event, details at glaciallakes.org.

Saturday Sept 12 - Ecologist-led walk on former golf course transforming to Community Arboretum

Saturday Sept 26 - Yoga/Mindfulness at 143-acre Willow Creek Preserve

Saturday Oct 10 - Birdathon at various GLC preserves.

Tuition scholarships offered to LTC students

New students wanting to enroll this fall at Lakeshore Technical College will have a brand new scholarship available – the Commit to Lakeshore Scholarship. This scholarship available for any new LTC students and ranges from \$50 for simply completing the college's application to \$500 for registering for a full-time course load this fall. Scholarships will be provided in the form of a reduction in tuition.

All new students who apply and enroll for fall 2020 prior to August 24, 2020, the start of the semester, will automatically be entered into a drawing to win one of five \$100 gift cards.

“By offering these new tuition scholarships and drawings, we are encouraging those who may still be holding back on their education decisions to take action,” said LTC Vice President of Student Success Polly Abts. “Students who apply now can be ready for the fall semester rather than set aside their plans for college.”

Lakeshore has announced it will offer in-person instruction this fall, as well as online and iFLEX® course formats, so students can safely learn in the manner they are most comfortable with. A relaxed tuition refund policy will also be in place for all students to “test drive” courses without financial penalty if they decide the course(s) is not for them.

Current university students interested in staying closer to home can take hundreds of courses at Lakeshore Technical College which will transfer to their

four-year college. Lakeshore has transfer agreements in place with all University of Wisconsin System campuses and 18 additional four-year institutions.

Tuition scholarship and gift card drawing details are available at gotoltc.edu/commit.

About LTC

Each year more than 10,000 people enroll in courses at Lakeshore Technical College. They rely on LTC for job preparation, to earn a degree, upgrade a specialized skill, train as an apprentice, or seek a high school equivalency. LTC faculty and staff meet students where they are in life and help them get one step closer to achieving their goals.

LTC is a nationally recognized technical college. The college was ranked the #2 two-year college in the nation for adult learners by Washington Monthly, #11 in the nation for two-year college educational outcomes by WalletHub.com, a top-150 two-year college for the fifth consecutive time by the Aspen Institute, and a top 10 Bellwether Award finalist for two consecutive years.

Approximately 800 students graduate from LTC each year, and LTC's associate degree graduates earn a median salary of \$42,000 per year. In addition to the Cleveland campus, LTC serves students in Manitowoc and Sheboygan, and offers classes at additional sites throughout the district.

Checks from the Plymouth Advancement Association were presented to the following individuals, left to right: Pat Zorn, Elkhart Lake Fire Department Chief; Denis Fellows, Plymouth Fire Department Chief; Patrick Boyle, Sheboygan County Food Bank Executive Director; Lee Gentine, President and Jackie Jarvis, Vice President of the Plymouth Advancement Association; and Mike Kertscher, Road America President and General Manager.

Fire Fest prompts local donations

The Plymouth Advancement Association, Inc., is thrilled to report that the July 4th fireworks event held at Elkhart Lake's Road America was remarkably successful, raising \$74,500.00. Benefactors of this event are the Sheboygan County Food Bank, Elkhart Lake Fire Department, and the Plymouth Fire Department.

The July 4th Fire Fest event was created to recognize Sheboygan County residents for their tenacity and spirit during the COVID-19 "Safer at Home" period which ended in late May of this year.

The event, coined as "One Community - One Purpose," originated when it was apparent that July 4th events throughout Wisconsin and Sheboygan County were being canceled as there wasn't a way to achieve social distancing at venues with limited space.

"We had to find an enormous space which would be safe to watch fireworks," said Lee Gentine, President of the Plymouth Advancement Association (PAA). "Road America was the only kind of venue that could accommodate a very large crowd safely and President Mike Kertscher immediately agreed to make their 640-acre site available."

"Mike and his team at Road America were simply the best people to work with and they managed the customer registration, communication, restrooms, lighting, and more," added Gentine. The firework event itself was the largest ever in Sheboygan County and launched by Speilbauer Fireworks Company of Green

Bay. Speibauer had 15 personnel doing set up and shooting the fireworks. To accommodate a high volume of cars, both fire departments coordinated parking and the Sheboygan County Sheriff's Department controlled highway traffic at the gates.

