ADVERTORIAL

Rich's Carpet One Voted Best Carpet & Flooring in 'Reader's Choice'

Advertorial

"Experience the 'Unexpected' in Customer Service," is the slogan at Rich's Carpet One Floor & Home. However, entering the store you will not see it displayed on employee work shirts or big painted banners hanging from the rafters. It's simply an unwritten rule diligently followed starting with the owner straight down to every single employee.

What separates this business from the BIG home center competitors is the personal service given to all its customers.

"We work hard to achieve customer loyalty, because a satisfied customer is worthless but a loyal customer is priceless," said Rich Linnell, store owner.

"We provide exceptional service you don't get from our competition. We work hard to get a customer to be loyal and do what we have to do to make our customers happy. I hope my customers remember their pleasant experience here and I hope they come back."

"WOW" is the first word

Linnell wants customers to express when walking into the store.

"I learned through the years that impression is everything for the customer," Linnell said. "From how they are treated on the sales floor right down to the personal greeting they receive. I want a WOW atmosphere. WOW is related to the unexpected. For example, one of my installers finishes a job and when he finishes the work area is wiped down and cleaned — that's WOW!"

In Linnell's eyes complaints are "opportunities to generate loyal customers as long as we take care of the situation. Remember that word of mouth travels faster if it's bad news than good news. Each customer has a unique personality and you must be a good listener."

Rich's Carpet One boasts of a small but stellar staff, "who all share the same passions and functions to make the customer have a pleasant experience," Linnell said. The dedicated staff starts with John McCabe, Linnell's partner; Rob Hafitz, manager; Hannah Clark

Hafitz, assistant manager; Robynn Dumont, Chris Burke, and Angela Verduchi, sales associates; Dawn Lippincott, executive assistant and the office backbone; and Angel Rodriguez, warehouse manager.

This famous-brand oriented store carries all types of hardwoods, carpeting, vinyl, ceramic and laminated tiling, sheet vinyl, carpet remnants, binding services and shop at home services.

Rich Linnell, with his partners: John McCabe, Maryann Bush, Donna Calu and Sherry Mattaliano, purchased the business from East Windsor Carpet One Floor & Home. In the floor covering business for over 42 years, Rich brings a wealth of knowledge and experience to share with all his customers.

Business hours are 10 a.m. to 6 p.m. Monday through Saturday; and 10 a.m. to 4 p.m. Sunday.

Rich's Carpet One Floor & Home is located at 825 Route 33 in the Block Plaza, Mercerville. For information, call (609) 890-6111, visit www.richscarp-etone.com or look for us on Facebook.

There for the important moments for 39 years

Advertorial

2020 marks the 39th year that Thomas and Diane Avanzato of Avanzato Jewelers have been in the jewelry business. Providing local area residents with the finest quality jewelry at affordable prices, their store is located at 2440 Whitehorse Hamilton Sq. Road in Hamilton Township, NJ.

"We are extremely grateful to all of our patrons for helping our family and business continually grow over the past 39 years. And we look forward to providing you with exceptional deals on exquisite merchandise along with personalized customer service

for another 39+ years," said Thomas Avanzato.

Thomas, together with his wife Diane, and their team of highly qualified employees, are committed to making sure that every customer that visits their store receives personalized service. So much so, that they have been voted No. 1 "Best Local Jewelers" for the past 6 years in the Trentonian Readers' Choice Awards.

Whether you are looking for an Engagement ring, diamond earrings, sterling silver jewelry, or a new watch; we can help you find the perfect item. Do you want to impress that special someone with a one of

a kind gift they will cherish for years to come, Avanzato Jewelers is the jewelry store for you.

They carry an extensive selection of unique and custom jewelry for your every need. The store is adorned with all facets of gold, gemstones, and diamonds. The cases are filled with every type of traditional jewelry option, from charms, bracelets, rings, and pendants, to men's and children's jewelry.

If you are looking for a truly one of a kind item, Thomas can create any piece from a picture or sketch.

Mr. Avanzato, a graduate of the Gemological In-

stitute of America (GIA), a Goldsmith and Gemologist, uses old world hand craftsmanship combined with an eye for aesthetics to create fine customized jewelry.

