SOLUTION

Guess Who?

I am an actress born in California on April 6, 1976. I followed in the footsteps of my older brother and started acting as a child. I was on a popular show about a family in San Francisco being cared for by a dad, an uncle and a best friend.

Answer: Candace Cameron Bure

Battleships

Each Battleship puzzle represents an ocean with a hidden fleet of ships, which may be oriented horizontally or vertically within the grid such that no ship touches another, not even diagonally. The numbers on the right and on the bottom of the grid show how many squares in the corresponding row and column are occupied by ship segments. Occasionally some squares may contain given ship or water segments to help start the puzzle. The object is to discover where all ships are located.

Guess Who?

I am a rapper born in Texas on April 22, 1990. Before fame I lived abroad with my parents doing missionary work. I am known for my spitfire lyrics, and my music dates back to the early 2000s. I've also been in a few films in recent years.

Answer: Machine Gun Kelly

Battleships

Each Battleship puzzle represents an ocean with a hidden fleet of ships, which may be oriented horizontally or vertically within the grid such that no ship touches another, not even diagonally. The numbers on the right and on the bottom of the grid show how many squares in the corresponding row and column are occupied by ship segments. Occasionally some squares may contain given ship or water segments to help start the puzzle. The object is to discover where all ships are located.

Hashi

Each puzzle is based on a rectangular arrangement of islands where the number in each island tells how many bridges are connected to it. The object is to connect all islands according to the number of bridges so there are no more than two bridges in the same direction. Bridges can only be vertical or horizontal and are not allowed to cross islands or other bridges. When completed, all bridges are interconnected, enabling passage from any island to another.
