The Romans Road to Heaven

“There is none righteous, no, not one.”

“For all have sinned and fall short of the glory of God.”

“But God demonstrates His own love toward us, in that while we were still sinners, Christ died for us.”

“So that as sin reigned in death, even so grace might reign through righteousness to eternal life through Jesus Christ our Lord.”

“For the wages of sin is death but the gift of God is eternal life in Christ Jesus our Lord.”

“If you confess with your mouth the Lord Jesus and believe in your heart that God has raised Him from the dead, you will be saved. For with the heart one believes to righteousness and with the mouth confession is made to salvation.”

“For whoever calls upon the name of the Lord shall be saved.”

(Romans 3:10,23; 5:8,21; 6:23; 10:9-10,13)

THE LAW AND YOU

BY NATHAN D. PACE
ATTORNEY AT LAW

SOMEONE TO WATCH OVER ME: GUARDIANSHIPS

A guardianship is often implemented to protect individuals unable to manage their own affairs due to minor status, incapacity, or disability. A court appoints a legal guardian to care for such individuals, commonly known as wards, who require special protection. Guardians have the authority to make financial, medical, and legal decisions on behalf of their wards while diligently representing their personal interests. Because the creation of a guardianship can actually deprive an individual of personal rights, certain important steps must be taken before appointing a guardian. The counsel and guidance of an expert family law attorney is essential to assist families in determining the proper course of action in establishing guardianships and avoiding contentious, costly legal challenges.

In New York State, a guardianship case is handled by the Family Court, Supreme Court or Surrogate's Court depending on the type of guardianship asked for and the person over whom guardianship is requested. At the **Law Office of MACK & PACE**, we feel an attorney's highest value is to help clients navigate through the most difficult issues of life. To learn more about establishing guardianship, please call. We emphasize family law, estate planning, and business law.

(585) 798-1000
534 Main St., Suite 6
Medina, NY 14103

Hint: In the 13th century, guardianships first appeared under Roman inheritance law.

Herbs and spices that can promote healthy hearts

A nutritious diet is a key component of a healthy lifestyle. According to the World Health Organization, ischaemic heart disease and stroke claim more lives each year than any other disease, annually accounting for roughly 15 percent of all deaths across the globe. Many deaths caused by heart disease can be prevented, and eating a healthy diet is a great preventive measure that anyone can take.

Though some people may associate healthy diets with bland foods that lack flavor, people can incorporate various heart-healthy herbs and spices into their favorite dishes to make them more nutritious and flavorful.

• **Garlic:** Garlic has long since earned its place on the kitchen spice rack. However, botanically, garlic is neither an herb or a spice but a vegetable. Regardless of how it's classified, garlic is loaded with flavor and can be used to improve just about any recipe, all the while benefitting heart health. The United States-based health services provider Mercy Health notes that garlic can help lower blood pressure and reduce bad cholesterol levels.

• **Cayenne pepper:** Few ingredients may change a recipe as quickly as cayenne pepper. The addition of cayenne pepper can instantly make dishes more spicy. But cayenne pepper brings more than a little extra kick to the dinner table. Healthline notes that various studies have shown that capsaicin, the active ingredient in cayenne pepper, can provide a host of health benefits. One such study published in the British Journal of Nutrition found that adding capsaicin to a high-carbohydrate

breakfast significantly reduced hunger and the desire to eat before lunch.

• **Turmeric:** A yellow spice often used when preparing Indian foods, turmeric has anti-inflammatory properties thanks to curcumin, the part of turmeric responsible for giving it its yellow color. Experts acknowledge that turmeric needs to be studied more to definitively conclude its effects on heart health, but WebMD notes that one small study indicated that turmeric can help ward off heart attacks in people who have had bypass surgery.

• **Coriander:** A popular herb used across the globe, coriander is sometimes mistaken for cilantro. Though the two come from the same plant, cilantro refers to the leaves and stems of the coriander plant, while the coriander in recipes typically refers to the seeds of that plant. Mercy Health notes that coriander seeds may help reduce bad cholesterol and high blood pressure, both of which are significant risk factors for heart disease.

Heart-healthy herbs and spices can be added to various recipes, proving that nutritious meals need not be void of flavor. •

SIGNS OF A STROKE

Sometimes symptoms of a stroke are difficult to identify. The stroke victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke. Now doctors say a bystander can recognize a stroke by asking a few simple questions:

- 1 Ask the person to **SMILE**.
- 2 Ask the person to **TALK AND SPEAK A SIMPLE SENTENCE**. i.e. It is sunny out today.
- 3 Ask the person to **RAISE BOTH ARMS**.
- 4 Ask the person to **STICK OUT HIS TONGUE**. If the tongue goes to one side or the other, that is a sign of a stroke.

