Constructed by the Spencer family in the mid-1840s, this old distillery once stood on the north side of Ridge Road at Oak Orchard. Samuel, Henry, and Burrall Spencer operated the distillery under the direction of their father, Zachariah Spencer, who operated the cobblestone inn located nearby. The business was later purchased by John B. Lee and subsequently referred to as Lee's Distillery. Early distilleries provided farmers with an alternative market for grain, particularly in the infancy of the Erie Canal.

This undated photograph shows the southwest intersection of Main and Center streets in Medina. Visible in the image is the Union Bank located directly on the corner while a striped pole calls attention to the barber shop in the same building. Situated in the same block was a millinery, meat market, and jewelry store (marked by the large pocket watch sign along the road). The Post Office was located immediately next to the Presbyterian Church, which had a 100-foot steeple.

Constructed in 1908, the Buffalo, Lockport & Rochester Railway passed through Main Street in Medina. The iconic clock tower of White's Hotel is visible in the background as well as a large advertisement for Daniel D. Holdredge's crockery and undertaking business.

This photograph shows the Ridgeway Hotel located on the northeast intersection of Ridge Road and Angling Road, circa 1933. A 1930 advertisement in the Lockport Union Sun and Journal boasted “Pioneer Hostlery on Historic Highway Mecca for Lockportians and Western New Yorkers Who Appreciate Real Quality,” noting that that hotel featured “a pleasing intermixture of old time quaintness and convenient moderninity, with its attractive rooms and baths (sic).” Charles W. Straba, previously the proprietor of the Clarendon Hotel, commenced leasing this hotel in 1917.

This photograph marked simply as "Murphy's Barn Raising," illustrates the role that the barn played in local society. The construction of barns was a community event, involving women and children in addition to men. While the men completed the work necessary to assemble the barn's framework, women diligently worked to prepare food for the workers. Standing along the top beams are carpenters, wearing aprons and holding hammers necessary to join the framework. The pike poles used to hoist the framework are still propped up along the walls.

William Falcon and Joseph Benson check out processed cherries in preparation for freezing at the Birdseye Lab in Albion, circa 1964.

Taken in 1917, this photograph shows the grocery store operated by Burton Stockton, located on the northwest corner of Main Street and Beaver Alley in Albion. Of the goods for sale, radishes sold for five cents per two bunches, five cents for cucumbers, thirteen cents for a bunch of asparagus, and pansies for thirteen cents apiece or two for twenty-five cents. Burt Stockton is standing in front of the door wearing glasses and suspenders.

Healthy Choices

— Your guide to looking and feeling your best —

Signs of a HEART ATTACK

Some heart attacks are sudden and intense, but most heart attacks start slowly, with mild pain. Often people affected aren't sure what's wrong and wait too long before getting help. Symptoms include:

CHEST DISCOMFORT. Most heart attacks involve discomfort in the center of the chest that lasts more than a few minutes, or that goes away and comes back. It can feel like uncomfortable pressure, squeezing, fullness or pain.

DISCOMFORT IN OTHER AREAS OF THE UPPER BODY. Symptoms can include pain or discomfort in one or both arms, the back, neck, jaw or stomach.

SHORTNESS OF BREATH with or without chest discomfort.

OTHER SIGNS may include breaking out in a cold sweat, nausea or lightheadedness

Women are somewhat more likely than men to experience other common symptoms, particularly **SHORTNESS OF BREATH, NAUSEA/VOMITING, AND BACK/JAW PAIN.**

If you or someone with you has one or more of these signs, don't delay!

Call 9-1-1 immediately!

Best Bets for Nighttime Snacking

The U.S. Department of Agriculture's Weight Control Information Network says that a calorie is a calorie no matter when it is consumed. That means it doesn't matter if calories are consumed in the morning, afternoon or evening. It is how many are consumed and the amount of physical activity individuals perform that will affect their weights. Conversely, the Academy of Nutrition and Dietetics says they're not sure if a calorie is a calorie no matter when it is consumed. Their research and data from the University of Pennsylvania School of Medicine's Center for Weight and Eating Disorders indicates that when food is consumed late at night the body is more likely to store those calories as fat and gain weight rather than burn it off as energy.

