TO MAKE EVERY DOLLAR COUNT— YOU HAVE TO MAKE EVERY CUT COUNT

Selecut® V with **Inline Squeeze**

- For prime lumber cut to length or Precision End Trimming needs, our Selecut®-V uses a Fixed Frame Assembly with a moveable cutting platform to meet your production needs in a limited space environment and is available with our Inline Power-Squeeze Package Alignment system.

- For high-volume automated crosscutting of industrial length stock, our Autocut®-V uses a computerized carriage assembly with PLC controls enabling you to process lumber without an operator present.

Transcut® II Station

from \$29,999*

Transcut® II Portable

from \$7,999*

Autocut® V

- For custom manufacturers, our Transcut® II Station will cleanly cut through a unit of hardwood or softwood in less than a minute using generic chain-saw chain and with a precision of +/- 1/16th" or better*.

- For simple crosscutting of EWP or lumber, our versatile Transcut® Portable saws are priced and designed to offer a significantly safer and faster alternative to hand-held chain saws.

We're proud of the fact that HOLTEC pioneered the concept of precise package cutting over 40 years ago. Today our industry's technological and manufacturing advances have enabled us to achieve the fastest cut in the industry and an unmatched precision on every cut. So, if you're considering investing in a package-crosscut saw, consider these facts*:

- At 55 seconds per cut HOLTEC systems cut up to twice as fast as other systems available today;
- With our own team of dedicated Field Technicians and service vehicles, HOLTEC is the only company that provides you a service response time of 24 hours or less on-site and on-time;
- Our state of the art Germany manufacturing facilities are ISO-9001 certified, ensuring that you're getting the highest quality manufacturing standards available today;
- With an unmatched precision of +/- 1mm (.040"), HOLTEC systems exceed precision-end-trim tolerances;
- HOLTEC systems are designed with the highest safety standards in the world, ensuring that your employees are working in the safest environment for package-crosscutting available today;
- HOLTEC has almost 2,000 systems in North America and over 8,000 systems delivered worldwide, ensuring that we'll be here for you in the future as we have been for the last 40 years

WE ENSURE EVERY DOLLAR COUNTS BY ENSURING EVERY CUT COUNTS

Why Compromise?

With 60 years in the business, L-M Equipment has more package cross cut systems in operation than any other manufacturer in North America. We serve customers around the world.

PUTTING THE COMPETITIVE EDGE IN YOUR HANDS.

Every operation needs an edge. And you'll get one with Simonds PreSharp™ blades. Backed by the industry's best service, you'll experience superior blade performance with our unique square-faced edge for faster feed rates and a smooth, clean cut.

Invest in your operation, and gain the competitive edge. Choose the blades that outperform the rest.

Simonds PreSharp™ blades have a unique, square-faced cutting edge that:

- Delivers cleaner boards.
- Increases production.
- Puts more \$\$\$ in your pocket.

Digital Tension Gauge for Bandsaw Blades

Know your machine's optimum number and hit it!

Conventional blades channel dust to the side of the blade, increasing dust spillage.

SMART PRODUCTS

Is Your Answer! For Pallet Lumber Recovery and Repair Solutions.

"The Difference is Engineering"

Leasing & Financing Alternatives Available

Dismantlers

One-Man Dismantler

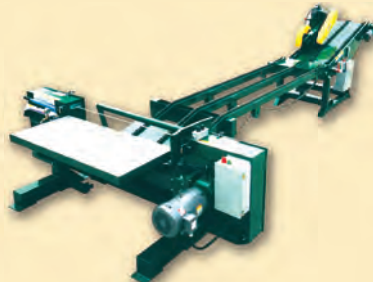

- 52" or 64" capacity
- 10 HP, 3-phase, electric motor standard (2200 FPM blade speed) (single phase available)
- Optional 15 HP, 3-phase (4400 FPM blade speed) electric motor available
- 18 HP gas-powered electric start on Portable Dismantler
- Gear reduction drive
- Self-contained hydraulic blade tensioning
- Low maintenance durable blade guide bearings
- Push button operated table height adjustment

Two-Man Dismantler

Pallet Dismantler System

- 64" capacity **Front Discharge** Dismantler
- Linear accumulating conveyor feeds boards easily to operator of Inclined Power Trim Saw
- Add additional dismantlers for higher production

