Sunday Morning Positive Perks

from your Sassy Small Town Missus

LET ME EXPLAIN...

I love this sign. It is an awful thing to say isn't it? But yet for those of us who are vane, it is nonetheless true. Before you slip my Blog into the Cancel Culture recycle bin of life, allow me to explain myself. Beauty does truly come from within. The beauty we hold within each of us is radiated daily by our actions. We need no spritzes or sparkles for that. It comes from a place deep inside us from what we have learned from life. Hopefully life has shown you beauty in many ways. Some people are so beautiful within that they need no help on the outside. The kind of help you buy at the makeup counter. Truthfully a little help from Maybelline might just camouflage their true inside beauty. Unfortunately, I do not have that dilemma. My Brother's running joke is that he can tell when he is at a gathering of my Cusimano/Clark side because there is lipstick on all the glasses. What can I say, it is an Italian thing we love our lipstick. I come by it honestly. Still I told my Aunt Linda that we should not be ashamed of our vanity, because us Clark ladies do harbor the curse of vanity. I explained my theory that there is no shame in taking pride in how we present ourselves to others. Even in appearance. When forced to close up Shop for 1 month in the spring, I did like many and kicked it daily in my cozies and did not do hair or makeup. Why bother if no one is going to see you but your husband. He has to be accepting because we both share the Deed to the house and hopefully he will just accept the "Beauty that lies within". hmm. April 20, 2020 my first day back to work after being off 1 month, I decided to embrace my new normal. I couldn't kick it in my cozies, but I did not have to do hair or makeup. Or so I thought. I gave it a good try but the reality was that sometimes taking care of yourself means feeling good about how we see ourselves when we look in the mirror. Yep I said it, in the mirror. My Aunt says she just doesn't look in the mirror anymore. That is an option, but if she did she would see how beautiful she is not just on the inside! After a couple weeks back to work it seemed I just did not have the pep my step required. I tried a bit of blush, mascara and dusted off my flat iron. Most importantly I put my lipstick on. People have questioned if I am not feeling well when I do not put on my lipstick. I was not blessed with nice plump colorful lips like my Aunt Ann on the Burgoon side, Dang! I need a boost from my Buxom lip color. It's OK to be a little late sometimes if you need to sparkle yourself up. If it makes you happy to look dolled up a bit, then do it unabashedly. Because if you are happy, it is easier to pass that happiness on and color the world with a special hue and shade of joy. But know this, inner beauty can never be eclipsed by what we paint on the outside.

THE LAW AND YOU

BY NATHAN D. PACE
ATTORNEY AT LAW

DETERMINING YOUR ONLINE LEGACY

Digital assets are not always considered when people establish their estate plans, but your digital legacy is important and there should be an established plan for it when you die. Your personal digital files include not just documents but also any music or books or other digital property. These files are just one area to consider. While you do not technically "own" your social media persona, you can leave instructions for your executor concerning any final messages you would like to post or how you would like your friends or followers notified of your passing. Licensed domains and seller accounts may be able to be transferred to a person of your choosing, as could any blogs you may have.

We live in a digital age and your assets probably do not take the same form they did 20 years ago. Whether it is music, photos, are a variety of different documents, the majority of people are storing some of their most important media digitally. This has a legal and practical impact on your estate planning. Nobody likes thinking about the unfortunate eventuality of life, but one of the best things you can do for your family is estate planning before it's too late. Please schedule a consultation with the Law Office of MACK & PACE.

Healthy Choices

— Your guide to looking and feeling your best —

SIGNS OF A STROKE

Sometimes symptoms of a stroke are difficult to identify. The stroke victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke. Now doctors say a bystander can recognize a stroke by asking a few simple questions:

- 1 Ask the person to **SMILE**.
- 2 Ask the person to **TALK AND SPEAK A SIMPLE SENTENCE**. i.e. It is sunny out today.
- 3 Ask the person to **RAISE BOTH ARMS**.
- 4 Ask the person to **STICK OUT HIS TONGUE**. If the tongue goes to one side or the other, that is a sign of a stroke.

