## Salome's Stars

**ARIES** (March 21 to April 19) Keep an open mind about a suggestion you see as unworkable. Give it a chance to prove itself one way or another. The results could surprise both supporters and detractors.

**TAURUS** (April 20 to May 20) News about an upcoming venture causes you to make some last-minute adjustments in your plans. But the extra work will pay off, as you come to learn more about the potential benefits opening up.

**GEMINI** (May 21 to June 20) A more positive aspect grows out of your determination to reach your immediate goals. Continue to keep your focus sharp and on target by steering clear of petty quarrels and other pesky problems.

**CANCER** (June 21 to July 22) By acting as a voice of reason, you can avoid adding to an already turbulent situation. You might have to shout over the tumult, but your words ultimately will be heard and heeded.

**LEO** (July 23 to August 22) The possibility of a new acquisition always makes those Leonine eyes light up. But be careful that what you see is what you want. Appearances often can be deceiving.

**VIRGO** (August 23 to September 22) No matter how much you might feel that you're in the right, resist saying anything that could reignite a still-unresolved situation. Let the matter drop, and move on.

**LIBRA** (September 23 to October 22) Help with a personal problem comes from an unexpected source. You also find workplace pressures easing. Use this period of calm to restore your spent energies.

**SCORPIO** (October 23 to November 21) You might have to share the credit for that project you're working on. But there'll be enough credit to go around, and your efforts will be recognized and rewarded.

**SAGITTARIUS** (November 22 to December 21) Details need to be dealt with before you can move on to another area. Make sure you don't leave any loose ends that could later cause everything to unravel.

**CAPRICORN** (December 22 to January 19) News about a change in the workplace carries with it a challenge you could find difficult to resist. Check it out. It could be just what you've been waiting for.

**AQUARIUS** (January 20 to February 18) Allowing your artistic nature full expression will help restore your spirits and will put you in the mood to take on that new career challenge. A Libra creates excitement.

**PISCES** (February 19 to March 20) Expect to happily plunge right into a hectic social whirl starting at week's end. Your aspects favor new friendships as well as the strengthening of old relationships.

### Psychic Hotline

The company where my brother worked had a phone system that rerouted after-hours calls. If any calls came in on a certain line while he was working late, Dave knew it would be a wrong number.

It got to the point where, as soon as the phone rang, Dave would pick up and say, "Psychic Hotline. I'm sorry, but you've dialed the wrong number."

The callers would often reply with something like, "I didn't even ask to speak to anyone yet. How did you know I dialed the wrong ... Oh!" (Click)

**Elaborate Funeral**

Bill died, leaving a will that provided \$30,000 for an elaborate funeral. As the last of the visitors departed the services, his wife, Lynne, turned to her dearest friend, Sue, and said, "Well, I think Bill would be pleased."

"I'm sure you're right," replied Sue, who then lowered her voice and leaned in close. "How much did this really cost?"

"All of it," said Lynne. "All thirty thousand."

"No!" Sue exclaimed. "I mean, it was very nice, but \$30,000?"

Lynne replied, "Yes. The funeral was \$6,500; I donated \$500 to the church, and the wake, food and drinks were another \$500. The rest went for the Memorial Stone."

Sue computed quickly and asked, "\$22,500 for a Memorial Stone? My goodness, how big is it?"

"Two and a half carats."

**Piedmont Pets**  
 March 10, 2022 By Paulette Dean

Spring brings with it the birth/hatching of wild animals. We do not have certification to accept or rehabilitate wild animals, but we can get people in touch with people who can. Although it seems like such a good idea to attempt to raise a wild baby bird, it really is not. Despite your best efforts, most hand-raised birds will not thrive and will probably die. Besides, it is against the law to have custody of a wild bird.

During spring and summer, many young birds are found on the ground. Any fully feathered baby bird found on the ground, seemingly unable to fly, is probably in the fledgling stage. Birds need from several days to four weeks, depending on the species, to learn how to fly and forage for food. One or more parent will feed them during this period. During the time the fledglings are on the ground, it is vital that cats and dogs be kept inside. With so many stray cats around, this is a very dangerous time for the baby birds.

