GOOD NEWS FROM JOE

"Everyday my Father is working..."
(Jn 5:17 tPt)

Joe did not realize, that Saturday, that God was at work, and had His eye upon him (Joe) to bring about an encounter with the living God. As we talked with Joe, we sensed something was wrong. When we asked, we found out he had been diagnosed with brain cancer. His biggest concern was his family and how they would get along without him.

He agreed to let us pray for him. We called on the name of the Lord and cursed the cancer in the name of Jesus. The following week, the cancer doctor told Joe the cancer was miraculously gone.

What can we learn from this miracle/healing?

1. God knows who you are and what's going on in your life. He cares and that's good news.
2. God is always at work and you may not even know it. That's more good news.
3. The name of Jesus and the power of God are stronger than cancer. That's great news!!

**We have seen many healed.
Give us a call and we'll come pray for you.**

SPEAK OUT!!!

The Mount Morris Shopper feels that everyone has a right to be heard (or read, in this case) so we are offering this page each week (space permitting) for our readers to share their ideas, views, feelings or whatever. Realizing that everyone cannot AFFORD to pay for this privilege, the Mount Morris Shopper is offering this page as a FREE Public Service for articles or letters sent in for publication. All letters submitted must be signed with the name, address and phone number of the author. Please make letters as brief as possible.

Dear "Speak Out,"

Because most Americans are very concerned about the economy right now, I am devoting this week's article in my five week series entitled "With God's Help We Will Make America Great Again" to that very subject.

Economics became the dominant emphasis in our country in the "Roaring Twenties." In the 1920s, we began to lose our foundational moorings upon which our wonderful country was founded. We replaced spiritual and patriotic basics for greed, materialism and the good life.

The first premise which I would like to make is that God will provide all our needs and not necessarily all our wants. We have become a very materialistic country and have departed from the important issues such as God, our families and our country.

We need to purchase American made products whenever possible or go without for the sake of our economy. I realize that many foreign made cars are of better quality than those made in America. The solution to this is for the American worker to have more pride in his or her work and compete with his foreign competitors. We need to take pride in our workmanship just like those workers of previous generations.

We should not rely on Social Security or Medicare as they are a form of socialism which can make us reliant on Big Brother and ultimately destroy our freedoms. Relying on Washington and Albany can someday leave us all very disappointed! Instead we should be saving for a rainy day as our forefathers did. A recent poll showed that most families are just one paycheck away from bankruptcy. When we receive our paychecks, we can't wait to buy all those new electronic trinkets and go out to eat at restaurants.

Our ancestors lived without those electronics and eating out at restaurants. If the economy crashes, we will learn the hard way to live within our means and will begin to save for the future again.

We watch television and social media and see what others have that we don't. Jealousy is a very bad character weakness and can lead to bankruptcy. We as Americans must learn to live without all the boondoggles which our representatives in Albany and Washington like to pass in their appropriations bills. We Americans need to insist that our sovereign national debt ceiling not be increased again and that a balanced-budget constitutional amendment be proposed and sent to we American voters for our approval. Our federal credit rating was downgraded from AAA to AA+ in August 2011 which should have been a signal then that we need to begin living within our federal budget.

We need to insist that our elected representatives invest funds into our country's infrastructure as our power grid, roads, bridges, water and sewer systems throughout our country are in terrible condition. We also must insist that our federally elected officials think twice before becoming involved in foreign wars unless they present definite dangers to our country!

I am in favor of a strong military but we are not the policemen of the world! If we really wish to "make America great again", we need to invest money in the infrastructure of our villages, towns, counties and states or our country will continue to crumble!

Our country could collapse just like your house would collapse if you did not maintain it. We need to insist that our local, county, state and federal governments curtail the expansion of their bureaucracies and the salaries of government employees which has far surpassed those of the private sector. Lord willing, we will conclude our series "With God's Help We Will Make America Great Again" next week with other areas which involve us.

Ron Powell
Nunda

Dear "Speak Out,"

This afternoon (October 11, 2020) as I was driving on South State Street in Nunda, I saw that three Biden campaign signs were gone.

Who, upon driving by, could possibly think that these signs are now gone because they were removed by those who 'planted' them? It must be obvious to all that their theft was an attempt to thwart Biden's campaign.

What can we passersby possibly think of our fellow Americans who no longer believe that Democracy 'works' for them?

What must Republicans think? What do they think about what has happened to The Grand Old Party of the Republic? The party of Abraham Lincoln?

What has happened to the GOP rank & file, so dishonestly attempting to undermine Biden's success by any means other than by casting one ballot.

My American family tree reaches back to before The Revolution. I descend from long lines of patriotic and proud Lincoln Republicans. At the age of 22, my father dropped out of college to join the Army Air Corps; trained to be a pilot; and flew 33 successful bombing missions during WWII. He, all his crew, along with all their aircraft survived. They served their country by putting their personal lives and ambitions 'on hold'; and by courageously accepting that they might sacrifice their lives in order to save the country and the democracy they loved.

They would be ashamed of any and all Americans, including all fellow Republicans, who would so wantonly trample on the democratic rights of their fellow citizens. They and I say, "Shame on you miscreants," and you should feel ashamed.

Since the Republican Party has become the party of retaliation, sadly, I must withhold my name and address.