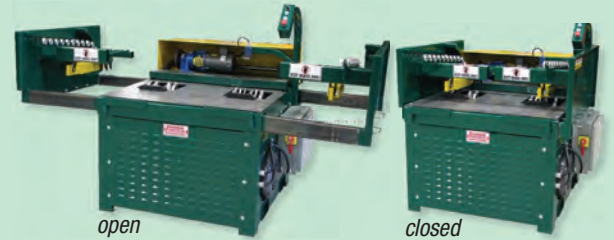

Portable Dismantler

Notchers

Double Head Notcher

- Two, 20 HP, three (3) phase, electric motors with V-belt driven indexable notching cutterheads
- One-person operation/1,000 double notched stringers per hour
- Notches new or recycled lumber
- 48" to 96" stringer capacity standard
- 9" x 1-1/2" notches, with 18" between notches
- Quick set-up
- Continuous power feed system
- Self exhaust design (useful when notching recycled material)

Single Head Notcher

- 20 HP, three (3) phase, electric motors with V-belt driven indexable notching cutterhead
- One-man operation/500 double notched stringers per hour
- Notches new or recycled lumber
- 72" stringer capacity standard
- Quick set-up
- Continuous power feed system
- Self exhaust design (useful when notching recycled material)

Pallet Prep

- Commonly referred to as the "SmartSaw"
- Smart Saw is **multifunctional**: designed for repair (1 person) or recycling (2 person) operations of BLOCK or GMA/STRINGER pallets
- Standard 10 HP, 3-phase, electric motor with gear reduction drive
- 20' standard **M42 bi-metal** band saw blade
- Air actuated, 3-position, roller table and table extension easily positions pallet for board removal
- Machine provided with **advanced safety measures** in place, including interlock switches for perimeter guarding and cabinet doors
- Improved **canopy guarding**, with front and rear portions that move up and down with the roller table

- Specifically designed to QUICKLY (as a **1-person** operation) cut out damaged boards, including **top and bottom** deck boards, as well as **connector** and **stringer** boards
- Also designed, as a **2-person** operation, to process the disassembly / tear-down of block or stringer pallets for **INCREASED LUMBER RECOVERY**. For block style machine, includes a specially designed **Block Recovery Tool** (or BRT) that **salvages blocks** now being scrapped with other machines and processes

Double End Power Feed Trim Saw

Trim Saws

- Power Feed Trim Saws trim boards 2" thick from 18" - 60" in length on the single end, and 18" - 66" in length on the double end
- Inclined board feed and overhead saw design help eliminate board kickback
- Manual Trim Saw handles boards up to 6" thick and 6" wide
- 18" diameter nail resistant saw blades and 10 HP motors
- Heavy duty steel tube construction
- Multiple adjustable board stops on Single End and on Manual Feed Trim Saws
- Easy blade change
- Easily moved with built-in fork lift pockets
- Right saw head on double end easily adjusts to cut desired board length

Single End Power Feed Trim Saw

B-5 FEED COMPLETE WHEEL

FITS MORBARK PS8

IMPROVES THE FEED, AND OUTLASTS THE CONE TYPE SPIKES BY AT LEAST 7X- 10X, WHILE IMPROVING THE FEEDING PERFORMANCE.

8" KNIFE HEAD

SQUARE KNOTTER & ANGLE

WE CARRY MANY OTHER POST & POLE PARTS.

CALL TODAY FOR A LIST OF PRODUCTS.

ATS SPIKES

Featuring a weld-lock design & created from a solid, high-quality chrome alloy, ATS Spikes are American-Made & easy to install.

We have many different shapes & sizes to choose from. Custom sizes are available upon request!

OPTIONS

#1) Long Life Spikes or Tips

Made from a tough, durable alloy, outlasting common products by at least 7 times.

#2) Tungsten Carbide Sprayed Spikes or Tips

Only second to the ATS Long Life Spikes, these last much longer than the machined ones.

#3) Heat Treated Spikes or Tips

Machined spikes, when it is not necessary for either #1 or #2.

YOUR NEEDS. YOUR TERMS. YOUR AUCTION.

