# My Go-To Team for Breast Health

MidMichigan Medical Center - Mt. Pleasant has a go-to team of experts and the latest in diagnostic technology to bring you confidence and peace of mind. The breast health program offers screenings, genetic counseling and a free breast risk assessment. It's important to get your annual screening mammogram, and MidMichigan Health offers a 3-D screening mammogram for everyone.

Learn more at [midmichigan.org/breast](http://midmichigan.org/breast)

**MidMichigan Health**  
UNIVERSITY OF MICHIGAN HEALTH SYSTEM

**In the battle against breast cancer, early detection is a woman's most powerful weapon.** In fact, according to the National Cancer Institute, when breast cancer is detected in an early, localized stage, the five-year survival rate is 98 percent. That's why it is so important for all women to make breast health awareness a regular part of their healthcare routine.

## Growing Awareness to Save Lives

**A** mammogram can detect breast cancer in its earliest, most treatable stages, and many major health organizations recommend annual mammogram screenings for women beginning at age 40. Experts also recommend clinical breast exams and breast self-exams to check for breast abnormalities on a regular basis. Any woman noticing unusual changes in her breasts should contact her healthcare provider immediately. Women of all ages should speak to their doctor about his or her personalized recommendations for breast cancer screening.

As we recognize Breast Cancer Awareness Month, we remember the women who have lost their lives to the disease, and we voice our support for those in the fight of their lives.

### What if...

...there was a way to provide an early risk marker for breast cancer?

...there was a better screening approach that combined multiple tests, including a technology that reflects the early cancerous process itself?

...there was a technology that could find areas of inflammation in advance of symptoms?

...there was a tool that had the possibility to find the true cause of your pain so that you could get the treatment you need?

...there was a test that could give an athlete an edge in sports injury management?

**THAT TECHNOLOGY IS HERE,  
AND IT'S CALLED CLINICAL  
THERMOGRAPHY.**

Check out this page to see exactly how this non-invasive, holistic procedure works:

October is

# Breast Cancer Awareness Month

About **1 in 8 women** in both U.S. and Canada are expected to develop invasive breast cancer during the course of her lifetime, according to the Government of Canada and BreastCancer.org. Awareness and early detection help save lives.

# COMPLEX SPINE SURGERY MADE SIMPLE

- Quicker Recovery
- 24 Hour Hospital Stay
- Minimally Invasive
- Innovative Technology

## **Timothy E. Spencer, D.O.**

- Board Certified Neurosurgeon
- Doctor of Osteopathic Medicine, Kirksville College of Osteopathic Medicine, MO
- Fellowship in Neurovascular/Skull Base Surgery Neurosurgical Foundation, IL
- Chief of Neurosurgery, Brooke Army Medical Center, TX
- Neurological Surgery Residency, Ohio University

## **Why Dr. Spencer?**

- Specializes and Focused on Minimally Invasive Spine Surgery
- Patients return to normal activities faster
- 99% of MIS patients only stay in the hospital for 24 hours or less
- Patients can be seen quickly
- Accepts most insurance plans
- Only surgeon in the area performing mostly MIS surgeries
- Comprehensive approach to treating spinal pathology
- Large town treatment with a hometown feel

## **Services Offered:**

General Neurosurgical Care: Complex Spinal Surgery, Malformations, Tumors, Dislocations, Fractures, Degenerative Conditions, etc.

A comprehensive approach to surgical treatment - from minimally to maximally invasive.

Regenerative Medicine

*The guiding philosophy is to always reserve invasive procedures as a last resort, but when they become necessary, to apply the procedure that is most suited for that patient's specific problem in order to enhance outcome.*