OTHER STROKE WARNING SIGNS

- Sudden **numbness or weakness** of the face, arm or leg, especially on one side of the body
- Sudden **confusion**, trouble speaking or understanding
- Sudden **trouble seeing** in one or both eyes
- Sudden **trouble walking, dizziness**, loss of balance or coordination
- Sudden, **severe headache** with no known cause

If you or someone with you has one or more of these signs, don't delay!

CALL 9-1-1 IMMEDIATELY!

Do you have HEEL pain or ARCH pain?

HEEL SPUR SYNDROME/PLANTAR FASCITIS is a common problem among people who are active. It starts as a dull intermittent pain in the heel which may progress to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing, or after walking.

- Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.
- Contributing factors: flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.
- Approximately 2-3 times your body weight of force is exerted on each foot with walking. Flexible, non-custom molded arch support found at those advertised shoe stores cannot support these forces and usually do not provide long-lasting relief, do not come with a lifetime warranty, and are typically more expensive than custom-molded ones made by our office.
- 95 percent of our patients symptoms are resolved with conservative treatment, avoiding surgical intervention.
- We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques and **EPF** resulting in minimal incisions and scarring, immediate ambulation and often back in a shoe in one week.

If you can't remember when your feet didn't hurt, now is the time to give us a call!

Signs of a HEART ATTACK

Some heart attacks are sudden and intense, but most heart attacks start slowly, with mild pain. Often people affected aren't sure what's wrong and wait too long before getting help. Symptoms include:

CHEST DISCOMFORT. Most heart attacks involve discomfort in the center of the chest that lasts more than a few minutes, or that goes away and comes back. It can feel like uncomfortable pressure, squeezing, fullness or pain.

DISCOMFORT IN OTHER AREAS OF THE UPPER BODY. Symptoms can include pain or discomfort in one or both arms, the back, neck, jaw or stomach.

SHORTNESS OF BREATH with or without chest discomfort.

OTHER SIGNS may include breaking out in a cold sweat, nausea or lightheadedness

Women are somewhat more likely than men to experience other common symptoms, particularly **SHORTNESS OF BREATH, NAUSEA/VOMITING, AND BACK/JAW PAIN.**

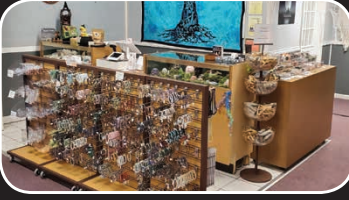

If you or someone with you has one or more of these signs, don't delay!

Call 9-1-1 immediately!

Albion man recovering after heart, liver transplant

By Tom Rivers, Editor • Posted 21 January 2021 on www.OrleansHub.com

Matt Grammatico had surgery last week at Cleveland Clinic

CLEVELAND — An Albion man is recovering so well after getting a heart and liver transplant last week that he has been moved out of the intensive care unit at the Cleveland Clinic — a week ahead of schedule. Matt Grammatico, 47, has been at the hospital in Cleveland since Oct. 16. He had the transplant surgery on Jan. 12.

"I'm hopeful for the future," Grammatico said by phone on Wednesday. "The doctors are all happy where I'm at. Honestly, they are stunned with how fast I'm coming out of it."

Grammatico was born with a congenital heart defect called Hypoplastic Right Heart Syndrome. He had major heart surgery as a baby followed by an open-heart reconstructive surgery when he was 11. He has needed multiple procedures and surgeries throughout the next 30-plus years of his life.

During one of the surgeries as a child, he was unknowingly given a Hepatitis C tainted blood transfusion. The virus attacked his liver, undiscovered, for more than 20 years, further complicating his health. He has endured end-stage liver disease.

Grammatico's health deteriorated in the past year, and Cleveland Clinic kept him in good enough condition for the surgery. He was in the operating room for about 19 hours.

