# Salome's Stars

**ARIES** (March 21 to April 19) With change dominant this week, don't be surprised to find new facts emerging that could put another slant on a situation and offer you another choice. Think it through before you decide.

**TAURUS** (April 20 to May 20) There could be some lingering problems from a previous matter that involved a decision you felt you had to make. Resolve the situation with your strong Taurean non-sense approach.

**GEMINI** (May 21 to June 20) The Gemini's carefully made plans could be undone by someone's unexpected decision. Getting the full story behind that surprise move can help you decide how to deal with the matter.

**CANCER** (June 21 to July 22) Recently uncovered information might put a new light on a situation you thought had been resolved. Keep an open mind about possible changes that you might have to consider.

**LEO** (July 23 to August 22) With a potential revision of an old agreement, you can't beat the Big Cat for knowing how to sharpen a "clause" to the best advantage. Someone close could have the news you've been waiting for.

**VIRGO** (August 23 to September 22) Certain issues in the workplace could put you in the middle of a dispute you'd rather not deal with. Express your honest feelings before the pressure to take sides builds up.

**LIBRA** (September 23 to October 22) You might feel uneasy disagreeing with someone you've been close to. But your relationship should be able to withstand and even thrive when confronted with your true feelings.

**Residential & Commercial**  
 www.rooffoampro.com  
 www.bandproofing.com  
**434-429-7108**

**SCORPIO** (October 23 to November 21) A romantic situation seems to be creating more confusion than you can handle. If so, own up to your feelings. The sooner you do, the better your chances are for working things out.

**SAGITTARIUS** (November 22 to December 21) With change directing the Archer's aim, consider a second look at your plans and see where they might benefit from a revision. A workplace matter is close to a resolution.

**CAPRICORN** (December 22 to January 19) New contacts help you learn some important information about upcoming developments. The week calls for the Sea Goat to be more flexible than usual in a number of matters.

**AQUARIUS** (January 20 to February 18) With both change and uncertainty in your aspect, you might feel less confident in a previous decision. That's OK. Check it out and see where it could be modified, if necessary.

**PISCES** (February 19 to March 20) Old relationships that seemed to be sinking are buoyant again, and new relationships are benefiting from Cupid's loving care. This could be a good time to make a major move.

**BORN THIS WEEK:** While you prefer to tread your own path, you'll go out of your way to help someone in need.

## PIEDMONT PETS

March 25, 2021  
By Paulette Dean

There have been some disturbing videos involving animals with jars and other containers stuck on their heads. These videos come from all over the world and, thankfully, most show a happy ending when people have intervened and helped.

Beginning as early as 1953, Keep America Beautiful campaigns started in the United States. An organization was formed by businesses to encourage citizens to stop throwing paper and aluminum cans out of cars. It arose out of the ever-growing interstate highway system in the country. Several successful advertising campaigns got the public's attention.

Personally, since childhood I have always been disturbed by the sight of people tossing anything out of car windows. Even as a teenager, I was so tempted to actually approach people who tossed anything out of parked cars.

Since working for the Danville Area Humane Society, I have a clearer understanding of what some of the consequences of littering can be for the animals. We received a call from a woman who said that she had seen a cat at an apartment complex with a container over his head. April Hogan and I left immediately to try to help the cat, realizing that in most cases animal rescues are difficult at best and impossible at worst. We tried repeatedly for a couple of days to catch the cat; however, it took April's husband, Tony, chasing the cat through the woods one night until the cat was so weak, Tony was able to take his shirt off and capture the cat. We removed the container and it took a few days for the cat to regain enough strength to be considered for adoption. Since then, we have received several calls about raccoons and groundhogs with jars or plastic containers on their head. Sometimes, we have been successful in cornering the animal long enough to free

the animal; in other cases, we assume the animal has died after a few days of not being spotted. A large dog with his head stuck in a container took several days to get weak enough to be captured. In other cases, cats came to us in the dangerous circumstances of having broken bottles or sharp-edged cans stuck on their heads. The Code of Virginia (33.2-802) addresses littering: It shall be unlawful for any person to dump or otherwise dispose of trash, garbage, refuse, litter, a companion animal as defined in § 3.2-6500 for the purpose of disposal, or other unsightly matter on public property, including a public highway, right-of-way, or property adjacent to such highway or right-of-way, or on private property without the written consent of the owner or his agent. Littering is a Class 1 misdemeanor, punishable by confinement in jail for not more than 12 months and a fine of not less than \$250 or more than \$2,500, either or both. The judge may order the defendant convicted to perform a minimum of 10 hours of community service in litter abatement activities. The consequences of littering can translate into the very real suffering of animals.

