REHAU ACADEMY MEETING

Officials met at REHAU this week to finalize details of the REHAU Academy partnership with Wallace State and Cullman County Schools. Pictured L-R: Jimmy Hodges, WSCC Dean of Applied Technologies; Dr. Vicki Karolewics, WSCC President; Jeff Curtis, Cullman Area Career Center Principal, Cullman County Schools; Dr. Craig Ross, Cullman County Schools Superintendent; Dr. Ginger Hogeland, School Counselor/Fast Track Admin Asst at CACC & CDC, Cullman County Schools; Albert von Pelsler-Berensberg, REHAU-Cullman Plant Manager; Michael von Hertell, REHAU Head of Vocational Education, External Continuing Education and Training; Hubert Förg, REHAU Head of International Training.

Wallace State and Cullman County Schools Announce REHAU Academy Apprenticeship Partnership

REHAU, Wallace State Community College, and Cullman County Schools have announced a new REHAU Academy that will offer paid apprenticeship opportunities to Fast Track for Industry dual enrollment students beginning this fall.

REHAU officials from Cullman and Germany have been in intensive meetings with representatives from Wallace State and Cullman County Schools for several days to work out the details of the new partnership to ensure the curriculum achieves desired learning outcomes and also aligns with the German apprenticeship model.

Globalization demands that if we want our students to be competitive we provide them with exposure to international corporations, diverse perspectives and echnologically-advanced and innovative work environments. We are fortunate to have a number of very successful international industry partners here in Cullman, which work closely with our programs to provide a range of opportunities for our students, said Wallace State President Dr. Vicki Karolewics. We are grateful for this new partnership with REHAU and commend its leaders for their willingness to work with us to develop the first REHAU Academy apprenticeship program in the United States. We look forward to the development of many more such programs in the future. REHAUs Head of Vocational Education, External Continuing Education and Training, Michael von Hertell, who oversees apprenticeships from the company's headquarters in Germany, and Hubert Förg, Head of International Training for REHAU, joined with Albert von Pelsler-Berensberg, REHAU-Cullman Plant Manager, to endorse the program.

This cooperation is a further step into the future for Cullman County and REHAU, said von Hertell. With this program we want to train the professionals of tomorrow in cooperation with Wallace State and Cullman County Schools. Theoretical and practical training are connected with each other in this new training course. This program is similar to the German education system. We are pleased to have found us a superb partner with Wallace State and Cullman County Schools.

Eight paid REHAU Academy apprentices will be selected each year from the Fast Track for Industry program. Each apprenticeship lasts two years the senior year of high school and freshman year of community college during which time students will split their time between working at REHAU and attending Fast Track for Industry classes on campus at Wallace State. While at REHAU, students will receive real-world specialized training in injection molding to become polymer specialists. REHAU will compensate students financially for their participation in the apprenticeship. Upon successful completion of the program, students will have graduated from high school and earned a certificate in injection molding from Wallace State. They will be eligible for fulltime employment with REHAU as polymer specialists.

Dr. Craig Ross stated, I am very enthusiastic about this opportunity that is available for our students and community in this coming school year. The Fast Track for Industry program has the potential not only to have a major impact on Cullman County Schools, but also I believe it will have a very positive impact on the entire county. Dr. Ross went on to say, Students could actually enter this program as a junior and graduate high school with an associate degree, possibly at no cost, and be ready to transfer straight to a university and/or go to work.

Our target with this apprenticeship program is to train students for jobs, said REHAU-Cullman plant manager Albert von Pelsler-Berensberg. Not only will students who complete the program be eligible for employment at REHAU, we would consider it a failure if they didnt work for us after the apprenticeship is completed.

REHAUs Automotive Group will soon open its first North American research and development technical center in Cullman, which will be dedicated to injection molding, paint, fabrication and supply chain processes. The company plans to use this new space to conduct automotive component and systems design initiatives that will then be carried forth into production at the Cullman plant and throughout the world. REHAU has long been committed to lifelong learning," said Hubert Förg, who is in charge of international training for REHAU. "We have apprenticeship programs and advanced training for our employees in Germany and across Europe. At our facilities in other parts of the world--in South America, for example--we have implemented programs dedicated to continuing education for our employees. This apprenticeship program completes the lifelong learning cycle of opportunities we are able to offer outside of Europe, so it is very important step for us.

For more information about Fast Track for Industry and the REHAU Academy apprenticeship program, contact Jeff Curtis at 256.352.7862 or jcurtis@ccboe.org or Jimmy Hodges at 256.352.8229 or jimmy.hodges@wallacestate.edu

In Memory Of Jason Wayne Speakman

April 9, 1980 ~ May 23, 1999

Here it is, another May has come and nearly passed
Reminding us it's been 16 years since we have seen you last.
That's 5,840 days you have been in heaven watching us make our way.
Through our meetings, obligations, and events you never stray.
Using coincidence and irony you provide intuition and advice,
Sometimes it is too obvious to be a random roll of the dice.
I have come to find great truth in the expression "time flies",
It's hard to believe it's been over a decade since you found home in the skies.
I often wonder what you must be thinking as our family keeps changing,
As you watch the details of our lives constantly rearranging.
How I ponder the great mystery of how things might have been,
If you were not called away and we had the chance to grow into old men.
In spite of our differences we'd share a bond uniquely stronger than all others,
One that can only be shared and experienced between those who are brothers.
So dear brother, on this 16th anniversary of such tragedy and despair,
As you watch us, please get prepared, we'll unite again over there.
Oh the lecture I have coming I can almost hear it now,
For all the wayward paths I took not knowing why or how.
How great to have our family complete again when in the sky we reunite,
Leaving our earthly vessels here as you guide our glorious homebound flight!

