I wasn't looking for a discount funeral. I was looking for an affordable one.

Most "discount funerals" mean less money, less service, less attention to detail, less of everything. An affordable funeral is a complete funeral based first on the needs of the family, then priced to fit within their budget.

The IBEW is growing and you are invited!!

Response to our recent advertisements has been terrific! We have welcomed some new contractors into our family and are continually interviewing new membership prospects.

Our new contractors are not only looking for **Qualified Electricians** but also more **Solar Electricians and Tele-Communication Technicians** to staff upcoming projects.

One of the greatest benefits of the Electrical Union is the ability for our members to retire with dignity. Retirement of our well seasoned members provides fantastic opportunities for **Electricians of Foreman and General Foreman qualifications**. If you are an un-represented "lead" electrician, then we should be talking about your future.

We are also always looking for **Quality Open Shop Electrical Contractors** looking to grow with us. It does not matter if you have just 1 electrician or 1000, we have opportunities for everyone!

The IBEW has been successfully training crews for our contractors since Edison and Tesla were young men. For 125 years our signatory contractors have come to the IBEW to hire the highest quality electricians in the industry. We continue today, working in a mutually beneficial partnership with our contractors to offer the best value in the industry to our valued customers.

Appointments made 7 days a week, in our home or yours!

Gray Catbird

I love the gray catbirds that come to my yard every year. They visit the tray feeder and manage to stuff four peanuts into their mouths before flying off. Catbirds have a distinctive mewing call (hence their name), but are also very musical and frequently sing while hidden in tree foliage.

When a child is taken from a home that has been deemed unsafe by DCYF (Dept. of Children, Youth & Families), the child may take only a small amount of toys, clothes, and personal belongings. Many times, DCYF workers just don't have enough suitcases to use, so when a child arrives at a Crisis Center, Group Home or Foster Home, many times they arrive with literally 1 or 2 large black trash bags full of personal items. Let's change that! This is an ongoing project. Work at your own pace. For more information, contact Hollie at 385-9876 or hollielegal@verizon.net

HERE IS A PLEASANT LITTLE GAME that will give you a message every day. It's a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner and check one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

Saving Water

Join The Race To Find And Fix Leaks

(NAPSA)—It's Fix a Leak Week—time to join thousands of Americans who are chasing down running toilets and dripping faucets to save water and money. According to the U.S. Environmental Protection Agency's WaterSense® program, household water leaks account for more than 1 trillion gallons of water wasted each year across the United States!

The average American home leaks more than 10,000 gallons of water per year, running up an extra 10 percent on water bills. Finding and fixing leaks doesn't have to be difficult. Just remember three simple words—check, twist, replace—and you'll be off and running to a water-saving home.

Check one of your winter water bills; for a family of four, using more than 12,000 gallons in a month might indicate a serious plumbing problem. To see if the culprit is a silent toilet leak, put a few drops of food coloring in the tank at the back of the toilet and wait 10 minutes before flushing to see if color shows up in the bowl. If you see color, you probably need a new toilet flapper, which is an easy repair to make. If you have a bigger leak on your hands, you can pass the baton to a trusted plumbing professional.

Twist and tighten pipe connections and reinforce leaky showerhead connectors with pipe tape. Or for just a few dollars, twist a WaterSense labeled aerator onto your bathroom faucets to use less water without a noticeable difference in flow. Replacing old, inefficient faucets and aerators with WaterSense labeled models can

Chase Down Leaks for Fix a Leak Week

EPA reminds Americans to stop running up their water bills and chase down easy-to-fix household leaks.

save the average family the amount of water needed to take 40 showers.

Replace the fixture if your easy fixes can't stop the running or dripping. You can go the extra mile with new WaterSense labeled plumbing fixtures. Toilets, faucets and showerheads that earn the WaterSense label are independently certified to use at least 20 percent less water and perform as well or better than standard models. For example, WaterSense labeled showerheads can save the average family 2,900 gallons of water per year, the amount of energy it takes to power a home for 13 days, and \$70 per year.

Some WaterSense partners are sponsoring "Chasing Leaks" community races to raise awareness of leak detection and repair. Even if you aren't a runner, you can join the race to fix leaks and come away a big winner. Visit www.epa.gov/watersense/fixaleak for information.

Collecting
by Larry Cox

Vintage Newspapers
Q. I have about a dozen New York weekly newspapers from the 1870s, '80s and '90s. What makes them interesting is that they contain stories about William "Buffalo Bill" Cody, Jesse James and Calamity Jane. Most are illustrated. Whom can I contact about these historic papers? — Ken, Mason City, Iowa

answer is always the same. "1000 Fruit Jars Priced and Illustrated" by Bill Schroeder is still my favorite guide. Each jar is identified and illustrated, making it a snap to find out if you have a rare or common jar. Schroeder, who began collecting fruit jars during the 1960s, first published this guide in 1969; it has since gone through a number of printings.

A. The collecting of vintage newspapers is an interesting hobby, and many issues have increased in value during the past two or three decades. For example, newspapers published during the American Civil War which sold for \$10-\$25 per issue a few years ago are now bringing two or three times that amount. Extremely historic issues, such as the ones which reported the Lincoln assassination, are much more valuable.