If any fully feathered baby bird is found on the ground, seemingly unable to fly the best thing to do is to leave them alone, and make sure pets, strays, and other wild animals are kept away from them also. The parents will not feed the baby while people are around.

An uninjured bird with little or no feathers found on the ground needs to be returned to the nest. If you can locate the nest, simply put the bird back. The parents

will not be frightened by human scent, because birds do not have a strong sense of smell. If the nest is unreachable or you can't find it, the birds this young probably need intervention.

Private citizens are protected under the Good Samaritan laws and can pick up and transport wild birds to a rehabilitator. Feeding and keeping wild animals is illegal unless you have both state and federal permits.

(The information contained in this column was obtained from The Wildlife Center of Virginia and other wildlife rehabilitators. We remind everyone that, no matter how tempting it is, it is not in the bird's best interest to attempt to raise a baby bird. It is also illegal.)

**HOLLYWOOD**  
*by Tony Rizzo*

HOLLYWOOD — "Star Trek" fans, the time has finally arrived! J.J. Abrams has announced a new "Star Trek" film will begin production by the end of 2022. Chris Pine will again star as Capt. James T. Kirk, Zachary Quinto returns as Spock, Zoe Laldana recreates her Lt. Uhura role and Simon Pegg will once again be beaming them up as Scotty. This cast catapulted the first three films to over a \$1 billion box-office take. At this point, the major studios need all the star power and familiarity they can muster to woo people back to movie theaters. Pine, in addition to the "Wonder Woman" franchise, has four films ready for release. The action film "The Contractor," with Ben Foster and Kiefer Sutherland, is set for April 1, followed by the psychological thriller "Don't Worry Darling," with Olivia Wilde (who also directed), Harry Styles and Florence Pugh, which drops Sept. 23. Next up for Pine is the long-awaited "Dungeons & Dragons," with Michelle Rodriguez, hits March 2023, with Amazon's thriller "All the Old Knives," with Thandiwe Newton, Jonathan Pryce and Laurence Fishburne, also in the works. Trekkies begin rejoicing!

Chris Pine in "Star Trek"

Another fan favorite is getting a sequel. The holiday perennial favorite "A Christmas Story" (which gets more airtime at Christmas than most films ever get) will reunite original cast members Peter Billingsley (Ralphie), Sam Petrella (Randy), Zack Ward (Scut Farkus), Scott Schwartz (Flick) and R.D. Robb (Schwartz). It's been titled, "A Christmas Story, Christmas." Billingsley's Ralphie returns to the house on Cleveland Street to deliver his kids a magical Christmas like the one he had growing up. Since it's from HBO Max, it'll undoubtedly be ready by Christmas. Billingsley's last film appearance was in "Spider-Man: Far From Home," in 2019.

as Jeremy Horton on "Days of Our Lives" in 2007, as Teddy Montgomery in "Beverly Hills, 90210" (2009-2013) and as Austin in "Melissa & Joey," for six episodes from 2013-2014. He has since made 13 films for The Hallmark Channel and has joined forces with Brian Bird to create entertainment-style films in the tradition of the old "ABC Afterschool Specials," which were dramatic and educational.

And Melissa Joan Hart, of "Melissa & Joey," who recently starred in Hallmark's "Mistletoe in Montana," and produced, directed and starred in several others for Hallmark and Lifetime, has signed a two-year agreement with Lifetime to star, direct and produce more films for them. It's no doubt due to the success of "Dear Christmas," "A Very Merry Toy Store" and "Christmas in Tune" (with Reba McEntire), which all scored well with ratings and fans alike. The former "Sabrina, The Teenage Witch" star (1996-2003) must have had some magic up her sleeve for this deal!

