Fall Car Care

Fall is the ideal time to give your car some extra attention before harsh winter weather sets in. Taking a little time for auto care now can help you avoid the headaches of a costly emergency breakdown later.

1. **Check all fluids**, including engine oil, power steering, brake and transmission as well as windshield washer solvent and antifreeze/coolant.
2. **Check the hoses and belts** to make sure they are not cracked, brittle, frayed, loose or showing signs of excessive wear.
3. **Check the battery** and replace if necessary. Make sure the connection is clean, tight and corrosion-free.
4. **Check the brake system** annually and have the brake linings, rotors and drums inspected at each oil change.
5. **Inspect the exhaust system** for leaks, damage and broken supports or hangers if there is an unusual noise.
6. **Check the engine** to make sure it is delivering the best balance of power and fuel economy and producing the lowest level of emissions.
7. **Check the heating, ventilating and air conditioning (HVAC) system** as proper heating and cooling performance is critical for interior comfort and safety reasons, such as defrosting.
8. **Inspect the steering and suspension system** annually, including shock absorbers, struts and chassis parts such as ball joints, tie rod ends and other related components.
9. **Check the tires**, including tire pressure and tread. Uneven wear indicates a need for wheel alignment. Tires should also be checked for bulges and bald spots.
10. **Check the wipers and lighting** so that you can see and be seen. Check that all interior and exterior lighting is working properly and replace worn wiper blades so you can see clearly when driving during precipitation.

HEALTH NOTIFICATION

Are You Hard of Hearing?

A major name brand hearing aid provider wishes to field test a remarkable new digital hearing instrument in the area. This offer is free of charge and you are under no obligation.

These revolutionary 100% Digital instruments use the latest technology to comfortably and almost invisibly help you hear more clearly. This technology solves the “stopped up ears” and “head in a barrel” sensation some people experience.

If you wish to participate, you will be required to have your hearing tested in our office FREE OF CHARGE* to determine candidacy and review your results with the hearing instruments with our hearing care specialist.

At the end of this evaluation, you may keep your instrument, if you so desire, at a tremendous savings for participating in this field test. Special testing will be done to determine the increased benefits of this technology.

Benefits of hearing aids vary by type and degree of hearing loss, noise environment, accuracy of hearing test, and proper fit. **This is a wonderful opportunity to determine if hearing help is available for your hearing loss and get help at a very affordable price.**

WE WILL CUSTOM PROGRAM A PAIR WHILE YOU ARE HERE, SO YOU CAN HEAR THE DIFFERENCE! *Don't miss this amazing offer!*

2 for \$895*

Receive 2 ME MINI™ Hearing Aids at \$895 for a limited time only.