Normally patients are in the ICU for two weeks after the surgery. Grammatico was able to move out of ICU after one week and is now in a transplant step down unit. He said he is in a lot of pain and feels a little groggy.

But he is very thankful for the medical team, the organ donor and for a supportive community. He praises God for the surgery's success so far.

It was almost three years ago when the Albion community put on a spaghetti dinner and basket raffle for Grammatico on Jan. 27, 2018 at the Carlton Rec Hall.

Grammatico's wife Rhonda has been in Cleveland since Oct. 16, but hasn't been able to see her husband, face to face, due to COVID restrictions. She has been staying in a hotel room and having frequent phone and video conversations with her husband.

Grammatico said the separation from his family, including son Nate, has been very difficult. If he continues to progress, he could be released from the hospital possibly next week. Usually patients are in the transplant step down unit for a week to three weeks before being released. He then has to stay in Cleveland and check in for daily tests at the hospital for at least a month.

His wife has been providing updates on her husband's journey at the Cleveland Clinic on Facebook through the "Feel The Love With Matt" page.

Grammatico worked as a truck driver for 17 years and then owned his auto repair business in Hamlin. His father, Mike Grammatico, was a long-time music teacher at Albion.

Matt was informed there were organs for him and he was prepped for the transplant surgery on Dec. 30. But the doctors determined the liver had "declined" and it would be better to wait. Mrs. Grammatico shared that patients and their loved ones need to be prepared for "dry runs" where the surgery gets cancelled.

"We love you so much, thank you for rallying and praying and cheerleading alongside of us," Mrs. Grammatico wrote on Facebook on Dec. 30. "We know the next call is coming in God's good time. Praise God, Matt is in great spirits and he is in the wonderful hands of the doctors and our Lord! We will continue to be patient and wait for the next call."

The call came in the morning on Jan. 12. Grammatico was prepared for surgery and his donor heart was in place inside his chest just after noon. The liver proved to be more time consuming. He was out of surgery at about 2:30 a.m. "Transplant surgeries are done, Matt is doing well!" Mrs. Grammatico posted at 2:31 a.m. on Jan. 13. "He is closed and is heading down to Cardio/Vascular ICU now."

Chicken Meatballs With Chipotle-Honey Sauce

Makes 12 servings. Two meatballs each.

- 2 pounds ground chicken
- 2 eggs, lightly beaten
- 1/3 cup plain dry bread crumbs
- 1/3 cup chopped fresh cilantro
- 2 tablespoons fresh lime juice
- 4 cloves garlic, minced
- 1 4-ounce can chipotle peppers in adobo sauce, divided
- 1 1/2 teaspoons salt, divided
- 3/4 cup honey
- 1/3 cup chicken broth
- 1/3 cup tomato paste
- 1 tablespoon lime juice
- 2 teaspoons Dijon mustard
- 2 tablespoons vegetable oil, divided

1. Line two baking sheets with parchment paper. Combine chicken, eggs, bread crumbs, cilantro, lime juice, garlic, 1 tablespoon adobo sauce, and 1 teaspoon salt in medium bowl; mix well. Form mixture into 48 meatballs. Place meatballs in single layers on prepared baking sheets. Cover with plastic wrap; chill 1 hour.

2. Combine remaining 1/2 teaspoon salt, 2 to 3 chipotle peppers, honey, chicken broth, tomato paste, lime juice, and Dijon mustard in blender or food processor. Process until smooth. Pour sauce into slow cooker. Set aside

3. Heat 1 tablespoon oil in large skillet over medium-high heat. Working in batches, cook meatballs, turning to brown on all sides, transferring batches to slow cooker as they are finished. Add additional tablespoon of oil to skillet as needed for second and subsequent batches.

4. When all meatballs have been added to slow cooker, stir gently to coat all meatballs. Cover; cook on high 3 to 4 hours or until meatballs are no longer pink in centers. ■
