## WHEN TO ELECT SOCIAL SECURITY MAY BE THE SINGLE MOST IMPORTANT DECISION OF YOUR RETIREMENT

The difference between the best and worst possible outcome is often over \$100,000. Most people think you can do a simple break-even analysis using one of many free break-even calculators available to determine whether to elect Social Security early or wait.

However, virtually all of the simple break-even calculators in use today ignore the spousal and survivor benefits available to married couples. There has never been a tool that could offer a thorough analysis to show married couples when to elect their Social Security benefit and whether to use creative election strategies to maximize their income stream - until now.

Using software analysis, we examine hundreds of possible combinations, including 81 possible age combinations across nine possible election strategies, and find the one option that offers the highest expected lifetime benefit.

### Home Remedies For Joint Pain Can Provide Relief

Stiff, painful joints affect a vast number of people. According to the American College of Rheumatology, arthritis and other rheumatic diseases afflict roughly 23 percent of Americans, while Canadian Health Surveys indicate that nearly 17 percent of the Canadian adult population have arthritis. The number of people living with arthritis is expected to increase as the Baby Boomer generation continues to age.

Treatments for joint pain and stiffness range from medication to physical therapy. Finding the right regimen may take some effort, including some trial and error. For those looking for treatments they can try at home, consider these home-spun remedies. (Note: Check with a physician to confirm the safety of alternative treatments before adding herbs to or modifying your existing medications.)

- Exercise more. Regular movement helps to maintain flexibility in the body's joints. Those with joint pain may shy away from exercise, but they could be doing themselves a disservice. Low-impact exercises, like

swimming and water aerobics, can work out muscles and joints without adding extra stress. Walking can replace jogging or running, and yoga and pilates may be just the thing for deep stretching.

- Lose weight. Joint pain is often tied to obesity. Losing just a few pounds can ease up strain on certain joints, such as the hips, feet and knees. Shedding weight can improve mobility and decrease pain and potential future damage to joints. Exercise goes hand-in-hand with healthy eating to lose weight.

- Consider hot and cold therapies. Using a heating pad, hot shower or bath or an ice pack can work wonders on arthritis-related pains. Hot treatments will loosen up stiff joints, while cold therapy is best for acute pain relief. Do not apply hot and cold packs to the skin directly, as this can injure the skin. Wrap them in a towel first before application.

- Include anti-inflammatory foods and beverages in your diet. Explore the many different natural foods and herbs that are purported to reduce inflammation in the body. Ginger, turmer-

ic, flaxseed, grape juice, and bromelain can alleviate inflammation and stiffness. Foods such as fatty fish and nuts high in omega-3 fatty acids also will help fight inflammation. Blueberries, garlic, celery, and kelp should be included in diets as well.

- Go for a massage. The Arthritis Foundation says regular massages can help reduce pain and stiffness and improve range of motion. The massage therapist should have experience working on people with arthritis. In addition, massages should be performed by licensed physical therapists and guided by a doctor's recommendation.

- Increase magnesium intake. Magnesium can alleviate pain and reduce inflammation. It is best ingested through dark, leafy greens but also can be taken in supplement form. Magnesium oil can be applied topically to sore joint areas.

Joint pain can impact daily life and make activities less enjoyable. Fortunately, there are plenty of ways that do not require harsh medications to loosen joints and combat pain.

KUTZTOWN, PA 19530

**REGISTRATION:**

\$100 program fee plus  
\$100 security deposit  
(returned after volunteer service)

Contact Rick Carr, Compost Production Specialist at 610-683-1415, or email [rick.carr@rodaleinstitute.org](mailto:rick.carr@rodaleinstitute.org) for more information or for a volunteer training application.

#### What is our Training Program?

The Master Composter of Rodale Institute training program, sponsored by the ERM Group Foundation, is a multi-week, volunteer-driven compost education program that will provide trainees with the education and skills to become masters of backyard composting among their community members.

Trainees will learn several elements of composting and solid waste management through a series of six lectures, demonstrations, hands-on activities, field trips, and outreach and education opportunities.