When it comes to popping that special question of, "will you marry me?" Avanzato Jewelers can help you along the way with the perfect ring for every budget and taste, they stock a complete line of designer

engagement rings and wedding bands from well-known companies such as Art Carved, Lieberfarb, Ingwer, and Unique Settings. Customized engagement rings and wedding bands are their specialty.

Investing in an engagement ring and wedding jewelry is one of the most important and meaningful purchase one will make in a lifetime.

I work with my customers to help educate them on the 4 C's of Diamonds, Color, Cut, Clarity, and Carat weight so they can make an informed purchase when buying a diamond. "We offer top certified stones from GIA, EGL, etc., all diamonds are sold at wholesale prices," Thomas said.

We offer while you wait appointments for repairs, and sizings on your Engagement rings.

In addition to selling, maintaining, and repairing your jewelry, Thomas Avanzato has been in the

precious metals business since 1979, purchasing gold, platinum, silver, diamonds, estate jewelry, and high end watches such as Rolex, Patek Philippe, Cartier, and Breitling, etc.

They also purchase silver and gold coins (dating from 1964 to precolonial), proof sets, mint sets, bullion, Industrial Precious Metals, Sterling Silver including place settings and silverware, tea sets, candle stick holders. Even if your jewelry is broken, as long as it is a precious metal, we will purchase it. Always offering the highest prices guaranteed for your merchandise.

"Customers are our number one priority, if you have any questions, don't hesitate to give us a call, send us an email, or just drop by the store for quick and courteous assistance", Thomas said.

Don't forget to visit Avanzato Jewelers website, Avanzatojewelers.com and to like them on Facebook.

The best pizza around is still served up at DeLorenzo's

Advertorial

I don't have to remind anyone that the year 2020 has been one that none of us will soon forget.

Many of us have lost loved ones, our jobs, some of our basic freedoms and many of life's simple pleasures like going to a movie, a sporting event or out to dinner due to the pandemic.

We here at DeLorenzo's Pizza on Sloan Ave. have been fortunate to be able

to remain open in a limited capacity. Our once-bustling dining rooms have been empty and silent for 5 months while we focused on take-out, delivery, frozen pizzas, and most recently outdoor dining.

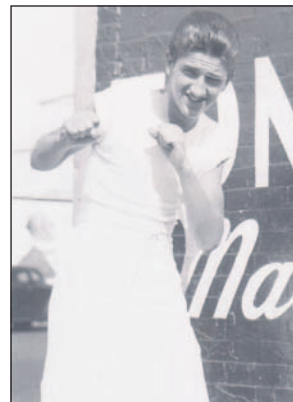

We thank god and our wonderful, loyal patrons who have supported us for many years in good times as well as bad.

In winning this year's Peoples Choice Award, I'd like to dedicate the award to my Father, Rick DeLo-

renzo Sr., who passed away in May from the Coronavirus.

Rick taught me and everyone who ever worked with him the value of hard work, a great pizza, fast and friendly customer service and service to the community.

In conclusion I'd like to say two things. I want to thank the readers of The Trentonian for choosing us The Best Pizza in 2020 and in honor of my late father, This One's For You Dad!

Black Forest Acres is still the best in the area

Advertorial

To our dearest faithful customers,

We want to thank everyone for voting us Best Health Food Store for the 17th straight year. It has been a tough time for many people but we will all get through this together. We will be here to help with all your health needs. Immune support and emotional support are of the utmost importance right now. We are here for you.

As many of you know in March, our Governor put in place several new state mandates for businesses. As a small business, we made and continue to make every effort to follow ALL CDC guide-

lines. These guidelines include extra cleaning protocols, maintaining 6 feet of social distance between customers and employees, extra hand washing, providing hand sanitizer and disinfectant to our customers to clean their hands and carts, making sure our employees and customers do not come into our store sick, and in April wearing masks, etc.