## Wendell Scott, NASCAR's First Black Driver's Story Shared As 3D AR NFT Collection In Historical Release on Nifty Gateway

*NFT Collection Honoring the Man Who Broke the NASCAR Color Barrier*

March 3rd, 2022 - A series of historic NFTs created by Wendell Scott Ventures will be introduced and sold to commemorate the iconic and groundbreaking life and legacy of Wendell Scott. On December 1, 1963, Wendell Scott broke NASCAR's color barrier by becoming the first African American NASCAR driver to win a Grand National race, NASCAR's highest level. Until Bubba Wallace's win on October 4, 2021 there had never been another black driver to win a NASCAR race. To this day, Wendell Scott is the only black NASCAR team owner. Despite Wendell Scott's triumphant victory, he was never awarded a trophy for this win. It wasn't until August 28, 2021, nearly 60 years after his Jacksonville win that his trophy was posthumously awarded to his family.

Coming off of a successful in-person NFT auction hosted by Authentik Studios at the NASCAR Hall of Fame, in which the first-ever NFTs of an African American NASCAR driver were sold, the collaboration with Worldwide XR, CMG Worldwide and VueXR continues with a broader release on March 6th with the premiere NFT marketplace Nifty Gateway.

100 years after his birth and 58 years after his NASCAR victory, Wendell Scott continues to break barriers as his legacy is now irrevocably entwined with technology that is shaping the future of how users engage with the world around them. NFTs are a fitting mode to share the story of Wendell Scott as NFTs, like Wendell Scott, disrupted society while simultaneously paving the path for change in a broken system. Akin to NFTs impact on technology, cryptocurrency, and the future of Web 3.0, Scott's impact shook NASCAR's status quo and made the sport more inclusive and accessible. Owners of these NFTs have a chance to be a part of history in the making.

A monumental series of firsts, these historic NFTs were created in partnership by leading digital agency Worldwide XR (WXR), Extended Reality content developers Vue XR, and Wendell Scott Ventures and are the first ever NFTs to be released of an African American NASCAR driver. This will be Nifty's first time releasing a 3D Augmented Reality (AR) digital car on their platform. The first of its kind and an exact 1:1 replica of Wendell Scott's first-ever NASCAR winning 1962 Chevrolet Bel Air. Much like the blockchain allows users to operate on a decentralized system, the Extended Reality (XR) version of Scott's car breaks it away from its physical confines of its display at the NASCAR Hall of Fame and brings it to the masses. This AR asset can also be utilized in Metaverse applications.

Depending on which NFT is purchased, owners will also receive Authentik Studios' SILO™ Digital Frame that brings your NFTs to life by allowing users to display your collections on a 43" HD high-fidelity audio display from the comfort of their home. Users can access their entire NFT gallery via the SILO™ App & enjoy their NFTs in unparalleled 4K resolution.

### About Wendell Scott

Born in rural Virginia in 1921 during the Jim Crow Era, a time when racial segregation was enforced by law, Wendell Scott's life and career was filled with adversity. After serving as a mechanic in a segregated division in WWII, he was denied access to NASCAR due to the color of his skin. From his first job as a taxi driver, Scott sharpened his driving skills bootlegging moonshine during the Prohibition era.

Scott used trials and tribulations to propel him forward. Scott became the first African American team owner and spent nine years in the "Dixie Circuit", a smaller regional competitor to NASCAR, until he was finally able to persuade NASCAR to grant him a license to race in 1953 - officially breaking the sport's color barrier.

Scott won the Jacksonville 200 race in 1963, only to see the win given to a white driver on a "clerical error" (later reversed). After competing in 496 NASCAR races, with 147 Top 10 finishes, a horrific near-death crash in 1973 ended his career. Scott died of cancer in 1990 and was officially inducted into the NASCAR Hall of Fame in 2015, becoming the first African American in NASCAR history to do so.

Wendell Scott's career was repeatedly challenged by racial prejudice and threats on his life. However, his determined struggle as an underdog would prove to win the hearts of thousands of fans and fellow racers. Scott was, and still is, a pop culture icon who was the subject of the film "Greased Lightning" starring Richard Pryor and was the inspiration for the character of River Scott in Disney's animated film "Cars 3."

Wendell Scott was inducted into The Virginia Sports Hall of Fame and the National Black Athletic Hall of Fame, is an honorary member of the Black American Racers Association, and is a lifetime member of the Screen Actors Guild (SAG).

