Car Care

Important winter car care tips

Keep your car running smoothly in the winter months.

From low tire pressure to frozen fuel lines to road salt damage, winter can take its toll on your vehicle. Here are five car care tips to help prevent long-term damage:

1. **Swap out regular tires for winter tires.** Snow or not, if you live in an area where temperatures regularly fall below 45 degrees, **winter tires are recommended.** They're made to give you better traction while turning or stopping on cold pavement.
2. **Check tire pressure weekly.** Driving on underinflated tires can cause them to wear down prematurely and lose traction on icy or slippery surfaces. Your tires lose a **pound of pressure** with every 10-degree drop in temperature.
3. **Keep your fuel tank half full.** During winter weather, it's a good idea to keep at least half a tank of fuel in the vehicle in the event of an emergency or if you get stuck in the snow and need to wait for rescue. For longer road trips, plan stops for gas in advance.
4. **Add a protective layer.** A coat of polymer wax can create a barrier against road salt, grime, snow, sleet and more. Couple that with high-pressure car washes after winter storms to rinse away buildup in hard-to-reach areas such as wheels, wheel wells and underbody.
5. **Protect your windshield wipers.** If you park outdoors, leave the wipers in the raised position to prevent them from freezing to the windshield. Never use your wiper blades to remove ice, snow or frost from the windshield; use an ice scraper instead.

NATIONAL FFA WEEK - ITHACA FEB. 20 - 27, 2021

NATIONAL FFA WEEK

I believe in the future of agriculture, with a faith born not of words but of deeds – achievements won by the present and past generations of agriculturists; in the promise of better days through better ways, even as the better things we now enjoy have come to us from the struggles of former years.

I believe that to live and work on a good farm, or to be engaged in other agricultural pursuits, is pleasant as well as challenging; for other agricultural life and hold an inborn fondness for those associations which, even in hours of discouragement, I cannot deny.

I believe in leadership from ourselves and respect from others. I believe in my own ability to work efficiently and think clearly, with such knowledge and skill as I can secure, and in the ability of progressive agriculturists to serve our own and the public interest in producing and marketing the product of our toil.

I believe in less dependence on begging and more power in bargaining; in the life abundant and enough honest wealth to help make it so—for others as well as myself; in less need for charity and more of it when needed; in being happy myself and playing square with those whose happiness depends upon me.

I believe that American agriculture can and will hold true to the best traditions of our national life and that I can exert an influence in my home and community which will stand solid for my part in that inspiring task.
