Where is Your WEBSITE?

 We have officially entered the Golden Age of the Internet, where having a website for your business is an absolute essential. So where's your website? The Windsor Press offers affordable website design and hosting of your new website. An effective website is the cornerstone of any small business's marketing strategy, offering fundamental information 24 hours a day. There are multiple reasons why you need a website today:

WEBSITES NEVER SLEEP
 Websites never take a break, even after business hours are over, customers still have the opportunity to browse your business's website. A website will allow your business to be open 24 hours a day, every day of the year - that's the equivalent to having an employee work around the clock, even weekends and holidays!

INCREASES THE EFFECTIVENESS OF YOUR ADVERTISING
 Print advertisements are definitely effective components in the advertising mix, but it's the website that strengthens your company's message. Once you have a website up and running, we recommend your print advertising include your website address.

"GOOGLE IT"
 How many times have you heard "I'll Google it?" More than ever before, people are turning away from traditional means of finding information and looking online. Your business should be at customer's fingertips when they look on any online search engine.

INSTANT CREDIBILITY
 Have you ever had difficulty making that sale? Or convincing someone that you are the real deal? Having a website is comparable to having an online business card, containing basic information on you and your offerings, along with a way to reach you.

CONTACT KATIE AT THE WINDSOR PRESS TODAY FOR YOUR NEW WEBSITE
 No matter the size of your business, it is crucial to have an online presence for customers to quickly and easily find out more about your business and the products or services you have to offer.
