Brayden James (Niagara Academy), Lt. Todd Draper, Noah Poler (Lyndonville) and teacher Ron Jackson.

"The OCTEC principal Mike Mann has been terrific to work with and so have the teachers," says Lt. Draper. "They have helped us with safety planning and allowing us to tour the building. The Auto Body teacher Tom Struebing and his class are converting a Brinks truck into a command vehicle, which we can share with the Medina Fire Department. Now the Welding program, taught by Eric Farrell and Ron Jackson, is helping with making steel targets for the police to use for our firearm training."

Lt. Draper says the targets will make the training for the police officers more exciting. "There is something very satisfying hearing that "clang" when you are at the range. It helps to mix the training up and make it more realistic since they will show the upper torso and head and there are also targets that represent hostages or good people. We think we will get a lot of positive response from our officers using these instead of paper targets."

Three junior Welding students: Brayden James, Noah Poler and Dillion Wagner were assigned the project.

## Career and Tech Students Help Medina PD Stay on Target

Lieutenant Todd Draper of the Medina Police Department says the department has always enjoyed their relationship with Orleans/Niagara BOCES. Not only does Lt. Draper serve on the Advisory Committee for the Security and Law Enforcement program at the Orleans Career and Technical Education Center (OCTEC), the Auto Body program and the Welding program have been helping the Police Department with projects to assist in their mission.

Teacher Eric Farrell, Brayden James (Niagara Academy), Dillon Wagner (Barker) and Lt. Todd Draper.

"It is pretty cool to be helping the community with the skills we are learning here," says Brayden. "I really enjoyed this project," says Dillion. "It's rewarding, we actually get to build something and help the police department." Lt. Draper has stopped in to the class to see their progress. He says he enjoys his time with the students as they tell him what equipment and techniques they have used to make the firearm targets. "It has been very beneficial to us. We are a small department and our budget is not the largest. The targets are very expensive to buy, so having the class help us has been gratifying and beneficial for all of us."

Lt. Draper says he and the Medina Police Department would like to extend their thanks to the Orleans Career and Technical Education Center for all their time and energy. "We truly appreciate all the effort the students and teachers have put in to helping out the department. On a personal note, I really enjoy talking to the students and seeing their excitement in showing me what they have accomplished. It is great to see the sense of pride they have in their work."

## Orleans County Farmer Directs America's Farmers Grow Communities Donation To Orleans County 4-H Robotics Program

- The America's Farmers Grow Communities program, sponsored by Bayer Fund, partners with farmers to provide grants to local nonprofits to help their communities.
- Through the program, farmers enroll for the chance to direct a \$2,500 donation to a local eligible nonprofit organization of their choice.
- The America's Farmers programs have given more than \$59 million to rural America since 2010.

Local farm Poverty Hill Farms recently directed a \$2,500 Bayer Fund America's Farmers Grow Communities donation to the Orleans County 4-H Robotics program. The program will use the funds towards achieving their goal of building a STEM and Robotics Workshop.

"We are so grateful to Poverty Hill Farms for their support of the Orleans County 4-H Robotics program. The on-site STEM and Robotics Workshop is something that is critical for the program and will be a huge benefit to local youth who learn technology, leadership, problem-solving and many more life skills through their participation in the robotics program," said, Kristina Gabalski, CCE Orleans 4-H Educator.

Since 2010, the America's Farmers programs have awarded more than \$59 million to nonprofits, aspiring ag students and public schools across rural America. Farmers are leaders in their communities, which is why America's Farmers programs rely on them to help identify the most worthy causes.

Dedicated to making a difference in rural farming communities, the Grow Communities program asks farmers across the country to participate by nominating nonprofit organizations with resources to strengthen their local communities. Last August, farmers entered for the chance to direct a \$2,500 Grow Communities donation to a local eligible nonprofit of their choice. Farmers have directed donations to food banks, emergency response organizations, schools, youth agriculture programs and many others that reflect the spirit and support the vibrancy of rural America.

"The COVID-19 pandemic has affected everyone, including those in rural regions, and farmers play a critical role in helping communities overcome challenges, like the ones we're currently facing" said Al Mitchell, Bayer Fund president. "Bayer Fund is proud to work side-by-side with farmers to identify local eligible nonprofit organizations that are able to provide their residents with solutions that leave a lasting impact."

## COVID-19 Update: Vaccination Dates

The Genesee and Orleans County Health Departments (GO Health) have first dose Pfizer vaccination clinics with appointments available targeting those who are 16 and older and open for any New York State individuals, who reside, work or study in the state.

Currently in New York, being fully vaccinated will begin to offer opportunities that have been limited for the past year. Anyone who is fully vaccinated (2 weeks after the J&J vaccine or the second dose of Pfizer and Moderna) will be able to participate in various activities without having to be tested for entry for events such as professional sports, weddings with over 100 guests, proms, graduations and more. Also, when fully vaccinated, the individual will not have to quarantine if they are exposed to someone who has tested positive for COVID-19. Most importantly, you are protecting your health along with others you come in contact with.

"We have clinics scheduled on...Saturday, April 24th at the Athletic Center at GCC Batavia Campus Center," stated Paul Pettit, Public Health Director for GO Health. "These clinics are open to anyone who is 16 and older. We want to see all of these clinics filled up with those who can also commit to returning for the second dose of the Pfizer vaccine 21 days later."

Visit the vaccination web page at <https://bit.ly/GOHealthVaccine>. Choose either the GCC Pfizer Clinic or the Orleans Pfizer Clinic button and follow the directions. Keep the link handy, as there are Moderna clinics scheduled on April 27th at Ridgeway Fire Hall and on the 28th at GCC.

The buttons are live when we have that particular vaccine available. If the clinic is full or we do not have vaccine, it will show 'No Appointments Available.' Please share this information with family, friends, co-workers and social groups. For those who do not have internet they can call the **GO Health Vaccine Registration Help Lines:**

**Genesee: 585-815-7168**

**Orleans: 585-589-3170**

These lines are ONLY to make vaccine appointments, are not able to answer COVID-related questions, and are not associated with either Health Department.

If you are interested in making an appointment to get your COVID-19 vaccination, now is the time to do it locally!

## Signs of a HEART ATTACK

Some heart attacks are sudden and intense, but most heart attacks start slowly, with mild pain. Often people affected aren't sure what's wrong and wait too long before getting help. Symptoms include:

**CHEST DISCOMFORT.** Most heart attacks involve discomfort in the center of the chest that lasts more than a few minutes, or that goes away and comes back. It can feel like uncomfortable pressure, squeezing, fullness or pain.

**DISCOMFORT IN OTHER AREAS OF THE UPPER BODY.** Symptoms can include pain or discomfort in one or both arms, the back, neck, jaw or stomach.

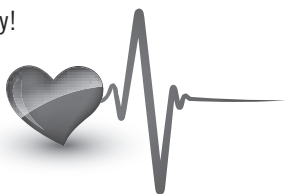

**SHORTNESS OF BREATH** with or without chest discomfort.

**OTHER SIGNS** may include breaking out in a cold sweat, nausea or lightheadedness

Women are somewhat more likely than men to experience other common symptoms, particularly **SHORTNESS OF BREATH, NAUSEA/VOMITING, AND BACK/JAW PAIN.**

If you or someone with you has one or more of these signs, don't delay!

**Call 9-1-1 immediately!**

## Do you have HEEL pain or ARCH pain?

**HEEL SPUR SYNDROME/PLANTAR FASCITIS** is a common problem among people who are active. It starts as a dull intermittent pain in the heel which may progress to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing, or after walking.

- Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.

- Contributing factors: flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.

- Approximately 2-3 times your body weight of force is exerted on each foot with walking. Flexible, non-custom molded arch support found at those advertised shoe stores cannot support these forces and usually do not provide long-lasting relief, do not come with a lifetime warranty, and are typically more expensive than custom-molded ones made by our office.

- 95 percent of our patients symptoms are resolved with conservative treatment, avoiding surgical intervention.

- We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques and **EPF** resulting in minimal incisions and scarring, immediate ambulation and often back in a shoe in one week.

**If you can't remember when your feet didn't hurt, now is the time to give us a call!**

## SIGNS OF A STROKE

Sometimes symptoms of a stroke are difficult to identify. The stroke victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke. Now doctors say a bystander can recognize a stroke by asking a few simple questions:

- 1 Ask the person to **SMILE**.
- 2 Ask the person to **TALK AND SPEAK A SIMPLE SENTENCE**. i.e. It is sunny out today.
- 3 Ask the person to **RAISE BOTH ARMS**.
- 4 Ask the person to **STICK OUT HIS TONGUE**. If the tongue goes to one side or the other, that is a sign of a stroke.

## OTHER STROKE WARNING SIGNS

- Sudden **numbness or weakness** of the face, arm or leg, especially on one side of the body
- Sudden **confusion**, trouble speaking or understanding
- Sudden **trouble seeing** in one or both eyes
- Sudden **trouble walking, dizziness**, loss of balance or coordination
- Sudden, **severe headache** with no known cause

If you or someone with you has one or more of these signs, don't delay!

**CALL 9-1-1 IMMEDIATELY!**

### KING CHARLES

If you have a Rescue, especially an adult, the question of Who Rescued Whom is quite relevant to you. Meet Charlie. He is our fourth adult Rescue Dog. Thing about Charlie is that he lacks mental intelligence. He is our 3rd Lab/Mix and by far the most dimwitted. Our first two Labs and Golden were very smart. I kept an eye on him for a while before adopting him. He was in the kennel wishing for adoption. Every once in a while I would ask my Pally Jen, who owns MADRWNY, if anyone had adopted Charlie yet. He had two previous homes, but ended up back at the Shelter. He had issues and needed a special home. He has a deep seeded fear of men. We will never know why. Jen recalls seeing Charlie in a crate in Puerto Rico where he had been for quite some time and her big heart knew he needed to make the journey to her American Rescue. After some time I went to visit Charles, that's what I call him, and that night he came to live with us. Being he was afraid of everything, once we got him in our fenced in backyard, we could not get him to come to us. For 3 hours we tried to coerce him with treats, bologna, cheese, puppy talk. We were going to work this out... until we couldn't. Ten at night and Jen was at my house so we could get him inside. She begged us not to leave him outside alone overnight. Thing is when you get a Rescue their story before you is unknown. In 2017 he was 3, maybe. He had distemper as a puppy so his head always shakes a little even when he is sleeping, but he doesn't seem to notice. It took months for Charles to allow Brian to approach him, to this day he backs up a little when approached by men. However, he is OK when he can do the approaching. Charles just doesn't like to be walked up on by other males. Strange thing is that he is totally at ease with me and I am always the one to scold or ignore. Even if he is being scolded by me he doesn't seem to mind too much. He just wants my attention. One thing is for sure, he is loyal to a fault. When home he has me in his sight at all times, which makes one feel pretty safe and appreciated. He's been found outside my Sheshed in the rain because he doesn't want me out there alone. He loves dinner and treat time and is very food motivated. He may not be smart about many things, but he knows when it's time to eat and will remind you mercifully. As he moves about it looks like he is skipping, but he does not have the agility to jump up or on things. If you have a rescue with little quirks don't you wonder what life was life before your home became their home? So many animals out there need homes, love, understanding and patience. If you truly make your Rescue a part of your indoor family, then you come to know that their love and loyalty makes your heart grow 10 times bigger and the blessings of sharing love, home and security go both ways. What four legged Rescued you?

THE LAW AND YOU

BY NATHAN D. PACE ATTORNEY AT LAW

### GUILTY OR NO CONTEST?

Hopefully, you never find yourself in a position where you must choose, but if you do, it's good to know the difference between pleading guilty to a crime and pleading no contest. Either way there will be some form of sentencing/punishment for the crime you are accused of, but with a no contest plea, you can make it less likely that someone will be able to sue you in civil court for the criminal act you are accused of. You have agreed to submit to the court's determination on your punishment, but you have not actually admitted to being guilty of that crime. You then have an opportunity to explain your specific circumstances to the judge before sentencing.

Being accused of a crime can be scary and will likely include a lot of paperwork. To avoid mistakes that might cause a longer sentence, you can rely on the Law Office of MACK & PACE. We have knowledge of the legal system as we have studied and practiced criminal law for many years. In doing so, we have developed strategies on how to win cases and help you treat through uncertain waters. If you've been charged with a crime and are concerned about finding a way out, please call (585)798-1000. We emphasize criminal law, family law, business law, and estate planning.

(585) 798-1000  
534 Main St., Suite 6  
Medina, NY 14103

*HINT: There are restrictions on pleading no contest and they vary from state to state. In fact, it is prohibited in some jurisdictions.*

## Lighting is a Key Component of Curb Appeal

Curb appeal can affect prospective buyers' perception of a home. When addressing curb appeal, homeowners may be inclined to focus on features that are easily seen from the street during the day. But what can a homeowner do to improve on his or her home's nighttime aesthetic?

Outdoor lighting is one aspect of curb appeal that is often overlooked, advises the home improvement experts at The Spruce. Homeowners may fail to recognize the importance of how proper illumination can provide their homes with a warm glow and make it look beautiful after the sun has set. For example, think of how cozy and inviting neighborhoods appear during the holiday season when homes are strung with twinkling lights. Homeowners can replicate that look all year long with lighting elements.

Lighting for evening hours also helps maintain a safe environment for people who are visiting the property. Illuminating walkways and doorways provides a clearly visible and safe path to and from the home.

The following are a few ways to improve outdoor lighting.

- **Focus on architectural features.** Outdoor lighting can focus on the external features of

the home's architectural style. Use light to draw attention to interesting gables, dramatic roof lines, dormers, or curved entryways.

- **Play up landscaping.** Stylish lighting can highlight trees, shrubs, pathways, gardens, and all of the elements of softscapes and hardscapes on a property. The lighting experts at Vernon Daniel Associates say that soft lighting can make homes feel warm and cozy. Uplighting trees or other elements can add a dramatic effect.

- **Light up all doors.** Make sure that doors, both entry and garage, are properly lit for ease of entry and egress from the home. Safety.com, a home and personal security resource, says a home burglary occurs every 15 seconds in the United States. Installing motion-activated lights or lights on timers can deter break-ins. Consider using home automation to control porch lights and other outdoor lights remotely, if necessary.

- **Create entertaining areas.** Outdoor lighting can be used to extend the hours residents can spend outside. This is great for entertaining and can be an excellent selling point.

Homeowners are urged not to overlook outdoor lighting as a vital part of their plan to improve curb appeal. ■