PRAYER TO THE VIRGIN MARY
Never known to fail. Prayer to the Virgin Mary (never known to fail). Oh most beautiful flower of Mt. Carmel, fruit wine splendorous of Heaven, Blessed Mother of the Son of God, Immaculate Virgin, assist me in my necessity. Oh Star of the Sea. Help me and show me herein you are my Mother. Oh Holy Mary, Mother of God, Queen of Heaven and Earth, I humbly beseech you from the bottom of my heart to succour me in my necessity. There is none than can withstand your power. Oh show me here you are my Mother. Oh Mary conceived without sin, pray for us who have recourse to Thee (3 times). Thank you for mercy towards me and mine. Amen. This prayer must be said for 3 consecutive days and after that the request will be granted and the prayer must be published.

Many church doctrines are mockery against The Holy Bible! Some claim to worship every day not just one, then keeps Sunday holy by the Pope's calendar which is intentional speaking against the day of rest (Ex 20:8-11). Over 43,000 man's denominations call themselves Christians and teach a new covenant of grace was given to them, but do not agree with each other or The Bible! They annul all The Holy Father's Feast Days, but keep for doctrines the commandments of men (Mt 15:9). They testify of Christ, then come not to Him that they might have life (Jn 5:40-42). They deny His Words that the law will not change till heaven and earth pass (Mt 5:17-19)! Intentionally speak against Christ's Word to sin no more and it is written His sheep hears His voice and follows (Jn 10:26-27). Taught they can pray themselves into heaven by the name of Jesus without being judged by Christ (Mt 12:36-37). Do not agree? Then look around you! Paul calls it a reprobate mind (Rom 1:18-32). Satan will deceive (2Cor 11:13-15), for "GOD" is not mocked (Gal 6:7)! KJV! Ron Westmoreland 256 590-9067

A popular indigestion medication can increase survival in colorectal cancer, according to research published in *ecancermedicalsecience*. Cimetidine Tagamet treats indigestion by blocking histamine receptors in the gut, which decreases the production of gastric acid. It also appears to block histamine receptors in cancer cells, as well as supporting the immune system's defenses against cancer. Cimetidine has been shown to have positive effects in colorectal and gastric cancer, melanoma, and renal cell carcinoma.

The U.S. Food and Drug Administration has approved Gardasil 9 (Human Papillomavirus 9-valent Vaccine, Recombinant) for the prevention of certain diseases caused by nine types of Human Papillomavirus (HPV). Covering nine HPV types, five more HPV types than Gardasil (previously approved by the FDA), Gardasil 9 has the potential to prevent approximately 90 percent of cervical, vaginal and anal cancers. Gardasil 9 is a vaccine approved for use in females ages 9 through 26 and males ages 9 through 15.

The U.S. Food and drug Administration has approved the anti-clotting drug Savaysa (edoxaban tablets) to reduce the risk of stroke and dangerous blood clots (systemic embolism) in patients with atrial fibrillation that is not caused by a heart valve problem. Atrial fibrillation is one of the most common types of abnormal heart rhythm. It occurs when the heart's two upper chambers (atria) do not contract properly, allowing blood clots to form, which can break off and travel to the brain or other parts of the body. Patients with atrial fibrillation experience an abnormal, irregular and rapid heartbeat.

Gardening at Morningside of Cullman

For the month of May residents have enjoyed working in the Courtyard on pretty days, planting flowers and vegetables in Planters. My son Nicky Maddux built three new Planter Boxes for the residents to add to the Courtyard. A few of the residents helped me to sand the Planters and stain them; work can be fun some of the time. Pictured is Ms. O'Rear helping to stain the Planters; also pictured is the courtyard with a little view of the three new Planters. On Mother's Day my 4 year old grandson and I gave each resident a single potted Marigold plant with a sweet little Mother's Day poem attached, the first Planter was used for the ladies to plant their Marigolds. Marigolds are supposed to keep mosquitoes and bugs away we hope it works, residents enjoy the outdoors. -Charlotte Maddux, Lifestyle 360 Director

*Just Honest To Goodness Savings
Plus The Best Service In Town... Come See!*

WEEKLY ADVERTISED SPECIALS:
Special lower prices on selected items advertised Weekly, in every trade area household, (direct mail delivered), in The Community Shopper's Guide.

BLUE TAG SPECIALS:
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

NO LIMITS:
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
