The U.S. Food and Drug Administration has approved Fycompa (perampanel) tablets to treat partial onset seizures in patients with epilepsy ages 12 years and older. Partial seizures are the most common type of seizure seen in people with epilepsy. Epilepsy is a brain disorder in which there is abnormal or excessive activity of nerve cells in the brain. Partial seizures affect only a limited or localized area of the brain, but can spread to other parts of the brain. Seizures cause a wide range of symptoms, including repetitive limb movements (spasms), unusual behavior, and generalized convulsions with loss of consciousness.

The risk of developing multiple sclerosis (MS) is highest to those born in the month of April, and lowest in October, indicates an analysis of the available evidence, published online in the Journal of Neurology, Neurosurgery and Psychiatry. The findings strongly implicate maternal exposure to vitamin D during pregnancy. They extend previous research and prompt the authors to conclude that there is now a strong case for vitamin D supplementation of pregnant women in countries where ultraviolet light levels are low between October and March.

In the first study of its kind, researchers at the University of Pittsburgh have determined that healthy young adults ages 18-25 can improve their working memory even further by increasing their Omega-3 fatty acid intake. Their findings have been published online in PLoS One.

"Hanceville Coach Reveals The Truth"

Dear Friend,

Head girls basketball coach, Christina Warren formerly Christina Gardener, did something the other day that changed her life. Here's her story.

Coach Warren had been limping around the HHS gym for several days trying to work out with her new and youthful team. It was tough, because as few people knew, she was experiencing a lot of low back pain as well as numbness in her leg caused from a pinched nerve. This was actually caused by a stress fracture in her low back. The severe pain was not getting any better, therefore she decided to do something about it.

She had heard about a doctor who had recently opened an office in Hanceville who got good results with this type of problem. After just two or three treatments she was feeling like a new person. In fact, she was so impressed with the results she referred her uncle. He also got good results. Oh, did I mention that this doctor is a Chiropractor?

Dr. Mike uses a new technique that gets great results with pinched nerves, "Sciatica". Most traditional treatments do not correct this type of problem. In fact, the U.S. Dept. of Health and Human Services recommend chiropractic and exercise for acute low back pain. No other treatments are recommended.

My daughter Emma, who is the little girl in the photo, was plagued by asthma when she was younger. Each day as I changed her diaper, I would give her an adjustment. The asthma started to improve immediately, and now she is virtually symptom free.

My son Nicholas, has recently been having some headaches. He'll come up to me and say, "Daddy, adjust my neck." And even before he gets up he'll say, "man that feels a lot better, it's all gone."

It's strange how life is, because now people come to see me with their carpal tunnel syndrome problems. Also they come to me with their headaches,

migraines, chronic pain, neck pain, shoulder/arm pain, whiplash from car accidents, backaches, ear infections, asthma, allergies, numbness in limbs, athletic injuries, just to name a few.

Here's what some of my patients had to say. "Dr. Mike has been helping me with my low back pain and headaches for over nine years..(Larry Luttrell)

"I did have a lot of leg pain due to a pinched nerve. Not any more thanks to Dr. Mike."(Leonard McPeters)

You benefit from an Amazing Offer -- Look, it shouldn't cost you an arm and a leg to correct your health. You are going to write a check to someone for your health care expenses, you may as well write one for a lesser amount for chiropractic. When you bring in this article by April 17, 2015, you will receive my entire initial visit, the whole ball of wax for \$37 out of pocket. And, further care is very affordable. You see, I'm not trying to seduce you to come see me with this low start up fee, then to only make it up with higher fees after that. Further care is very important to consider when making your choice of doctors. High costs can add up very quickly.

Great care at a great fee...Please, hope that there's no misunderstanding about quality of care just because I have a lower exam fee. You'll get great care at a great fee. My qualifications...I'm a 1991 graduate of Life University. I'm certified by the National Boards as well as the states of Alabama and Tennessee. I've practiced in Alabama for 22 years after a one year associateship in Huntsville. I just have the low exam fee to help more people

who need care. Results may vary in individual cases.

My assistant is Sandy and she is a really great person. Our office is both friendly and warm and we try our best to make you feel at home. We have a wonderful service, at an exceptional fee. Our office is called **ELLIS CHIROPRACTIC CENTER** and it is at 916 Main Street, Hanceville. Our number is **1-256-352-1252**. Call Sandy or me today for an appointment. We can help you. Thank you.

Michael Ellis, D.C.

Please do not call between 12:00 and 2:00 p.m.

P.S. When accompanied by the first, I am also offering the second family member this same examination for only \$20.

P.P.S. Can you imagine not having to wait at a doctor's office? Well, your time is as valuable as mine. That's why we have a no-wait policy. Your will be seen within minutes of your appointment.

Does Chiropractic Really Work?

Chiropractic has been around for over a hundred years, and has been used to help everyone from tiny babies to the elderly. Even top sports star and entertainers... like Tiger Woods, Emmitt Smith, Tony Robbins, Joe Montana, Gov. Arnold Schwarzenegger and Mel Gibson.

Although chiropractic works great for back pain, at our office we've helped patients with a wide range of problems.

"Isn't Chiropractic Just For Back Pain?"

We can help conditions like...

- Headaches and Migraines
- Asthma and Allergies
- Numbness in the Arms and Legs
- Carpal Tunnel Syndrome
- Athletic Injuries
- Car Accidents
- Shoulder, Hip And Knee Pain
- And much more

In addition to that, here's what some of the top medical researchers had to say about chiropractic...

"Manipulation [chiropractic adjustments], with or without exercise, improved symptoms more than medical care did after both 3 and 12 months."— British Medical Journal

"Chiropractor's manipulation of the spine was more helpful than any of the following: traction, massage, biofeedback, acupuncture,

injection of steroids into the spine and back corsets, and ultrasound." -- Stanley Bigos, MD, Professor of Orthopedic Surgery

"How Much Does Chiropractic Cost?"

It's impossible to know for sure what you'll need to get rid of your nagging health problem until I've examined you. That's why for 15 days only, \$39 will get you all the services I normally charge new patients \$155 for!

What does this offer include? Everything I normally do in my new patient evaluation. Take a look at what you will receive:

An in-depth consultation about your health where I will listen... really listen. A complete nerve, muscle and spinal exam to find the cause of your problem. A full set of specialized X-rays to look for misalignments, bad posture, and joint degeneration. A thorough analysis of your exam and X-ray findings so we can map out your plan to better health.

I'll answer all your most probing questions about chiropractic and what it can do for you. The appointment will not take long at all and you won't be sitting in a waiting room all day either. To take me up on this special offer, you must call before Mar 26, 2015. **Call now 256-734-7585**

Additional services at established prices. Offer not valid with Medicare or WC.

Many lay claim that Christians are not under the Law given unto Israel. First: they need to have scripture proof their claim is acceptable by The Holy Son (The Judge -Mt 12:36-37) or its only the beguilement of Satan. Second: a Christian is a follower of The Holy Christ for His disciples were first called Christians at Antioch. Some teach church Christians are not under The Law, proven by the Bible that their doctrines are the commandments of men (Mt 15:9, Dan 7:25). The Holy Son said He was The Truth and The Only Way To The Holy Father (Jn14:6)! Third: you have to love Him (Jn14:15) in order to believe in Him (Jn 3:16) and to become His disciple (Mt 28:20) Then you can become a Christian and have some similarities of those who were at Antioch (Acts 11:26). Then The Holy Law becomes a pleasure of heart to obey . Only by man's word one can go to heaven and be with Christ without obeying Him on earth!
