Here's How It Works:

the puzzle!

Numbers Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have vou hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve
