

LORAIN COUNTY MEDICAL SOCIETY 2021 PHYSICIANS DIRECTORY

TUESDAY, MARCH 30, 2021 | THE MORNING JOURNAL

Lorain County Medical Society Remains Strong During Time of National Health Crisis

Dr. Maher Kodsy, President
Susannah Selnick, Executive Director

In these uncertain times surrounding the health of our nation, the Lorain County Medical Society continues to be a pillar of not just the medical community, but the community of Lorain County as a whole. We have served the health interests of Lorain County since 1896, and continue our tradition of being an organization that serves the providers and patients throughout our community. Our members span all specialties and health systems and come together to ensure that each patient gets the right treatment at the right time for the right reason.

During this time of a national and global pandemic, let us remember that we have each other for support and guidance to get through our days of uncertainty. The Lorain County Medical Society is here to provide our community with accurate information and resources to help you throughout this health crisis, and to support our providers as

our healthcare system is put to the test.

We know now more than ever, that the future of medicine is our most valued asset, and the Lorain County Medical Society is proud to have awarded over \$20,000 in academic scholarships to Lorain County Students who are pursuing a career in the medical field.

The Lorain County Medical Society Foundation continues to provide charitable funds to a variety of Lorain County organizations that serve the needs of our community.

We look forward to the days when we can return to business as usual, and when that happens, we invite you to celebrate with us at one of our community events!

Our physicians are here to serve you, the patient. When looking for care, look for a provider from the Lorain County Medical Society.

For more information about the Lorain County Medical Society, visit our website at www.lcmedicalsociety.com.

The Mission of the Lorain County Medical Society is to serve its members by:

- ▶ Acting as a strong physician advocate within the boundaries of professional integrity, while recognizing and representing the diversity within the medical community;
- ▶ Recognizing the health care needs of the community and acting as a patient advocate in response to those needs;
- ▶ Providing services that meet the professional needs and interests of the physician community;
- ▶ Promoting the positions of the profession and the Society to the public;
- ▶ Taking a leadership role in informing the community about health issues;
- ▶ Preserving the professionalism in medicine;
- ▶ Promoting American ideals of the patient-physician relationship;
- ▶ Upholding the Principles of Medical Ethics of the American Medical Association.

All-Natural Non-Surgical Alternative for Joint Pain Relief

In our program, our doctors utilize
an integrated approach with
diagnostics, treatment planning, and
rehabilitation for the following
joints experiencing pain

**HIPS | SHOULDERS | KNEES
FEET | ANKLES | ELBOWS**

Scholarships are available.

Visit www.lcmedicalsociety.com for details.

LORAIN COUNTY MEDICAL SCHOLARSHIPS

The Lorain County Medical Scholarship Foundation was developed in 1963 for the purpose of establishing a fund to assist Lorain County students who were preparing for a career in the health or medical allied fields. The concept of a Scholarship Foundation grew out of the Lorain County Society's deep interest in the general health and well being of the residents of Lorain County. The members of the Medical Society wanted to ensure a sufficient number of properly trained and qualified persons to adequately serve the needs of the County.

HISTORY OF ESTABLISHED SCHOLARSHIPS:

The Scholarship Foundation has been the beneficiary of many gifts made in memory of beloved family members or well respected colleagues of the medical community. The Scholarship Foundation includes eleven separate funds plus the General Fund, all of which are earmarked for scholarship grants to Lorain County residents.

Applications are due WEDNESDAY, JUNE 30TH

VILLAGE

17 Questions to Ask

- Is the senior eating healthy, balanced meals regularly?
- Is there fresh, nutritious food in their refrigerator and pantry that is not expired?
- Is the senior capable of getting around safely and independently? (Look for unexplained bruises or minor injuries that may indicate they have been falling or having accidents recently.)
- Are they wearing fresh, clean clothing each time you visit?
- Can they bathe themselves, groom adequately, and handle other personal care tasks like dental care?
- Are they laundering their clothing, towels and linens regularly?
- When you look around their house or yard, is it as neat and clean as it used to be?
- Is the senior remembering to take their medications correctly, with the right dosages and at the right times? (Warning signs of mismanaging medications include hospitalizations, stockpiled or expired medications, and pill boxes that are not current.)
- * Are their current health conditions regularly monitored and well controlled? (Chronic medical conditions may worsen with age, and progressive conditions like Alzheimer's disease and Parkinson's disease are guaranteed to worsen. Both current and future health concerns should be factored into senior housing decisions since settings like assisted living do NOT provide skilled nursing care.)
- Are they able to operate household appliances safely?
- Do they remember to turn kitchen appliances off when they are finished cooking?
- Is their home equipped with safety features and modifications for aging in place, such as grab bars and an emergency alert system?
- Do they have a plan in place to summon help in case of an emergency?
- If the senior is still driving, are they doing so safely? (Red flags include an increase in accidents and new dents or scratches on their vehicle.) If they are no longer driving, do they have alternate means of transportation?
- Are they paying their bills on time and opening and disposing of mail in a timely manner? (Look for stacks of mail, unpaid bills and past-due notices.)
- Do they have friends, family or acquaintances whom they interact with regularly?
- Does the senior still engage in hobbies or activities that they enjoy?

How to know when its time

Timing a transition to any type of senior living setting can be tricky. While there are a few definitive signs that a senior is ready for assisted living, each situation is unique. Instead of looking for specific signs, it's often easier for a family caregiver to ask themselves some pointed questions about a loved one's daily schedule, health status, functional abilities, current and future care needs, and quality of life. Just be sure to answer these questions honestly and objectively to get a clear picture of whether moving to assisted living is a viable option.

If the answer to some of these questions is “no” or you are noticing some of the red flags listed above, then it may be time to begin researching local assisted living communities. Wesleyan Village has been serving Lorain County for over 125 years as a faith-based, non-profit senior living community. Wesleyan Senior Living offers a full continuum of care, including Assisted Living.