OTHER STROKE WARNING SIGNS

- Sudden **numbness or weakness** of the face, arm or leg, especially on one side of the body
- Sudden **confusion**, trouble speaking or understanding
- Sudden **trouble seeing** in one or both eyes
- Sudden **trouble walking**, dizziness, loss of balance or coordination
- Sudden, **severe headache** with no known cause

If you or someone with you has one or more of these signs, don't delay!

CALL 9-1-1 IMMEDIATELY!

Do you have HEEL pain or ARCH pain?

HEEL SPUR SYNDROME/PLANTAR FASCITIS is a common problem among people who are active. It starts as a dull intermittent pain in the heel which may progress to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing, or after walking.

• Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.

• Contributing factors: flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.

• Approximately 2-3 times your body weight of force is exerted on each foot with walking. Flexible, non-custom molded arch support found at those advertised shoe stores cannot support these forces and usually do not provide long-lasting relief, do not come with a lifetime warranty, and are typically more expensive than custom-molded ones made by our office.

• 95 percent of our patients symptoms are resolved with conservative treatment, avoiding surgical intervention.

• We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques and **EPF** resulting in minimal incisions and scarring, immediate ambulation and often back in a shoe in one week.

If you can't remember when your feet didn't hurt, now is the time to give us a call!

Things to Look for in a New Job

Professionals change jobs for various reasons. But regardless of what's behind a career change, many people can benefit by looking for things in a new job that can make them happy both professionally and personally.

- **Salary:** Of course everyone would love to earn more money when changing jobs, but there is more to changing jobs than just improving your bottom line. As you begin your job search, consider how much you currently earn and if that allows you to live a life you love. If so, don't overemphasize finding a new job that pays considerably more than your currently earn. On the flip side, young professionals who want to start a family in the years ahead should consider the costs associated with such a decision and how the salaries they earn at their next jobs may affect what they want down the road.

- **Work/life balance:** Before beginning your search for a new job, think about why you want to switch careers or companies. Long hours often leads to burnout. If you're looking for a new job because you're burned out, try to find a job that affords you a better work/life balance. A study from the Happiness Research Institute in Copenhagen found that, with the curious exception of people who work more than 55 hours per week, stress rises accordingly with the numbers of hours worked each week.

- **Satisfaction:** When attempting to achieve a better work/life balance, it can be easy to overlook satisfaction at work in exchange for more time at home. But studies have shown that feeling satisfied by what you do can have a profound impact on your overall happiness. It's possible to find an engaging career that still affords you time away from work, and such a career can ultimately pave the way toward a happier life.

- **Commute:** Bending over backwards simply to get to work and then get home from work can have an incredibly negative impact on your life. A study from the Office of National Statistics in the United Kingdom found that commuters, especially those who spend between 60 and 90 minutes commuting to work, have lower life satisfaction and lower levels of happiness compared to people who don't commute. Before accepting a job offer, estimate your commute time to and from the new office and try to determine the impact of that commute on your quality of life.

Many people aspire to find a new job at the dawn of a new year. Job seekers should consider a host of factors before switching jobs to make sure they make the best decisions. ■

21ST ANNUAL NATIONAL PRESCRIPTION TAKE-BACK

On October 23, 2021, The Orleans County Sheriff's Office participated in the 21st Annual National Prescription Take-Back Day. This event was held at the Orleans County Public Safety Building with personnel from the; Criminal Division and the Corrections Division of the Orleans County Sheriff's Office.

The collection site took in 570.2 Lbs. of unused prescription medications and 319 Lbs. of sharps for a total combined weight of 890 Lbs. The Orleans County Sheriff's Office has participated in the National Prescription Take-Back Day since 2012 and has collected a total weight of 10,695.5 Lbs. (5.3 Tons) of prescription medications and sharps. This event is very successful for Orleans County with an average of 563 Lbs. of unused medications and sharps collected for each event.

New York State had 116 Law Enforcement Agencies participate and took in over 28,947 Lbs. of unused medications during the October event. On a national level 744,082 (372 tons) were collected. The combined total weight for all events since the start of this program is over 15 Million pounds of unused medications collected nationally.

The National Prescription Take-Back Day is a very important community service that allows the residents of Orleans County the means to safely, dispose of unused medication and Sharps. This event helps prevent ground water contamination due to improper disposal and assists with preventing illegal diversion of medications.

The Orleans County Sheriff's Office would like to thank all of the community partners that assisted with coordinating the event. The Orleans and Erie County Public Health Departments, Genesee/Orleans Council on Alcoholism and Substance Abuse (GCASA) and Drug Enforcement Administration's Diversion Control Unit all played important roles in making this program a success in Orleans County.
