Class Memoirs

Class Flower - Red Rose **Class Color** - Purple

Class Song - "22" Taylor Swift

Class Motto - "Sometimes you will never know the value of a moment until it becomes a memory" - Dr. Seuss

I would like to congratulate the class of 2022 on their high school graduation. This current senior class is like no other and I commend each one of you for your grit, resiliency, and dedication. What is typically a normal 4-year high school experience for these students was first interrupted for them as a blip in March 2020 and eventually turned into a global pandemic, derailing a normal high school experience for you.

Not only did this experience challenge you and all of us physically, mentally, spiritually, and social-emotionally, but this experience now offers you, the opportunity to be better individuals due to the challenges you have been presented with and that you have faced head-on with the support of your parents, family members, friends, teachers, coaches and those around you.

My challenge for the Class of 2022, is to strive to not simply return to normal but to become a better normal and allow the good things to fall out of your lives so you can make space for the great things in life.

I leave you with this, seniors, you are more powerful than you ever imagined, and now is your time to choose courage, to choose each other, and to create your legacy.

Stay strong. Be good citizens, and always know that you have a home at Anchor Bay High School.

Congratulations,
Jeffrey LaPerriere, Principal
Anchor Bay High School

Class President's Letter:

It has been an honor to learn and grow with all of you these past 4 years, and I'm proud to call such incredible people my classmates. In this time, I've noticed how many of us feel the pressure of doing things perfect the first time through, feeling like every little thing could make or break our future. It's safe to say, that facing these next few years is one of the most stressful things we've ever had to do.

For some of you, your future is a clear path that you can't wait to experience, while others are staring down many paths, unable to see which has the best outcome, afraid of choosing the wrong one or going so far down another that it is too late to turn back and try again. If I've learned anything in high school, it's that, it is okay to make mistakes and take some risks.

This is the time for us to step out of our comfort zone, take chances, and try new things. We shouldn't be afraid of the future but embrace the changes as we continue to discover who we are. Our high school experience has been anything but ordinary, because of this, I've had the privilege of watching all of you become strong, creative, and resilient people, and I'm so excited to see what your next chapters hold.

Although we are heading down separate paths, I hope every one of you will keep a special place in your heart for the friendships and memories of high school. While where you're going in life is important, there is value in remembering where you came from and the people who helped you become who you are today.

Here's to the class of 2022, embrace your future, continue to grow, but don't forget to stop and appreciate how far your hard work has brought you. Congratulations Seniors and thank you for so many great memories.

Congratulations **ANCHOR BAY** Class of 2022

Superintendent's Letter to Our Graduates

Dear Class of 2022,

You have reached the end of your K-12 educational journey and now will set out into the world where your decisions and future rest entirely in your hands. As you go forth, I want to leave you with one bit of advice – do not fear failure.

I do not mean the type of failure where you live in a van down by the river, but rather to set your sights high and reach for something that might be just beyond your grasp and take a chance to achieve something great. For if you do, you are bound to face some failure. Life is not a spectator sport. According to the book *Stumbling on Happiness*, the single greatest motivator for most people is the avoidance of pain or loss. Likewise, the greatest fear many people have is that of rejection. However, that rejection is a necessary step to greater success. Like a vaccine inoculates against a disease, a little taste of failure will pave the way for greater success. After all, as the saying goes, FAIL stands for First Attempt In Learning.

I challenge each of you to take calculated risks, knowing the chances might be less than 50/50, and risk failure. Then I want you to push ahead and succeed. According to a study of about 15,000 senior citizens, they were asked what was their biggest regret in life. Approximately 95% of the time, their regrets came from chances they did not take, rather than mistakes they made. They wished they had asked that girl or boy out, tried for that promotion, took that chance to better their life. For them, it was the missed opportunities in life that stood out as they looked back on their life. You, the class of 2022, have the one gift all of them wished they had, youth. You have the opportunity to not fear failure and to shape your future. You can learn to embrace the learning that comes with possible failure, such as empathy and perseverance. You can learn to fail quickly and move on. Most of all you can learn that failure is part of the journey and that giving up hope is tragic. So, push through and conquer your fears and learn if you avoid failure, you often avoid the success that lies on the other side.

Congratulations Anchor Bay Class of 2022!