#### You can learn:

- \* Compost basics & systems
- \* Worms, biology, & microbiology
- \* Uses for compost
- \* Scale & case studies
- \* Solid waste management
- \* Outreach & education

#### Requirements:

- \* Attend six classroom lectures
- \* Participate in demonstrations & field trips
- \* Complete 40 hours of compost-related community service

### Hypnosis For The Student

For some students, the stress and anxiety of school and academics can become overwhelming. The pressure comes from themselves, parents, teachers, and friends causing a lot of stress for students. Stress affects students in many different ways. For some students, their grades start to suffer. Others become so overwhelmed by stress that they drop out of school. Hypnosis can be very useful tool in helping struggling students who are seeking help in reducing their stress.

A study performed in 1990 took a look at the role hypnosis played on helping college students with test anxiety. The participants in the study were randomly divided into two groups. One group served as the control group and received no form of treatment. The other group

received cognitive-behavioral hypnosis. The researcher evaluated the effects of hypnosis in improving academic performance and decreasing test anxiety. Both groups were enrolled in a demanding psychology course. All students were evaluated based on their midterm grade and anxiety levels. The hypnosis group reported a significant reduction in test anxiety and improvement in academic achievement. Both groups were evaluated 6 weeks after the end of the course and the hypnosis group was found to have maintained their hypnosis treatment gains in achievement and reduction in anxiety. Cognitive behavioral hypnosis is a highly effective form of treatment that helps students improve performance and reduce anxiety. The self-hypnosis that was

taught to students, which included relaxation techniques and the usage of imagery, was able to help the college freshman cope with stress and the pressures of college. Hypnosis is a very effective in helping to reduce stress and anxiety in college students and also students of all grades. Having the ability to better manage stress not only improves

their academic performance, but will continue to help them cope with stress in other situations throughout their lives. As their stress and anxiety lessens their confidence grows. Remember, hypnosis is helpful for the whole family. Parents of a stressed student are usually stressed themselves and benefit greatly from hypnosis too. Curious about hypnosis??

Enjoy a FREE group hypnosis session to destress and relax. Tuesday, August 25 at 6:30 pm. Everyone is welcome. No cost or obligation and no reservations needed. Dress comfy and enjoy! Located at Inner Peace and Wellness Center, 202 S. Third St., Hamburg, PA 19526. Stop in at Inner Peace and Wellness Center's Wellness Day, Saturday, August 8, 10-4.

No admission fee. Fee for products and services. Enjoy a variety of vendors and practitioners. Lori will be offering foot reflexology and answering questions about hypnosis. For more information, please feel free to contact Lori Kleinsmith, Certified Hypnotist, Pinnacle Hypnosis & Therapies, 610-823-4160. [www.pinnaclehypnosis.com](http://www.pinnaclehypnosis.com).

*Students seeking private music lessons have options*

Time and again research has proven the benefits of music education. Children who study music typically score better on standardized testing and exhibit improved language and reasoning skills, and music education helps students with advanced mathematics lessons by improving their spatial and temporal reasoning. Involvement in music and the arts can improve a student's SAT scores and make the student well-rounded. Despite these benefits, music and art education is slowly disappearing from the classroom. At many schools across the nation, stages are dark and band and chorus rooms are empty. Budget cuts have been unkind to music education programs. To keep up with the demand for technology in the classroom, certain school programs have to be scaled back, and art and music are generally the first to go. This leaves it up to parents to involve their kids in music education.

Private lessons have long been a great way for kids to learn music, and many such music coaches are former music teachers. With private lessons, kids get to benefit from working with certified instructors, and parents are happy to make music a part of their youngsters' lives. The following are a handful of ways parents can find private lessons for their kids.  
\* Word of mouth: Begin by asking neighbors or friends in the community if they know of any reliable music teachers. Someone is bound to know a person or have a connection to a music teacher. Speak with members of a community music ensemble, such as a church choir, or even amateur or professional musicians you see playing at a restaurant or bar. There's a good chance you can get a referral. You may also have a friend or neighbor who is a talented musician and will agree to offer lessons on the side.

