Literacy

The proud father brought home a backyard swing set for his children and immediately started to assemble it with all the neighborhood children anxiously waiting to play on it.

After several hours of reading the directions, attempting to fit bolt A into slot B, etc., he finally gave up and called upon an old handyman working in a neighboring yard.

The old-timer came over, threw the directions away, and in a short while had the set completely assembled.

"It's beyond me," said the father, "how you got it together without even reading instructions."

"To tell the truth," replied the old-timer, "I can't read, and when you can't read, you've got to think."

ARIES (March 21 to April 19) Your ruling planet, Mars, allows you to assume a sense of command that can help you turn a chaotic workplace situation into one that's orderly, productive and, yes, even friendly.

TAURUS (April 20 to May 20) Getting a relationship that's been stuck in a rut up and running again depends on how far you want to run with it. Be honest with yourself as you consider which decision to make.

GEMINI (May 21 to June 20) Be wary of rumors that seem to be coming from everywhere this week. Waiting for the facts before you act means never having to say you're sorry you followed the wrong lead.

CANCER (June 21 to July 22) A difficult personal matter might prompt you to turn to a trusted friend to help you sort through a maze of emotional conflicts. The weekend should bring some welcome news.

LEO (July 23 to August 22) Some of the new people coming into the Lion's life could play pivotal roles in future personal and professional matters. Meanwhile, an old friend might have an important message.

VIRGO (August 23 to September 22) A delay in getting things moving on schedule can be a blessing in disguise. Use this extra time to do more research so you can buttress any of the weaker points with solid facts.

LIBRA (September 23 to October 22) You might need to get involved in a personal matter before it becomes a serious problem. Also, be wary of someone offering to mediate, unless you can be sure of his or her motives.

SCORPIO (October 23 to November 21) Taking sides in a workplace or domestic dispute could prolong the problem. Stay out and stay cool. Then you can be friends with both parties when things settle down.

SAGITTARIUS (November 22 to December 21) A friendship has the potential to become something more, and with this week's aspects favoring romance, you might feel that this possibility is worth exploring.

CAPRICORN (December 22 to January 19) The new job you want might require you to relocate. If so, keep an open mind and weigh all the positives and negatives before making your decision.

AQUARIUS (January 20 to February 18) A new relationship seems to be everything you could have hoped for. Congratulations. Meanwhile, it's not too early to get some feedback on that new project you're working on.

PISCES (February 19 to March 20) You might have decided to get out of the fast-moving current and just float around hither and yon for a while. But you might find that the new opportunity is too tempting to turn down.

BORN THIS WEEK: You believe in bringing out the best in people with kind deeds, loving words and recognition of their "special" selves.

PIEDMONT PETS
 November 12, 2020
 By Paulette Dean

November is Adopt a Senior Pet Month. In June of 1992, not long after I started working for the Danville Area Humane Society, a dignified, elderly golden cat was brought to us by his owners because he was too old and they wanted a kitten. I thought then how sad it was that they were willing to turn their backs on such a treasure.

It is sad but true that older animals have a tendency to have more health problems than younger ones, and it breaks our hearts when they die. It is also true that most people want a young animal to adopt because they want to spend as much time with them as possible. With those truths comes the sad truth that thousands of older shelter animals are overlooked.

However, dogs and cats that are considered older or even elderly may be the best option for you. Older dogs are generally housebroken, do not have as many destructive behaviors (e.g. chewing) as puppies, and do not require as much exercise. Older cats are already litterbox trained and are probably less inclined to have destructive habits.

When puppies and kittens are young, their personalities and characteristics may not be as apparent. When a senior pet comes to the shelter from the owner, if the owners are honest and forthright, we are able to find out a lot of information that helps us make a perfect match.

996 South Boston Rd., Danville, VA 24540
 Phone: (434) 799-0843

Our Fritz Childrey Fund for Older Friends was established 11 years ago to help us place senior animals. Fritz was an elderly dachshund that was adopted from a shelter. His human, Mark Childrey, has been a tremendous friend of ours for several years.

This fund has financed veterinary care for many older animals, pays for the adoption fee, and pays for the spay/neuter surgery. Adoption fees are waived for animals at least eight years old. Older dogs and cats are now in loving homes because of this fund. Donations, of course are accepted to finance this fund.

It is a sad fact that we will outlive most of our pets. It is painful when they die because our grief goes as deep as our love. In spite of that, we still encourage potential adopters to look beyond the cute little puppies and kittens and search for a loving senior companion.

The City of Danville has won first place in its population category in the 2020 Digital Cities Survey, which recognizes the use of technology by cities to tackle social challenges, enhance services, and strengthen cybersecurity. The Center for Digital Government (CDG) announced the winners on Tuesday. "Innovative cities are utilizing technology and analyzing data to better serve their citizens, respond quickly to citizen needs around COVID-19, and support digital experience initiatives," said Phil Bertolini, co-director, CDG. "The Center for Digital Government congratulates this year's winners for their hard work and efforts to use technology to enhance citizen interactions with government." Danville won first place among cities with a population of up to 75,000.

Pittsylvania County to Invest \$175,000 in CARES Act Funds for Emergency Communications System

In an effort to improve public safety, the Pittsylvania County Board of Supervisors elected to invest \$175,000 in CARES Act funds in equipment for an eleventh radio tower that will be set up in the City of Danville. This will allow for better emergency response coordination between the Danville Life Saving Crew and Pittsylvania County.

"Being able to effectively communicate by radio between Danville Life Saving Crew and Pittsylvania County is an essential part of effective coordinated emergency response between our two localities," said Public Safety Director Chris Slemph. "It is important that we can work seamlessly across borders and aid our neighbor. This will also improve our ability to communicate back to the county when our units travel through the city."

