For patients in cardiac arrest, administering epinephrine helps to restart the heart but may increase the overall likelihood of death or debilitating brain damage, according to a study published in the Journal of the American College of Cardiology. The study offers new data in an ongoing debate over the risks and benefits of using epinephrine to treat cardiac arrest, an often-fatal condition in which the heart stops beating. Epinephrine, also known as adrenaline, is a hormone that stimulates the heart and promotes the flow of blood. Current international guidelines recommend administering 1 milligram of epinephrine every 3-5 minutes during resuscitation.

Patients with head and neck cancer who used antacid medicines to control acid reflux had better overall survival, according to a new study from the University of Michigan Comprehensive Cancer Center. Reflux can be a common side effect of chemotherapy or radiation treatment for head and neck cancer. Doctors at the University of Michigan frequently prescribe two types of antacids-proton pump inhibitors or histamine 2 blockers - to help treat this side effect. The researchers looked at 596 patients who were treated for head and neck cancer. More than two-thirds of the patients took one or both types of antacid medication after their diagnosis. Patients who were taking antacids had significantly better overall survival than those who did not take them. Proton pump inhibitors, which include drugs such as Prilosec, Nexium and Prevacid, had the biggest effect: a 45 percent decreased risk of death, compared to patients who did not take antacids. Patients taking histamine 2 blockers, such as Tagamet, Zantac or Pepcid, saw a 33 percent decreased risk of death.

Severe Headaches?

Living with headaches is tough.

Day after day of being miserable, irritable, and looking a lot older than you really are. The frustration of knowing that your friends and family don't understand what you're going through.

Add this to doctors' visits, MRI's and CT scans -- which only come back with "normal" results.

And that's not all... trying one medication after another, feeling like you're on a merry-go-round of drugs.

All this is enough to make anyone want to scream!

My name is Dr. Willard Johnson, a chiropractor, and I've been helping patients with neck tension, headaches and migraines live pain free for years now.

Every week I hear how patients suffer from severe headaches -- statements like...

- "I feel like my head is in a vice."
- "My eyes hurt and I feel so drowsy."
- "I have to lay down."
- "I've had migraines since childhood."
- "Muscle tension in the neck and pain into the shoulders."

"I only wished I had found you sooner"

I hear this so often, I decided to do something about it and run this ad. I'm running a special 14-day offer for those suffering with headaches. Until June 18th, \$39 will get you all the services I normally charge new patients up to \$280 for!

Just call before June 18th and here's what you'll get...

An in-depth consultation about your headaches where I will listen...really listen...to the details of your unique situation. A complete neuromuscular and skeletal examination of the head and neck so we can find the problem. A full set of specialized X-rays to determine if posture or joint problem is contributing to your pain. A thorough analysis of your exam and X-rays where we'll map out how you can get rid of your headaches once and for all.

Imagine being able to live life like a normal person again, pain free and without headaches -- being able to play with your kids, enjoy time with friends, and not have to worry that your headache will hit you at just the wrong time.

Call today. I may be able to help you live a normal, pain-free life again. Call **256-734-7585**

Additional services at established prices. Offer not valid with Medicare or WC.

James, Debbie, Roger & Mike

Missing You

We're missing you a little more
Each time we hear your name.

We've cried so many tears
Yet our heart's broken just the same.

We miss our times together,
Things in common we could share.

But nothing fills the emptiness,
Now you're no longer there.

We've so many precious memories
To last our whole life through,

Each one of them reminders
Of how much we're missing you.

Many are taught to be saved in the Name of Jesus, but not against sin! Christ was sent to destroy the works of the devil (sin 1Jn 3:8-9) and many churches teach against! Many say they are saved and going to heaven, then afraid a medical chip implant would belong to the beast, then contort The 10 Commandments to fit their worship. The seed of the beast was implanted by accepting his covenant for salvation (Dan 7:25). Which false teachers can not preach of without teaching their doctrines are of the beast and why blasphemy is not explained! The Holy Christ's Words are not believed even though He come In His Father's (Hallowed) Name and ye receive Him not: if another shall come in his own name, him ye will receive (Jn 5:43). Faith in Truth (Jn 14:6) is proven by works not words (James 2:14-26), which false ministers teach against (2Cor 11:13-15)!

**WEEKLY ADVERTISED SPECIALS:**  
Special lower prices on selected items advertised weekly in every trade area household. (Almost small differences) in The Community Shopper's Guide.

**BLUE TAG SPECIALS:**  
We have HUNDREDS of non-advertised items marked down throughout our entire store. More savings passed on to our customers. Just look for blue tags on the shelves.

**NO LIMITS:**  
Our competitors also have advertised specials. The difference is, in most cases, they have a limit on how many of an item you can buy at the sale price...we don't have any limits to family shoppers.