"This was an opportunity for us to offer innovative use of our facilities and we are pleased with the results of this extremely successful event which allowed people to enjoy fireworks as well as support important community organizations," said Mike Kertscher, Road America's President and General Manager. In addition to welcoming fans to "America's National Park of Speed" for racing events, Road America is hosting its second outdoor movie night on August 21.

The movie RUSH will be shown and tickets are \$25 per car and printed at home to allow for a contactless experience.

The Fire Fest tickets purchased by the public, along with the Plymouth Advancement Association, Inc., and several sponsors made this event possible. Sponsors included Sartori Foods, Rockline Industries, Northwoods Shelby Club, Pleasant View Realty, Bank First, Van Horn Automotive Group, National Exchange Bank & Trust, Red Truck Marketing and Plymouth Foam. The Plymouth Advancement Association, Incorporated, is a non-profit 501 © (3) corporation founded in 1994 with a mission to enhance the quality of life for the residents of Plymouth and the surrounding area.

Elkhart Lake Village update

Victory Park making progress

Village Operations - Please Keep Elkhart Lake Safe - COVID-19 (Coronavirus)

Sheboygan County is currently in phase 2 of the re-opening guidelines. The Village parks, library, and offices are open. We are requiring that masks be worn when entering the building for any purpose. As we have a small staff, if one person becomes infected the Village offices or library will need to close. The Civic Center will remain closed to the public or any groups until at least October 6th.

Sheboygan County is looking to pass an ordinance that would allow them enforcement powers if they had to issue a health order. At this time they are not issuing an order, but being prepared in the event that the hospital in the area become overwhelmed. If you have a question about the guidelines, please visit either of the two websites.

sheboygancounty.com/departments/departments-f-q/health-and-human-services/public-health/coronavirus-covid-19/safe-restart-sheboygan

wedc.org/reopen-guidelines/

As always we ask that you remain at home if you are not feeling well, practice social distancing, wash your hands often with soap and water for at least 20 seconds, avoid touching your eyes, nose, and mouth with unwashed hands, cover your cough or sneeze with a tissue, then throw the tissue in the trash.

If you have any questions or concerns, please contact 920-876-2122.

Victory Park Development Update

Work is nearly completion on all the utilities for the Victory Park Development. Work will begin shortly on building the base of the roads. We are also expecting construction on homes to begin within the next month. Take a look at the aerial progress from the beginning until the end of July. If you are interested in more information on the subdivision you can contact Werner Homes at 920-458-4104.

Woodview/Kettleview Court Road Issues

Our original plan was to complete a regrind and overlay of both Kettleview and Woodview Courts. We ran into some unexpected issues and are not only able to complete Woodview Court this year. I understand the frustration they has caused for residents of this area. We would have loved to have both roads fixed this year. The issue on Woodview was when we ground the old pavement off on Woodview Court "soft spots" were found. This means that in some areas we cannot just re-pave the road we need to fix these issues. The County provided an estimate of an additional \$20,000 to fix these issues on Woodview Court. We would expect the same issues on Kettleview Court, which would mean this road project would be greatly over budget. As we do not have this extra money in the budget, we had to cut Kettleview Court for the year. We are working on budgets for 2021 and it will be put in the budget with extra money now that we know this is a problem.

Absentee Voting for November

We are encouraging everyone to absentee vote for the November election. If you have been hearing the news stories about the delays related to the US Postal Service, we have noticed that the time to mail an absentee ballot has increased in the last few months. Please allow at least a week for the ballot to go each way. You can request a ballot very easily on <https://myvote.wi.gov/en-us/>.

If you do not have access to the internet or cannot get the website to work, please call the Village offices (920-876-2122) and request an absentee request form. You will need to provide that form and a copy of your photo ID to our office. We anticipate the ballots going out in mid- to late September. The Wisconsin Elections Commission will also be sending out a form to request an absentee ballot in the first week in September. You can always fill this

form out and send it back.

