READER'S **Recipe**

White Chocolate Raspberry Cheesecake

1 C. Chocolate Cookie Crumbs
3 tsp. White Sugar
1/4 C. Butter, Melted
1 (10 oz.) pkg. Frozen Raspberries
2 tsp. White Sugar
2 tsp. Cornstarch
1/2 C. Water

2 C. White Chocolate Chips
1/2 C. Half-and-Half Cream
3 (8 oz.) pkgs. Cream Cheese Softened
1/2 C. White Sugar
3 Eggs
1 tsp. Vanilla Extract

In medium bowl, mix cookie crumbs, 3 tsp. sugar & melted butter. Press mixture into the bottom of 9" springform pan. In a saucepan, combine raspberries, 2 tsp. sugar, cornstarch & water. Bring to boil & continue boiling 5 min. or until sauce is thick. Strain sauce through a mesh strainer to remove seeds. Preheat oven to 325° F. In a metal bowl over a pan of simmering water, melt white chocolate chips with half-and-half, stirring occasionally until smooth. In a large bowl, mix cream cheese & 1/2 cup sugar until smooth. Beat in eggs one at a time. Blend in vanilla & melted white chocolate. Pour half of batter over crust. Spoon 3 tsp. raspberry sauce over batter. Pour remaining cheesecake batter into pan & again spoon 3 tsp. raspberry sauce over the top. Swirl batter with the tip of a knife to create a marbled effect. Bake for 55 to 60 min. or until filling is set. Cool, cover with plastic wrap & refrigerate for 8 hours before removing from pan. Serve with remaining raspberry sauce.

INTRODUCING YOU to FUNCTIONAL WELLNESS

Functional Wellness...is a science-based, healthcare approach that assesses and treats underlying causes of illness through individually tailored therapies to restore health and improve function. Our practice is dedicated to working with you until we uncover the source of your problem.

Named diseases are just the tip for the iceberg. Below the surface, according to Functional Medicine, are the real causes of a patient's health problems.

WE LEAVE NO STONE UNTURNED

CORE PRINCIPLES OF FUNCTIONAL MEDICINE

- Each person is unique, with unique healthcare needs
- Health is more than simply the absence of disease
- Balanced biochemistry is essential to proper functioning

PRACTICE PROTOCOLS

- We perform a system analysis and review health history and prior lab testing results before the initial one hour consultation
- We use Quest Laboratories locally for our comprehensive blood chemistry profiles but have joined a national health care organization which has negotiated deep discounts to make it affordable to all
- We focus on how the body is functioning by using narrower optimum lab ranges instead of standard values to detect dysfunction prior to an actual disease state
- Improved patient outcomes through personalized genetic testing to identify MTHFR variations and other methylation dysfunction

Traditional Chiropractic Care, state-of-the-art electronic instrument adjusting and functional rehab also available

Once Upon A Time....

There was an owner of a very successful hot dog stand. This owner built his business by having the best hot dogs around and by letting his customers know about them through extensive advertising. His business was so successful that he was able to send his son to a prestigious Ivy League school where his son was studying to receive his M.B.A.

One day the son came home for a break and promptly questioned his father "Dad, don't you know that there is a recession going on out there?" The father replied that his business was going very well, but the son persisted telling his father "Dad, you've got to cut back." So the father, figuring his son knew all about business, followed the son's advice. He promptly cut his advertising budget and then cut his hot dog & bun orders. Before long, business in fact did slow down. So the father replied to the son "You were right, son. Business is terrible. There is a recession going on out there."
