PHARMACY TOPICS

A recent study has found that in three of every four critically ill children, blood Vitamin D levels were below the target considered safe by many experts and medical societies. Further, those with lower vitamin D levels were noted to be sicker, requiring more life sustaining therapies (breathing tubes, medications to support heart function) and staying in the ICU for longer periods of time. Vitamin D is increasingly being recognized as important for good health. Vitamin D is a hormone made in the skin following sun exposure or acquired from diet and supplement intake. Previous medical research has shown that low body levels of vitamin D make people more susceptible to problems such as bone fractures, poor mental health and infections like the common cold.

The U.S. Food and Drug Administration has approved Bosulif (bosutinib) to treat chronic myelogenous leukemia (CML), a blood and bone marrow disease that usually affects older adults. An estimated 5,430 men and women will be diagnosed with CML in 2015. Most people with CML have a genetic mutation, called the Philadelphia chromosome, which causes the bone marrow to make an enzyme called tyrosine kinase. This enzyme triggers the development of too many abnormal and unhealthy white blood cells called granulocytes. Granulocytes fight infection. Bosulif is intended for patients with chronic, accelerated or blast phase Philadelphia chromosome positive CML who are resistant to or who cannot tolerate other therapies, including imatinib.

Many church people call The Christ Lord, King of kings, prophet and priest, without showing honor to Him for it is only by mouth not of heart (Mt 15:8). Most will never know what they worship (Jn 4:21)! They take doctrines that are taught as The Gospel Truth without knowing The Holy Truth (Mt 5:18, 7:21-23, 15:9, Jn 14:6, 1Jn 2:3-4), as the Pharisees did not believe His Words nether do they. What they call the Christian doctrines, arrived from Baal worshipers and is easily proven by history and The Scriptures, but hidden unless one seeks to know and love The Holy Truth for their livelihood (Rom 12:1-21).

District Court and CRMC Offer Trauma Prevention Program For Teens

Cullman Regional Medical Center, in partnership with the Cullman County District Court offices, is offering a trauma prevention program for teens. The program, which is usually offered only to those area teen drivers who have received a minor traffic violation, is opening up the February 7 class teens who want to become better educated about the significance of safe driving.

In 2014, more than 100 participants completed the half-day training class at Clullman Regional Medical Center. The program focuses on educating teenagers on responsible driving habits while reinforcing the consequences of irresponsible driving. The February 7 class will be held at CRMC POB2 from 8 a.m. until noon.

You must register by Friday, February 6, by calling 256-737-2635. The cost of the class is \$25.
