COMMUNITY CALENDAR

East Penn Valley & Northern Berks Merchandisers

New Policy Guidelines As Of December 1, 2019

Any nonprofit organization may send us notification of your upcoming events. We will publish this information in the Merchandisers of your choice for a \$5 flat charge per paper per week.

Community Calendar listings are still limited to 35 words or less for the non-profit cost of \$5 and must be submitted in writing. In addition, we are able to run the event information at No Charge for 1 week in both Merchandisers if a Display Ad is also run. This information must be received no later than the Thursday prior to publication date. Mail information and payment as needed to The Windsor Press Inc. Community Calendar, PO Box 465, Hamburg PA 19526-0465, or email to: classifieds@windsorpress.com, FAX: 610.562.2770, or bring the information into our office at 6 N. Third St., Hamburg, PA. Questions can be directed to the office at 610.562.2267.

10 & 11/20, Kempton Gun Club: Friday Meeting 8pm, Sunday Breakfast 8am-noon, Dried Beef Gravy, Ham & Eggs, 192 Pine Creek Rd., Kempton.

ANNOUNCEMENTS

2020-21 Enrollment is open at Lighthouse Christian Academy, Lyons, Pa. Call 610-682-2109 for information. WE include grades K to 12 and also have a home school program. Transportation is available depending on your district.

PRAYER TO THE BLESSED VIRGIN: (Never known to fail). O most beautiful flower of Mt. Carmel, fruitful Splendor of Heaven. Blessed Mother of the Son of God, Immaculate Virgin, Assist me in my necessity. O Star of the Sea, help me and show me herein you are my Mother. O Holy Mary, Mother of God, Queen of Heaven and Earth. I humbly beseech you from the bottom of my heart to succor me in my necessity (make request). There are none that can withstand your power. O Mary conceived without sin, pray for us who have recourse to thee (3 times). Holy Mary, I place this cause in your hands (3 times). Say this prayer for 3 consecutive days. You must publish it and it will be granted to you. Thank you CBM. Never Fail Novena to the Holy Spirit. Prayer to the Holy Spirit. Holy Spirit you who make me see everything and shows me the way to reach my ideals. You who give me the divine gift to forgive and forget all that is done to me. You who are in all the instincts of my life with me, I, in this short dialogue, want to thank you for everything and affirm once more that I never want to be separated from you in spite of all material illusions. (name whatever your request is). Say this prayer for 3 days. After the third day, the request will be granted, no matter how difficult. Promising to publish the entire dialogue is a condition for granting your request. Thank you, CBM May the Sacred Heart of Jesus by adored, Glorified, loved and preserved through out the world now and forever. Sacred Heart of Jesus, pray for us. St. Jude, worker of miracles, pray for us. St. Jude, helper of the hopeless, pray for us. Say this prayer 9 times a day for 9 days. By the 8th day, your prayer will be answered. Say it for 9 days. It has never been known to fail. Publication must be promised.

TIRE MAINTENANCE KEEPS DRIVERS SAFE

Maintaining tires is an important component of safe driving. Tires are some of the hardest working parts on a car or truck and are subjected to wear and tear every time rubber meets the road. Tires affect many components of driving, including handling, braking and the comfort of the ride. Maintaining tires makes driving safe not only for drivers and their passengers, but also for fellow motorists. Poor tire maintenance can lead to premature wear and potentially result in a blowout. The automotive group AAA notes it is important to visually inspect tires as often as possible. Drivers should look for overall tread wear. Pay special attention to tread wear on one edge of the tires, which could indicate poor alignment. Erratic tread wear may mean tires are out of balance. Drivers also should pay attention to how their cars drive and sounds. Unusual vibration or thumping noises suggest issues with the tires. A car that pulls in one direction also may be experiencing tire problems. Vehicle owners should be aware of the routine maintenance steps that can keep them safe and improve the life expectancy of tires.

- TIRE PRESSURE: Keeping tires properly inflated is one of the most important steps to maintaining them. Tires lose around 1 psi per month, and underinflated or overinflated tires can contribute to unusual wear, blowouts and even excessive fuel consumption.
- ROTATION: Check the owner's manual or recommendations from the tire manufacturer, but know that most mechanics advise having tires rotated every 5,000 miles. Rotation helps distribute wear more evenly on tires.
- BALANCING: AAA says balancing also helps minimize uneven wear and tear. Balanced tires are achieved by using small weights attached to the wheels to limit vibration of the tire and wheels as they turn. New tires should be balanced, and tires also should be balanced after one or more is removed to repair a puncture.
- ALIGNMENT: Vehicles have wheel alignment measurements that pertain to manufacturers' specifications. Alignment that falls outside of the range can impact handling, fuel economy and tread wear. A drift or pull suggests alignment problems and should be addressed. Vehicle owners should keep tire inspection and maintenance in mind as part of their overall car care plan.