We have to mail an absentee ballot, but if you want to ensure we receive your ballot on time you can always drop it off at the Village offices.

In-person absentee voting for the November 3 election will begin 2 weeks before the election.

Fire Department Drive-Through Brat Fry

The Elkhart Lake Fire Department is hosting a drive through brat fry on August 30th from 10 am until 3 pm. They will be serving brats, hamburgers, chicken sandwiches, and fries. You can drive through the fire station (610 South Lincoln Street) to pick up your food and view the fire trucks. Come support your local fireman.

2020 US Census - Please Participate

Please respond to the US Census. The Village's current response rate is only 55%. We need you to participate. Please respond to the 2020 Census online, by phone, or by mail and shape the Village's future today. Paper questionnaires should have arrived in the mail around April 30th. You can participate online by going to www.my2020census.gov. If you do not have a computer, you can respond in English by phone by calling 944-330-2020. Someone is available from 7 am until 2 am EST, 7 days a week.

Census workers will be coming door-to-door to your residence if you have not yet responded. Census takers will wear masks and follow local public health guidelines when they visit your home. If someone visits your home this year to collect information for the 2020 Census, check to make sure they have a valid ID badge with their photograph, a U.S. Department of Commerce watermark, and an expiration date. Census workers may also carry Census Bureau bags and other equipment with the Census Bureau logo. Census takers may also deliver a paper questionnaire

by hanging it on the front door in a water-resistant plastic bag.

Yard Waste Dumpster

The Yard Waste Dumpster are open for the year. The dumpster will be unattended for the foreseeable future. If you require assistance, we ask that you set up an appointment with the public works department (920-876-2231), so someone can help you. The dumpster is provided at the Village garage from the end of May through October. This dumpster is for yard waste only, not lake waste. A truck for large brush or trees can be obtained by calling the Village garage at 920-876-2231.

Highway 67 - 2021 Project

The State of Wisconsin has informed us that their Highway 67 project between Plymouth and Kiel (through Elkhart Lake) will be happening next year. We do not know the dates or timing of the project but will keep everyone informed as we find out more information.

Email Notification List

The Village would like to keep you informed of news and changes that may occur on occasion. We would like your email address. These will be kept confidential. We will remind you of changes in the garbage collection schedule and any other things that come up periodically.

Email Jessica Reilly at jreilly@elkhartlakewi.gov to be added to the list.

Thanks for reading the Depot Dispatch

September mystery photo

Can you identify the photo?

Take a look at the September mystery photo above. Do you know anything about it? Where was the location? What was the approximate year? Do you know why it was given its name?

If so, let us know!

To enter the September contest, send an email to depotdispatch@elkhartlake.com or a letter with as many details as you can to the Elkhart Lake Chamber, P.O. Box

425, Elkhart Lake, WI 53020, or drop off at the chamber office, 41 E. Rhine Street.

The person with the best submission will receive a finely matted, quality enlarged print of the original, courtesy of Schamberger Gallery in Elkhart Lake.

We are still waiting for entries for the August photo.

Please share your guesses and help us keep the contest up to date.

WeatherTech International Challenge Concours d'Elegance charity participants (front, l to r): Allison Thompson, Executive Director, Fresh Meals On Wheels of Sheboygan County, Mike Kertscher, President and General Manager of Road America, and Niki Zohrab, Director of Community Development and Recruiting Big Brothers Big Sisters of Sheboygan County.

RA donates Concours proceeds to charity

Road America has donates funds raised from The WeatherTech International Challenge Concours to Big Brothers Big Sisters of Sheboygan County and Fresh Meals On Wheels of Sheboygan County

Road America and its charitable partners gathered recently to celebrate the WeatherTech International Challenge Concours d'Elegance event's charitable giving: the 2020 Concours raised \$8,000 for Big Brothers Big Sisters of Sheboygan County and Fresh Meals On Wheels of Sheboygan County.

