### Change Your Thoughts ... And Life Changes

This statement sounds cliché, however, research conducted through the domain of positive psychology is finding lots of evidence to back this phrase. Yes, research shows happiness does NOT come after success, but success comes from a positive, happy mindset. Additional research by Barbara Fredrickson, PhD. (Fredrickson [1998]), has validated the 'Broaden and Build Theory'. According to the broaden and build theory, positive

emotions often initiate a cycle of more positive emotions. Specifically, positive emotions can facilitate the development of skills, networks, resources, and capacities, which in turn promote well-being and fulfillment. Basically, positive thoughts and emotion play a huge part in your success in life. More importantly, research now shows effective ways to change your thinking and see life through a more positive lens. Ancient masters and modern

motivational speakers alike have been teaching these methods in different ways. Through using these simple techniques explored by positive psychology and NLP (neurolinguistics programming) it is possible to change your thinking and change your life! Classes are being held at Unity of Reading (please see ad). Fredrickson, B.L. (1998). What good are positive emotions? Review of General Psychology, 2, 300-319.

## WHEN TO ELECT SOCIAL SECURITY MAY BE THE SINGLE MOST IMPORTANT DECISION OF YOUR RETIREMENT

The difference between the best and worst possible outcome is often over \$100,000. Most people think you can do a simple break-even analysis using one of many free break-even calculators available to determine whether to elect Social Security early or wait.

However, virtually all of the simple break-even calculators in use today ignore the spousal and survivor benefits available to married couples. There has never been a tool that could offer a thorough analysis to show married couples when to elect their Social Security benefit and whether to use creative election strategies to maximize their income stream - until now.

Using software analysis, we examine hundreds of possible combinations, including 81 possible age combinations across nine possible election strategies, and find the one option that offers the highest expected lifetime benefit.

**The Emblem of the Land We Love**

As we celebrate the Fourth of July with barbecues, fireworks and revelry, it's important to remember the true meaning of this important holiday. On the birthday of our nation, we celebrate freedom and democracy while saluting the heroic efforts of those who have fought for and defended our liberty since July 4, 1776. Happy Birthday, America.

**Where is Your WEBSITE?**

We have officially entered the Golden Age of the Internet, where having a website for your business is an absolute essential. So where's your website? The Windsor Press offers affordable website design and hosting of your new website. An effective website is the cornerstone of any small business's marketing strategy, offering fundamental information 24 hours a day. There are multiple reasons why you need a website today:

- WEBSITES NEVER SLEEP**  
Websites never take a break, even after business hours are over, customers still have the opportunity to browse your business's website. A website will allow your business to be open 24 hours a day, every day of the year - that's the equivalent to having an employee work around the clock, even weekends and holidays!
- INCREASES THE EFFECTIVENESS OF YOUR ADVERTISING**  
Print advertisements are definitely effective components in the advertising mix, but it's the website that strengthens your company's message. Once you have a website up and running, we recommend your print advertising include your website address.
- "GOOGLE IT"**  
How many times have you heard "I'll Google it?" More than ever before, people are turning away from traditional means of finding information and looking online. Your business should be at customer's fingertips when they look on any online search engine.

**INSTANT CREDIBILITY**  
 Have you ever had difficulty making that sale? Or convincing someone that you are the real deal? Having a website is comparable to having an online business card, containing basic information on you and your offerings, along with a way to reach you.

**CONTACT KATIE AT THE WINDSOR PRESS TODAY FOR YOUR NEW WEBSITE**

No matter the size of your business, it is crucial to have an online presence for customers to quickly and easily find out more about your business and the products or services you have to offer.