Q. I have two \$100 bills issued by the Confederate States of America, in sequence No. 106641 and No. 106642. They are in perfect condition and dated Feb. 17, 1864. I would like to contact someone to find out their value. — Marie, Palacios, Texas

Timothy Hughes is an expert who buys and sells old newspapers, and he might be able to help you determine the value of the publications you have. His contact information is P.O. Box 3636, Williamsport, PA 17701; tim@rarenewspapers.com; and www.rarenewspapers.com.

A. According to the Standard Catalogue of World Paper Money: General Issues, 1368-1960, edited by George S. Cuhaj (KP Books), two \$100 bills were issued by the Confederate States of America on Feb. 17, 1864. The smaller bill is worth in the \$30-\$110 range, depending on condition, and the large specimen, \$45-\$150.

Q. I have several old glass fruit jars that are a bluish/green color. How do I find out if they are of any value? — Marla, via e-mail

Write to Larry Cox in care of KFWS, 628 Virginia Drive, Orlando, FL 32803, or send e-mail to questionsforcox@aol.com. Due to the large volume of mail he receives, Mr. Cox cannot personally answer all reader questions, nor does he do appraisals. Do not send any materials requiring return mail.

A. I get this question at least two or three times a month, and my

Dog Flu Still a Threat

DEAR PAW'S CORNER: My shorthaired terrier, "Blazer," became very ill just before Christmas and was diagnosed with dog flu. He's doing much better now, but it was tough and go for a while. Can you let your readers know that there's a bad strain of the flu going around and to take care of their dogs? — *Bill C., Tucson, Arizona*

DEAR BILL: I'm glad to hear that Blazer is on the mend! Last year, the spread of a particularly severe form of canine influenza caught the attention of the media and had dog owners nationwide worrying. The illness has dropped from the headlines lately, but that doesn't mean it's no longer a threat. In fact, by mid-January the influenza A H3N2 virus had spread to 18 states and is still spreading.

Symptoms of the flu virus may seem pretty benign at first: A dog may have no symptoms, or may have a runny nose and cough. However, more serious symptoms, including a high fever, tend to develop. Dogs with the virus can become dehydrated very quickly, so prompt attention at the vet's office is critical. There isn't a cure for the flu; pets need to be kept hydrated and get plenty of rest and supportive nutrition.

Recovery time for most dogs is about two or three weeks, according to the Centers for Disease Control and Prevention. While a dog is ill, he or she should not be around other dogs, as the virus can be spread easily by a sneeze or cough. The mortality rate from H3N2 among dogs is about 10 percent, making it a risk no pet owner wants to take.

Salome's Stars

ARIES (March 21 to April 19) You might feel more encouraged about changes in your personal and/or professional life. However, it might be best not to rush things but rather work with them as they evolve.

TAURUS (April 20 to May 20) The Bovine's business sense is especially keen this week. But remember that it's always best to investigate before investing. Make sure there are no hidden factors that can rise up later on.

GEMINI (May 21 to June 20) Working on a family project could create tension between and among those concerned. Your good sense and your patience can help reduce bad attitudes and raise positive feelings.

CANCER (June 21 to July 22) You should be seeing more progress in the development of your plans and more supporters joining in. News from the past could help change someone's long-held position.

LEO (July 23 to August 22) With personal aspects strong this week, Leos and Leonas might want to spend more time with family and others who are especially close to them. Also expect news of a possible career change.

VIRGO (August 23 to September 22) Taking a strong stand can be helpful this week. But be careful you don't cross the line into obstinacy. Best to take a position on facts as they are, not as you want them to be.

LIBRA (September 23 to October 22) You have a strong sense of the needs of others. This week, turn some of that sensitivity into an honest self-appraisal, and let it find places where you can help yourself.

SCORPIO (October 23 to November 21) Creating an emotional comfort zone to handle a personal problem helps at first. But by midweek, you'll realize you need to deal with it directly or it could linger for too long.

SAGITTARIUS (November 22 to December 21) Turning the page on a mistake to start fresh might not be the thing to do. Better to go over each step that led up to the decision you made and see which one misled you.

CAPRICORN (December 22 to January 19) Goats enjoy a varied diet, but eating crow isn't on the menu — at least not this week. An embarrassing situation might have gone wrong before you got into it. Check it out.

AQUARIUS (January 20 to February 18) Your sense of honesty might impel you to speak up about a situation you disapprove of. That's fine. But do so without sounding accusatory. You might not know all the facts behind it.

PISCES (February 19 to March 20) Being asked to create a reassuring attitude in the middle of chaos isn't easy, but you can do it. Support for your efforts comes slowly, but it does come. Enjoy an arts-filled weekend.

BORN THIS WEEK: Your honesty about people and issues is expressed in a positive, not painful, way.

• On **March 9, 1981**, a nuclear accident at a Japanese power plant dumps 16 tons of radioactive waste into Wakasa Bay. Despite the risk to people eating contaminated fish, the public was not told of the spill for more than a month. Fish in the area displayed mutations for several years afterward.