Multiple Bidding Platforms

Superb Digital Marketing Reach

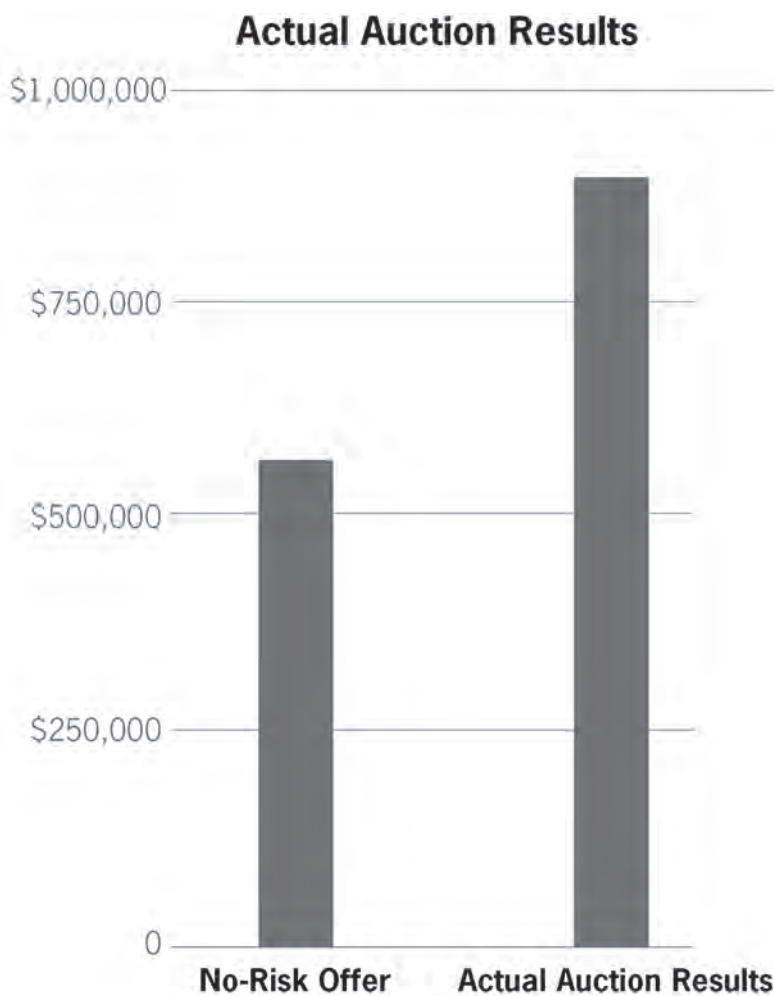

Expansive Print Advertising

Knowledgeable & Experienced Team

★ Competitive NO-Risk Offers ★ OR ★ Maximum Promotion for Maximum Upside ★

NEED TO SELL? Choose One:

Maximize My Return. Let's harvest all the upside from the years of blood, sweat and tears!

With a strong promotion on multiple bidding platforms, expansive print advertising, cutting edge digital marketing and the connections of Bright Star's auction team - the auction will be a success!

No-Risk Option. Due to the circumstances and other variables out of my control, I'd be more confident in a guaranteed offer to fulfill my needs

I prefer to reduce the risk as I know and understand I'm leaving a lot of upside on the table. A bigger percentage of the total assets amount would be nice - but I better play it safe this time.

SOLD
2020 Kenworth T800 \$190,000 2019 John Deere 444K \$130,000
Neosho, MO

From the moment I was asked to manage this sale I feared the amount of work that was involved for me and my team but in fact, we did very little as your team did all of the work for us. The advertising of the auction brought a strong group of bidders. Your team's expertise in lumber assets helped push the bidding to higher levels than we had forecast. And when it was complete your team's professionalism in getting the process of shipping the sold equipment made our lives here at Missouri Walnut so simple. And as icing on the cake we exceeded our price expectations as well!

Missouri Walnut Group, LLC, Neosho, MO

I just wanted to say Thank You for the great Auction that we had. It was a pleasure to work with everyone at Bright Star. The process started with Eugene going through the contract process. Next, Jon and Myron did an exceptional job laying out and cataloging for the auction. Then the day before the auction the rest of the team rolled in and set up the auction site. I was surprised at how smoothly it went with setting up for all the different platforms that the auction was taking place on. Then on auction day everything went smooth. I was very impressed with how many places I saw the advertisements for the auction. It seemed everywhere I looked I saw the ad. And that Advertising paid off with great prices on most of the items at the auction. The money spent on the truck advertising really paid off. I would like to say that it was a pleasure working with such a Professional Auctioneering group. I look forward to working with you in the future just on the purchasing side not the selling.

"Eugene and his staff made the auction process smooth and simple. They were right there for us from start to finish. Deciding to have an auction brings along with it many uncertainties, but one thing that we are certain of is that we made the right choice by working with BrightStar. The results exceeded our expectations. The sales team is top notch! We will definitely recommend BrightStar to anyone looking to have an auction in the future!

Wright's Sawmill, Arlington Kentucky

"Your team is different, you guys have kept the good character traits, and it's been a pleasure and good experience working with you guys. I've been in the industry for a while... and I don't normally brag on anybody, but this time is different."

Owner, Oak Valley Hardwoods, Marion, NC

Cordless Circle Saw Sharpener

Jones Saw Tools has now added another innovative product to their quality line of saw sharpening tools. The Jones Model 7C Cordless Saw Sharpener provides new possibilities to portable mills and mills without electric or air power.

This simple, easy to use tool is powered by the customer's own cordless drill. Just chuck your drill to the 3/8" shaft end, and you're ready to go. The 1/2" drive shaft is mounted in a rugged, lightweight aluminum frame using two sealed ball bearings for extra stability. Easy to mount. Easy to use. DRILL NOT INCLUDED.

For more information:
