Don't live your life based on Biden or Trump

Dr. Glenn Mollette

When did life begin for President Donald Trump or President Joe Biden? Did Trump's life begin when his father loaned him millions to start investing? Did it begin when he married Melania? Or, did life begin when he was elected President? Maybe his life is beginning now that his Presidency is over?

What about Biden? Did Biden's life begin each morning when he boarded Amtrak headed for Washington? Maybe his life began when he was elected a Senator or even the Vice President? Maybe his life is just beginning now?

Trump will have options after the White House. He is a businessman. He will figure it out. Maybe NBC will seek him to do The Celebrity Apprentice once again? Yes,

NBC hates him but they love money. The Celebrity Apprentice made NBC and Trump hundreds of millions of dollars. Someone will publish Trump's memoirs. I predict he'll make about 50 to 75 million dollars off his book royalties. He has over 70 million loyal followers. If ten million people buy a book with a \$6 to \$9 profit for the publisher then you can start multiplying the cash. Book publishers are all about money and sales. They know the market potential. Trump will stay busy on the speaking circuit. In about a year look for him in a city near you drawing a crowd.

Biden's life is only changing in that he finally gets to sleep in the White House. He will be in the same place where so many politicians and families have slept before. Biden is familiar with the nation's Capitol. He has practically spent his entire life there in politics. It's what he has awakened to almost every morning of his life. Although now, he will sit in the Oval Office.

Life is changing for these two men in different ways but what about your life? When did your life begin? Did it begin at your conception? Your birth? When you turned 16 years old or 21? Maybe it began when you retired? When will your life end? The beginning of your life starts when you start living your life. The end of your life concludes when you give up and stop living your life.

Our lives are brief, here today and gone tomorrow. Don't base your life on who is The President. The quantity and quality of our lives typically hinge on our decisions and the transitions we adjust to. Life is filled with transitions, just look at Biden and Trump.

Change disrupts us and the climate of fear and skepticism is dominating our nation.

For you and I we must live our lives right now. Every day we wake up is a new beginning and a new life. The old life was yesterday and we can't relive, change or erase it. However, we can learn from yesterday and education is very valuable.

When someone else's life begins is all conjecture on our part. When your life begins is your daily decision. Live your life. Maybe at this moment, your life is just really beginning.

SCORPIO (October 23 to November 21) You might take pride in wanting to do everything yourself. But now's a good time to ask family members to help with a demanding personal situation.

SAGITTARIUS (November 22 to December 21) Pay more attention to the possibilities in that workplace change. It could show the way to make that long-sought turn on your career path.

CAPRICORN (December 22 to January 19) Your need to succeed might overwhelm obligations to your loved ones. Ease up on that workload and into some well-deserved time with family and friends.

AQUARIUS (January 20 to February 18) Love rules for amorous Aquarians who can make good use of their ability to communicate feelings. Don't be surprised if they're reciprocated in kind.

PISCES (February 19 to March 20) Fishing for compliments? No doubt, you probably earned them. But it's best to let others believe they were the ones who uncovered the treasure you really are.

Tips from Mr. Bonz

Place a small tarp on the ground before wintry precipitation begins so your pet will have a spot to "go" when you let him out to potty!

Also Don't Forget To Use Pet Safe Ice Melt!!

Did You Know???

Colder weather stimulates more hair and coat growth from spending time in heat (inside) and outside in the colder winter weather. It's important to stick to your dog's regular grooming during winter months to keep their skin and fur healthy and well-protected.

PIEDMONT PETS
January 21, 2021
By Paulette Dean

Most people have heard the starfish story. It has circulated since the mid-1980s and usually has no author's name attached. The story as we know it was heavily adapted from an essay written by Lore Eiseley in 1969.

In the adaptation, an older man walked on a beach the day after a bad storm. Thousands of starfish had washed up on the beach and will die in the scorching sun. A young boy picked one up and threw it back into the ocean. The older man chided the young man, saying his action would not make a difference, considering the vastness of the problem. The boy picked up another one, threw it into the ocean, and said, "I made a difference for that one."

Sometimes for people who love animals, the sheer number of ones needing help can be overwhelming. Locally, there are thousands who need help and worldwide, the numbers are mind-boggling.

Many times we hear people say when they come to the shelter to adopt, "Oh, I wish I could take them all." Adopting one, though, changes that animal's life.

We also hear, "I can only give a little bit of money." Very few people can afford large donations, and smaller ones are appreciated. People give what they can and the gifts multiply when put together.

Some people say, "I wish I had more time to volunteer at the shelter." We believe, though, that volunteers who only have time to walk one dog, bathe one puppy, or cuddle one kitten help those

Phone: (434) 799-0843

animals tremendously. We do not expect people to spend huge amounts of time at the shelter. Each effort made by a volunteer is valued.

When we receive complaints about animals being neglected, the complainant often says, "I wish I could do something." The fact is, the phone call they just made may have just saved an animal from a lot of suffering.

Those who respect and love the creatures with whom we share this earth want to save them all. It is not within the power of man to save an entire world of animals.

It is within the power of every one, though, to save one dog, one cat, one cow, one bird, etc. Each one saved becomes the one starfish thrown back into the water.

Our next volunteer orientation will be February 4th at 4:00 p.m. at the shelter. We hope to see you there. Your service will matter.

* "If you have a bunch of picture frames that don't match or ones that are nicked or have small cosmetic damages, just paint them. Choose a matching color for all, and you have a collection." -- T.L. in Florida

* Kitchen tip: You can slice mushrooms in an egg slicer.

* If your sneakers are smelly, try this: Stick a sheet of fabric softener in each one. Let them set overnight, and most of them time, the smell will be gone by morning. Of course, you should rotate your tennies to help them "breathe," since wearing your shoes day after day can foster bacteria growth -- meaning your sneaks will be really stinky.

* "To get sheets and towels to dry faster, try adding a tennis ball to the dryer. It bounces around inside while the cycle is going, and breaks up large items that tend to crumple into a ball." -- C.L. in Illinois

* When you get near the end of a roll of paper towels, save it to put in your car. Pull together a kit to keep in the car with the following items: a small bottle of glass cleaner, a squeeze bottle of water, some wet wipes and the short roll of paper towels. You will always be ready for a quick on-the-road cleanup.

* The kitchen and the bathroom are the worst places in the house to store medicines and vitamins. Humidity and heat can damage the properties of the compounds.

COVID-19 VACCINATIONS FOR 'PHASE 1b' TO START LOCALLY

News release by Virginia Department of Health

Beginning Monday, January 18, the Pittsylvania-Danville and Southside health districts will begin conducting closed "point of dispensing" (POD) COVID-19 vaccination clinics specifically for "Phase 1b" priority groups. Phase 1b is the second group eligible to receive the vaccine, and includes police, fire and hazmat response personnel, those living and working in correctional facilities, homeless shelters and migrant labor camps, childcare/K-12 teachers and staff, food and agriculture workers, manufacturers, grocery store workers, public transit workers, mail carriers (USPS and private), anyone 65 years and older, and those individuals 16-64 years with high risk medical conditions. Residents in Phase 1a will still be provided opportunities to receive the vaccine.

Individuals will be required to bring a personal form of identification such as a driver's license, and may also be asked to show proof of qualification, such as a work ID, in order to verify eligibility. These PODs are specifically for Phase 1b and 1a; COVID-19 vaccine is not available to the general public and these are not public events.

"We are pleased to move to the next phase and to be able to provide a safe and effective vaccine to more people," said Dr. Scott Spillmann, director of the Pittsylvania-Danville and Southside health districts. "But, as we enter Phase 1b, we will begin administering the second doses to those in 1a. We ask everyone to please be patient as we recruit as many contract staff and volunteers as we can to help with this."

Essential employees will be scheduled through their employers. Vaccination planning teams are reaching out to coordinate with employers in Phase 1b. Employers of Phase 1b essential create a spreadsheet with all the qualifying employees- proper name, contact email (and mobile phone if desired), and indicate which employees has expressed a willingness to accept the vaccine.

Individuals 65 years and older and those 16-64 years with high risk medical conditions who live in PDHD should call (434) 766-9828 and those individuals in SSHD should call (434) 738-6545 to schedule an appointment. Both health districts are experiencing high call volumes and ask that callers be patient.

As availability of the vaccine increases, Virginia will move to the other phases. Phase 1c will include other essential workers. The complete definitions of all phases, data and other information, are on VDH's Vaccine Response website at www.vdh.virginia.gov/covid-19-vaccine/. Anyone can use this brief eligibility to find out which vaccination phase they fall under.

Virginians who do not fall into priority phases will be offered the COVID-19 vaccine when it is more widely available. Once the vaccine is rolled out to the general public, distribution will be similar to the flu vaccine. People will be able to get the vaccine from a local pharmacy, primary care physician, Federally Qualified Health Center (FQHC)/free clinic, local health department or other clinic that is participating as a COVID-19 Vaccination Program Provider.

In the meantime, it is important to remain vigilant in COVID-19 prevention. Continue to protect yourself and others: cover your mouth and nose with a mask, wash your hands often and well, stay at least six feet away from others, avoid gatherings with anyone who is not a member of your household and get a flu shot.

WOODEN BAT BASEBALL LEAGUE TO COME TO DANVILLE

Danville is soon to welcome an exciting new wooden bat baseball team in 2021 after the Danville Braves' exit in 2020. Powered by Major League Baseball and USA Baseball, this team will exist as part of the newly restructured Appalachian League—a proud participant of the Prospect Development Pipeline, which recruits and develops amateur athletes in preparation for one day making it to the major leagues. The players will be the top freshman and sophomores from colleges throughout the country, coming to 10 cities throughout the Appalachian region.