The Wendell Scott Foundation provides educational programs designed for students aged 8 through 18 using STEM-related resources and programs, as well as learning and mentoring opportunities to communities across the country. \* Lettuce will last longer if you store it in the crispier drawer in a clean paper bag.

\* "Try using an empty glass wine bottle (remove the label) for rolling out pie crust or any dough. It is the best thing I've ever used ... nothing sticks to the glass, unlike my wooden rolling pin, which is now in the back of my cabinet for good after using it for decades!" -- L.F. in Texas

\* Peas, spinach, sweet potato, squash and carrots can be pureed and added to baked goods to increase fiber and nutrients. They are especially useful in soups to thicken a broth without adding fat. You can sneak some veggies into unexpected places, too -- like cookies, pancake batter and pasta dishes, or make a flavorful sandwich spread.

\* "When you get a new pair of running shoes, treat the insides with spray starch. We have always done this, and it keeps them fresher longer." -- S.M. in Indiana

\* Tubes make it easy to access toothpaste when they are full, but it's sometimes hard to get that last bit out. Here's a tip from C.W. in Oregon: "To get the last bit of a tube of toothpaste to come out, run the tube under warm water for a few seconds. There's more still in there than you think!"

\* It's easy to sort hardware using a muffin pan. If you get a pan that has 12 depressions, you can line up nails and screws and such according to size, making it even more convenient.

**Strange BUT TRUE**

By Lucie Winborne

\* The shamrock, called the "seamroy" by the Celts, was considered a sacred plant that symbolized the arrival of spring. According to legend, St. Patrick used it as a visual guide when explaining the Holy Trinity. By the 17th century, it had become a symbol of emerging Irish nationalism.

\* There's a doughnut shop in Clare, Michigan, that's owned entirely by cops.

\* A long-haired tortoiseshell cat named Towser holds the Guinness World Record for catching mice -- an estimated 28,899 in 24 years -- as the pest control expert at the Glenturret whiskey distillery in Scotland.

\* Between 1912 and 1948, Olympic medals were given out for sporting-inspired masterpieces of architecture, music, painting, sculpture and literature.

\* Subaru WRX owners are the most likely in the U.S. to have a prior speeding citation.

\* The average energy expended during the ladies Wimbledon tennis final match adds up to 1.56kWh, which is enough power to keep an iPhone charged for a year.

\* Hackers were prevented from stealing nearly \$1 billion after misspelling the word "foundation" as "fandation" on a payment transfer. However, they were still able to swipe roughly \$80 million before their typo tipped off the banks.

\* Nineteen-year-old Shayla Wiggins, of Wyoming, found a man's corpse in a river while she was playing Pokemon Go.

\* In 2014, South Korea produced an alternative version of their national anthem "Aegukga," which was two keys lower in order to make it easier for kids in school, especially boys going through puberty, to sing.

\* When actor Dwayne Johnson was in high school, his height of 6-foot-4 and weight of 225 pounds had some of his classmates suspecting he was an undercover cop.

### Lemon Blueberry Pound Cake

#### INGREDIENTS

- FOR THE CAKE**
- 1/2 cup milk
  - 1 tablespoon grated lemon zest, packed (see note)
  - 2 tablespoons fresh lemon juice
  - 2 cups + 1 teaspoon all-purpose flour, spooned into measuring cup and leveled-off with a knife
  - 1/4 teaspoon baking soda
  - 1/4 teaspoon salt
  - 1 cup blueberries (if using frozen blueberries, do not defrost)
  - 1 stick (1/2 cup) unsalted butter, softened
  - 1-1/4 cups granulated sugar
  - 2 large eggs

#### FOR THE GLAZE

- 3/4 cup confectioners' sugar
- 1/4 teaspoon lemon zest, packed
- 1-1/2 tablespoons fresh lemon juice

#### INSTRUCTIONS

Preheat the oven to 350°F and set an oven rack in the middle position. Spray a 9x5-inch metal loaf pan with nonstick cooking spray. Line the bottom of the pan with parchment paper, then spray the pan again.