## PUZZLE CARD

**PUZZLE CARD:** Postman Pete challenges you to draw the above envelope using one continuous line that never crosses itself at any point.

**TWO QUICKIES!** (1) The gym teacher wanted the boys and girls to line up as follows: Behind each boy would be a girl and behind each girl would be a boy. What is the smallest number of children needed to do this? (2) What two-digit number is equal to twice the product of its digits?  
Answers: (1) 12. (2) 36. The product of its digits (3 times 6) is 18. Two times 18 equals 36.

**ANIMAL PAIRS:** In the diagram at right we have 14 words that you want to pair to form seven two-syllable words of varying lengths. The words on the left provide the first syllable and the ones on the right the second syllable.  
A good way to start is to take the top word at the left, find a compatible word at the right and draw a line connecting the two. Move to the second word, etc.

## OTTERBOTS ANNOUNCE DESI RELAFORD AS 2021 MANAGER

11-year MLB veteran set to lead Otterbots charge in first season of New Appalachian League

DANVILLE, VA - Just seven days after the Danville Otterbots brand was announced to local, national, and worldwide fanfare, the team has announced 11-year MLB veteran Desi Relaford as the club's manager for the inaugural season of the revamped Appalachian League.

Desi Relaford brings a plethora of baseball experience and knowledge from nearly every spot on the diamond to the Otterbots. In 2018, Relaford began his coaching career as the bench coach for the Daytona Tortugas, Advanced-A Affiliate of the Cincinnati Reds, where he helped guide the team to a 69-66 overall record and a Florida State League Championship Series berth. Prior to the start of his coaching career, Relaford was drafted by the Seattle Mariners in the 4th round of the 1991 MLB June Amateur Draft. He spent 11 seasons with seven different teams in Major League Baseball, including five years with the Philadelphia Phillies.

Throughout his career, Relaford hit .243 with 308 RBIs and finished the 2001 season with a career-best .302 average, as well as eight home runs and 36 RBIs for the Mets. Though he excelled at the plate, Relaford was also known for his versatility in the field. He played every position on defense

except first base and catcher throughout his career, and accumulated a .960 career fielding percentage.

"I want to thank USA Baseball, Major League Baseball, the Appalachian League, and the City of Danville for the opportunity to work with, develop, and mentor the future generation of professional athletes. It is an honor to be chosen to manage these young men," said Relaford.

"This league offers a much-needed outlet for players to continue their development, and who better to teach them than those who have been there and done it? I am excited to impart what I have learned in this game to these athletes by supplying them with the tools needed to progress as a professional in baseball and life."

After retiring in 2008, Relaford started his own record label, 6 Hole Records, in Jacksonville before getting back into the game as a coach in 2018.

"I had the pleasure of spending the 2018 season watching Desi serve as an integral part of the Tortugas FSL Championship Series berth, and I could not be more excited to welcome him to Danville Otterbots Danville," said Otterbots General Manager, Austin Scher. "Not only does his experience speak for itself, but his dedication to developing our players both on and off the field is extraordinary."

Danville is lucky to have Desi at the helm as we head into the 2021 season."

The Otterbots are set to begin the 2021 campaign on Thursday, June 3rd as the Pulaski River Turtles visit American Legion Post 325 Field at Dan Daniel Memorial Park in Danville.

\* "Label storage bins on all sides so that no matter how you stack them, or which direction you shove them in, you can always see at a glance which are which. Recently, I went searching through my attic for a particular box, and several boxes were moved out of the way. I had to spend much more time turning them to face the right way so that the labels would be visible." -- R.F. in Ohio
