Results of the first-ever clinical drug trial for children with Progeria, a rare, fatal "rapid aging" disease, demonstrate the efficacy of a farnesyltransferase inhibitor (FTI), a drug originally developed to treat cancer. The clinical trial results, completed only six years after scientists identified the cause of Progeria, included significant improvements in weight gain, bone structure and, most importantly, the cardiovascular system, according to a study published in Proceedings of the National Academy of Sciences. Progeria, also known as Hutchinson-Gilford Progeria Syndrome (HGPS), is a rare, fatal genetic disease characterized by an appearance of accelerated aging in children. All children with Progeria die of the same heart disease that affects millions of normal aging adults (atherosclerosis), but instead of occurring at 60 or 70 years of age, these children may suffer heart attacks and strokes as early as age 5 years, with the average age of death at 13 years.

Vitamin D deficiency has traditionally been linked with poor bone health. However, the results from several population studies indicate that a low level of this important vitamin may also be linked to a higher risk of ischemic heart disease, a designation that covers heart attack, coronary arteriosclerosis and angina. Other studies show that vitamin D deficiency may increase blood pressure, and it is well known that high blood pressure increases the risk of heart attack. Low levels of vitamin D compared to optimal levels are linked to 40% higher risk of ischemic heart disease, 64% higher risk of heart attack, 57% higher risk of early death, and to no less than 81% higher risk of death from heart disease.

Satan beguiles mankind not to accept The Christ's Words (which are The Holy Father's Words) as the truth, just as he did in the garden of Eden! So why do many churches try to convince their congregation that they teach the way of truth, and they are Christians without hearing The Words of Christ, for His Words do not apply to them. Is this believing in Him? They are not of His sheep, for Christ's sheep hears and follows! The only way to know The Holy Christ is to obey Him! ## "The Way We Worked" February 10 - March 20 At Wallace State

The Smithsonian Institution's traveling exhibition "The Way We Worked" is coming to the Evelyn Burrow Museum on the campus of Wallace State Community College in Hanceville from Feb. 10 to March 20.

Americans workers perform a wide array of jobs -- with our hands, with our minds, by the sweat of our brows. Work is a part of nearly every American's life, whether in an office, a factory, an 18-wheeler, a home or thousands of other places American workers keep the country going.

This exhibit was adapted from the original developed by the National Archives and Records Administration. It traces the many changes that have affected the workforce and work environments over the past 150 years, including the growth of manufacturing and increasing use of technology. The exhibition draws from the Archives' rich collections, including historical photographs, archival accounts of workers, film, audio and interactives, to tell the compelling story of how work impacts our individual lives and the historical and cultural fabric of our communities.

"The Way We Worked" is part of Museum on Main Street, a unique collaboration between the Smithsonian Institution Traveling Exhibition Service (SITES), state humanities councils across the nation and local host institutions. A STEPHEN MINISTER is someone in the community that you can count on to be there when you have no one else.

EVERYONE HAS DIFFICULTIES at times when you need someone to talk to. Stephen Ministers are highly trained and trustworthy, with confidentiality being most important. He/she is someone you can trust with any problem that arises in your life.

Unresolved anger, betrayal by a friend, someone hurt you and it still remains, your job has become impossible, or other problems that may arise in your life ... these are some of the areas a Stephen Minister can help with.

Weekly visits containing honesty and openness with each other can result in friendship.

As a result of care from a Stephen Minister, a person can come to experience peace. Unconditional acceptance leads to trust and trust is closely followed by HOPE.

**To contact a Stephen Minister, call St. Andrew's United Methodist Church at 256-734-0340 or e-mail admz2813@gmail.com**