CERTIFIED DIESEL TECHNICIANS

For Light Duty Trucks

SIGNS HEADLIGHTS MAY NEED TO BE REPLACED

Automobiles require a little TLC to stay on the road and operate efficiently. When vehicle maintenance is ignored, vehicles operate less efficiently and, in many instances, less safely as well. Jerking and stalling is a telltale sign of engine trouble, but some vehicle problems are more subtle. One such problem is fading headlights. Fading headlights can pose a significant threat to drivers and their passengers as well as fellow motorists. According to the National Safety Council, drivers do only one-quarter of their driving at night. However, the NSC notes that 50 percent of traffic deaths occur at night. Such figures highlight the potential dangers of nighttime driving, which only becomes more dangerous if headlights are not operating at optimal capacity. Since drivers do most of their driving during the daytime, it's easy to overlook headlight performance. However, it's important that drivers learn to recognize the signs that headlights need to be replaced. DIMMING headlights do not necessarily require replacement. In some instances dimming headlights are a byproduct of a dirty car. The buildup of dirt and grime can reduce light output even when the headlights are otherwise fine. If your car is dirty, take it to the car wash and make sure the headlights are scrubbed clean of dirt and grime. Then drive at night to see if the light output of your headlights is still dim. If so, the headlight bulbs may need to be replaced. FLICKERING headlights can indicate anything from worn out headlight bulbs to a weak car battery to loose connections. Flickering is one of the more dangerous headlight issues, as it can lead to headlights suddenly going dark while drivers are on the road at night. If headlights are flickering, take the car to a mechanic as soon as possible to have the issue resolved. ONE LIGHT OUT- When one headlight goes dark, chances are the other is not far behind. Automotive experts recommend replacing headlight bulbs in pairs, even if only one bulb has gone dark, because this ensures equal light output. Headlight maintenance tends to be overlooked. But recognizing the signs of fading headlights can help drivers avoid accidents and vastly improve the safety of nighttime driving.

WHAT NOISY BRAKES MAY BE TELLING YOU

The only noises many drivers ever want to hear coming from their vehicles are the sounds of their favorite songs blasting from their car stereos. But cars sometimes make noises that aren't nearly as inviting as music. Noises that seem to pop up when applying the brakes can be especially scary for motorists. No one wants to drive a vehicle with faltering or suspect brakes, so learning to distinguish between the two most common brake noises can be a wise move for drivers.

GRINDING noises indicate a serious problem with the braking system. According to CarsDirect.com, there are two major causes behind the grinding noise made by brakes. If the grinding sound is audible when pressing on the brake pedal, this likely because the rotor disc is coming into contact with part of the caliper. This typically occurs because the brake pads or rotors are extremely worn down, causing the steel backing of the worn out pad to grind against the rotor. In such instances, Pep Boys® recommends replacing the brake pads immediately. If the grinding noise is audible while the vehicle is in motion, debris might be stuck inside the brakes. Drivers might be

able to dislodge this debris by repeatedly moving their cars forward and backward in a safe place, such as a driveway. If that does not work, have the brakes serviced by a qualified mechanic. SQUEALING- Many drivers are familiar with the high-pitched squealing sound that comes from their vehicles or those of fellow motorists. That squeal, while certainly not music to the ears, might be a good thing. That's because some brake pads are equipped with small steel clips that serve as wear indicators. When brake pads have worn down, these devices produce a squealing sound to let drivers know it's time to get new brake

pads. But squealing can be indicative of other things as well. Squealing noises are sometimes heard immediately after brake pads or rotors have been replaced. In such instances, the noise typically subsides within a day or two once the pads have been broken in. Glazed pads also can create a squealing sound. When calipers stick, the brakes stay partially applied, producing excessive friction or heat. The heat causes the brake pads to glaze. No one wants to hear noises coming from their brakes. However, such noises are often a car's way of telling drivers that brakes need to be serviced.

When you put your feet in the water...

When you take your feet out ...

Aqua Foot Detox

The foot spa contains water, a saline solution and an electro magnetic device. The Aqua Detox™ System produces a charge which stimulates the cells within the body. The positive and negative charges in the water allow the body to attract and use the negative ions to rebalance and release toxins. The most convenient and effective way to release these toxins is through 4000 pores on the feet. Following a treatment the body will continue to detoxify for up to 48 hours.

