Treatment with the diabetes drug liraglutide, (brand name Victoza) in combination with diet and exercise, led to a significant reduction in weight and improved a number of cardiovascular risk factors, including high blood pressure and high cholesterol, according to a multi-center study. The results, from more than 3,700 overweight and obese nondiabetic adults, were presented at the joint meeting of the International Society of Endocrinology and the Endocrine Society: ICE/ENDO 2014 in Chicago.

Sivextro is approved to treat patients with acute bacterial skin and skin structure infections (ABSSSI) caused by certain susceptible bacteria, including Staphylococcus aureus (including methicillin-resistant strains (MRSA) and methicillin-susceptible strains), various Streptococcus species, and Enterococcus faecalis. Sivextro is available for intravenous and oral use. The FDA also has approved Dalvance (dalbavancin), also to treat patients with ABSSSI caused by Staphylococcus aureus and various Streptococcus species.

Patients treated with metformin, a drug widely prescribed for type 2 diabetes, can live longer than people without the condition, a large-scale study involving over 180,000 people has shown. The study was published in a leading diabetes journal, Diabetes, Obesity and Metabolism. Metformin, used to control glucose levels in the body and already known to exhibit anticancer properties, could offer prognostic and prophylactic benefits to people without diabetes.

Serious Neck Pain?

It can affect your sleep, your marriage and your job. Nothing's worse than feeling great mentally, but physically feeling held back from life because your neck hurts and the pain just won't go away!

My name is Dr. Willard Johnson, of Johnson Chiropractic. Over the past twenty years, I've seen hundreds of people with neck pain, arm problems and headaches leave the office pain free.

Because patients tell me too often... "I only wished I had found you sooner", I'm running a special two week Neck Pain Evaluation for those suffering with neck problems.

Feel the Improvement – and Say "Yes" to Life Again

With my "Neck Pain Evaluation" we'll be able find the problem and then correct it. Think of how you'll feel in just a few short weeks.

See and feel your life change for the better. Start your body on the way to pain-free, normal living. Feel tight joints rest, relax, free up. Feel muscles tied in knots become more supple. Feel strength in your muscles increase.

As you begin to see motion returning to your joints, you're preventing and reducing chances of disability and a crippling future.

You're able to live life like a normal person again, without neck pain -- able to play with your kids, enjoy time with friends, and not have to worry that your pain will hit you at just the wrong time.

"Will This Really Work For Me?"

A recent scientific study showed chiropractic adjustments outperformed massage treatments in reducing pain. The study concluded that patients with chronic neck pain showed "clinically important improvements from a course of spinal manipulation... The current evidence does not support a similar level of benefit from massage." - *J Manipulative Physiol Ther* 2007

In another study comparing acupuncture, a non-steroidal anti-inflammatory drug, and spinal manipulation found...

"After a median intervention period of 30 days, spinal manipulation was the only intervention that achieved statistically significant improvements." - *J Manipulative Physiol Ther* 1999

For 14 days only, \$39 will get you all the services for which I normally charge new patients up to \$257! What does this offer include? Everything I normally do in my new patient evaluation. Just call before Jan 22, and here's what you'll get...

- An in-depth consultation about your neck problems where I will listen...really listen...to the details of your case.
- A complete neuromuscular examination.
- A full set of specialized X-rays to determine if a spinal problem is contributing to your pain or symptoms... (NOTE: These would normally cost you at least \$100).
- A thorough analysis of your exam and X-ray findings so we can start mapping out your plan to being pain free.
- A special report complementing your recommendations that reveals the foods you should and should not eat, the best way to sleep and how to reduce stress.

Remember, this offer expires Jan 22, so call today. I may be able to help you live a normal, pain-free life again.

Freeda Powell Jenkins
January 1, 1937 ~ October 16, 2014

Do not grieve for me. I am free.
Free from the pain and sorrows of this world.
Surrounded by my loving family, and with the most beautiful smile on my face,
I entered into God's Heavenly Kingdom.

A loving mother, grand-mother, sister, aunt, and friend to many, Freeda never met a stranger, and always placed everyone else's needs before her own. Greatly loved by her church family, she was an active member of West Side Baptist Church in Cullman. As a leader at Hilltop Senior Center, she was a friend and mentor to all who attended. We would like to thank everyone for their prayers, phone calls and concern, during Freeda's brief illness and passing. Freeda, we love and miss you dearly. You will always be in our thoughts and hearts.

A Celebration of Life for Freeda is Planned at 2:00 PM On Sunday, January 11, 2015, at West Side Baptist Church 711 Cleveland Ave. S.W., in Cullman

Questions You Might Ask When Considering Cremation:

- Where will my loved one be taken to be cremated?
- Are the operators licensed funeral directors and certified to conduct cremations?
- Can I inspect the crematory?
- Can I be present during the cremation procedure?
- What steps are taken to insure I receive my loved one's remains?
- What are my options for my loved one's final resting place?
- What if all my family members aren't in agreement with my wishes to be cremated?
- Can I have a funeral service/visitation before cremation?
