PHARMACY TOPICS

Hospital Discount WEST

A small daily dose of aspirin may slow the decline in intellectual capacity among elderly individuals with high cardiovascular risk, according to a study published in the British Medical Journal Open. In addition to preventing heart disease, acetylsalicylic acid (aspirin) has been shown to be effective against cancer, according to several scientific studies.

New research shows that women who regularly use pain relief medications, particularly aspirin, have a decreased risk of serous ovarian cancer-an aggressive carcinoma affecting the surface of the ovary. The study published in Acta Obstetrica et Gynecologica Scandinavica, a journal of the Nordic Federation of Societies of Obstetrics and Gynecology, reports that non-aspirin non-steroidal anti-inflammatory drugs (NSAIDs), paracetamol (acetaminophen), or other analgesics did not decrease ovarian cancer risk. Ovarian cancer is the deadliest gynecological malignancy and the fifth-leading cause of death by cancer for women in developed countries.

A drug originally developed to prevent the rejection of transplanted organs has now been shown to dramatically reduce a particular kind of brain tumor in patients with tuberous sclerosis complex (TSC)-a genetic disease that causes tumors to grow on vital organs. The study, published online in The Lancet, is the latest to show the effectiveness of everolimus in slowing the cell growth that is overactive in patients with TSC. Nearly 50,000 children and adults in the United States and approximately a million people around the world live with TSC.

April Walking Tours

Each tour begins at 10:00 am
April 4, 11, 18 & 25, 2015

Join us this spring, every Saturday in April, and let us guide you through our beautiful historic town.

Community historians will guide you, as they share stories of their hometown. Each tour begins at the Cullman County Museum and a printed program will be available to each guest to keep.

HEATING & COOLING

Serving The Cullman Area Since 1975

Prevent Unnecessary Breakdowns this Summer with these COOLING SYSTEM TIPS from Valley Heating & Cooling:

- ▶ Keep weeds and debris at least 3 feet away from outside unit to ensure proper air transfer.
- ▶ Make sure your filter is cleaned or replaced monthly.
- ▶ Set thermostat to desired setting and leave it.
- ▶ Keep window coverings closed to block the suns heat.
- ▶ Make sure to turn off kitchen and bath fans when they are not in use.

When your system is cooling properly the temperature coming out of your vents should be 15-20 degrees colder than the temperature in the home. Maybe these tips will help prevent you from having to pay a service call this summer.

YOUR COMPLETE FARM INPUT SUPPLIER - APPLYING THE LATEST TECHNOLOGIES

Scripture plainly shows the Passover is to be kept (Lev 23:5), but many church's Easter service (Acts 12:4) belongs to the Teutonic (pagan) people who were Baal worshipers. The reason Christ ate The Passover meal with His disciples on the evening of the 13th of Nisan (Mk 14:14, Lk 22:11) was for The Holy Lamb to be betrayed so He would become The Passover lamb (Ex12: 1-11) and show by faith it is to be kept, even Paul said to keep the Passover (1Cor 5:7-8). Where does it give in the Bible to arise before sunrise, have an Easter meal and hunt for colored rabbit eggs and it be a memorial of truth for Christ? (It is man's doctrines Mt 15:9!)