For Individuals and Whole Families

What Is Herbalism? Herbalism is the art and science of using herbs for promoting health and preventing and handling of illness.

What Is An Herbalist? Herbalists are people who dedicate their lives to working with plants. They include native healers, scientists, naturopaths, holistic medical doctors, researchers, herbal pharmacists, wild crafters, herbal farmers to name a few. While herbalists can be quite varied, the common love and respect for life, especially the relationship between plants and humans, unites them.

With a strong passion for natural healing, Nicholas Kleinsmith allies himself with nature and uses down-to-earth healing tactics. It's so old it is new again.

Nicholas believes in taking his time with each client; keeping things simple to understand and easy to implement, with the knowledge that everyone is unique. Therefore, everyone's path to healing is their own. Nicholas will help you tailor your own path to ultimate health and healing.

Lori Kleinsmith

Certified Stress Management Consultant
Mindfulness Meditation
Reiki Master/Teacher

Full Range of Hypnosis

Hypnosis is a means of communication between the conscious mind and the subconscious mind. Many problems, habits, stress, anxieties, attitudes or apparent deficiencies can be traced to interpretations by the subconscious mind, which when understood by the conscious mind, can reduce or resolve specific problems.

The subconscious is also the seat of all memory. Traumatic events can be buried or suppressed in the subconscious. Hypnosis is a trance-like state that can be very relaxing. Sessions usually last from 1-1 1/2 hours.

Foot Reflexology Reiki

Lynn Weller

Certified Iridologist
Certified Crystal Healer
Reiki Master

Iridology

Is an technique that uses the colors, patterns, and various other properties of the iris to assess an individual's general health and genetic disposition. The technique of iridology is based on the belief that each organ in the human body has a corresponding region in the iris. Pictures are taken of your eyes and then analyzed. Recommendations are based on these findings. This is a 2-phase session. First session is explaining iridology and taking the pictures. Second session is going over the findings and recommendations.

Energy Balancing

This wonderfully relaxing and informative session uses a blend of crystal healing, reiki and intuitive techniques to effectively open and balance your energy body, focusing on your chakras while pinpointing the areas that need to be addressed in your life. You will leave feeling relaxed and empowered with ways to take control of your health and well-being. Clients are fully clothed.

Can't Decide What You Would Like to Experience?

Lynn offers: **TOTAL BODY COMBO (IRIDOLOGY & ENERGY BALANCING)**

Cassie Eshelman

Manual Lymphatic Drainage Practitioner

Manual Lymphatic Drainage

Manual lymphatic drainage treatment (clients remain clothed) is a light, non-invasive delicate touch, paired with rhythmic movements. It is relaxing, calming and encourages a pain-free release of inflammation and ease on joints in general helping to create a greater ease of breath and lighter feeling over all.

Additional benefits? Stimulates flow of oxygen and nutrients to the cells. Reduces inflammation and irregularities of skin cells. Boosts tissue regeneration after surgery and reduces swelling. Restored equilibrium, encouraging regular lymph flow. Increase overall mobility

of the body, eases joint congestion. Promotes the body's immunological response. It is great for those who suffer from hypertension, fibromyalgia in addition to forms of anxiety, by calming the nervous system. For pregnant women; gently decreases liquid retention leading up to childbirth as well as relief and skin healing post labor.

Kim Dixon

Shiatsu Practitioner, Reiki Master & Certified Theta Healer

Shiatsu

(shee - ah' - tzoo)

It is a form of Asian bodywork based on Traditional Chinese Medicine, where illness is thought to result from the imbalances in the natural flow of energy or qi through the body.

Some common effects of Shiatsu include:

- Pain relief or reduction • Deep relaxation and calm
- Increased flexibility • Improved energy and concentration
- Deeper, more restful sleep

What Can I Expect During a Session?

Shiatsu treatments are traditionally given on a futon on the floor. However, a low massage table or chair may be used based upon the needs of the client. Practitioners apply finger and palm pressure to energetic pathways, called meridians, to improve the flow of qi. You remain fully clothed during the treatment, no oil or creams are applied.

Shiatsu has been proven beneficial in alleviating symptoms associated with a wide range of ailments, including, but not limited to:

- anxiety • headaches • allergies • joint pain • back pain • muscular tension
- digestive disorders • boost immune system • neck & shoulder pain