Since local law enforcement agencies often have to transfer inmates between the two jail facilities and county emergency medical personnel frequently take citizens to the hospital in Danville, being able to seamlessly communicate between the two localities is important. The Danville Life Saving Crew also serves as the first-due emergency responder for a small portion of the southern end of Pittsylvania County.

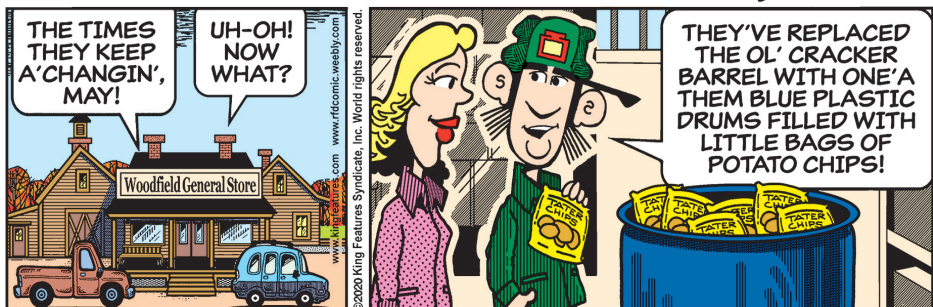

The Life Saving Crew initially inquired about the county investing in this equipment earlier this year. The Pittsylvania County Board of Supervisors originally approved this funding on the condition that the City of Danville provided an equal match, but ultimately decided to move forward even when Danville leaders elected not to contribute. The Danville Life Saving Crew is making up the difference.

"Utilizing our CARES Act funds to simultaneously bolster our infrastructure, improve public safety, and enhance emergency coordination with the Danville Life Saving Crew was really a no-brainer," said Pittsylvania County Administrator David Smitherman. "Pittsylvania County believes in regionalism and is happy to invest our money to help agencies that work in our locality."

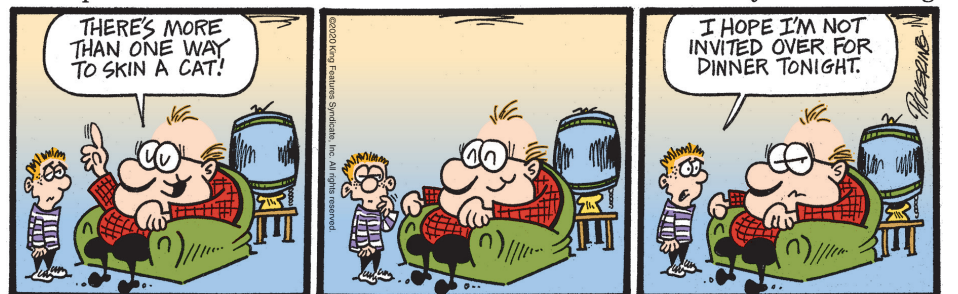

The communication equipment will be placed on a tower owned by the Danville Life Saving Crew. The Danville Life Saving Crew is responsible for maintenance, repair and upkeep of the infrastructure placed on its tower. This option will allow Pittsylvania County to utilize an additional radio tower - which creates a more redundant system and allows for more seamless communications, for roughly half the normal cost.

With the more than \$10.5 million received from the federal stimulus Coronavirus Aid, Relief, and Economic Security (CARES Act), Pittsylvania County has chosen to invest nearly \$3.5 million of that directly into public safety related equipment. CARES Act funds have also gone towards education, the improvement of infrastructure and services, and the purchase of technology.

Fruit Salad

- 1 can(s)pineapple chunks, in their own juice
 - 1 can(s)mandarin oranges, drained
 - 1 bunchgreen grapes, halved
 - 2 bananas
 - 1 pkgstrawberries, sliced however you want
 - 1 boxsmall box of vanilla instant pudding (jell-o brand only - others just don't taste right)
- Tyou can also add other fruits that you like to this as you please

How To Make it:

Pour the pineapple, juice and all into a bowl. Add the pudding mix and stir until creamy. Stir in the DRAINED mandarin oranges. Add additional fruit and stir in completely until covered and creamy.

Refrigerate the salad for a while until it is nice and chilled. Don't let it sit too long or the banana's will turn brown. You can also serve right after making this without chilling. Personally, it is much better chilled.

* This is a wonderful tip received via e-mail: If you have a panic button for your car alarm, keep your keys by the bedside. If you experience a problem during the night, trip the panic alarm. Let your trusted neighbors know about your intention, and they will be able to assist you.

* "Great gravy is only a plastic bag away! This is my tip for separating the fat from pan drippings to make gravy. I take a quart-size plastic bag and set it in a glass measuring cup. Pour the pan drippings through a strainer, right into the bag. Let it sit for 15-20 minutes, and the fat will separate to the top. Seal the bag, and snip a small hole in a bottom corner, drain the liquid into a saucepan to make gravy. It's that easy." -- T.C. in Idaho

* Whenever I am baking and the recipe calls for, say, 1 cup of honey (or some other sticky substance), I used to pour the honey into the measuring cup but then have a hard time getting all the honey back out of the cup and into the mixing bowl. Now I rinse the measuring cup with water right before measuring, or spray with nonstick cooking spray. It slides right out!

* To create a self-watering area for potted plants while you are on vacation, set plants in the bathtub or in a kiddie pool and use a length of cotton rope to wick water from the bathtub to the plant's roots. You can either stick it up the holes in the bottom of the pot or dig it down a few inches into the soil. This should get you by for a week or so.

* If you have a table that's wobbly because of an uneven leg, and you are a wine drinker, you're in luck. Take a wine cork, cut it in small slices and glue the slices to the uneven leg until the table no longer wobbles. Easy!

Send your tips to Now Here's a Tip, 628 Virginia Drive, Orlando, FL 32803.
