STYLE TIPS
From Terri

 Terri Baird
My Chic Boutique

The greatest sacrifice...
What would you sacrifice for those you loved the most? Would you give your life for them so that they might live? That's what Jesus did for us. He gave his life on the cross, so that we would have the choice of eternal life. Although they are fun, Easter is not about the candy, the bunnies or the egg hunt. It's about the greatest gift anyone could give you; it's all about the sacrifice. Be sure to share the true meaning of Easter with your family and let them know about the greatest love of all, Jesus.

Happy Easter from My Chic Boutique! Come see my consignment store!

Colorectal cancer is one of the few cancers that can often be prevented entirely if caught early with proper screening.

THE IMPORTANCE OF COLORECTAL CANCER SCREENING

If you are age 50 or have a history of colon cancer in your family, this information is for YOU...

- According to the American Cancer Society, excluding skin cancers, colorectal cancer is the third most common cancer diagnosed in both men and women in the United States.
- When colorectal cancer is found through a screening, and not because someone already has developed symptoms, it is less likely to be widespread, and is more likely to have a better prognosis.

“GOLDEN HOUR”

KEOSAUQUA FIRE DEPARTMENT
SATURDAY, MARCH 26TH AT 10:00 AM

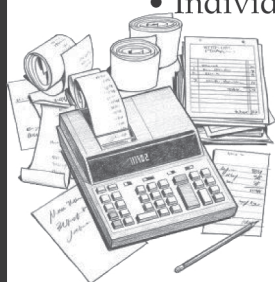

Presented by and developed by Dick “Slider” A. Gilmore.

Slider has been riding since the mid 60's and has been involved with Basic Life Support Classes and training since the 70's. Because of the lack of knowledge shown when he had his motorcycle accident, he recognized the need for emergency personnel to be trained specifically on motorcycle accidents. He also realized the need for motorcyclists to be better informed on how to assist at the scene of an accident.

The Accident Scene Management (ASC) class teaches motorcycle riders what to do in case of an accident, stressing the importance of the “Golden Hour”...the first hour after an accident which usually determines if the victim lives or dies. Slider's presentations started in 1986, educating thousands of riders in almost every state. He has been a Critical Incident Stress Management Team member for NW Iowa, covering 17 counties, since 1993, counseling first responders and ambulance personnel to better understand and deal with their own emotional trauma after responding to an EMS call that was especially disturbing. He has worked tirelessly to prevent motorcycle accidents and promote first aid education, blending the worlds of motorcycling with emergency medical services, breaking down stereotypical barriers through education.

PowerShot!™

PowerShot!™ is a drift reduction and deposition adjuvant with exceptional canopy penetrating capabilities. PowerShot can be used by both ground and aerial applicators, and can be used with herbicides, insecticides, fungicides and desiccants.

PowerShot! is the latest in new technologies that have been introduced into the MFA adjuvant portfolio. Like MFA's Astute Xtra™, PowerShot! uses "Quantum Technology™" to provide growers with optimum performance.

PowerShot!™

Quantum Technology
Suppresses drift
Maximizes pesticide performance
Improved deposition and coverage
Retention/Penetration
Direct injection systems
Pulse modulation systems
Air assist and turbo nozzles
