Public Safety is our #1 Priority at Elk River Public Utility District. To our friends in Coffee and Franklin Counties,

Elk River Public Utility District pipelines and facilities are designed, installed and maintained by knowledgeable professional personnel using materials, components, and procedures necessary to meet or exceed all applicable operational standards and safety regulations required for safe dependable operation.

Buried natural gas pipelines are installed within the community to provide natural gas service to residential and commercial customers.

Transportation of natural gas by pipeline is an extremely safe method of providing service to our customers. Our pipeline system is continuously surveyed, monitored, and patrolled to ensure system integrity and public safety. Odorant is added to the gas to make it readily detectable by smell. The scent of the odorant is similar to a sulfur or rotten egg smell. Unintentional release of gas due to damage from accidents, unauthorized digging, extreme weather or natural disaster can create a hazardous situation.

If you plan to do any excavation work, please contact the Tennessee One Call System 72 hours before work begins so that potential gas lines in the area can be located to prevent damage. Dial 811 to report your excavation work. This is a free call and service.

For additional information or concerns you may have, contact the Elk River Public District at 931-455-9311.

IF YOU SUSPECT A GAS LEAK

- Do not operate electrical switches or devices that would cause an ignition source.
- Leave the area of the suspected leak.
- Report the incident immediately from a safe location outside the area of the suspected leak to **ELK RIVER PUBLIC UTILITY DISTRICT at 931.455.9311 or Call 911**

Some indications of a natural gas leak are the smell of gas odor, blowing or hissing sound, dust blowing from the ground, dead vegetation, bubbling from the ground in wet areas, or flames if the gas has ignited. Elk River Public Utility District has 24 hour emergency dispatch and personnel available to respond in such an incident.

AVOIDING CASHIER'S CHECK and MONEY ORDER FRAUD. Be extremely cautious about accepting a cashier's check or money order for payment. Never accept a check or money order that is more than your selling price. Don't accept cashier's checks, money orders or any checks for that matter, for payment from buyers you do not know. If you are willing to take a cashier's check or money order in payment, insist on one drawn from a local bank or a bank that has a local branch and have it checked by someone at a bank before depositing/cashing.
