Demand Soars For Innovative Arthritis Treatment FDA Cleared, Covered By Most Insurance, Even Medicare

Fayetteville doctor offers powerful, cutting-edge arthritis treatment... prepares for overwhelming demand as news of it's impressive results spread across Tennessee and entire U.S.

Fayetteville – Arthritis sufferers can't get it fast enough and doctors offering it can't keep up with the demand.

"It's been incredible. We've been able to help so many knee arthritis sufferers who had given up hope," said Dr. Walter Bennett DC, MSN, FNP, Owner of Elk River Medical located at 2310-C Thornton Taylor Parkway in Fayetteville.

Dr. Bennett is referring to the use of the innovative arthritis treatment, viscosupplementation... or "knee gel," in his progressive medical office.

"The response has been incredible. Once the word got out, arthritis sufferers started flooding our phone lines and swarming the office. Once they found out there is an FDA cleared, Doctor administered arthritis treatment that actually works – without the side effects of toxic pain pills or grueling surgery - and has enough scientific research that it is covered by most insurance and even Medicare – just about everyone suffering with painful arthritis wants to give it a try."

What Is This Treatment And How Does It Work?

If you are suffering with knee arthritis and pain, you are not alone. Degenerative joint disease or "arthritis" affects 21million Americans and typically involves the weight bearing joints – like your knees. According to the American College of Rheumatology, nearly 70% of people over the age of 70 have x-ray evidence of the disease.

The worst thing is: Arthritis can be devastating. The pain can keep you up at night and make getting out of bed and moving around a daunting task. The pain and

stiffness can suck all the happiness and joy right out of your life.

And treatment options have not been good. The basic protocol has been a steady diet of toxic pain pills until your joints completely wear out and then it's time to surgically replace the knee joint.

But Now Things Have Changed

Osteoarthritis is a joint disease that mostly effect the cartilage. Cartilage is the tissue that covers the ends on bones in a joint. When healthy, cartilage allows bones to glide smoothly over one another and acts as a shock absorber.

Your "normal" knee also contains a small amount of fluid called synovial fluid. This synovial fluid is a thick, gel-like solution that cushions and lubricates the joint – much like oil lubricates the engine of your car.

In osteoarthritis, the cartilage breaks down and wears away and the synovial fluid loses it's lubricating properties and "dries up." This is like running your car with very old or no oil at all. Now as you attempt to use your knee(s), there is not enough lubrication which causes bones to grind together resulting in pain, swelling, stiffness and the joint continues to wear out. This is a vicious cycle and can lead to bone-on-bone rubbing and excruciating pain.

Pain pills do NOT lubricate the joint or fix the problem. They simply attempt to make you numb so you do not feel the pain as your joints continue to deteriorate. The eventual repercussions of this are obvious.

Knee Gel Is Very Different And here is why: They contains hyaluronate, one of the two natural lubricating agents in synovial

fluid Knee gel is precisely injected directly into your knee joint in a series of 3-5 treatments over a 4 week period. This instantly lubricates the joint, reduces friction and allows greater motion with less pain or no pain at all. Knee gel treatment not only lubricates the joint, but it acts as a shock absorber.

Here's something very important to consider: Even though most knee gels are a natural substances and are NOT considered a drug, it is NOT something you can get at your local health food store. It is scientifically researched, developed by pharmaceutical companies, FDA cleared and ONLY administered by a qualified Doctor.

What Results Can You Expect? According to one knee gel (Hyalgan manufacturer, Sanofi Pharmaceuticals and their FDA clearance research, "A course of Hyalgan treatment – will relieve pain in a majority of patients for 6 months without the safety concerns of nonsteroidal anti-inflammatory drug (NSAID) therapy. In many patients, the effect of Hyalgan is likely to last even longer than 6 months."

And the best part is: Since Hyalgan is a natural substance; it can be used over and over without risk. If it works for you, you can look forward to years without pain.

Who Should Consider Hyalgan and Other Knee Gel Therapies, Where Can You Get Them And When Should You Start?

You should certainly consider Hyalgan and knee gel therapy if you have been diagnosed with Knee arthritis or told you need a knee replacement. If you have not been diagnosed with arthritis but have either knee pain, stiffness

(especially after use or in the morning), swelling or loss of range of motion – you should have an examination by a specialist to determine what the cause of your problem is. If you have any of those symptoms, there is a very good chance you have or are starting to get arthritis.

