LOST STREAM MAP

The STREAM & LAKE MAP OF NEW YORK resembles another map--known to Pennsylvania anglers as the "Lost Stream Map."

It was completed in 1965 after a 30 year effort by Howard Higbee, a former Penn State Professor.

Professor Higbee painstakingly plotted by hand, the location of 45,000 miles of streams onto the map. It sold extremely well - until the printer declared bankruptcy and hauled Higbee's work to the landfill.

But reprints were impossible because the maps were printed in non-photographic blue. Higbee was even offered \$400 for one of his last maps. And state agencies were forced to keep their copies under lock and key.

Then, at the age of 91, Howard Higbee's dream came true. Computers made it possible to reprint the map.

Then the STREAM & LAKE MAP OF NEW YORK was created.

Why every angler and boater needs this map

Professor Higbee's® Stream & Lake Map of New York is the first and only highly detailed map of its kind. The 3.5-foot-by-4.5-foot New York map shows 65,000 miles of streams plus lakes.

For a limited time -- get 3 bonuses with each map

BONUS #1 **GUIDEBOOK:** Pinpoint the best fishing in New York with this valuable guide. Easily locate over 3,000 streams and 1,200 lakes shown on the "Stream & Lake Map." Your map guide will take you to the top 1,123 select water for 19 species of gamefish.

BONUS #2 **REPORT: Finding Secret Fishing Spots** 47 tips, tactics and tools you can use to find your own secret spot and catch more fish.

BONUS #3 **REPORT: How Anglers Stalk and Catch Record Fish** The average big fish has evaded capture for over 10 years. Find out which instincts set them apart from smaller fish. Stalking and catching a trophy requires knowledge of their unique habits and those special times when their guard is down. Armed with the information in this new and exclusive 24-page report--you could be in for the fight of your life.

RAVE REVIEWS

"It is in showing where to find out-of-the-way trout streams that makes the map such a treasure to the fisherman."

—Joe Gordon, TRIBUNE-DEMOCRAT, Johnstown, PA

"I have one of the original Higbee's Stream Map of Pennsylvania on my wall behind my desk. It's the best thing available as far as streams are concerned. I use it all the time for reference. I don't know of anything more extensive and it is the most accurate map out there as far as streams are concerned."

—Dave Wolf, PA Fish and Boat Commission

**THE
LAW
AND
YOU**

BY NATHAN D. PACE
ATTORNEY AT LAW

EXPERT USE OF EXPERT WITNESSES

The expert witness has become an increasingly popular tool for both the prosecution and the defense in criminal as well as civil trials. From medicine to antiquities, there seems to be few restrictions on the type of experts that can testify. There are, however, different rules for expert testimony in a criminal case as opposed to a civil one. For instance, in a civil procedure, experts must submit a complete and detailed description of the testimony they will be giving, any exhibits they will be introducing, their qualifications, and any compensation they are receiving for their testimony. In most criminal court cases, a brief summary of intended testimony along with their qualifications is all that is required in discovery.

Hiring a criminal defense lawyer is beneficial because we have knowledge of the legal system as we have studied and practiced criminal law for many years. In doing so, we have developed tactics on how to win cases and help you tread through uncertain waters. When you choose to work with us, we will help fight for you, saving you time and money. To learn more about how we can help you with your case, **please call the Law Office of MACK & PACE at (585)798-1000.**

(585) 798-1000

**534 Main St., Suite 6
Medina, NY 14103**

HINT: In civil court, any written communications between expert witnesses and the attorney may be "discoverable," although this is not the case in criminal court.