Many of our customers and employees were very kind and respectful during this time. WE stayed open for you! All we asked of you was to remember to dispose of your gloves, wipes, and masks in the garbage and not leave them in our shopping carts or parking lot. We try our best to offer curb-side pick up and

fill any orders to the best of our ability. Remember to be kind and respectful because our employees need to work and its important to be patient during these times. Our orders are slowly coming in, but getting better. We will call you if you ordered something. If you prefer curbside pick up, be advised that we are short staffed and we will get your order together as soon as we can. Please try to have your whole order ready when you call or email.

Our deli continues to be open for take out ONLY. They are normally open until 4:30 during the week.

Our making sure our employees and customers are following all protocols. If you have any questions, please call our store at 609-586-6187.

Thank you and continue to stay healthy!

Thank you for continuing to support small business.

Jammer Doors is here to help you

Advertorial

Over 100 years in business enters a business into a class among its own.

When thinking of the oldest companies that put America on the top many times the mom and pop shops are least talked about but affect the day to day Americans the most.

Main street in America is what drives every person seeking the American dream.

To some that dream is to own a small restaurant, to others it's about leaving behind a legacy that transcends one person or an idea; but a

collaborative of ethics, principles and hard work that never seems to fade.

Jammer Doors is this said business, family owned since 1920 serving the tri state area, serving the families who rely on something as simple as backing out of their garage but essential to their daily lives.

Jammer Doors can repair/service your garage door, and if you happen to be in the market for a new door or looking to enhance the beauty of your home, now is the time to call. It is true!

Replacing Garage doors ranks as the #1 home improvement investment to generate the highest return at resale according to HomeAdvisor.com and Value Report. The extremely high return on this project is because it improves both a home's beauty and functionality.

Faulty garage doors can cause flooding, threaten your home's energy efficiency and provide access to burglars.

Garage door updates also function as aesthetic upgrades which improve curb

appeal.

An insulated garage door will make your garage also warmer. It may raise the temperature by as much as 10 degrees and that is very often the difference between cold and freezing temperatures which is important for NJ cold weather. Garage doors today are now designed to be part of your home's design and architecture and make a statement.

Jammer Doors products offer the finest in quality and value with exceptional warranties in our field. We never settle for second best, and always have your satisfaction as our top priority.

It's who we are, and we are proud of it.

'Best Orthodontist' goes to Dr. Mark Greco

Advertorial

The orthodontic practice of Mark R. Greco, is a second-generation staple in your orthodontic community. Our office is a private, quality-oriented practice with a controlled volume of patients allowing us to run on time while never being too busy to discuss your concerns. We offer the unsurpassed personal care and the attention you deserve.

We have always offered complimentary initial consultations to help our patients explore the seemingly endless number of orthodontic options these days. Whether we meet your desires through traditional braces, clear aligners, a combination technique, or growth helping appliances our goal is to maximize esthetics and health. Equally important in children is working with

growth and development – Dr. Greco emphasizes that we only get one chance at this.

When asked what makes your office unique, Dr. Greco emphasized that the most significant changes this year have been due to the COVID situation. "We were closed for 2 ½ months for all but emergency care. Our advantage in having a smaller/boutique style practice was that we were able to schedule all patients for longer personal appointments during which time we were able to get caught up within 5 weeks. Our Facebook page contributed greatly to transitioning into this new way of practicing. Social distancing and sanitation did require some changes but, by keeping everyone informed during the closed months, the process was super-efficient."

I would personally like to thank my patients for voting myself and staff the "Best Orthodontist". We recognize that every patient has different needs, and we pride ourselves in the courteous service and expertise we deliver. Visit our website at www.GrecoOrtho.com or call us at 609-586-2865 to learn more about our office and request an appointment. Whether you're an adult, adolescent or child, know that we are committed to helping you achieve the smile you deserve – a healthy, beautiful one.

Advertorial

We at 1911 Smoke House would like to sincerely thank the community for continuing to support us through these trying times.

Although we have been without our State worker lunch crowd for over 5 months it was the local community that stepped up with major support to help us through.

It was this support that allowed us to keep our staff employed with only resorting to voluntary lay-

offs. The support has been so great that we had to hire additional resources.

The generosity of tips for the 1911 essential workers helped to bridge the gap between take out only and reduction of hours. Our team is eternally grateful.