But what is a person to do when hunger pangs hit at night and one fears that their rumbling stomach may interrupt their sleep? According to the nutrition and fitness experts at MyFitnessPal, tick to a snack that is between 100 and 200 calories. Choose a food that is high in protein, fiber or healthy fats. Apples and peanut butter, string cheese and fruit, or whole grain crackers and Greek yogurt can be healthy, satisfying nighttime snacks. Avoid sugary, calorie-dense foods, which may be hard to digest and can compromise sleep quality.

More studies may be necessary to determine the relationship between body weight and snacking at night. In the meantime, nighttime snackers should choose healthy foods when reaching for a late night bite to eat. ■

Do you have HEEL pain or ARCH pain?

HEEL SPUR SYNDROME/PLANTAR FASCITIS is a common problem among people who are active. It starts as a dull intermittent pain in the heel which may progress to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing, or after walking.

- Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.

- Contributing factors: flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.

- Approximately 2-3 times your body weight of force is exerted on each foot with walking. Flexible, non-custom molded arch support found at those advertised shoe stores cannot support these forces and usually do not provide long-lasting relief, do not come with a lifetime warranty, and are typically more expensive than custom-molded ones made by our office.

- 95 percent of our patients symptoms are resolved with conservative treatment, avoiding surgical intervention.

- We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques and **EPF** resulting in minimal incisions and scarring, immediate ambulation and often back in a shoe in one week.

If you can't remember when your feet didn't hurt, now is the time to give us a call!

SIGNS OF A STROKE

Sometimes symptoms of a stroke are difficult to identify. The stroke victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke. Now doctors say a bystander can recognize a stroke by asking a few simple questions:

- 1** Ask the person to **SMILE**.
- 2** Ask the person to **TALK AND SPEAK A SIMPLE SENTENCE**. i.e. It is sunny out today.
- 3** Ask the person to **RAISE BOTH ARMS**.
- 4** Ask the person to **STICK OUT HIS TONGUE**. If the tongue goes to one side or the other, that is a sign of a stroke.

OTHER STROKE WARNING SIGNS

- Sudden **numbness or weakness** of the face, arm or leg, especially on one side of the body
- Sudden **confusion**, trouble speaking or understanding
- Sudden **trouble seeing** in one or both eyes
- Sudden **trouble walking, dizziness**, loss of balance or coordination
- Sudden, **severe headache** with no known cause

If you or someone with you has one or more of these signs, don't delay!

Medina's Kaylee Lacey Selected As Presidential Scholars Program Nominee

Kaylee Lacey, a senior from Medina High School, is among 25 in New York State to be nominated for the US Presidential Scholars Program. State Education Commissioner, Betty A. Rosa, made the announcement on December 16th.

The recognition is one of our nation's most prestigious honors for high school students. Medina High School Principal Michael Cavanagh says, "We were extremely excited to find out that one of our 12th grade AVID students, Kaylee Lacey, was selected from our district. We know Kaylee has worked extremely hard and definitely deserves this incredible honor, a heartfelt thank you goes out to Director of School Counseling Audralee Doll for nominating her to the state."

Mrs. Doll says, "Kaylee is one of our most outstanding students at Medina High School. Going above and beyond in every way possible, Kaylee is not only salutatorian among her cohort, but she will also graduate with a New York State Honors Regents Diploma with an Advanced Designation in Science – a title so rare that only few have reached this distinction in previous years."

Kaylee will also be presented with two District awards, the James Perry Craft, Jr. School of Mathematics and Science and the John Ryan School of Historical Excellence. Her school activities include Drum Major of the Marching Band, Impact Club, Conservation Club, Swim Team and Softball Team.

After graduation, Kaylee plans to attend school to become a pharmacist.

SkillsUSA Students Adopt Families for Holidays

The Skills USA students at Orleans Career and Technical Education Center recently partnered with Genesee Orleans Ministry of Concern. They held a fundraiser for families that are having a hard time through the holiday season. "These past couple years have been hard on all of us," says the students. "Skills wanted to help out the community."

