## Graphic Communications Student Wins Cover Contest

Every year the Orleans/Niagara BOCES Business Office puts out a service guide to their component districts to describe the classes and services they offer. Senior Account Clerk, Diane Stamp, likes to offer the Graphic Communications class a chance to design the cover. "It gives us a chance to highlight the work of the students and gives them another piece to put in their portfolio," explains Mrs. Stamp. Teacher Karen Krull collects the submissions and hands them over to

Mrs. Stamp for consideration. This year she asked her co-workers to decide the winning cover and Barker student Camellia Higgins took the honors. "She was very excited that she won," says Ms. Krull. "She could not wait to go home and share her news with her family." Congratulations also go to her classmate Sophia Alexander, also a Barker student, who took first runner-up. Well done!

## OCTEC Welding Student Takes Home AWS Scholarship

Sawyer Braley, a senior from Albion High School, has received the AWS (American Welding Society) Niagara Frontier Scholarship for the amount of \$3,000. Sawyer is a student at the Orleans/Niagara BOCES' Orleans Career and Technical Education Center (OCTEC) and is taught by Ron Jackson and Adam Zerby. He will be using his scholarship to continue his education at the Kentucky Welding Institute in Flemingsburg, Kentucky.

"It's so exciting to get this scholarship. I plan on becoming a certified pipe welder and this money is really going to help me out with my tuition," says Sawyer. "I have just loved being in the Welding program here at BOCES. It has been great getting a hands-on education and I can't thank Mr. Jackson and Mr. Zerby enough for helping me out and teaching me what I know." His teachers could not be prouder of Sawyer. "He is a phenomenal kid," says Mr. Jackson.

"He is a hard worker, very likeable and makes us look good." Mr. Zerby says it makes him feel good to see Sawyer follow in his own career path of pipe welding. "He is self-motivated and very career oriented. He is a very impressive person and I am sure in five years' time, he will be running his own company."

Joseph Schmidt, an Associate Professor and Coordinator of Welding at Niagara County Community College (NCCC) and Steven Frey, a Welding Educator/Inspector at NCCC, were on the committee to determine the winner of the scholarship. "We were very impressed with Sawyer's commitment to welding, his great grades, his outside commitments to the Boy Scouts and giving back to his community," says Mr. Schmidt. "Not to mention he won our Weld-Off and took third place at the New York State SkillsUSA competition. He is just an outstanding student."

# Wedding Guide

## Your wedding timeline guide

**W**edding planning involves many movable pieces that ultimately need to come together on the big day. Planning is typically a months-long process, and adhering to certain monthly benchmarks can help couples stay the course.

*Brides* magazine offers that **the perfect engagement period is 12 to 14 months**, which affords ample time to get organized and work with vendors. With that in mind, here's a 12-month timeline for couples getting ready to say "I do."

**>> 12 months out**  
At the start of the planning process, establish your budget, hire a wedding planner (optional), choose the wedding party, pick a date, and start to assemble a cursory guest list. This also is a great time to begin touring venues to get a feel for potential ceremony and reception locales.

**>> 11 months out**  
Now is the time to get a firm handle on the theme and scope of the wedding. Start picking wedding colors and overall design. Also, interview and hire vendors, such as photographers, bands and videographers. These vendors tend to book up quickly as wedding season draws near, so it's never too early to book them.

**>> 10 months out**  
This is a good time to start shopping for a wedding gown because it might take some trial and error to find the perfect dress. You also can start shopping for wedding party attire at this time. Check with formalwear vendors to see how long it will take for the gowns to arrive in the shop for alterations. If you haven't already done so, be sure to book the wedding venue.

**>> 8 months out**  
Reception halls may have their own schedules, but you should think about setting your menu at this time, including deciding if you will host a seated dinner, a buffet or something else.

Eight months out also is a good time to finalize the guest list and send save-the-date cards.

This also is a good time to visit stores to create registry gift lists.

**>> 6 months out**  
Meet with potential florists and other vendors, like transportation companies and hotels, to secure these arrangements. Your place of worship also may require certain classes or preparatory meetings, so be sure to inquire about these.

Meet with a makeup and hair stylist and book a trial. Choose attire for groomsmen and give them a deadline for fittings and orders. If you will not be getting married in a place of worship, hire an officiant at this time.

**>> 4 months out**  
Grooms traditionally arrange the honeymoon, so this is a fine time to get those travel plans in order. If you need passports, you should secure them as early as possible, and no later than four months prior to the wedding to ensure processing times. Book cake tastings and order the cake if it is not part of the venue food and beverage package. If you haven't already done so, the bride should have an initial gown fitting, and wedding invitations should be ordered at this time.

**>> 2 months out**  
Secure your wedding license and buy wedding party gifts. Address and mail the wedding invitations. Undergo a second gown fitting and work with the seamstress for the final fitting date just before the wedding. Finalize any song selections with the DJ or band.

The final details will occur in the last weeks before the wedding. Buy all the small accessories and items, undergo final fittings and check in with all vendors for final payments and to ensure they are on schedule. Notify the reception hall of the final guest count.

Once the wedding day arrives, couples who have done their best to stay on schedule can relax and have a great time with family and friends.

# Travel Thoughts By Kim

Let's go on an adventure together...to the skies above Albion!

When I first met Ron in the early 1980s (other than vaguely knowing him in high school), he took me for a ride in his Cessna 150 to view the sunset over Lake Ontario at Point Breeze. It was our first date and my first time in a small plane. The view was spectacular and the ride was nice, but when it was over I got out and kissed the ground and swore I'd never get in it again. I broke that promise to myself a few times over the years. Ron is an excellent pilot and I always felt safe, but still felt a bit uneasy, and frankly queasy, about being in a small plane.

A shot of Courthouse Square in downtown Albion with all seven historic churches that surround the square.

Fast forward to recent years: Ron lives in North Carolina and flies up from time to time to visit friends and family in the area in his current plane - a Eurofox / Aerotrek light sport aircraft. I'm not sure if I'm getting braver in my older years or whether I was just craving an adventure during the Covid restrictions, but on one of his trips up in 2020 I asked him for a ride so I could get a few photos. And, now I make sure we find time to go up every time he's here with his plane. I really enjoy being up in the air and looking over our beautiful county. And, of course, I take photos.

Getting good photos from an airplane isn't as easy as it sounds. Things look very different from up there and at 500 or so feet up and roughly 100 mph, there isn't really time to "frame" the shot, focus, and get the right perspective - hahaha. That first flight, I took my Nikon and big zoom lens with me to get photos. Turns out, it is really hard to see what I want to photograph through the lens and I kept either missing the target totally or it was super fuzzy. So after that, I decided to just use my iPhone and see how that worked. And - WOW - I started getting really good photos. I still had some missed targets or slight blurriness, but overall the photos turned out great.

I was so excited when I got home after that first flight in May 2020 and downloaded the photos I took. I had just randomly snapped photos of downtown and I discovered I actually captured the entire Historic Courthouse Square - including ALL

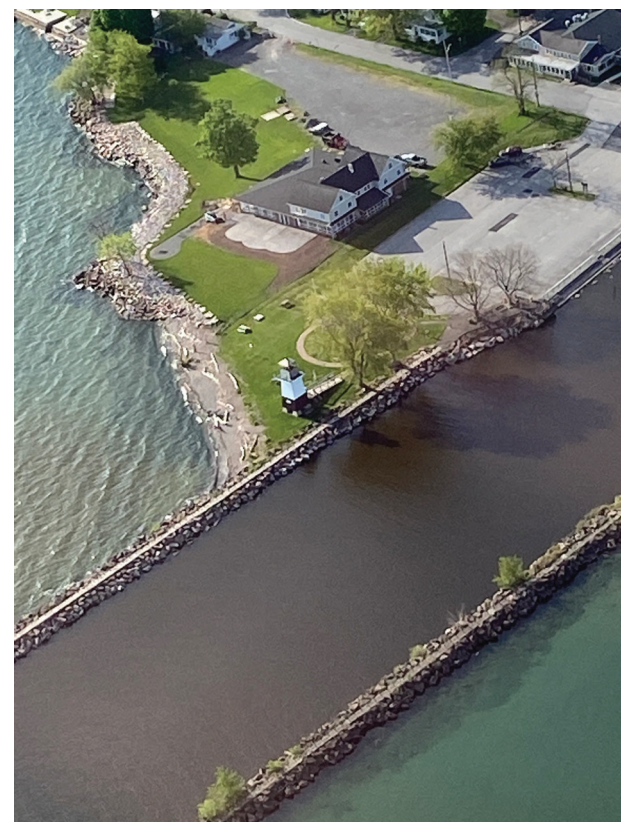

I love taking photos of farmland from the air - farm fields are beautiful works of art.

SEVEN historic churches that surround the square in one clear shot! I've included the photo in this article. As you look at the photo, you'll see the Orleans County Courthouse is just right of center. Then, looking clockwise starting with the tall steeple just left of center is the First Presbyterian Church, continuing to the right is the former Presbyterian Manse and then you'll see the former United

Methodist Church (now North Point Chapel), across from that is a white building - the Free Methodist Church, far right center across the parking lot behind the courthouse is the Pullman Universalist Church, bottom center is the Holy Family / St. Joe's Catholic Church and the First Baptist Church to its left, and finally, Christ Episcopal Church is the square bell tower directly across from the courthouse. What an awesome capture....I'll admit I did a little happy dance when I saw it!

I love seeing all our amazing farmland from the air. The patterns in the plowed soil and crops are beautiful works of

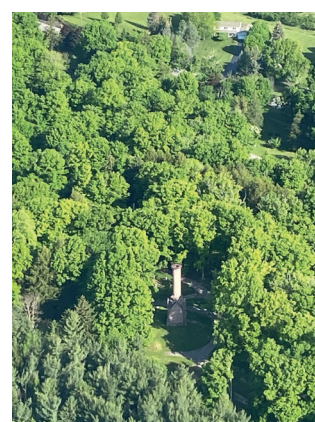

art. I also love all the waterways we have in our county - the lakes, the rivers, the waterfalls....stunning! And, as Ron says, no flight around are area is complete without a fly-over the Oak Orchard River and Lake Ontario at Point Breeze. It is also really fun to try to locate specific points of interest and the homes of

Oak Orchard Lighthouse at Point Breeze on Lake Ontario.

friends and family - not always easy because, like I said, things look really different up there.

In the last couple of years, I've been flying with Ron four times. We have been all around Albion, Point Breeze, along the shoreline to Kendall, over Medina, and more. Last year, we even flew to Letchworth State Park. I was sure that was going to be amazing from the air. But, sadly due to the tree cover, it is so much more impressive from the ground. But, I still got some really nice photos of the gorge and the dam and we're really glad we flew over it. We talked about maybe flying over Niagara Falls next time if the weather and timing cooperates.

The only thing visible in Mt Albion Cemetery from the air are trees and the Soldiers & Sailors Monument Tower.

I love our town and the surrounding area. There is so much beauty and history here - you just need to pay attention and look around. But, man....it's a whole new level of amazing from a small plane and a cell phone camera!

I have lots of photos that I have shared on my blog in various posts from each flight. I hope you'll check out all of the links below and see what I see when I'm in the skies above Albion.