The team is anxiously awaiting the governor's approval of indoor dining so we can welcome back our loyal friends.

Best place to care for your car is Hamilton Car Wash

Advertorial

Hamilton Car Wash was first purchased in 1967 by the Kirikian family. What many people do not know is that Hamilton Car Wash played an important role in the development in two major car wash advancements in the car wash industry.

In the early 1970's, Hamilton Car Wash was used as a test facility in creating and developing the "brushless" cloth washing material, which later became the staple material in the car wash industry. This started the development of cloth material by the car wash manufacturers and also car washing material advancement from bristle brushes.

In the late nineties, Hamilton car wash was once again in the forefront of car wash material technology. Hamilton Car Wash was used to develop the "NEOGLIDE" washing material for the car wash industry. This development had a huge impact on the car wash industry and utilized by every major car wash manufacturer. "NEOGLIDE" is made right here in Mercer County and is now used in thousands of car washes throughout the world producing a cleaner vehicle and safer wash for the paying customer.

Hamilton Car Wash contributions to the car wash industry make it unique by the role it played in changing the car wash industry with two revolutionary car washing materials. Both these technological advancements ushered a new technological advancement propelling and promoting the car wash industry forward which is still used to this day.

"Thank You" to readers of The Trentonian for voting us "Reader's Choice Best" for Laundromats, for the second year in a row. This recognition is such a boost to the staff who unknowingly became front-line essential workers for the five months and counting.

Our operation doesn't have a cure for COVID-19, but we are "The Cure for Dirty Clothes." In fact, we learned that we are a "Virus Killing Laundromat."

How is that, you ask?

Our Electrolux commercial machines are Hazard Analysis Critical Control (HCCP), tested and certified to kill the virus on clothes when used as directed. Specifically, an independent, internationally recognized, third-party, performed an analysis of finished product and certified that the equipment controls biological, chemical, and/or physical hazards.

But we don't stop there. To ensure the safety of staff and patrons in our facility, we disinfect surfaces multiple times throughout the day, monitor so-

cial distancing, mandate masks/face coverings, and encourage use of our secret weapon: free washer-to-customer texting.

This texting feature helps customers practice social distancing in two ways: (1) text the word "status" to 609-927-8170 and the washers will poll each other and report how many are free before you make the trip, and (2) customers can text the unique code on a washer to the same telephone number, and receive two text messages: "Your wash will be done in 10 minutes" and "Your wash is ready, please unload." Users of the feature can retreat outdoor, or to the relative safety of their own car until the machine summons them to return.

We welcome the public to come by for a "spin" around our facility or try us out for the weekly wash (see coupon in this newspaper); you'll be glad you did. We have forty-one washers in three sizes: 20, 45, and to 77 lb. capacity; with the largest programmed to deliver an exclusive Electrolux™ Comforter Wash Cycle, along with thirty-six large drum

dryers; vending, a dedicated child play area, multi-payment options, and we're always staff attended.

Our hours during "Stage 2" of business opening, is 7:00 AM to 8:00 PM; last wash 6:30 PM; 7-days a week (excluding major holidays).

Spin Doctor Laundromat was founded in 2012 by Cathy Neilley, an Adjunct Professor of Business at MCCC and a former healthcare executive and draws customers from as far away as Middlesex, NJ and Bucks County, PA. In addition to self-wash, the business offers drop-off laundry service, performs elderly/community outreach, offers college and military discounts, supports commercial accounts, and is certified DBE, female, and veteran owned.

Lawrence Family Chiropractic keeps you in line

Advertorial

"Dr. Eric Jaszewski of Lawrence Family Chiropractic wants to explain exactly how regular chiropractic care can help you and your family. Our goal is to help you achieve optimal health for many years to come!"

At Lawrence Family Chiropractic, we have a unique and highly advanced system of both analyzing and adjusting the spine. Our office is one of the only offices in New Jersey that utilizes "video-fluoroscopy", the most advanced technology in joint motion imaging. We are continually amazed at how modern chiropractic care helps the families who seek care in our office. We will educate you about chiropractic and other nat-

ural solutions to common health problems. Chiropractic helps with so much more than traditional back and neck pain. It can help alleviate symptoms experienced from a variety of conditions.