Lawyer Matters."***

**WASH YOUR WORRIES AWAY, UNDER THE SKY**

Have you ever taken a shower outside before? In the sunlight or under the stars? If not, then you are missing out. I first got my feet wet with outdoor showering when I was a young girl in Albion. My Grampa Clark built an outdoor shower behind his garage. You may wonder what motivated him to do this. He was raised a farm boy in Nebraska and did not have luxuries like indoor plumbing and running water. Seems I recall some stories about the outhouse "facilities" freezing over in the winter time. He loved being outside and an outdoor shower after a long day's work was invigorating and peaceful. And like him, I grew to love it too. There is something special about being outside in nature and getting yourself all clean under the vastness of the sky. It makes one feel like the fresh air itself is helping to wash away all one's grime and worries. I don't know whatever happened to that outdoor shower or if it is even still there. That is why when we last traveled out West I came across an Airbnb that had an outdoor shower. It was as if a treat from the past had landed on my plate again and I could not push away the possibility of tip-toeing into the sanctuary of the outdoor shower again. This particular shower was tucked in the base of the Bitterroot Mountains, MT. The outdoor facility featured an added bonus of a bathroom sink and mirror adjacent to the shower. You could see the white caps on the mountain range from the shower which was magical in itself. The only problem was the hot water tank would only keep water hot for about 5 minutes, which made for a quick shower! However, it was still very freeing on a crisp morning. Those MT showers brought me back to the 1970s remembering how exciting the simple pleasure of an outdoor shower could be. And out there at the base of the Bitterroots it brought me back to W. Bank Street, right here in Albion, NY. Remembering other simple pleasures like the soda machine that used to be outside of Archer's Lumber Yard. Goodness, what a treat when Grampa would give some change to grab a pop or the trust given to us Grandkids to mow the lawn with his fancy Wheel Horse riding lawn mower. All those memories washed over me as I stood inside that outdoor shower. The water may have been cold, but inside I was warmed by memories from decades back. When heading out to an outdoor shower behind the garage with a towel in my hand was all it took to create enough excitement to last an entire day. In that spirit when My Husband and I look to our Golden Years and what it will look like, I see an outdoor shower next to what will be our little respite and every time I grab that towel I will feel the youthful excitement of a 10-year-old girl running through the grass without a care in the world. This memory is going on the Golden Year Vision Board.

School resource officers will continue at Kendall, Lyndonville

By Tom Rivers, Editor Posted 27 August 2020 on www.OrleansHub.com

County approves 2-year agreement to assign deputies to districts

The Kendall and Lyndonville school districts will continue to have an Orleans County deputy sheriff as school resource officers the next two years.

The County Legislature approved an agreement with each district on Wednesday. The officers will serve in the schools and on school grounds, from Sept. 1, 2020 until June 30, 2022.

The Sheriff's Office and the districts first reached the agreement two years ago. The districts each paid \$100,000 a year to the county.

With the new agreement, each district agrees to pay \$95,070. However, there is no built-in overtime. If a district needs overtime, that will be invoiced separately, said Jack Welch, the county's chief administrative officer.

The Sheriff's Office two years ago pushed for an expanded presence in Lyndonville and Kendall, the two schools in the northern part of the county that do not have a full-time police presence in their communities.

The officers will provide security for the schools, and also educate students with anti-bullying programs, anti-drug education and also guide them in using a new STOP DWI Driving Simulator, where students and other users can see the effects of driving while texting, drowsy or if they are impaired or intoxicated.

College majors that can lead to higher earnings

Choosing a college major is an important decision that many students delay making until their sophomore or even junior years. Only after taking a few courses and uncovering one's interests do some college students figure out what they want to do with their lives.

While men often lean toward majors like engineering and computer science that have traditionally been linked to high earnings, women have historically gravitated to lower-paying specialties like education and social sciences. But in recent years a shift has occurred, and more women have begun to choose majors associated with higher post-graduate salaries.

- Architecture
- Pharmaceutical sciences
- Information sciences
- Chemical engineering
- Computer science
- Electrical engineering
- Mechanical engineering
- Computer engineering
- Business economics
- Civil engineering
- Sports management

Despite these findings, the college resource CollegeFactual and the U.S. Department of Education says that women remain likely to pursue education, design and applied arts, health services, and social work as career options.

Female students unsure of which major they want to pursue can take career assessments to help narrow down their options. Working with mentors or engaging in internships also can present a first-hand idea of high-paying career paths. ■