"The WeatherTech International Challenge race car and sports car Concours celebrates the best cars appearing both on, and off the track at Road America,"

said Road America's President and General Manager, Mike Kertscher. "But the people who live here also play a large part in making this Concours great. We are very proud to give back to the local community and to help people in need.

Car enthusiasts from around the world join with us in this endeavor, channeling their passion for cars into raising money for worthy charities and we appreciate everyone's support."

While each charity received \$4,000, the Concours provided charitable funding from many sources besides the event itself. Many generous participants sent in direct donations through the Road America website to support both charitable groups.

Gentine named to Road America Board

Elkhart Lake's Road America Inc., recently announced the addition of Louie Gentine to its Board of Directors. Gentine is the Chief Executive Officer for Sargento Foods and succeeds his father Lou, who retired from the board after 19 years of exemplary service.

"On behalf of the Board of Directors, we want to extend our appreciation to Lou for his many years of dedicated service to the shareholders, employees and fans of Road America," said Ron Pace, Chairman of the Board of Elkhart Lake's Road America Inc. "We are equally excited to have Louie join our Board of Directors and share his insight and experience as we continue into the future."

Previous to his position as CEO of Sargento, Gentine worked as a commercial lender at American National Bank in Chicago for three years following his graduation from the University of Notre Dame with a BBA in Finance. He completed his MBA at Loyola and returned to Sargento in 2000.

Louie is an experienced executive with 20 years of experience at his family's \$1.4 billion company. He has held leadership roles in marketing, production, and procurement where he was able to learn and experience multiple functions at the company. In addition to developing the broader Sargento Family, Louie has created an educational program for the family's 4th generation family members.

Louie is married to Paula. They have four children and live in Plymouth, Wis-

Louie Gentine

consin. In his free time, he enjoys doing outdoor activities such as hiking, hunting, biking, running, downhill skiing and working on projects on his property.

In addition to being involved in many community activities, he is a board member of the International Dairy Foods Association, the Consumer Brands Association, Lakeside Foods, and is the President of the Society of St. Vincent de Paul store in Plymouth. He is also co-chair for the 2020-2021 Sheboygan County United Way campaign.

Saturdays, June 6 – October 17
8:30 am – 12:30 pm • Rain or shine

A few things we'd like to share with our customers:

- Our market will be advertised as "grab and go" so crowds do not congregate and to limit shopping time.
- If you are feeling ill, please do not visit the market.
- Our vendor spots will be spaced out farther than normal. (Every other tent will be removed to begin with)
- Signage will be up encouraging customers to social distance allowing 6 feet of space.
- We will have signs encouraging one lane of traffic flow.
- No sampling of food items allowed at this time.
- No customer contact with product (only vendors to touch product until sold)
- Hand sanitizing stations will be available to customers of market.
- All prepared foods must be packaged to be consumed off site.

We appreciate your patience and kindness.

If you have any questions, please email farmersmarket@elkhartlake.com

Announcements

Please be sure to check our website for up-to-date information about our hours, events and other matters related to our current services. We appreciate your patience.

The Library is open for essential services (browsing, photocopying, internet, pickup and return of materials, reference services). Our limited space prevents us from allowing gatherings (planned or casual). Children under the age of 8 must always be with a caregiver.
We return to our regular hours beginning Tuesday, September 8
Monday – Thursday 9am – 7pm
Friday 9am – 5pm
Saturday 9am – 2pm

WE WILL BE CLOSED SEPTEMBER 7 FOR LABOR DAY.

Please enter and exit the library using our Pine Street entrance. The Village Hall and Police entrance Help keep the library open by wearing a mask and using hand sanitizer. Free masks are available in the library.

No-contact check out is available at our park-side entrance. Please contact us to have materials prepared for pick up.
Please be aware that we are quarantining returned materials for 96 hours. We do backdate when we check items in. We do not charge overdue fines. If you receive an overdue notice and you feel the 4 days have passed since you returned the item, please let us know.

SUMMER READING CHALLENGE!

Thank you to all that participated in the Summer Reading Challenge!

The State of Wisconsin (DPI) purchased a three-year contract with Beanstack software for us. We are making plans to offer challenges year-round for all age groups. Look for announcements in the future.