Paper turkeys were sold for students and staff to buy, they sold 565 turkeys. Generosity ran rampant through the building, so a huge thank you to everyone who contributed. A

special shout out to the Building Trades and Graphic Communications programs as they were the top contributors!

The \$565 was used to help provide families with toys and clothes including jackets, boots, and other cold weather gear for the kiddos. Two family's needs were fulfilled from our contributions. Skills plans to collaborate with other charitable organizations in the future to keep giving back.

Great job everyone for making the holidays nicer for some in our community!

AES Clean Energy Development LLC – Somerset Solar Project Niagara County, New York

60-DAY NOTICE OF INTENT TO FILE AN APPLICATION

AES Clean Energy Development, LLC (“AES”) is proposing to construct the Somerset Solar Project, a major solar electric generating facility, under Section 94-c of the Executive Law (Section 94-c). This notice announces that on or about **February 28, 2022** AES intends to file an Application with the Office of Renewable Energy Siting (ORES or the Office), pursuant to Section 94-c seeking a Siting Permit from the Office authorizing the construction and operation of the Project. The 94-c process has been implemented by rules enacted by the Office and establishes a review process with uniform standards and conditions for all renewable energy projects. The uniform standards and conditions are available at 19 NYCRR 900-6 and www.ores.ny.gov/ regulations.

The Somerset Solar Project is proposed to be an approximately 135 megawatt (MW) solar photovoltaic electric generating facility proposed to be located in the Town of Somerset, Niagara County, New York (the “Project”). The Project will span approximately 1,410 acres (“Project Area”), though the actual Facility Area will be smaller than the total Project Area. The Project is anticipated to positively impact both the environment and the local economy by reducing carbon dioxide emissions by an estimated 131,000 metric tons each year – the equivalent of taking approximately 28,000 cars off the road – and producing significant tax revenue and other economic benefits for the area. The Facility will include, among other components, solar panels, access roads, substation, inverters, transformers, electrical collection lines, and temporary construction staging and storage areas.

For more information about the Project please visit the Project website at <https://www.aes.com/somerset-solar-project> or contact Somerset Solar at:
Mario Rice, NY / NE Project Developer, AES Clean Energy
Email: somersetsolar@aes.com • Phone: 866-757-7697

Upon filing the Application, AES will provide funding in the amount of \$1,000/MW proposed in the Application to be deposited into a local agency account to be made available to local agencies and potential community intervenors for the purpose of contributing to a complete record leading to an informed permit decision as to the appropriateness of the site and the facility, and for local agencies, shall include the use of funds to determine whether a proposed facility is designed to be sited, constructed and operated in compliance with applicable local laws and regulations. 19 NYCRR 900-5.1

Any local agency or potential community intervenor shall submit a request for initial funding **within thirty (30) days of the date of application filing** and such requests can be made to:

THE LAW AND YOU

BY NATHAN D. PACE
ATTORNEY AT LAW

CONSIDERING ADOPTION? BABY STEPS

Adoption can be an intensive, stressful, lengthy journey; however, if properly prepared, the pathway is much easier to travel. The first step is learning as much as possible about the legal adoption process and of available options. The next is exploring those options to find the ones that ideally fit individual and family needs and goals. An adoptive family can then begin the preparation for the adoption by actively engaging in the adoption process, learning what to expect through the legal process and knowing as much as possible about the adoptee prior to completing the adoption. Consulting a family law professional provides invaluable aid and counsel necessary to navigate the legal system during this emotional yet very rewarding process.

Regulations and laws regarding adoption, including who may adopt and special requirements for adoptive parents, are fairly uniform among states. New York adoption laws require the consent of children 14 and older -- that age will vary by a few years from state to state. But since adoption is such a complicated (and important) process, you should probably contact an attorney for assistance. To learn more about adoption, please call the **Law Office of MACK & PACE**. We emphasize family law, estate planning, and business law.

(585) 798-1000
534 Main St., Suite 6
Medina, NY 14103

Hint: Prior to the development of infant formula in the 1920s, most adoptees were older children.