\* Community music programs: While schools may not have music classes, community centers offer programs for both adults and children. A community arts center may offer instrument training and/or vocal lessons, so look into such organizations in your community. A community YMCA or a similar organization also may have after-school music programs..  
\* Advertising: Tutors frequently advertise their services in the Merchandiser. Look to see if anyone is offering music lessons. Many papers now offer their classifieds both online and in print, so utilize both options to ensure your search is as thorough as possible. Music education is important, but those seeking instruction may have to look outside of school. Private instructors are available to help foster a love of the arts and mold creative, well-rounded children.

*Student volunteerism can have a positive impact ... and help pay for college*

(MS)- Volunteerism can help young people grow into well-rounded, responsible individuals. When volunteering, kids can learn new skills, foster new friendships and contacts, and improve both their social and interpersonal skills. In addition, a 2011 study from researchers at the Stony Brook University School of Medicine found that people are generally happier and healthier when giving back to their communities. The study even recommended that health care professionals recommend volunteering to patients 12 and older, with the belief that helping others provides significant health benefits, including allowing volunteers to escape their stress and anxiety. And, there could even be a few added bonuses for volunteering! Students between the ages of six and 18 who haven't yet graduated high school have the chance to be recognized for their volunteering efforts and earn money for higher education. Finding the right activity is often the most important step when fostering a love of volunteering in youngsters, and there are a number of great opportunities and causes that children can relate to.  
\* Embrace eco-volunteering. Today's kids are increasingly eco-conscious, and concepts like recycling, reusing and conserving fuel and energy are second nature to many young people. That makes eco-volunteering a natural fit for today's eco-conscious students. Children can volunteer with organizations that remove trash from beaches and parks; plant trees to establish community green spaces; work to promote wildlife

conservation; or further recycling efforts in their communities.  
\* Help the needy. Volunteerism can open youngsters' eyes to the plight of the less fortunate. Various organizations dedicated to helping the needy depend on volunteers of all ages to meet their missions. From soup kitchens to shelters to private clothing or food collection drives, opportunities abound for kids who want to help the less fortunate.  
\* Help the sick. Many organizations that cater to the sick also provide volunteering opportunities to youngsters. Many kids who volunteer with such organizations are motivated to do so by a close friend or family member's battle with a particular illness, but some kids even turn their own personal adversity into an opportunity to help the sick.

\* Visit the elderly. Kids can learn a lot from their elders, and many organizations that work with the elderly offer volunteering programs for boys and girls. Individuals in group homes or hospitals often appreciate visits from youngsters, and kids can learn valuable life lessons in return.  
\* Tutor fellow students. A child who is proficient in a given subject can lend a helping hand to fellow students who need some assistance. Working together to improve grades and school performance can improve others' sense of self-worth and instill a greater sense of accomplishment in tutors. Volunteering can foster a sense of social responsibility in youngsters, and may even help them finance their college educations.

**READER'S Recipe**  
**FRESH PEACH CUSTARD PIE**  
 1-3/4 Cups Fresh Peach Puree  
 3 Eggs  
 1 Cup Sugar  
 3 Tbsp. Flour  
 1/2 Tsp. Salt  
 1/2 Tsp. Ginger  
 1/2 Tsp. Cinnamon  
 1-1/2 Cups Milk  
 Dash Nutmeg  
 9" Pie Shell  
 Put fresh peaches in a blender to make puree. Beat eggs slightly; add remaining ingredients; and mix. Pour mixture into an unbaked pie shell. Sprinkle with nutmeg. Bake 10 min. at 450 degrees, then at 325 degrees till a knife comes out clean when inserted halfway between the edge and center of the pie. Cool to serve.

## AUGUST TENT SALE AT SHARON RENNINGER'S COUNTRY MEADOWS

Fridays 10 to 7 & Saturdays 8 to 4 - August 1 & August 7-8  
I am doing my annual purge of my barn, storage unit and sheds to see what is taking up so much space, I am finding some great treasures for you. These treasures will be 30% to 75% OFF. As items sell, I will restock with more. As space permits, new items will be added each day. No matter when you get here, it will be like the first day. Look for the tent as it will be set up in the garden just outside the shop. I may have a preview of the upcoming fall and Christmas season.