Danville Baseball Club, LLC and The City of Danville have entered into a long-term MOU to lease American Legion Post 325 Stadium in Danville, VA. Danville Baseball Club, LLC is part of Knuckleball Entertainment, which also owns and operates Burlington Baseball (NC) of the Appalachian League.

The group is owned by Brittany and Ryan Keur. Ryan Keur had previously been the Appalachian League Executive of the Year in 2014, 2015, and 2016. In 2017, Keur was named the 2017 Minor League Baseball Executive of the Year by both Baseball America and Ballpark Digest.

"We are thrilled to enhance our investment into the Appalachian League and usher in this new era of baseball within the Danville community," said Ryan Keur. "Over the past several months, we have had many conversations with local stakeholders, city leaders, business leaders, and the reception has been nothing short of amazing."

"I'm glad that Danville is going to continue to have high-quality baseball for our citizens and visitors to enjoy," said City Manager, Ken Larking.

The new team's focus is on preserving the rich history Danville has with baseball and engaging the community with exciting experiences. "We are so proud to be able to not only preserve baseball in Danville but to see it flourish for years. The best is yet to come—the staff that we are going to put in place will ensure an incredible family-friendly and affordable experience for all members of the community to enjoy," Keur said.

Appalachian League President, Dan Moushon, praised Danville's choice of accepting Ryan Keur as the Group Owner and expressed excitement about the new team, "Ryan has received national awards and attention for his work. He is a rising star in this industry, and it's so exciting to have him in the league. He and his team will become integral parts of the community and engage with it consistently."

Back pain getting in your way?

When a person suffers from acute back muscle spasms (involuntary tensing of the muscles), it can result in short-term pain that may last a few weeks.

A clinical research study (RESUME) for adults with pain due to acute back muscle spasms is now enrolling participants.

The RESUME study is currently seeking volunteers to participate in a clinical research study to evaluate a new, non-opioid, investigational medication for patients suffering from back pain due to or associated with muscle spasms.

You may be eligible to participate in RESUME if you:

- Are 18 - 64 years of age.
- Are able to walk.
- Have sudden onset of back pain associated with muscle spasms not caused by a long-term (chronic) condition.
- Are willing to stop all other non-study provided medications or treatments for back pain/muscle spasms.
- Are willing and able to comply with scheduled visits and study procedures.
- Can be immediately available and assessed to start receiving investigational medication.

Eligible study participants will be compensated for their time. Participation in RESUME is voluntary and study participants can leave at any time and for any reason.

If you would like to learn more about RESUME, please contact us:

Name: Carol Kennedy
Phone No: 434-793-4711 ext 1169
Email: carol.kennedy@spectrummed.com
Study Site: Spectrum Medical, Inc.

If you contact us, it does not mean that you are committing to participate in RESUME.

If you express an interest, a study doctor will complete other assessments before you can enroll in RESUME.

Skinny Oatmeal Brown Sugar Muffins

Ingredients

- 1 large egg
- 1 cup all-purpose flour
- 3/4 cup old-fashioned whole-rolled oats (don't use quick cook or instant; they're finer and act more like flour and batter will be too dry)
- 1/2 cup Silk Unsweetened Vanilla Almondmilk (Silk Unsweetened Cashewmilk or another milk may be substituted)
- 1/2 cup sugar-free pancake syrup (lite syrup or real maple syrup may be substituted)
- 1/4 cup dark brown sugar, packed (strongly recommend dark, although light brown may be substituted)
- 1/4 cup Silk Vanilla Dairy-Free Yogurt (Greek yogurt, sour cream, or lite sour cream may be substituted)
- 1 teaspoon baking powder
- 1/2 teaspoon baking soda
- 1/4 to 1/2 teaspoon salt, or to taste

INSTRUCTIONS

Preheat oven to 350F. Spray 10 of the 12 cavities of a Non-Stick 12-Cup Regular Muffin Pan (note you will not use all 12) very well with cooking spray or grease and flour the pan; set aside. (I don't prefer the cosmetic look of muffin liners.)

To a large bowl, add all the ingredients and whisk until smooth and combined, without needlessly over-mixing.

Using a large cookie scoop or 1/4-cup measure, evenly distribute the batter into 10 of the cavities of the prepared pan, filling each cavity no more than 3/4-full or muffins will overflow while baking.

Bake for about 20 minutes or until tops are set, springy to the touch, and a toothpick inserted in the center comes out clean or with a few moist crumbs, but no batter. Use your judgment when evaluating doneness because muffin pans, ovens, ingredients, and climates vary. Start watching closely at about 16 minutes.

Allow muffins to cool in pan on top of a wire rack for about 10 before removing and placing on rack to cool completely. Gently rim each cavity with a knife if necessary for easier removal.