And It Is Very Important That You Do Not Wait – Here Is Why...

Studies indicate that if the arthritis is caught soon enough, the cushioning effect of the treatments combined with a specialized rehabilitation program may actually help the knee heal and cartilage may re-grow which will help avoid joint replacement surgery. In other words, the sooner you start – the better.

Does the procedure hurt? A local anesthetic is given and the procedure is virtually painless. Most patients say it is like getting a flu shot.

Why Dr. Bennett Treatments by Dr. Bennett at Elk River Medical are EXTREMELY PRECISE.

Dr. Bennett is well trained and uses state-of the art ultrasound to see inside the joint to make sure treatments have the best possibility for maximum success. This is very important because studies show that Doctors doing this procedure without guided imaging can miss the joint space 30% of the time! Elk River Medical is a state of the art medical facility offering only the best technology.

Here's How To Check Out This Impressive Treatment And See If It Is Right For You- For FREE

Dr. Bennett is extremely excited about the response and results he is getting with this wonderful

treatment and he would like to share it with as many arthritis sufferers as possible.

But There Is A Problem...

Even though this treatment helps a majority of patients Dr. Bennett has treated, it is not a wonder cure and does not help everyone.

For that reason, Dr. Bennett does a complete examination on every potential patient and only accepts you if he feels you are most likely to get the pain relief and outcome you are looking for.

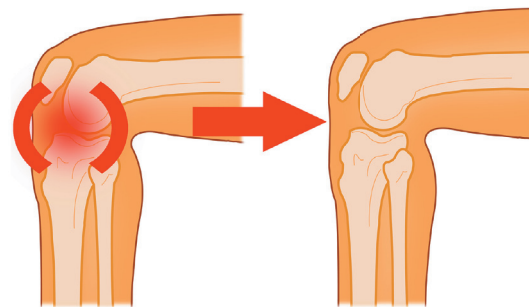

That's why Dr. Bennett would like to invite you to come in for a free consultation to see if you are a candidate for these treatments.

All you have to do is call 931-251-3009 right now and ask for your free "Knee pain consultation." We will schedule you for the our first available time that fits your schedule.

Your consultation should take about 45 minutes. During this time you can get all your questioned answered in a warm and friendly environment. You will know exactly what your treatment options are and if our treatments are right for you.

But if you would like to do this, you must call right now. The demand for this procedure has been overwhelming. And since Dr. Bennett cannot possible see everyone and always makes sure he gives every single patient the personal attention they deserve, he has had to limit the number of free consultations to 20 this month.

Just imagine how it would feel have all of your knee pain finally gone. Imagine going to bed and being able to sleep through the

Innovative knee arthritis treatment promises to help many in Fayetteville.

entire night – and waking up refreshed and energized... ready to take on the brand new day – with the arthritis pain that has been terrorizing you.

And imagine finally knowing you have a solution to your painful knee arthritis.

Well, you may not have to just "imagine" any more... because... these treatments might be the answer you've been looking for.

If you'd like to see if we can help you for free, simply call 931-251-3009 right now. Why wait one more day in pain when you may not have to? Call now before someone else gets your free spot.

One More Thing It's Important...

Ever since offering this wonderful treatment, Dr. Bennett's office has been flooded with calls. For that reason, if when you call, the lines are busy or you get voice mail... just keep calling back. The possibility of living painfree is well worth the time and effort it may take to get through to Dr. Bennett and schedule your free consultation.

And don't forget: These treatments are covered by most insurance and medicare. To schedule your free consultation or if you have any questions call 931-251-3009 now.

AVOIDING CASHIER'S CHECK AND MONEY ORDER FRAUD. Be extremely cautious about accepting a cashier's check or money order for payment. Never accept a check or money order that is more than your selling price. Don't accept cashier's checks, money orders or any checks for that matter, for payment from buyers you do not know. If you are willing to take a cashier's check or money order in payment, insist on one drawn from a local bank or a bank that has a local branch and have it checked by someone at a bank before depositing/cashing.

AVOIDING CASHIER'S CHECK AND MONEY ORDER FRAUD. Be extremely cautious about accepting a cashier's check or money order for payment. Never accept a check or money order that is more than your selling price. Don't accept cashier's checks, money orders or any checks for that matter, for payment from buyers you do not know. If you are willing to take a cashier's check or money order in payment, insist on one drawn from a local bank or a bank that has a local branch and have it checked by someone at a bank before depositing/cashing.
