Demand Soars For Innovative Arthritis Treatment FDA Cleared, Covered By Most Insurance, Even Medicare

Fayetteville doctor offers powerful, cutting-edge arthritis treatment... prepares for overwhelming demand as news of it's impressive results spread across Tennessee and entire U.S.

Fayettevile – Arthritis sufferers can't get it fast enough and doctors offering it can't keep up with the demand.

"It's been incredible. We've been able to help so many knee arthritis sufferers who had given up hope," said Dr. Walter Bennett DC, MSN, FNP, Owner of Elk Rive Medical located at 2310-C Thornton Taylor

located at 2310-C. Informton Laylor Parkway in Fayetteville.

Dr. Bennett is referring to the use of the innovative arthritis treatment, viscosupplementation... or "knee gel," in his progressive medical office.

"The progress has been."

medical office.

"The response has been incredible. Once the word got out, arthritis sufferers started flooding our phone lines and swarming the office. Once they found out there is an FDA cleared, Doctor administered arthritis treatment." administered arthritis treatment administered arthritis treatment that actually works – without the side effects of toxic pain pills or grueling surgery - and has enough scientific research that it is covered by most insurance and even medicare – just about everyone suffering with painful arthritis wants to give it a try wants to give it a try."

What Is This Treatment And

What Is Ihis Ireatment And How Does It Work? If you are suffering with knee arthritis and pain, you are not alone. Degenerative joint disease or "arthritis" affects 21 million or 'arthritis' affects 21 million Americans and typically involves the weight bearing joints – like your knees. According to the American College of Rheumatology, nearly 70% of people over the age of 70 have x-ray evidence of the disease.

The worst thing is: Arthritis can be devastating. The pain can keep you up at night and make getting out of bed and moving around a daunting task. The pain and

stiffness can suck all the happiness and joy right out of your life

and Joy right out of your life.

And treatment options have not been good. The basic protocol has been a steady diet of toxic pain pills until your joints completely wear out and then it's time to surgically

replace the knee joint. **But Now Things Have Changed**Osteoarthritis is a joint disease that mostly effect the cartilage. that mostly effect the cardiage. Cartilage is the tissue that covers the ends on bones in a joint. When healthy, cartilage allows bones to glide smoothly over one another and acts as a shock absorber.

Your "normal" knee also contains a small amount of fluid contains a small amount of inductions and synovial fluid. This synovial fluid is a thick, gel-like solution that cushions and lubricates the joint – much like oil lubricates the engine of your car.

In osteoarthritis, the cartilage breaks down and wears away and the synovial fluid loses it's lubricating properties and "dries up." This is like running your car with very old or no oil at all. Now as you attempt to use your knee(s), there is not enough lubrication which causes bones to grind together resulting in pain, swelling, stiffness and the joint continues to wear out. This is a vicious cycle and can lead to bone-on-bone rubbing

and excruciating pain.
Pain pills do NOT lubricate
the joint or fix the problem. They
simply attempt to make you numb
so you do not feel the pain as your
joints continue to deteriorate. The
eventual repercussions of this are
obvious

Knee Gel Is Very Different And here is why: They contains hyaluronate, one of the two natural lubricating agents in synovial

fluid Knee gel is precisely injected directly into your knee joint in a series of 3-5 treatments over a series of 3-5 treatments over a 4 week period. This instantly lubricates the joint, reduces friction and allows greater motion with less pain or no pain at all. Knee gel treatment not only lubricates the joint, but it acts as a shock absorber.

Here's something very important to consider: Even though most knee gels are a natural substances and are NOT considered a drug, it is NOT something you can get at your local health food store. It is scientifically researched. store. It is scientifically researched, developed by pharmaceutical
companies, FDA cleared and ONLY
administered by a qualified Doctor.
What Results Can You Expect?
According to one knee gel

(Hyalgan manufacturer, Sanofi Pharmaceuticals and their FDA Pharmaceuticals and their FDA clearance research, "A course of Hyalgan treatment – will relieve pain in a majority of patients for 6 months without the safety concerns of nonsteroidal anti-inflammatory drug (NSAID) therapy. In many patients, the effect of Hyalgan is likely to last even longer than 6 months."

And the best part is: Since
Hyalgan is a natural substance; it
can be used over and over without
risk. If it works for you, you can look forward to years without pain.
Who Should Consider Hyalgan

Who Should Consider Hyalgan and Other Knee Gel Therapies, Where Can You Get Them And When Should You Start?
You should certainly consider Hyalgan and knee gel therapy if you have been diagnosed with Knee arthritis or told you need a knee replacement. If you have not replacement. If you have not been diagnosed with arthritis but have either knee pain, stiffness

morning), swelling or loss of range morning), swelling or loss of range of motion – you should have an examination by a specialist to determine what the cause of your problem is. If you have any of those symptoms, there is a very good chance you have or are starting to get arthritis. get arthritis.

And It Is Very Important That You Do Not Wait -Here Is Why...

Studies indicate that if the arthritis is caught soon enough, the cushioning effect of the treatments combined with a specialized rehabilitation program may actually help the knee heal and cartilage may re-grow which will help avoid joint replacement surgery. In other words, the sooner you start – the better.

Does the procedure hurt? A local anesthetic is given and the procedure is virtually painless. Most patients say it is like getting a flu shot.

Why Dr. Bennett Treatments by Dr. Bennett at Elk River Medical are EXTREMELY PRECISE.

Dr. Bennett is well trained and uses state-of the art ultrasound to uses state-of the art ultrasound to see inside the joint to make sure treatments have the best possibility for maximum success. This is very important because studies show that Doctors doing this procedure without guided imaging can miss the joint space 30% of the time! Elk River Medical is a state of the art medical facility offering only the

best technology.