In a small bowl, whisk together the milk, lemon zest, and lemon juice. Let sit for at least 10 minutes while you proceed with the recipe. (It will curdle; that's okay.)

In a medium bowl, whisk together the 2 cups flour, baking soda, and salt. In a small bowl, toss the blueberries with the remaining teaspoon of flour. Set both aside.

In the bowl of an electric mixer fitted with the paddle attachment (or beaters), cream the butter and sugar on medium speed until light and fluffy, 2 to 3 minutes. Scrape down the sides of the bowl, then beat in the eggs one at a time, beating well after each addition. Scrape down the sides of the bowl again. With the mixer on low speed, beat in a third of the flour mixture, then half of the milk mixture. Beat in another third of the flour mixture, then the remaining milk mixture, followed by the remaining flour mixture, scraping the bowl as necessary. Add the flour-dusted blueberries to the batter and, using a spatula, fold until evenly combined.

Transfer the batter into the prepared pan and smooth the top.

Bake for 50 to 60 minutes, until the cake is golden brown and a tester comes out clean. Let the cake cool in the pan for about 10 minutes, then turn out onto a rack to cool completely.

When the cake is cool, transfer it to a serving platter.

Make the glaze: In a small bowl, mix together the confectioners' sugar, lemon zest, and lemon juice. Add more confectioners' sugar or lemon juice as necessary to make a thick but pourable glaze (it should be a little thicker than you'd think, about the consistency of molasses or honey). Spoon the glaze over the top of the cake, letting it drip down the sides. Let the glaze set for 10 to 15 minutes before serving. Slice with a serrated knife. The cake will keep on the countertop for up to 3 days; store in a covered container or wrap in plastic wrap.

1. What was Brook Benton's final No. 1 chart-topper?
2. Name the Irish artist who wrote and released "Alone Again (Naturally)" and "Clair."

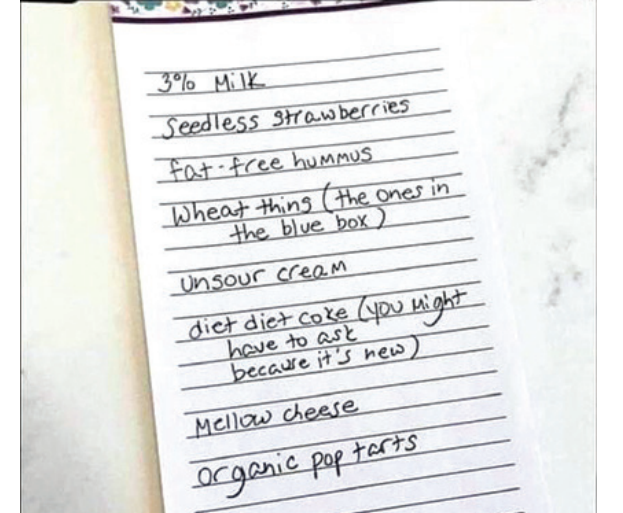

3. Who was "Stewball" in the song by Peter, Paul and Mary?
4. Who wrote and released "Green Onions"?
5. Name the song that contains this lyric: "They're cousins, Identical cousins all the way, One pair of matching bookends, Different as night and day."

#### Answers

1. "Rainy Night in Georgia," 1970 on the R&B chart. The song first appeared on Benton's "Today" album.
2. Gilbert O'Sullivan, in 1971 and 1972. In the 1990s, he was involved in a lawsuit against a rapper who had sampled one of O'Sullivan's songs without permission. He won, and it increased copyright protections for songwriters everywhere.
3. Stewball was a famous racehorse in 18th-century Britain and was originally called "Squball" or "Sku-ball", as well as Stewball. "Skewball" likely comes from "Skewbald," a tri-color coat pattern in horses.
4. Booker T. & the MG's, in 1962.
5. "Cousins," the theme song for "The Patty Duke Show" (1963-1966). Actress Patty Duke played dual parts in the show: American and Scottish cousins. In 2009 Duke created public service announcements for the Social Security Administration, again playing two roles.