A Nunda Voter

Tips for a Healthy Fall

As the days get shorter and cooler and the leaves change color, the *Be Well in Livingston* committee recommends these healthy strategies to help prevent chronic diseases like type 2 diabetes, heart disease, and cancer.

Get Your Screenings

Visit your doctor regularly for preventive services like cancer and diabetes screenings.

Wash Your Hands

Wash your hands with soap and clean running water for 20 seconds.

Wear A Cloth Face Covering

Use masks to help slow the spread of COVID-19.

Get Your Flu Shot

An annual flu vaccine is the best way to protect against flu, especially for cancer survivors.

Sleep

Get at least 7 hours of sleep every night.

Practice Social Distancing

Stay at least 6 feet from other people who are not from your household in both indoor and outdoor spaces.

Move More, Sit Less

Adults need at least 150 minutes of moderate-intensity aerobic activity every week, plus muscle-strengthening activities 2 days a week.

Be Well

In Livingston

Heat energy minded individuals wanted! Are you looking for a position in the commercial HVAC environment that provides guaranteed 40 hours a week, remarkable benefits, a promising retirement, and competitive starting wages with the opportunity for development and growth in your career?
SUNY Geneseo might be just the right fit for you!

FULL-TIME PLANT UTILITIES ASSISTANT

As a Plant Utilities Assistant, you will work as a member of the Department of Facilities Services to provide quality maintenance services that assure safe, reliable, and comfortable buildings throughout the campus. Applicants must possess the ability to: perform medium to heavy manual labor, climb ladders and scaffolds, stand, stoop, bend and stretch for long periods of time. Applicants must meet the requirements of competitive NYS Civil Service found at: <https://www.cs.ny.gov/examannouncements/announcements/oc-cr/decentralized/20-450.cfm>. Residential or commercial HVAC experience is preferred.

Our Plant Utilities Assistants enjoy excellent State of New York employee health benefits, sick and vacation time along with the opportunity to work with a vast and diverse amount of HVAC systems ranging from steam, hydronic, and refrigerant; just to name a few.

To apply, please submit your NYS Civil Service application to 1 College Circle, Doty 318, Geneseo, NY 14454 or fax to (585) 245-5998. If you need assistance, please call Human Resources at (585) 245-5616.

SUNY Geneseo is an Equal Opportunity/Affirmative Action employer, committed to recruiting, supporting and fostering a diverse community of outstanding faculty, staff and students. All qualified applicants will receive consideration for employment without regard to race, color, religion, national origin, disability or protected veteran status. For our full non-discrimination statement, see: <http://www.geneseo.edu/affirmativeaction>.

GENESEO

Apply to: Gray Metal Products
495 Rochester St., Avon, NY 14414 or email: h-r@graymetal.com No phone calls please. EOE

One Small Ask: Please Wear a Mask

Mount Morris, NY, October 15, 2020 — As we enter into cold & flu season and begin to plan for the holidays, the Livingston County Department of Health would like to remind residents to stay diligent and disciplined. It is still recommended that everyone over the age of two, unless you have a medical condition, cover your nose and mouth with a mask or cloth face covering when in public spaces and when you are not able to maintain a distance of six feet from others.

Each and every resident is encouraged to continue the fight against spreading COVID-19.

Unfortunately, we are not out of the woods yet. We continue to receive notice of positive cases, and our numbers have slowly increased over the last few weeks. The increase was expected as part of reopening businesses and schools, but as a whole, the County numbers remain low because of residents following the guidance of health professionals.

Working together is what we do best, so let's continue in our efforts to stop the spread. It really is a small ask: please wear a mask! For more information, visit the Livingston County COVID-19 webpage or call the Livingston County Department of Health at 585-243-7299.

To keep up to date on County happenings and COVID-19, follow us on Facebook and Twitter.

October is Health Literacy Month. Health Literacy Month is a time to bring attention to the importance of making (i) health information easy to understand and (ii) the health care system easier to navigate. Limited health literacy is a serious issue facing patients. Low health literacy is linked to confusion in medication instructions, taking medications incorrectly, and low understanding of nutrition labels. The Livingston County Department of Health wants you to remember these three simple questions for every conversation with your health care provider: What is my main problem? What do I need to do? Why is it important for me to do? For more information on improving health literacy, please contact the Livingston County Department of Health at 243-7270 or visit: www.livingstoncounty.us/172/Department-of-Health

Is Your Home Safe from Radon?

According to the Environmental Protection Agency (EPA), Livingston County is one of many counties in New York State considered to have a high potential for high radon levels. Radon is a cancer-causing radioactive gas that you cannot see, smell, or taste. It can be present in your home without you knowing and has been identified by the Surgeon General as the second leading cause of lung cancer in the United States. The EPA reports that radon is responsible for approximately 20,000 deaths annually.

Radon is produced naturally by the decay of radioactive material in soil, rock and in groundwater. It moves upward in the soil and can enter your home through cracks and other holes in your home's foundation or with groundwater from a well. Houses located (i) on highly permeable, gravel concentrated soils or (ii) on or around limestone rock formations may be at higher risk for elevated indoor radon levels.

The only way to determine if radon is a concern in your home is to test for it using a radon detection kit. The Livingston County Department of Health reminds residents that these kits are available free of charge to Livingston County residents who are homeowners. Contact the Center for Environmental Health at 585-243-7280 or click here for more information on radon or to get a free radon detection kit.