We use the Pierce Results System as a way of evaluating your spine, noticing how it moves through what should be normal ranges of motion. Spinal problems

are revealed by having you turn and bend in specific ways. This thorough biomechanical analysis provides the basis for making a specific and highly-effective adjustment.

"Subluxation" (spinal misalignment) creates an inflammatory response that can be measured by changes in temperature. We'll monitor your progress and watch for pattern changes along your spine by using highly-sensitive temperature measuring equipment.

As better spinal function returns and nerve interference is reduced, your body's inborn healing ability will be enhanced and another chiropractic success story is sure to be recorded!"

Money-saving shopping tips

Sticking to a budget when shopping can help shoppers stay out of debt and avoid buying items they don't need. But staying within budget is a challenge for many shoppers, especially when they come upon items that are hard to resist.

Breaking the budget is imprudent, and savvy shoppers know it's oftentimes unnecessary. By employing a handful of money-saving strategies on their next shopping trip, shoppers can have their cake and eat it, too.

▪ **Embrace coupons.** The days of clipping coupons from store circulars or catalogues may seem like a thing of the past, but shoppers can still use coupons to save substantial amounts of money. While

national retailers may be unlikely to offer customers coupons, many small local businesses still utilize coupons to compel shoppers to visit their stores. Small businesses may not have the advertising budgets to promote their coupons as much as their larger competitors, but savvy shoppers willing to put in a little work may find their diligence rewarded with discounts. Scan local newspapers or peruse small businesses' websites for coupons.

▪ **Try negotiating.** There was a time when negotiation was a big part of the shopping experience. While that time has long since passed, many retailers, particularly small, locally owned businesses, may be open to negotiation. Small business owners can often

be found working in their stores, so budget-conscious shoppers should not hesitate to speak with business owners or managers in an effort to negotiate sale prices.

▪ **Shop at the right time.** Retailers must make room for new products by unloading their existing inventory. Study industry trends to determine when retailers mark down items as they try to clear room for new products. For example, clothing retailers tend to discount summer clothing as autumn approaches, making late summer a great time to shop for swimsuits and other warm weather apparel.

▪ **Be flexible.** If a certain item just won't fit into your budget, try to be flexible and find a similar item

METRO CREATIVE

Smart shoppers can find great deals by shopping at local small businesses.

that's more affordable. When purchasing big-ticket items such as appliances, apply this approach by looking for last year's models instead of the newest models on the market. Last year's

models might still be an upgrade over your existing items, and retailers tend to greatly reduce prices once new models are introduced to the market.

Savvy shoppers working

within a budget can still find great deals without accruing debt or spending more money than they're comfortable spending.

Buying local benefits the environment, too

Buying local has many benefits. But while consumers may know that buying local helps grow the local economy by supporting local business owners and creating jobs, they may not realize the positive impact that buying local can have on the environment as well.

Eco-conscious consumers often go to great lengths to ensure their money is being spent in an environmentally friendly way. But one of the easiest ways to be an eco-friendly consumer is to support local businesses, which tend to benefit the environment in a variety of ways.

* Shopping locally reduces the environmental impact of your purchases. When buying from a large national chain store, chances are the products you're purchasing were produced outside of your local

community, oftentimes halfway across the globe. That means those products had to be shipped to reach the store shelves in your community. Such shipping leads to greater fuel consumption and air pollution. But local businesses often buy their supplies from other local businesses, cutting down on shipping and, as a result, benefitting the environment.

* Local businesses often operate from the center of town. Local businesses typically need less space for their stores, which allows them to set up shop right in the heart of town as opposed to on the town's outskirts. That makes local businesses more accessible to community residents, who might be able to walk or take a short bike ride to smaller, local businesses. On the contrary, larger

chains tend to diversify their offerings and, as a result, need more space. This often pushes them to the fringes of towns, eliminating the possibility of walking to the store. That means consumers will have to drive to the store, increasing their fuel consumption and their carbon footprint as a result.

