This land is being offered as 1 parcel but has numerous possibilities for division and development. Owned by Seller since 1998, a Request for Preliminary Soil/Site Investigation was submitted in 2006 to Williamson County to explore possible building options and yielded the following results: "Evaluated Soils in 5 Areas on Property and useable soils were found in each area." Actual document and a sketch of those findings has been provided. The property is bordered by a creek with cascading waterfalls and abundant wildlife. Whether you want the privacy of a large, wooded estate or have designs to develop the property for smaller 5 & 10 acre lots, this is a great opportunity in one of the most desirable areas of Tennessee, if not the United States.