* Shopping locally employs your neighbors, reducing their carbon footprints as well. Another benefit to shopping locally that's often overlooked is the impact it can have on your neighbors' carbon footprint. Local businesses often employ members of the community, which translates to shorter commutes, less highway congestion and less fuel consumption.

How couples can benefit from hiring local wedding vendors

Local vendors are often a go-to choice when couples are planning their wedding ceremonies and receptions. As the “shop local” movement grows in popularity, weddings present a prime opportunity to embrace this movement.

Couples may have different ideas regarding where to tie the knot, but local vendors can be hired regardless of geography. Brides magazine says the biggest factor influencing wedding location is the size of the guest list and the number of people who wouldn't be able to attend

if the wedding was in a particular locale. Hometowns might be the traditional choice regarding wedding location, but the XO Group says one in four couples now host destination weddings.

Once couples choose a town or city to host their weddings, they can begin exploring the benefits of working with locally-based vendors.

Familiarity

Local vendors will be familiar with the area and possibly even the location where the wedding

will be held. That can help couples avoid having to give directions, discuss venue protocols, and handle other tasks that must be worked out with non-local vendors. For example, local photographers familiar with a particular venue will know all of the best places to get shots, and some vendors may have preexisting relationships with venue representatives that could ensure wedding day operations go smoothly.

Proximity

Local vendors can meet

with brides and grooms more readily throughout the planning process, making things less stressful on the happy couple. This also makes it easier to drop off deposits, attend meetings, make fitting appointments, or attend styling sessions.

Savings

Couples who travel for their weddings and employ local vendors will not have to pack as much. Using local vendors eliminates the need to bring along bulky dresses, decorative items, flowers, and much more.

Plus, couples needn't pay to transport and house vendors brought along from back home.

Environment

Individuals who take great strides to conserve resources by reducing their energy consumption and protecting the environment often find that shopping local is beneficial. Local vendors are more likely to source their materials from other local businesses, reducing their carbon footprints along the way. For example, local caterers may rely

on local farmers for their foods, affording couples the chance to host eco-friendly or even farm-to-table weddings.

Customization

Working with local vendors often translates into getting more personalized service and attention than mass retailers or merchants can provide.

Going local when choosing wedding vendors is an increasingly popular choice among couples about to tie the knot.

SHOP LOCAL

How shopping locally can help

Today's consumers have more shopping options at their disposal than they did in years past. Though the Internet may put the

world at one's fingertips, more and more shoppers are discovering that buying locally makes for a superior shopping experience.

ence.

The benefits associated with shopping locally are many, and the following are just a few reasons why shoppers may want to look no further than their own communities when planning their next shopping excursions.

Keeps money in the local economy

Locally-owned businesses often put a larger share of their revenue back into their communities. Small business owners may be more inclined to employ local residents, giving more people in the community solid employment. Business owners may reach out and support other neighborhood efforts, such as fundraising initiatives for charities and schools. By shopping at local stores, you have a hand in supporting these efforts as well.

Save money
When factoring in travel time and the cost of fuel, shopping locally makes more sense than

driving to a faraway mall. In addition, repeat customers who establish a rapport with a local business owner may find that such owners are more inclined to price match or work with loyal customers to find lower prices through suppliers.

Diversify your home and lifestyle

Shoppers who prefer more unique styles may find local businesses cater to their needs better than large chain stores. Larger retailers offer the same products to customers regardless of where those customers live, so a person in California may be decorating his or her home with the same furnishings as a person in North Carolina. But local shops tend to produce more unique items that are not available nationwide.

METRO CREATIVE

an essential element to the country's economic growth. By shopping locally, consumers are showing their support for this important segment of the national economy.

Help establish local pride

Independent shops contribute to the fabric of a community and what makes it special and unique. Tourists and other visitors will be much more inclined to remember a local shop rather than a big chain in a particular neighborhood.

When travelers want to get a feel for a community, they seek out small, local stores that are much more likely to stock a high percentage of locally-sourced goods.

Attract other businesses

Private and public sector businesses tend to gravitate around anchor stores. Should a local store be successful, banks, restaurants, salons, and other businesses may move in as well.
